ANNUAL ADDRESS OF MAYOR JOHN B. HYNES TO THE HONORABLE THE CITY COUNCIL JANUARY 6, 1958.

A new municipal year for the City of Boston begins today. We realize that in the year ahead we must meet with many challenges, and grapple with many problems. We cannot be certain that we shall conquer each challenge, nor can we foretell the measure of success we shall achieve in the solution of each of the problems which face us.

We can, however, and we do, covenant with all those who reside or do business in our city that we shall not lack determination, nor rest content until we have done all within our power, all within our capacities, to improve our city government, its structure, its operations, and its services.

During the course of this municipal year, and for an unpredictable period beyond this year, the City of Boston will be fighting on two main fronts. On one front, we shall be called upon to muster our forces and our potentialities to protect and strengthen the financial foundations upon which our municipality rests. On the other front, we shall be expected to marshal our energies, and our resourcefulness, to rejuvenate and rebuild our city so that it may be a desirable and fitting community for residential living and business activity.

Somewhat contrary to precedent, I shall confine myself today to a discussion of only two matters, the

financial outlook of the municipality and the physical aspect of our city as it appears today, and as it can be projected into the future.

However historically informative and interesting it might be to recount what has, or has not, transpired during the twelve months behind us, it is better for us to think of the present, and to set our sights on the future. The past is beyond us. The future is ours to shape as best we can.

With respect to the financial position of our municipality, it grieves me to report that Boston holds a very high place among the major cities of our country, insofar as its tax rate is concerned. None of us is happy that this situation exists. All of us ardently hope it will not continue to exist.

At first blush, it might be assumed that Boston's high tax rate is the logical result of loose or extravagant practices on the part of those who direct or manage the affairs of the city government. Decidedly and emphatically, this is not so.

A most cursory comparison between Boston and other major cities will disclose three clearly apparent and understandable reasons why the Boston tax rate is higher than that of most of our large cities.

First, other major cities in our country have available a source, or sources, of income which Boston does not have.

Second, Boston is required to shoulder, either by law or by custom, obligations which are a financial drain, and which form no part of the expense of most cities in Boston's size range.

Third, few, if any, of the larger cities of our country have the amount of tax-exempt properties as has Boston, although we freely acknowledge that these properties are a prideful and distinct asset to our city.

For these chief reasons, and for the almost equally important reason that Boston provides a quality, quantity, and variety of services beyond those furnished by many other cities, we are required to call

upon our property owners to pay a high premium on their holdings.

It is a temptation not easily and not always resisted to conclude that Boston's tax rate is at its high level because of less efficient or less economical management than that of other large cities. This is a presumption which does not square with the facts. The reasons I have just cited, tersely stated though they may be, are the controlling, dominant factors which prevent our city from appearing in a better light insofar as comparative tax rates are concerned.

Furthermore, let it be noted that our municipality would compare favorably with any city in our country if its income base were widened, and if it were relieved of some of the unusual obligations and burdens which now weigh so heavily upon it.

As a matter of fact, the Boston tax rate would be a relatively modest one if our income included a share in a sales tax, or if our annual receipts were bolstered through a payroll tax, or if we had recourse to the varied taxes which now form a part of the income base of most large cities.

So, too, would our tax rate be lower if Boston's share of the state income and corporation tax were increasing rather than decreasing; if the formidable deficit of the MTA were nonexistent, or at least, if it were more equitably apportioned; if the formulae for MDC charges assessed on Boston were revised; if County of Suffolk costs now wholly borne by Boston were readjusted; and if hospital, library, and other community-type services now completely financed by the City of Boston were charges shared by the Greater Boston community.

Aggravating our current financial perplexities is the continuing shrinkage in the main source of the city's income. During the past three years, the total valuation of real and personal properties has dropped some seventy-five million dollars, and the end is not yet in sight. On the contrary, we are being constantly

importuned to further reduce values on scores of downtown properties. In those instances where sales of such properties are below the assessed value, and in instances where properties show a marked reduction in income, or where the tax levy consumes a disproportionate share of income, appeals for reduction in assessment are not without justification and cannot be disregarded.

When we consider that over two thirds of the annual obligations and expenditures of the city, under our present narrow income base, must come from assessments on real and personal property; and when we give thought to the economic changes which are affecting the value of downtown properties in Boston and in other large cities; and when we realize that there is no substitute source of income to offset our losses from the steadily diminishing level of total valuations, we begin to appreciate the gravity of our income problem, and the challenging task we face to keep our tax rate from leaping skyward.

The gravity of this problem is intensified as inflation drives government costs upward, and while, at the same time, total income receipts slide downward.

To narrow the gap between receipts and requirements, the need is dictated for strict adherence to a policy of economy in all areas of municipal expenditure, including the area of personnel requirements.

For those of us who cannot be indifferent to the retarding effects of a much higher tax rate, and who foresee no immediate support to our income base, it may be necessary to give sober consideration to further economies of an extraordinary, or even drastic, nature.

As Boston struggles against uneven odds, there is a tendency, in some quarters, deplorable though it may be, to look upon our city with a supercritical if not cynical toleration, almost as though Boston were an unloved, unwanted stepchild in the family of cities and towns which comprise the Commonwealth of Massachusetts, and not the market place wherein much of the wealth of our community was created and accumulated.

Boston, let it be vehemently asserted, is a vital segment in our state complex. It is, like every other city and town, a creature and component part of the state. Indeed, it is neither idle nor boastful to declare that Boston, as the nerve and business center of our Commonwealth, is the most important organ in the physical well-being of our state. It is, therefore, with the good of the entire Commonwealth at heart that I submit that Boston's problems and difficulties are of state-wide concern and should be viewed from that perspective.

The great economic changes which have taken place in recent years have resulted in the opening up of suburbia to previously undreamed-of expansion and development. These changes have given birth to big city problems which no official of this, or any other, city could foresee, or forestall.

As a result of the economic forces at work, the Greater Boston metropolitan area, in its new habilitments, is a healthy, dynamic area, growing and expanding by leaps and bounds. Within a few miles of this old structure on School street in Boston are ultra-modern, well-stocked, well-equipped, imposing shopping centers with ample, if not vast, parking spaces. Not only do these new trading centers meet the needs of those who prefer suburban living; they have also influenced the shopping habits of many of those who formerly did all but their most inconsequential purchasing in the downtown area of Boston. The evidence of this is painfully brought home to us here in Boston when a long-established business enterprise closes its doors.

These new shopping centers and the new industrial and residential centers have had a noticeable, but we hope only temporary, effect upon the values of properties within the City of Boston.

There is no point in deerying the changes which have taken place over recent years in all metropolitan areas, and which are still taking place as population

increases and as the march of progress continues. The horizons of the average American have broadened and lengthened. He no longer has a slavish devotion to old ways, old habits, old associations. The boundary lines which meant so much in the days of the horse and carriage mean little today in this age of the fast and flexible motor vehicle.

As much and as truly we applaud the progress which has taken place all around us, nevertheless it is difficult for us here in Boston to view this progress without some pangs of envy. It does seem slightly incongruous that Boston be left fighting a lone battle for the breath of life, while within the Boston orbit there is an abundance of invigorating air, enough to keep our whole area in vibrant economic health.

To be sure, Boston would have some measure of consolation were a sales tax or some equivalent new source of income available to it. We would not then be waging an uphill battle against the explosive forces of expansion. But I would be less than candid if I did not here and now state that desirable and necessary as a sales tax or some alternative new sources of income might be, the long-time, eventual, and I believe sensible solution to Boston's problems, and the long-range, sensible utilization of the community potential, is the creation of a metropolitan-type government.

By this means, the whole community can grow as one, expand as one, prosper as one. By this means, the core city could share in, as well as contribute to, the fruits of community effort and community growth. By this means, we could more adequately meet the stiff and stubborn competitions of other metropolitan areas. By this means, the cost of all local government could be kept in check through the centralized operation of basic municipal services. By this means, a logical plan for the future needs of the metropolitan area could be made effective.

A federation of cities and towns within the Boston metropolitan area is the agency through which we can

best pool our community resources and through which we can best meet the challenges of our times.

In other parts of our land steps are already being taken, or intelligent thought is being given, to the integration and preservation of the strengths of the whole community by the creation of a federated local government body which does not rob any city or town of its identity; does not seek to change the character of any city or town; does not attempt to dictate or regulate in purely local matters; and does not leave any of the smaller cities and towns in the federation at any political disadvantage.

Unless our metropolitan community is willing to concede that old milestones and old boundary lines have far less meaning than they had a generation or more ago, and unless it is willing to give this proposal, and it is not a new one, mature, thoughtful, and unemotional consideration, we will fail to capitalize to the fullest our community assets, resources, and potentials.

A generation ago, there was acknowledged need for the roads we are building today. Let us not wait another generation before undertaking the building of interconnecting governmental life lines.

The mutual aid pacts between the Fire and Police Departments of contiguous cities and towns have demonstrated the feasibility and good sense of interchangeable community effort. Why should this kind of community cooperation be confined to a few departments? If our community were operating as a regional unit, rather than a group of self-centered municipalities, such a unit of government would be potent force to be reckoned with in the markets of our country and in the markets of the world. In unity there is strength.

When the time arrives that there is general community support for the creation of a metropolitan-type government, I will devote my best efforts for the passage of appropriate legislation, for it is my conviction

tion that not only will such legislation be of benefit to Boston, it will benefit the whole Boston community, it will benefit the entire Commonwealth of Massachusetts.

In making this proposal for a federated local government, I hope it will not be inferred that I believe Boston's future is bleak or hopeless. It is not. Boston has pulled up its anchor. It has unfurled its sails and it is threading its way through the narrows to the open sea.

When, and if, a federated local government comes into being, Boston will not be a poor relation in this new family of local governments. To such a federation, Boston, the old and the new Boston in the making, will give strength and substance. Within the past two or three years, more progress has been made toward Boston's physical rejuvenation than in the previous twenty-five years, and there is more progress on the way.

Before this year has run its course, construction will have started on the 32-acre site of the great Prudential Center with its 50-story structure as the towering centerpiece, a new 1,000-room hotel, new apartment buildings, new shopping centers, and a municipally-constructed auditorium-convention hall as part of this gigantic new center.

By this time next year, all of the acreage of the New York Streets renewal project should be under contract for reuse and development.

By this time next year, the West End renewal site should be in the process of clearance and new apartment buildings ready for construction.

By this time next year, the John F. Fitzgerald Artery, piercing the heart of the city, should be completed and in use.

These are but a few of the major developments which will have a far-reaching effect upon the economy of our city. It cannot be said, and it is not claimed, that in and of themselves Boston will experience a ren-

aissance, but, taken together with the modern new structures either built or to be built, such as the I. B. M. Building, the George Robert White Building, the Travelers Insurance Building, the Liberty Mutual Insurance Building, the Boston Globe Building, the Herald-Traveler Building, and several other major-size buildings in the planning stage, the new airport construction program, the construction of more off-street parking garages, the very recent property transfers which herald the rehabilitation and redevelopment of the waterfront along Atlantic Avenue, the sum total gives credence to the statement that Boston has passed the stage of talking about action. It is in the throes of action.

If, in addition to the improvements I have just mentioned, and any I may have neglected to mention, we are successful in our efforts to establish a governmental center running from Pemberton square to Dock square, and including within it a new State Office Building, a new Federal Building, a new City Hall, a new Court House Wing, and one or two additional public buildings, we will have made an improvement of tremendous consequence and lasting benefit to our city.

In his annual message delivered a few days ago, Governor Foster Furcolo urged the Legislature to give favorable consideration to the location of a new State Office Building within the area outlined for the governmental center.

The recommendation of the Governor gives encouragement and impetus to the concept of a collection of modern government buildings, as envisioned by the City Planning Board.

Very shortly, the federal authorities will be requested to indicate approval of the selected site for a new Federal Building. We are extremely hopeful that this approval will be forthcoming. In the meantime, I shall present to your Honorable Body an appropriation order to the amount of one hundred thousand

dollars, so that no time will be lost in making the necessary studies and preliminary plans for this large-scale improvement of invaluable benefit to our city.

- While all of these improvements to the physical countenance of the city are taking place, or being planned, we shall continue our program of urban renewal on both a major and minor scale. It is through this medium that we can give our old city the additional lift and the new values which will insure our place as a sound, forward-looking urban center. We can do all this and, yet, by careful planning, preserve that distinctive quality and character which sets Boston apart from the other heavily-populated centers in our country.

No city can improve itself unless there be within it public-spirited citizens who will join hands to achieve the improvements that are essential. The series of seminars at the Boston College School of Business Administration have revealed the need for a clear understanding of community problems, and the need for common, cooperative effort for community betterment.

To this end, a Committee on Civic Progress has been organized. Within its membership of over one hundred are leaders in the business, professional, educational, labor, and public life of our community. The committee is at work, seriously and soberly, considering the best approach to those knotty problems which vex us, and stand in the way of progressive achievement. This committee can be, and in my judgment will be, a powerful force in the accomplishment of those things which must be done if our city and our community are to keep abreast of the rapid changes of these rapidly changing times.

It is this kind of committee, molded into a vital, working, effective unit, which can give the kind of advice and assistance without which the efforts and objectives of the most sincere and purposeful public official will fall short of the mark. I am thankful to

the Committee on Civic Progress, and I extend to them the gratitude which all of us feel toward men who are willing to combine their talents and energies and submerge their individual interests so that our community will be a place where business may continue to grow and prosper, and where our people may continue to work and live with reasonable assurance of economic security.

In conclusion, may I give renewed promise to my fellow citizens that every endeavor will be made by this administration to improve the operations and the services of the city government. We shall not relent in our desire to provide a better and more efficient type of service. We shall not overlook any opportunity to institute legitimate savings and economies. And we shall not, in any event, fail to provide adequate and proper care for the ill, the aged, and the unfortunate who must depend on us for help and assistance.

As a closing thought, may I express the hope that those within our midst who voice the opinion that Boston is fated for a future of sackcloth and ashes will have a change of perspective. Admittedly, in Boston there is need and room for improvements of varied kind and scope. But, in all truth, our shortcomings are far outweighed by our virtues and our advantages. That man has narrow vision, indeed, who always looks down to the dark earth, and never looks up to the bright stars.

To my fellow city officials, the members of the City Council, may I say that we have much to do in the months ahead. Yours is an alert, informed, highly intelligent Body. We can search the municipal records for some time back to find a City Council more conversant with complex municipal problems than the present membership of the present City Council. I earnestly hope that I will continue to merit your understanding and your cooperation as together we strive to be of good service to our city and as together we strive to merit the approval of our fellow citizens.

To the members of the School Committee, may I say that during the year 1958 you will be called upon to make many decisions of deep significance to our school system. I know you will undertake to arrive at those decisions in the light of what is best for the school system, and what is best for our municipality as a whole.

A new municipal year has begun. Let those of us who sought, and were given, the responsibility of guiding and shaping the destinies of our city government do our utmost to make this year a notable one in the annals of our old, historic city.

To accomplish that objective, may I, in your names and in mine, beseech the Almighty God to give to each of us the strength, the courage, and the wisdom to do that which is right, and best, for all those whom we serve.

ANNUAL REPORT

OF THE

ADMINISTRATIVE SERVICES DEPARTMENT

FOR THE YEAR ENDING DECEMBER 31, 1957.

JANUARY 3, 1958.

HONORABLE JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

We are pleased to submit herewith the Fourth Annual Report of the Administrative Services Department for the year commencing January 1, 1957 and ended December 31, 1957, concerning the activities of all divisions and units involved, together with comments and observations made with reference to various studies and policies initiated by the Board in connection with the operation and management of various other city departments.

ADMINISTRATIVE SERVICES BOARD

Under Chapter 3A, Section 2 of the Ordinances of 1953, as amended by Chapter 3, sections 1 to 8 inclusive, of the Ordinances of 1956, the Administrative Services Board is charged with the administration of the Department and consists of the Director of Administrative Services as Chairman, Supervisor of Budgets, Supervisor of Personnel, the Purchasing Agent, the City Auditor, the Collector-Treasurer and the Assessor of Taxes. More specifically, under Section 2, Chapter 3A mentioned above, the Board, and more especially the

Director, shall be responsible to make, under the Mayor, studies and recommendations with respect to the organization, activities, policies and procedures of all departments, boards and officers of the city government, so that the administration thereof shall be economical and efficient.

During the year the Board met formally on nine separate occasions and various members of the Board met informally on many occasions to discuss matters of mutual concern. On October 8, 1957, we suffered the loss of our Director and Chairman, the late John A. Breen, a brilliant man, whose knowledge of municipal administration, particularly in the real estate field, was broad and varied and who contributed greatly to the proper functioning, not only of the Board, but of the Equalization Survey Committee as well, to which he was assigned as Chairman.

During the period from October 9 to December 3, the interim between the death of John A. Breen and the appointment of William Arthur Reilly as Director, Joseph P. Lally, the City Auditor, was designated as Acting Director and during this short space of time the activities of the Board continued to function smoothly and effectively. Several informal meetings were called by the Acting Director concerning various administrative matters that were pending and a formal meeting covering a variety of subjects was held under date of October 18th. At the Second Conference on Municipal Administration, Mr. Lally acted as Chairman and Presiding Officer of the entire proceedings in addition to delivering one of the most enlightening talks of the Conference on the subject of "The Boston Tax Rate," upon which panel he served as Chairman.

Although the new Chairman's name is attached to this report, the other members of the Board would like to express their thanks and appreciation to you for an excellent selection of another experienced administrator, who has taken over the administrative reins left by his predecessor in a manner indicative of leadership and the ability to grasp quickly the many threads of administrative tailoring that require continuous study for a modernistic styling of our city government.

Major subjects discussed by the Board during the year resulted in several important accomplishments and improvements in the efficiency of municipal operation, among which are the following:

I. The Compilation of a Booklet Entitled "The Boston Tax Story," Which Was Distributed Among the Legislators, the City Council and Business Organizations Throughout the City and State

This booklet contained a comprehensive study of thirty years of taxing real and personal property in the City of Boston, as compared with forty-two cities and towns surrounding Boston, generally known as "Metropolitan Boston." This study disclosed that Boston lost 17% of its valuations in this 30-year period, while the so-called Metropolitan Area gained 65% in valuations. This booklet was prepared by our late Director, John A. Breen, to acquaint the Legislature, more especially, with the problem with which Boston is faced at the present time and its special need for additional revenue. It was hoped that a state-wide tax would have been given favorable consideration by the Legislature last year to assist, not only Boston, because of its declining tax base, but other cities and towns throughout the Commonwealth that are in dire need of additional revenue to meet increased operating expenses, such as, new schools, libraries, playgrounds, hospitals, additional police and fire fighters, etc., necessitated by large increases in population during the last decade. The Legislature, however, did not act favorably on any type of state-wide tax, thereby requiring Boston to increase its tax rate in 1957 to \$86, with future increases in the tax rate imperative during the next few years, unless some relief is received through progressive legislative action.

It is interesting to note that, in this study, although Boston is spending 116% more than it did thirty years ago, the cities and towns in the Metropolitan Area are spending 196% more. With all the services Boston renders to those living outside of the city, including police protection, fire protection, hospitalization, public utility services, transportation, etc., it was a revelation to learn that the cities and towns surrounding us were spending 80% more than Boston with a minimum of public service as against a maximum of public service being rendered, not only to the residents of Boston, but to the thousands working in

Boston but living in the suburbs. Until such time as the Urban Renewal Program, the Prudential Center, the new Government Center and various new projects of private enterprise have begun to add value to our tax base — which should be an incentive for new industry and new developments to locate in Boston — it is absolutely necessary that we secure some type of additional revenue to relieve the home owner of the tremendous burden he is now shouldering. As the officials or people of Boston have no power to enact revenue measures to solve this problem, we, as well as some of the other cities and towns throughout the Commonwealth, are obliged to depend upon the Legislature for a fair and equitable distribution of such state-wide tax that should be adopted in the very near future.

2. The Planning and Organizing of a Second Conference on Municipal Administration.

This Conference was held in the Auditorium of the Boston Public Library on November 19 and 20, 1957, and a report of the same has been compiled by the Administrative Secretary and, as it is a complete report of the proceedings, it would be a duplication of effort to repeat any of its contents here. However, we would like to emphasize, in passing, that each and every employee in the city government, anxious to ascertain how the city is endeavoring to improve its efficiency and techniques in administration, should make it a point to secure a copy of this report from the City Messenger.

3. Equalization Survey Committee Accomplishments.

This survey, under the immediate supervision of Cuthbert E. Reeves, P.E. and M.A.I., and under the general direction of the Director of Administrative Services, who is Chairman of the Committee, and John J. Chapman, the Assessor of Taxes, has made rapid progress during the year 1957 and, as you have already received a copy of the 1957 Report together with a Planned Program for the year 1958, it is unnecessary to go into detail here. However, we believe that by the end of 1958 we will have established and rationalized our entire assessment system, at least within the central business district and industrial

areas throughout the city, which will result in a more scientific, modern and equitable approach towards land and property valuations than has ever obtained during the past quarter of a century. The Equalization Survey Committee has been fortunate in having your Realty Advisory Committee assisting and co-operating with us in every way and we are grateful for its advice and guidance during the progress of this Survey.

4. Funding Bill.

An extensive study was made by the Board during the early part of the year of the City's financial condition, which resulted indirectly in the authorization by the Legislature of a \$45,000,000 Funding Loan to overhaul the city's financial structure and place it on a pay-as-you-go basis. Certain commitments were made by the city government in conjunction with the passing of this legislation, the more important of which include a promise to reduce permanent personnel by 5% and temporary personnel and overtime payments by 15% within an 18-month period. Many informal meetings were held during the year with various department heads, the Director and the Supervisor of Personnel with a view to complying with the commitments made. These informal meetings resulted in a concerted effort on the part of all departments to cooperate to the fullest extent in effecting the decreases as set forth. It is believed that the 5% decrease in permanent personnel will be attained in the time allotted, but the overtime and temporary personnel decreases of 15% will be difficult to attain because of the fact that disbursements in these two categories are absolutely imperative for special nurses in the Hospital Department and for provisional employment in the Parks and Recreation Department, where seasonal activities are necessary under our Recreational Program. To dispense with either of these services or to decrease either of the services would be a step backward, but we feel, nevertheless, that sufficient reductions can be effected in other categories to satisfy the Legislature. We do not believe it was the Legislature's intent to reduce necessary services to the detriment of the general public, but if we can reduce these two items even 5% we will have demonstrated our integrity and good faith with the Legislature.

5. Procedural Manuals.

As stated in previous reports, the studying and editing of Procedural Manuals for the entire city government would be a long-range project. During the year some of the manuals submitted were reviewed and returned to departments for correction. However, the work did not proceed as rapidly as anticipated because of the fact that two administrative analysts requested in our 1957 Budget were not allowed by the City Council, but we are hopeful that these necessary additions to the Administrative Division will be approved this year. In the event we are unsuccessful in securing the additional analysts, we will be obliged to return all manuals to all departments without review or editing, to be amended and brought up to date so that each department might have a working manual, copies of which will be distributed among the various divisions of each department and other copies returned to this department for future study and review. We know of no better manner in which to initiate an In-Service Training Program than by placing a manual within divisions of all departments so that the employee can secure a general knowledge of just what his department is required to do and the methods and procedures under which his department operates. As stated in previous reports, we still maintain that temporary help in many departments could be decreased to a large extent during vacation and sick-leave periods if a comprehensive Procedural Manual were available to those who would be required to take over the duties of other individuals during their absence. We trust that the City Council will give favorable consideration this year to our request for two additional administrative analysts, in order that we might progress with this project more rapidly than has been the case during the past year. With the exception of a few larger departments, manuals have been received from most of the departments and this was an accomplishment in itself. We have received splendid cooperation on this all-important project and we are grateful to all involved.

6. The Compilation of an Up-to-date Document Entitled "Certificates, Licenses and Permits Issued by the City of Boston, Including Charges for Services Rendered."

This document contains, in alphabetical order, a complete list of such charges, indicating the department charging the fee, the location of the department, etc. Although Chapter 7 of the Ordinances of 1956 contains a list of fees established by Ordinance, it does not contain, however, statutory fees or fees adopted through departmental regulations. We believe this document will be most helpful to city employees and the public generally after its format has been approved by the Law Department for printing.

Several major subjects, upon which definite action has not been taken up to the present time but upon which lengthy discussions and deliberations were held during the year, are listed herewith:

1. City Hospital.

It was recommended that a study be made of the total hospital picture with a view to improving service, decreasing unnecessary expense and placing the business administration of the hospital on a sound footing. In our 1956 Annual Report we listed many of the recommendations of the Board, which we brought to the attention of the Trustees and the Director of the Hospital Department. The hospital has been making some progress along the lines recommended but, as stated previously, many of the recommendations will require long-range studies before any definite action can be taken which might prove injurious to the sick or unfortunates of our city, for whom the City Hospital, the Long Island Hospital and the Sanatorium were erected some years ago. Most of our administrative problems in the Hospital Department stem from the fact that we are providing hospital facilities for many persons who are not residents of Boston and for whom we are not receiving our just share of reimbursements from the state or cities and towns in which they have legal settlements. Whether or not our accounting system at the hospital is at fault or whether we are lax in determining settlement

cases are questions that are now being studied. The collection of hospital bills from those who can afford to pay for such service is another item that is being explored. Hospital officials are now working on a Procedural Manual which, when completed, should prove most helpful in bringing to light many of the flaws in administrative procedures that now exist and the correcting of the same at the earliest possible date. Constant review and study are imperative if we are to modernize our hospital operations to the point where waste, extravagance, inadequate service and inadequate bookkeeping methods will be eliminated and modern business methods substituted.

2. Establishment of Organization and Methods Section.

This subject has been discussed on various occasions during the past three years, but lack of space and the reluctance of the City Council to authorize additional staffing have hampered our progress in this direction. It was planned originally to organize this section within the Administrative Division with several competent individuals to make necessary surveys and studies of an administrative character, which would greatly enhance our future objectives. A study of Methods and Procedures in all departments of government requires a capable staff on a full-time basis, whose duties and responsibilities would consist of modernizing obsolete systems and keeping informed at all times of advanced techniques, not only in the municipal management field, but in the automation field where great strides have been made during the past few years. At the present time, in addition to the Administrative Secretary, the Administrative Division has one senior administrative analyst who is at present engaged in supervising operations of the Equalization Survey, one head administrative clerk, one principal clerk and secretary and one senior clerk typist. We believe you will agree that part of this Division could be the nucleus of an Organization and Methods Section, but additional technical help will be required before we can go ahead with proposed plans.

In addition to Methods and Procedures studies, other studies would be developed, such as:

- A. Central and Departmental Inventory Controls
- B. Uniformity of Building Maintenance Procedures
- C. Space Requirements for the Proposed City Hall
- D. A Central Storage Warehouse for items supplied to one or more departments — catalogue to be developed.
- E. Records Management Studies.
A practical method of accounting for, preserving or disposing of public documents and records should be established.
- F. Labor Saving Office Equipment — Automation
- G. Consolidation of Purchases — joint purchase of items used by more than one department.
- H. Miscellaneous Revenue Studies.
- I. Central Licensing Bureau.

These and many other studies should be inaugurated at the earliest possible date. A few of the above studies have been undertaken but it will be many months before they can possibly be completed. However, some of the studies recommended in previous reports have been completed and we are listing a few for your persual:

- 1. A Central Mailing Unit established in the Annex
- 2. A Complaints Division established in City Hall
- 3. Standardization of office forms study completed
- 4. A review of all fuel-burning installations was made and improvements recommended
- 5. One telephone survey completed and another being undertaken at the present
- 6. Addressograph operations instituted at the Printing Plant
- 7. Office Machine Repair Unit established in City Hall
- 8. A Central Mimeograph Section established at Printing Plant (possible transfer of operations to City Hall)
- 9. Central Binding Unit established at Printing Plant
- 10. Office Supplies Unit established under supervision of Purchasing Agent
- 11. New Mailing Insert Machine installed in Collecting Division of Treasury Department (standardization of envelopes and inserts throughout departments now being studied)

During the year 1957, the following subjects were given consideration and further action is required before completion:

- A. Discussions with telephone officials were held with a view to decreasing personal calls within city departments and toll calls made from the City Hospital. A new system recommended by the Telephone Company, which will be inaugurated this year, will limit outgoing calls to those individuals designated by department heads.
- B. A survey was conducted at the City Hospital by budget analysts regarding various phases of administration. Specific recommendations were made for adjustments in nurses' compensation, part of which was put into effect and the balance of which is under consideration at the present time by the Law Department.
- C. The possibility of inaugurating municipal research seminars in various phases of municipal administration for key city employees was discussed and considered on several occasions. The senior administrative analyst of this Division and several budget analysts sat in with Professor Morris Lambie of Harvard University on one occasion during the summer months and the Board is giving serious consideration to setting up seminars during the present year. The City might be obliged to stand all or part of the expense involved, but it is believed that it would be a worthwhile venture provided suitable arrangements can be made.
- D. Meetings regarding the proposed consolidation of the Northern and Southern Mortuaries were held with Doctors Conlin, Ford and Luongo, with a view to abandoning the Northern Mortuary and transferring its facilities to the City Hospital in conjunction with the operations of the Southern Mortuary. Plans are progressing in this direction and it is believed that combined operations will make for increased efficiency, centralized reporting and recording of Suffolk County Medical Examiners and a vast improvement over facilities now available at the Northern Mortuary. In addition, the merging of these two facilities will result in substantial savings to the City and the sale of the building at present housing the Northern Mortuary.

Several of the items mentioned heretofore, which have not reached final completion, will be given continued study and consideration by the Board during the year 1958, and other projects contemplated are listed below:

1. Possible transfer of Public Buildings Division of the Real Property Department to the Administrative Services Department. This would require an amendment to existing Ordinances and it is believed that such a move would give the Board an opportunity to observe more closely the operations of this particular Division, whose functions are purely administrative. It is the consensus of the Board that the control of public buildings, which represents a substantial investment, should be vested in a body charged with the overall administration of city departments, such as the Administrative Services Board.

2. Interviews with department heads will be continued during the year regarding various administrative matters, particularly those departments having interrelated activities and problems.

3. The services of the IBM and Remington-Rand Corporations will be utilized, without cost to the city, to make surveys of those departments where tabulating and data processing equipment are most essential in expediting procedures, with a view to acquiring new equipment and replacing obsolete equipment wherever it is found necessary.

4. Demolition, Urban Renewal and Redevelopment Programs, which are being conducted by other departments and/or Committees, will be given priority for Board deliberations and discussions, as will the tax rate and costs pertaining thereto, Assessing Department procedures and other factors which enter into the overall tax rate picture.

5. A speeding up of Motor Excise Tax billings and collections. (State cooperation will be necessary in this instance.)

6. Other sources of revenue will be explored and recommendations will be made from time to time to the Legislature and City Council when and if a practical and feasible type of revenue is considered favorably.

7. A reappraisal of our present Compensation and Classification Plan for City employees will be inaugurated, with a view to adjusting such inequities as might exist at the present time and reviewing our

present wage scales for adjustment at such time as the city is in a better position financially to give favorable consideration to any possible increases that might be recommended.

8. Printing Department billings to be made only twice a year, beginning this year in June and December. Consideration is being given to possible discontinuance of all billings for printing in the future by making one appropriation and eliminating individual departmental appropriations. It is believed that tremendous savings can be realized in printing costs if the facilities of our Printing Plant were utilized by the School Department and Suffolk County agencies. It is our contention that the elimination of billings would be an incentive for both of these agencies to consider favorably the transfer of printing business now being given to outside firms to the City Printing Plant. Of course, the overall appropriation for printing would have to be increased but we are confident that the appropriation and annual expenditure for printing would be substantially less than is required at the present for combined printing operations.

9. Improvements in the operations of the Central Mailing Unit in the Annex are being considered and possible pickups and deliveries of mail are under consideration, with the closing hour each day being extended to 5.00 P.M., or possibly 6.00 P.M.

10. Consideration will be given to an equipment loan for heavy automotive equipment and replacement of obsolete office machine equipment.

11. The relocating of departments in the Annex to speed up elevator service and make departments visited by large portions of the public more accessible. Present plans call for the increasing of space allotments to the Planning Board and Equalization Survey group, the transfer of the Registry Division to the first floor, the transfer of the Election Department to the fourth floor and the Survey Division of the Public Works Department to the 10th floor.

12. Transfer of "postage costs" from "Office Supplies and Materials" account to a central "Postage Account" in the Treasury Department to decrease or eliminate billing procedure costs.

13. To have Registry of Deeds employees photostat copies of deeds rather than utilizing Assessing Department employees for this work.

14. Atlases—The advisability of having new atlases printed before some of the City's major construction projects are completed. If we can defer this project for a few years, with the cooperation of all departments concerned, a more accurate and up-to-date atlas can be printed than at the present time. However, we might be obliged to do some work on the West Roxbury and Hyde Park atlases this year because of the many changes that have taken place since the last set of atlases was printed.

15. Possible transfer of Mimeograph Unit from the Printing Plant to the Office Machine Repair Unit in the Hall and possible expansion of Machine Repair Unit activities to cover departments not being serviced by this Unit at the present time. (Space requirements and additional help will have to be considered before any definite action can be taken.)

16. Reactivate the operations of the Industrial Development Committee, with a view to the possible issuance of a rotogravure presentation to be distributed throughout the larger cities of the country.

17. The standardizing and speeding up of Annual Report documents. Preliminary mimeographed reports including activities, achievements and objectives of each department will be delivered on or before January 30th of each year to the Administrative Services Department, with statistical data being eliminated or deferred until complete report is ready for printing.

18. Expansion of Addressograph operations in other departments, particularly Hospital and Welfare Departments. Police and voting lists and poll tax bills are at present compiled under this system and serious thought is being given to utilizing the equipment for the processing of real estate and motor excise tax bills.

19. The advisability of your assignment of a Liaison Officer to keep us informed on all Federal legislation, present and future, which should result in the city receiving its maximum share of Federal aid and assistance.

20. The modernizing of our Personnel Records System to which reference is made under "Personnel Division."

21. To request Law Department to file legislation amending 1934 law which gives the Public Works Department authority to file liens in the Registry of

Deeds on all water taxes not paid in a previous year, such legislation to eliminate the lien proviso. There appears to be a duplication of work under the present law, as the Assessing Department is obliged to keep similar records where the filing of a lien is involved. If this lien proviso were eliminated, the entire collection and recording responsibilities would then be in the hands of the Public Works Department.

22. Possible consolidation of Police and Fire Stations at proposed new locations for Fire Stations.

23. Possible sale of suburban parking lots which have proved unsuccessful and the establishment of an offstreet parking area adjoining Worcester Square for City Hospital visitors.

24. Consideration of a new hospital building to be erected in the center of the present hospital group, between Harrison Avenue and Albany Street, to connect with existing buildings, thereby achieving one unit.

25. To consider possibilities of a change in Veterans' Abatements system through legislative action.

26. Possible establishment of an Archives Section in new Library building. This section would accommodate old building plans and assessing records, with suitable indexing and filing. (Microfilmed duplicates of active records would be retained at City Hall.)

27. Enlargement of the scope of duties of the Mayor's Automotive Advisory Committee to general safety and accident prevention in connection with the Workmen's Compensation Service, Health Department, Public Works Department, etc., through accident prevention savings in time loss anticipated.

28. Mayor's Advisory Committee of one hundred to be contacted with a view to advancing the following suggestions of the Director, which appear to this Board to be most timely and worthy of consideration:

A. The appointment of a subcommittee to actively solicit the establishment of a regional headquarters in Boston by the largest national industrial corporations.

B. The proposed subcommittee to develop interest among attorneys and trust companies to encourage voluntary bequests and gifts to the City for public memorials. (Private bequests in recent years have

been diverted from the City to charitable and educational institutions through a lack of public relations activities on the part of the City.)

29. Consideration of A.D.T. service in public buildings.

30. Capital Improvement Program studies, including loans authorized and unissued, purpose of new loans and other factors involved in long-term financing.

This is a partial list of the Board's plans for 1958 and, before this document goes to press, we are certain that many other constructive suggestions and recommendations will be advanced by Board members. We are hopeful that we will achieve the goals to which we aspire during the current year, but if we can eliminate a few of the clouds of pessimism that hover over our City, we can gradually clear the horizon of erroneous rumors and misguided conceptions of Boston's standing in municipal leadership, with the result that Boston will regain its previous high rating among the larger cities of the world.

ADMINISTRATIVE DIVISION

With a limited staff and a lack of space, this Division has made an earnest effort to comply with all administrative recommendations of the Board and we believe its operations and accomplishments can easily be identified by referring to the following list:

1. Minutes of all Board meetings have been compiled and copies supplied to each member.

2. The Second Conference on Municipal Administration was conducted and organized, and a Report on this Conference is at present being printed.

3. A booklet entitled, "Certificates, Licenses and Permits, including Charges and Services Rendered" has been compiled alphabetically and is at present in the Law Department for review.

4. The supervision of the Equalization Survey has been delegated to this Division.

5. All surveys and reports of other departments have been reviewed and channelled through this Division.

6. The booklet entitled "The Boston Tax Story" was compiled, with assistance from the Budget Division.

7. The Annual Report of the department is compiled by this division, and Annual Reports from other departments have been reviewed for the purpose of eliminating duplications in reporting.

8. Procedural Manuals have been given cursory examination (because of a limited staff) but we are hopeful that during the current year we can get this project off the ground and will be in a position to report real progress next year.

9. An Organization and Methods Section has been under consideration for the past three years to handle some of the many administrative studies and surveys necessary, and we are hopeful that some progress in this direction will be accomplished this year. (A review of the many studies contemplated by the Board in the earlier part of this report would warrant this move as quickly as possible.)

At the end of the year we were fortunate in securing the services of a competent assistant, who was transferred from another department. If we could be certain of securing at least two additional assistants during the present year, we could then plan future operations on a more definite and methodical basis and could initiate some of the studies and surveys that require immediate attention.

As the Central Mailing Unit was established through the efforts of this Division, a comment regarding its operations is included here. In the early part of the report, reference was made to improving the service of this unit, which will be accomplished within the next few months. Although this unit is now under the supervision of the Collector-Treasurer, this Board initiated the installation at the recommendation of Charles J. Fox, our first and former Director. Considering the number of minor complaints registered regarding service, which, as stated previously, will be adjusted very soon, the unit has proved its value and worth, when cost comparisons are made between the year 1954 (the year prior to the installation of this unit) and last year, 1957. Total postage costs for the city in the year 1954 were \$153,000 and last year were \$143,000, denoting a net savings of \$10,000. Additional equipment was installed last year, costing in the vicinity of \$8,000, including a folding and inserting machine which was used in the mailing of real estate and poll tax bills. These machines

have taken over several manual operations, such as folding, inserting enclosures and sealing and stamping each envelope automatically. This investment has practically paid for itself, as it would have been necessary to hire temporary help and pay overtime charges in an amount equal or over the amount invested. This was an investment that will pay substantial dividends in future years through the elimination of overtime pay and the necessity of hiring temporary help.

All city departments having large volumes of mail have been requested to avail themselves of this service per a directive forwarded to all departments under date of November 7, 1957.

BUDGET DIVISION

This Division, in addition to the assembling and the composition of the 1957 Annual Budgets, has been most active in keeping tabs on departmental expenditures and work programs. Program budgeting, which was initiated in 1955, has proven most satisfactory, and budget clerks within city departments have become acclimated and educated to this new phase of budgeting by focusing their attention upon work programs rather than objects or items to be acquired.

Various surveys were conducted by the analysts during the course of the year, one of which is a long-range survey that may take many months to complete. We make reference here to the Hospital Department, upon which several reports were submitted to the Director regarding various hospital functions. Because of Council Hearings on the budget at the present time, this work will not be resumed until April, at which time studies will be made regarding the financial situation at the Hospital. It is hoped that, after this phase of administration has been reviewed, definite recommendations will be submitted for the improvement of the Hospital's bookkeeping and accounting procedures which, it has been claimed, have not been up to par in recent years.

Special attention will be given this year to the screening of purchase requisitions to ascertain the minimum needs of a department for a limited period of time, rather than over-buying certain products that might not be used in their entirety for several years.

As 500 permanent employee vacancies will be eliminated in the budget this year, stricter supervision and control will be maintained over personnel requisitions,

overtime pay and temporary help, in cooperation with the Personnel Division, to comply with the provisions of commitments made last year to the Legislature in connection with the approval of the \$45,000,000 Funding Loan.

PERSONNEL DIVISION

Considerable progress was made by this Division in the administration of personnel procedures, and methods for compiling personnel statistics have been greatly improved.

The final stages in the establishment of the punch-card system were unavoidably delayed, due to the fact that the Remington-Rand machines used to correlate the information on the punch cards are located in the Retirement Board and Auditing Department. One machine requires re-wiring in order to print pertinent information on the cards. The problems involved have been gradually overcome and the efficiency of this system in ascertaining statistical information is becoming more evident.

In connection with the so-called White Paper of 1957, a monthly report is submitted to the Director which establishes a continuous check on progress towards the 5% reduction in personnel included in said report. This report shows the number of people on the payroll as of the first week in each month, by department, with comparative data for the same period of the previous year, a summary of monthly personnel increases and decreases by title and grade for each department and, finally, a summary of changes in grade and salary, revisions for classified and unclassified positions by title for each department.

The Personnel Division has, from time to time, provided classification and salary data on request from various cities throughout the country. In return, statistical information is received which is of considerable value for comparative wage surveys, etc.

Visiting personnel from foreign countries were received and personnel practices and procedures of the City of Boston explained in detail by the Supervisor of Personnel.

The reprinting of Document 56, the Compensation and Classification Plan for City Employees, was post-

poned until a later date, due to revisions which should be included in an up-to-date booklet. It is expected that this will be completed in the very near future.

COMPLAINTS DIVISION

This Division, which came into existence the latter part of 1954, has become one of the more important divisions of city government for the rendering of service to the public. At its inception, it was the target for criticism by those who felt that such an operation was unwarranted and unnecessary. However, this conception was disproved by the increase in the number of complaints adjudicated by this division during the past year, an increase of 20% over the previous year's operations.

In addition to rendering a much needed service to the public, it has relieved department heads of many of the headaches and prolonged telephone calls which they were obliged to endure prior to the establishment of the division.

An effective system of processing complaints has been inaugurated, with complaints being followed through until some final and definite action has been taken. We consider this a maximum service rendered to the community at a minimum cost.

Seasonal complaints, such as requests for plowing and sanding of streets after snowstorms, cleaning of catch basins, requests for spraying trees, etc., have been in the majority, while complaints about defective streets and sidewalks, violations of health, fire and building laws, etc., have been in the minority. An entirely new type of complaint has been prevalent during the past year, which signifies the interest the public is now taking in the appearance of the city, namely, complaints regarding dilapidated structures that ruin the appearance of good neighborhoods. This Division has processed many complaints of this nature and, in most cases, was successful in having such structures razed either by the Building or Health Department under the Demolition Program.

PURCHASING DIVISION

This Division, in addition to its purchasing procedures which have been improving steadily during the past several years, has been expanding its activities to include other administrative functions which are not

only saving money for the City but are contributing much to overall municipal operations. For example, two units performing excellent service at the present time are listed herewith:

1. Surplus Property Unit.
2. Office Machine Repair Unit.

The Surplus Property Unit has been most active and alert in the reviewing of requisitions for new equipment and supplying, in many cases, surplus equipment from one department for the use of another department. It is intended to expand the operations of this unit during the present year by setting up a Central Inventory Control covering all types of furniture, office and heavy equipment, now under departmental jurisdiction. A Central Inventory Control, when established, will give us an overall picture of what we have on hand, the estimated life of such equipment and when and if such equipment should be replaced. (This information will be most important in the event that a new City Hall becomes a reality within the next five or six years.)

The Office Machine Repair Unit, in its second year of operations, has proven its worth beyond all expectations. During the year a total of 970 typewriters were serviced, including all machines located in the Hall and Annex, the Court House, the Welfare Department, Veterans' Services, Law Department, Parks and Recreation Department, Health Department and the Boston Licensing Board. This service consisted of 2,393 inspections, including cleaning, oiling and adjusting. (Outside firms charge a fee of \$12 per machine per year for this service.) Six hundred and twenty-two calls for immediate repair work on the above machines and 122 calls for repair of adding machines represents a saving of approximately \$7 a call, which is the average charge by outside agencies. A typewriter pool is maintained which covers the requirements for seasonal work in various departments. Thirty-eight machines were condemned as being beyond repair due to age or condition and were replaced by machines in the pool, thereby eliminating the necessity of purchasing new machines or an expensive repair job. Condemned machines are put in stock for parts for other old machines still in use. The total cost of operating this unit for the year 1957, including the salaries of two repair men, was \$8,200 as against an estimated cost for the same work and service

by outside agencies of \$16,800. With a saving of approximately \$8,600 last year and a saving during the prior year of operations of \$8,200, we are at present giving serious consideration to the possible extension of this service to other city departments that are located in areas remote from the center of the city, such as the Library, Fire, Hospital and Traffic Departments. This would probably require the purchasing of a truck and the addition of at least two repair men to service the additional departments involved.

PRINTING SECTION

Printing Plant operations have been under study and surveillance since the reorganization in 1954, with a consultant making a survey and recommendations the latter part of 1954. During the past three years we have been endeavoring to improve efficiency, increase production, and reduce costs and, although progress has been slow during the years 1955 and 1956, we have, however, turned the corner during the past year and are well on the road to placing this important adjunct of municipal operations on a business-like and productive basis.

Expenditures for the year 1957 were over \$63,000 less than for the year 1956, with a net reduction of eight permanent employees through retirement or death. Although there was an increase in temporary workers to facilitate the establishment of the Addressograph system, costing \$27,000 more than in 1956, this increase was more than offset by a reduction in contractual services of \$52,000, attributed mainly to the fact that the greater part of the binding of the Police and Voting Lists was accomplished at the Plant instead of outside contractors and fewer jobs were sent outside for completion. We are quite pleased and encouraged by the progress we have made in Printing Plant operations and we believe the greater part of our success is due to the installation of the Addressograph Unit which was recommended and installed by our first Director, Charles J. Fox. We submit herewith some of the more important phases of this operation since its inception.

Machinery and equipment purchased in 1955-56 for the production of the Police and Voting Lists by this process were put into operation in 1956 for the production of plates. Thousands of plates were

fabricated and later had to be discarded because of a change in the law relative to age and year of birth. Therefore, it was not until December of 1956 that a separate unit was organized and fabrication of plates from information received from the new Police listing of 1957 was initiated. During 1957 it was necessary to rent Graphotype machines to produce the number of plates required to complete the Voting and Police Lists. Before the end of the year, these machines were purchased and part of the rental charges paid thereon was applied to the purchase price.

At the present time the Plate Library in the Printing Plant consists of a half million plates indexed by wards, precincts, streets and names. These plates are in the process of being tabbed as to status of tax exemption, political affiliations, citizenship and sex. The entire Police List was produced by this process in 1957 but in view of the fact that a large part of the information received from the Police lists was not in agreement with information relative to the same persons listed on the Voting Lists in the Election Department, it was impossible to produce the entire voting list by this process. Only four wards were completed by this process and the remaining 18 wards were completed by the type process, in order to meet delivery and legal schedules. However, we expect to have the entire voting list completed by the Addressograph process this year, which will decrease production costs substantially. In summarizing our 1957 operations with the Addressograph Unit, we submit the following production completed by this unit:

The entire Police List.

Four Wards of the Voting List.

200,000 poll tax bills in triplicate.

Duplicate Commitment Lists for the Treasury and Assessing Departments.

List of tax exempt persons.

500,000 Cards for the 1958 Resident Listing by Police.

It is interesting to note that we realized a saving of some \$25,000 in the cost of the Police List of 1957. With the printing of specially prepared cards for the 1958 resident listing, which will result in the completion of this listing about two weeks earlier than previous schedules, some \$30,000 in clerical costs in addition to thousands of dollars of overtime charges, which would have been incurred otherwise, will be eliminated.

The prospects in Addressograph operations for the year 1958 are most encouraging. We expect to be able to produce the following lists in their entirety:

Police — Voting — Tax Exempt Persons — Poll Tax — Cards for the 1959 Resident Listing.

Inasmuch as much of the work accomplished in 1957 was of a non-recurring nature, the cost of production for these jobs will necessarily have a downward trend.

The Binding Unit recently established in the Printing Plant is, as yet, in its infancy and there is little that can be reported here until surveys have been completed throughout the various city departments as to the amount of binding work that can be performed by this process. We are confident, however, after inspecting such an installation at the State House, that tremendous savings can be realized in binding costs. This is a simple operation that will serve the needs of many departments and will reduce binding expenditures to an absolute minimum. We are hopeful that in next year's report we can show real progress in this new field of operations.

ART COMMISSION

During 1957, the Commission member appointed by the Museum of Fine Arts, Mr. William Emerson, has died, leaving a vacancy in the Commission.

The plans for improvement of the Tremont Street Mall of Boston Common were seen by the Commission and approved, the plans for the work being submitted by Shureliff, Shureliff & Merrill, Landscape Architects.

Plans for the improvement and redesigning of the plot of land in Post Office Square were considered and approved, the work to be done by the Massachusetts Society for the Prevention of Cruelty to Animals (The Angell Memorial) with the help of the Phillips Street Fund.

The figures decorating the base of the fine Brewer Fountain on Boston Common were dislodged by a mob of treasure hunters set off by a radio program. The figures had to be removed by the Park Department to a place of safety until they can be restored.

The condition of the Shaw Memorial, opposite the State House on the Boston Common, remains a serious problem, requiring an expenditure of some \$35,000, for replacing stones which have been split by the weather, necessitating taking the stone-work down and rebuilding it, and sealing it from further weathering.

SUMMARY

The Administrative Services Department and especially its governing Board have been endeavoring during the past four years—the length of time the two organizations have been in existence—to modernize municipal operations, to keep informed as to how other large cities in the country are solving mutual problems, to increase efficiency and to eliminate or decrease expenditures wherever possible or feasible. We believe we have made real progress in the short period we have been functioning and, although there is much to be done to improve present conditions, we are confident that, through continuous study and review, we will reach our goals in the not too distant future.

As Chairman of the Equalization Survey Committee, the Urban Renewal Coordinating Committee and the Public Safety Commission, our Director and Chairman has been in a position to give us the benefit of his diversified knowledge of activities in these various agencies which, in turn, has kept us informed as to what the other agencies were thinking before making definite decisions or recommendations on many matters of an administrative nature. With a new policy adopted of inviting departments heads with interrelated activities or problems to attend meetings of the Board, we will not only increase our general knowledge of municipal operations, but it will give us an opportunity to secure a broader viewpoint of certain problems and activities which, obviously, will result in better planning and a higher degree of intelligent action.

We are keenly aware of the tremendous task ahead and are always open to suggestions, recommendations or

constructive criticism, not only from the public and from all civic organizations interested in better government, but from the department head and city employee who are part and parcel of the vast organization which it is our responsibility to direct and guide in a manner that will reflect credit upon you and your administration.

Respectfully submitted,

Total	<u>\$11,658,371 34</u>

The Board of Assessors received this state warrant in accordance with the provisions of chapter 92, General Laws, and all acts in addition and amendment thereto entitled "An Act to Provide for a Metropolitan Water Supply," \$3,328,320.48. This amount was not included in the amount upon which the rate of taxation was based, as the estimated income of the Water Division of the City of Boston was sufficient to meet the expenditure.

POLL TAX ASSESSMENT

The number of polls recorded for assessment before June 14, 1957, and included in the estimate that determined the rate of taxation for the current year, was 221,713. Under the operation of the law providing for supplementary assessment of omitted male persons liable to assessment, there were added to the list 3,724 polls, making the total number of males assessed, 225,437.

TAXABLE VALUATIONS

The valuation of the city as of the first day of January, 1957, determined by the assessors September 17, when the rate of taxation for the current year was fixed, was as follows:

MOTOR VEHICLE EXCISE TAX

The motor vehicle excise tax was originally created by the passage of chapter 379 of the Acts of 1928, which law became effective as of January 1, 1929. This act provided that an excise tax should be assessed on all registered motor vehicles, in lieu of the local tax formerly assessed on this class of property. This law, which became chapter 60A of the General Laws, was amended April 23, 1930, by the passage of chapter 244 of the Acts of 1930, and further amended by Acts of 1938, chapter 480. Two recent amendments are contained in the Acts of 1950, chapters 666 and 731.

The tax is levied at an average state rate, and valuations at which these vehicles are assessed are determined by the State Tax Commissioner and forwarded to all assessors of the various cities and towns throughout the Commonwealth. All valuations are therefore uniform.

The number of motor vehicles assessed in the year 1957 was 168,447, of which 58,808 were for the levy of 1956, committed in 1957. The total amount of the tax levied and warrants sent to the Collector-Treasurer was \$4,713,826.87, of which \$1,374,808.11 was for the

levy year of 1956. State rate for 1956 was \$54.43, and for 1957 was \$57.10.

ANNUAL REPORT
OF THE
BOSTON RETIREMENT BOARD

FOR THE YEAR ENDING DECEMBER 31, 1957.

BOSTON, January 31, 1958.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In accordance with section 20 of chapter 521 of the Acts of 1922 and section 20 (5) (i) of chapter 658 of the Acts of 1945, the Boston Retirement Board respectfully submits a combined annual report for the year ending December 31, 1957.

The Boston Retirement System began operation on February 1, 1923, and the State-Boston Retirement System on October 1, 1946.

The Retirement Board is composed of three members, Walter J. Malloy, City Clerk, as its chairman appointed by the Mayor, City Auditor Joseph P. Lally (*ex officio*), and John C. Kabachus, elected by the membership. The City Treasurer is the custodian of the funds, and Paul L. Carty is secretary and executive officer.

REPORT OF THE STATE-BOSTON RETIREMENT SYSTEM

With the acceptance by the Mayor and the City Council on June 5, 1946, of chapter 658 of the Acts of 1945, as amended by chapter 166 of the Acts of 1946, the State-Boston Retirement System for employees of the City of Boston and County of Suffolk was established on October 1, 1946.

By the operation of that law, persons entering the employment of the City of Boston and County of Suffolk after September 30, 1946, whose compensation is paid by the City of Boston, automatically became members of the State-Boston Retirement System, unless ineligible under its provisions, and the Boston Retirement System, which was established on February 1, 1923, by chapter 521 of the Acts of 1922, was closed to new members.

Every person whose employment began prior to October 1, 1946, whether he was a member of the Boston Retirement System or had other pension rights or no pension rights at all, was given an opportunity, under certain conditions of make-up payments, to join the State-Boston Retirement System during the three-month period between October 1, 1946, and December 31, 1946.

By chapter 520 of the Acts of 1947 the employees were given an additional year and a half to join the State-Boston Retirement System.

By chapter 355 of the Acts of 1950 the State-Boston Retirement System was reopened for a sixty-day period, for another period of sixty days by chapter 379 of the Acts of 1952, and finally for another ninety-day period by chapter 684 of the Acts of 1954.

In Memoriam

WILFRED J. DOYLE

1873-1957

Mr. Wilfred J. Doyle, Chairman of the Boston Retirement Board since 1923, died on June 19, 1957.

Mr. Doyle began his municipal career in 1892 as a stenographer-typist to the Clerk of Committees. In 1898 he was appointed assistant to the Clerk of Committees and in 1912 became Assistant City Clerk. He served as City Clerk from 1928 until he retired in 1945.

Although he retired in 1945, he continued until his death in the unpaid position of Chairman of the Boston Retirement Board.

His 64 years of service is believed to have been a record in the City of Boston.

STATE-BOSTON RETIREMENT SYSTEM

ANNUAL REPORT
OF THE
BUILDING DEPARTMENT

YEAR ENDING DECEMBER 31, 1957

Boston, May 1, 1958.

HON. JOHN B. HYNES,
Mayor of the City of Boston.

SIR:

In accordance with the provisions of section 115, chapter 479 of the Acts of 1938, as amended, I submit herewith a brief report of the activities of the Building Department during the year 1957.

THOMAS J. HUGHES,
Building Commissioner.

FOREWORD

Chapter 2 of the Ordinance of 1954 set up within the Building Department a "Public Safety Commission" consisting, ex officiis, of the Director of Administrative Services, the Building Commissioner, the Health Commissioner, the Fire Commissioner and the Chairman of the Boston Traffic Commission. While this commission is in the Building Department it is not under the jurisdiction of the Building Commissioner. Its function is to coordinate the work and duties of the departments concerned with the aim of more efficient and concerted action by the departments.

As a unit of the Public Safety Commission there was established a "Committee on Licenses" consisting of the Building Commissioner, the Fire Commissioner, and the Chairman of the Boston Traffic Commission. This committee exercises the powers and performs the duties formerly vested in the Board of Street Commissioners as to licensing the storage and sale of inflammables and explosives, as well as for operation and maintenance of garages, public and private, service stations, lubritoriums, and repair shops and the open-air parking of automobiles.

This same ordinance placed in the Building Department, but not under the jurisdiction of the Building Commissioner, the Board of Appeal, the Board of Examiners and the Board of Examiners of Gas Fitters and transferred to the Building Department the Electrical Inspection Division of the Fire Department. By this transfer the Building Commissioner was vested with all the powers and duties formerly exercised by the Commissioner of Wires and the Fire Commissioner with respect to electrical installations in the City of Boston.

The Street Numbering Section of the Public Works Department was likewise transferred to the Building Department on January 1, 1955.

January 30, 1958.

Hon. JOHN B. HYNES, *Mayor of Boston*,
City Hall,
Boston, Massachusetts.

Dear Mr. Mayor:

In accordance with the request made in Bulletin No. 1 from the Director of Administrative Services, I submit herewith a brief summary of the activities of the Department during the past year and an outline of the main objectives for the coming year.

A detailed statistical report of the departmental activities in conformity with the provisions of Chapter 479, Acts 1938, Sec. 115, will follow in due course.

The estimated cost of construction and alteration projects in the city during 1957 was \$41,691,000.00. While this represents a drop of almost exactly \$5,000,000.00 over 1956, it still is far ahead of the construction costs for the years 1953, 1954, 1955. A gratifying feature is that of construction costs last year, 64% were taxable, a rise of about 4% over the previous year.

BUILDING CODE REVISIONS

The present Building Code, enacted in 1943 and then regarded as a model of its kind, has recently shown the need of change. In Construction there is almost always a time lag between law and practice. In the building industry as in any other, new methods and new techniques are constantly being projected. If Boston is to keep abreast of other cities, the Code must recognize these changes and make a place for them.

When the present Code was written, it was the work of many devoted architects, builders, engineers and other interested persons who gave their time and skill wholeheartedly to its enactment. In the present instance we are using the same procedure. Five Code Committees, each composed of experts in their fields, have been at work for the past year preparing amendments to the Code. The work has not been finished, but it is anticipated that when it is done Boston's Code will be modernized and will be second to none in the country.

While not precisely under the title of "Building Code Revisions" it may not be amiss to note here that during

the past year we have had numerous conferences with the principals in the matter of the Prudential Insurance Company project and the Travelers Insurance Company Building. Conferences with architects and engineers have resulted in solving problems which will affect beneficially all new construction. We have repeatedly conferred with the State Department of Public Safety in an endeavor to coordinate the requirements of the Commonwealth with those of the City of Boston. Changes in law have been agreed upon in substance and the cooperation of the State officials has been most encouraging.

DEMOLITION

Perhaps the most spectacular accomplishment of the Department during the past year was in the field of Demolition. Almost two years ago the city, faced with the creeping blight of dilapidated and dangerous structures in the older sections, appropriated \$500,000.00 for a massive attack on this problem. In the past year we have completed the demolition or have contracts for the removal of 346 buildings at a cost of \$345,000.00. Repairs were made on sixty-six (66) buildings at a cost of \$62,000.00. The total for all work, accomplished or in progress at the end of the year was \$407,000.00. When one considers that the average expenditure of the Department for the past ten years in this category was \$30,000.00 annually, the magnitude of the task is apparent. It is plain that despite all that has been done much more remains to be accomplished. Up to the present we have operated largely in those parts of the city in which single buildings were to be removed; we shall in 1958 be obliged to undertake much demolition in sections in which block construction, with its attendant problems, is the rule. The party wall situation particularly will pose many problems. It is anticipated, however, that the experience gained in the past year will be of immense help to us.

COMPLAINTS

During the past year the Inspectors of the Department made more than 2,600 formal complaints. These are complaints of a serious nature, the result of which, if not corrected, would be court action. About 1,800 were violations and the remainder were for unsafe and

dangerous conditions. During the year more than 975 cases were referred to court for prosecution. It must be emphasized here that reference to court is a last resort, to be taken only if the owner neglects or refuses to correct a condition. In the ordinary course, Inspectors interview owners of property in an endeavor to have a condition corrected or send a "Courtesy Notice" and try by persuasion to have the conditions corrected without court action. It is not to the advantage of the city to engage the time of the courts and the Inspectors in prosecution for trivial offenses. It should be recorded here that the Boston Municipal Court, in which practically all of our cases are entered, has been most cooperative. We feel that the present system is producing results and should be expanded.

REMODELING OF DEPARTMENT

Not the least accomplishment of the past year was the physical change in the Building Department; the first important change made since the Department was laid out in present quarters. We have endeavored to arrange the office in such a manner as will allow the public to obtain required permits and information with the least inconvenience. We believe that the new layout will promote efficiency and convenience and is sufficiently flexible to allow necessary changes or expansion without further alteration.

PROSPECTUS FOR 1958

The main objectives for 1958 will be:

1. A revision of the inspection assignments and practices.
2. Better liaison between the various divisions of the Department and closer cooperation with other city departments.
3. A revision of the egress sections of the Building Code.

Inspection practices which have grown up over the years should be studied from time to time to determine their efficiency of operation. Too frequently in the public service a practice is continued merely because of tradition. It is proposed in the current year to make a study especially of the practices in the Construction Division. We have secured new Inspectors. The dis-

tricts will be made smaller, enabling Inspectors to visit various premises more frequently. The new Inspectors will be required to take periodic instructions. Jobs offering peculiar or special problems will be called to their attention and field instruction will ensue. It is believed that this practice will make the new men more valuable to the Department.

The special problem which caused the establishment of the Egress Section has been largely solved. As the work of this Section diminishes, the vacancies will be abolished. Already four Inspectors from this Section have been transferred after Civil Service examination and qualification to the Construction Section. It is felt that these men, familiar with egress problems, will be valuable adjuncts to the Construction Division. There is no valid reason why the Inspectors of the Construction Section cannot make required egress inspections in their respective districts, leaving to the diminished Egress Section such special problems as may arise.

We have made a special effort during the past year to require all Inspectors of the Department to report collateral violations. The aid of the Police Department, through the splendid cooperation of Police Commissioner Leo Sullivan, has been invoked to see that building permits are displayed prominently. Work done without a permit deprives the city of the statutory revenue and the property owner of the required inspection. All divisions have been alerted to watch for this particular violation. This effort will be expanded in the coming year and other departments will be invited to give cooperation. At the present time we are endeavoring to work out a method which will enable the Building, Fire and Health Departments to pool building inspection information. Within the Department, divisions now inform all other divisions of violations noted, work being done or contemplated. Such pooling of information both within the Department and between departments will be of benefit to the public and to the city.

A brief mention has been made above of the necessity of bringing up to date the various sections of the Building Code. Nowhere in the Code is this more important than in the Egress Section. The advent of the "h-rise" building will pose many problems. Without such construction, Boston, with its geographical restriction, cannot hope to maintain a competitive position. The

theory of "progressive egress" practiced elsewhere and well proved, must be brought into our Code. A Committee will be formed of representative men to study this section of the Code and to recommend changes which will bring Boston into line with the other large cities in the country. Without a modernized conception of egress practices, Boston cannot hope to attract "hi-rise" structures. Nationally recognized codes will be used as the basis of these studies.

Respectfully submitted,

THOMAS J. HUGHES,
Building Commissioner.

DEPARTMENT ORGANIZATION

As the result of a survey conducted by the Administrative Services Department under the direction of his Honor, the Mayor, in the interest of increased efficiency, an internal reorganization of the Building Department was effected on January 1, 1955. The functions and services of the department were divided into five general groups —

- Administration and General Services
- Technical Services
- Construction and Safety Inspections
- Mechanical Inspections
- Electrical Inspections

The administrative and general services group is charged with the proper functioning of the department, carrying on all routine office procedures and maintaining records of the activities of the department. All licenses and permits are processed and issued by this group.

The technical services group passes on all applications and plans for permits for the erection, alteration, and repairing of buildings and structures. It also conducts examinations and tests of materials and methods used in construction of buildings and makes recommendations to the Building Commissioner as to approval or disapproval of such methods and materials.

The construction and safety inspections group, comprising the head of the division, two chief building inspectors, one chief egress inspector, and a staff of building, egress and zoning inspectors, inspects and examines all buildings and structures in process of erection, repair, alteration, or demolition. It also inspects all buildings as to proper and sufficient means of egress in relation to the construction and occupancy of such structures.

The mechanical inspections section is charged with the inspection of all mechanical functions in connection with the erection or alteration of buildings and structures. It inspects all installations or extensions of plumbing, gasfitting, elevator, and sprinkler systems.

The electrical inspections group examines and inspects all electrical work, both interior and exterior, which come under the control of the Building Department.

In accordance with an Ordinance passed by the City Council and effective as of December 1, 1956, there was established a revised schedule of fees for permits and licenses issued by the department. This revised schedule is expected to bring about a marked increase in the revenue of the department, though falling far short of making the department self-supporting.

PUBLIC SAFETY COMMISSION

January 2, 1958

The operations of the Public Safety Commission, which Commission was organized in May of 1954, are more or less of a coordinating nature, being organized primarily to coordinate the functions and operations of the Building, Fire and Health Departments to the end that there may be efficiency and concerted action by said departments. Although little or no publicity has been attached to the operations of this Commission, we nevertheless feel that we have been most helpful in the formulating of plans and procedures now being followed by the departments concerned, the net result of which is contained in the Annual Reports of said departments. Our Fourth Annual Report for the year commencing January 1, 1957 and ending December 31, 1957, is submitted herewith.

In accordance with the provisions of Chapter 2, Section 25, of the Ordinances of 1954, a meeting was held once each month on the following dates:

1957

January 26	July 16
February 19	August 13
March 19	September 24
April 23	October 22
May 21	November 26
June 18	December 17

During the latter part of the year, on October 8, 1957, we suffered the loss of our former Chairman, John A. Breen, and under date of December 3, 1957, a charter member of this Commission, Wm. Arthur Reilly, was designated as Chairman in conjunction with his appointment by His Honor, the Mayor, as Director of Administrative Services. Various phases of Public Safety were taken up and discussed during the course of the year, with special emphasis being placed on the demolition programs being conducted by both the Health and Building Departments and the Housing Inspection Program being conducted by the Health Department. It is the consensus of the Commission that this all-important work is a preliminary step towards a healthier and safer city in which to live and work. If we can make real progress along these lines —

and we can see no reason why we can't — all other measures pertaining to public health and safety will not appear so monumental in future years. Safety education is another important factor that has been stressed again and again and we are pleased to report that the Fire, Health and Traffic Departments have been on the alert and are beginning to meet with a large degree of success in the dissemination of information through the press, radio and television for the benefit of the public's safety.

We are pleased to submit herewith a brief summary of the subjects discussed during the year 1957 in the interest of public safety.

DEMOLITION PROGRAM

In our 1956 report we mentioned that 140 structures were razed or were in the process of being razed and we stated that we could make a real dent in this program during the next 2 or 3 years. During the past year, 459 buildings have been condemned and razed through the joint efforts of the Health and Building Departments and the excellent coordinating work of John A. Murray, Director of Demolition and Restoration. When the demolition programs were initiated in October of 1956, liaison with the Urban Renewal Coordinating Committee was neglected, not intentionally, but because of the urgency and need for concentrated effort on the part of all concerned in the actual demolition of dilapidated structures that had seen better days. When the program began to move at a greater pace than was expected, and it was found that the Urban Renewal Coordinating Committee and the Planning Board were formulating plans and recommendations for slum clearance and demolition areas in addition to proposed areas for rehabilitation and redevelopment, it was believed that the Demolition Program in its entirety should be explored in order that demolition proposals of the Health and Building Departments would not conflict with the general plans of the Urban Renewal Coordinating Committee and the City Planning Board. This has been done during the latter part of the year and a more efficient operation of all departments and committees involved has been put into effect. In the future, each agency will be aware of the proposals and plans of all other agencies. This will eliminate duplication of

effort and will make possible a more intelligent approach to the overall picture of demolition, slum clearance, rehabilitation and redevelopment.

In view of the many legal steps necessary before a structure can be actually demolished, including a formal condemnation of the structure by either the Building or Health Commissioner, search for ownership titles and, in many cases, the whereabouts of the actual owner, outstanding liens on said structure, awarding of contracts to raze, etc., the rapid progress of the program to date is beyond all expectations, and demonstrates what can be done in a short period of time when cooperation and coordination are the main tools of administration. The cost of the entire program to date has been \$656,453 against total appropriations of \$800,000 and it is our belief that this is an investment which will return dividends at a high rate for many years to come. When the entire city has been surveyed and the greater part of our dilapidated and useless properties has been razed, we can then look forward, as we are now doing, to a new look in Boston's appearance and the creation of an incentive for new industries to locate here, and a general movement on the part of those who have migrated to the suburbs during the past several years to return and again make Boston their permanent abode.

NATIONAL SAFETY COUNCIL REPORT

The annual report of the National Safety Council, issued the latter part of 1957, covering national statistics for the year 1956, indicated that Boston fared very well in school traffic safety education and traffic engineering, receiving a certificate of achievement for School Traffic Safety Education. A few recommendations in the matter of public safety were made by the Council, and the Commission has these recommendations under consideration at the present time for some type of definite action during the year 1958.

The most important recommendations of the Council are submitted herewith:

1. That the modern type Street Lighting Program be expanded.
2. That Driver Education be expanded to include all eligible students for class room instruction and practice driving.

3. That consideration be given to the advantages of mechanical tabulation for compilation of accident statistics.

4. That the Boston Public Safety Education Program be based more specifically upon local needs as revealed by a continuing analysis of the existent records of both the city and surrounding area.

5. That the local Public Safety Education Program be designed to meet the increasing responsibility for serving surrounding areas, as well as the city itself.

IMPROVEMENTS IN FIRE DEPARTMENT EFFICIENCY

Certain phases of Fire Department operations which will probably be incorporated in the Annual Report of the Fire Department were, nevertheless, taken up and discussed by this Commission in the interests of public safety and are submitted herewith as a part of our report:

1. Safety belts have been placed on the front seats of apparatus and Chiefs' cars (formerly this was limited to ladder trucks).

2. Polio shots were given to all fire fighters who required them and were eligible.

3. A company equipment check was made at all fire houses throughout the city by an officer of the Training Division to ascertain the condition of the equipment and to correct any such equipment that was found faulty.

4. All Squad Companies are now carrying acetylene cutting equipment and have been trained in the use of same.

5. Hydrant and in-service inspections were resumed during the year.

6. Mutual aid was established with the town of Winthrop.

7. Luminescent tape has been placed on all fire coats and fire hats in the department. (All new rubber coats being ordered are impregnated with this material.)

8. Critiques were held on all three alarm fires, with all chiefs working at the fire going over the operations while the fire was in progress. (This has brought about some very good results.)

9. Over half the members of the fire fighting forces have now been trained in Red Cross work.

10. Arrangements have been made for complete coverage of fire prevention messages from all the important radio stations in the Boston area.

11. Each portable radio in the department is being checked every 48 hours, as many were getting out of service when they were most needed.

12. An inspection program has been inaugurated in all Catholic churches, convents and all church properties. (This program is being accomplished through the splendid cooperation of Archbishop Richard J. Cushing.) Formerly it was difficult to make inspections of church properties because of the failure to secure proper cooperation.

13. Three new pumpers, two 100-ft. ladder trucks and eight Ford cars were purchased during the year.

14. The number of oil burner fires has been cut in half and it would appear from this record that the public generally are becoming more fire conscious and more educated in the field of fire prevention.

INSPECTIONAL PROGRAMS

As stated previously, the Fire Department In-Service Inspectional Program has been resumed and has been working out most satisfactorily. Violations of the Housing and Building Codes are reported to either the Health or Building Departments, whichever the case might be, by fire fighters making in-service inspections for Fire Department violations. This system of reporting violations, with Health, Building and Fire inspectors exchanging information on various violations, is a splendid example of teamwork resulting in a maximum inspectional program at a minimum cost to the city.

In connection with the enforcement of the Housing Code, the Health Department was obliged to hire 35 inspectors in addition to their regular force to comply with the provisions of a federal statute which requires that each city requesting funds for slum clearance and rehabilitation must have a workable program of code enforcement. Twenty-seven thousand units were inspected under this program during the year, out of a total of 200,000 throughout the city and, from a public safety standpoint, the following results were submitted to this Commission. Out of the number of houses inspected by this particular group, it was found that 154 lacked proper egress, 495 did not have proper ventilation and many others had inadequate plumbing and/or inadequate electrical outlets.

In view of the fact that the Planning Board and the Urban Renewal Coordinating Committee have not submitted definite recommendations up to the end of the year as to what specific areas should be considered for demolition, it was the contention of this Commission that, pending the results of the findings and recommendations of these two agencies, no strict enforcement of code compliance except where major violations are existent should be put into effect. However, as soon as definite recommendations have been submitted and it is ascertained just where recommended demolition areas are located, the Health Department and/or the Building Department will initiate strict enforcement in those areas not selected for demolition. It appeared nonsensical to enforce minor housing and building code violations in areas that might eventually be selected for demolition, as it would place both property owners and the city to an unnecessary and unwarranted expense.

Prompted by the establishment of the new Housing Code in the latter part of 1956, the then Chairman, John A. Breen, called a meeting the early part of the year of all department heads and inspectional supervisors from departments concerned with any type of inspection or visitation to homes, business establishments, etc., with a view to acquainting those present with the provisions of the new Housing Code. It was the intent of the Chairman to reduce inspectional costs by a large degree through the use of social workers from the Welfare and Hospital Departments, legal investigators from the Law Department, electrical inspectors from the Building Department, Housing Authority investigators, etc., in reporting Housing Code violations to the Health Department. Forms were designed by the Health Department and distributed to the departments concerned for reporting purposes and, during the year, a continuing inspection program has been in effect, with all units cooperating to such extent as possible. There might be a question in one's mind as to why it was necessary to hire 35 additional inspectors, when it would appear that other units were performing similar work, but it must be remembered that social workers, legal investigators and Housing Authority investigators are not inspectors in the true sense of the word and their duties are more or less of an interviewing nature rather than inspectional. However, in the course of their regular duties, it was agreed that they would observe

and report any major violations that might come to their attention. This has worked out fairly well and has precluded the necessity of hiring twice as many inspectors as were hired in the carrying out of the requirements of the federal statute concerning Urban Renewal.

ASIAN FLU, POLIOMYELITIS AND TUBERCULOSIS

It is not our intent to cover here the outstanding record of the Health Department for the past year in the matter of general health statistics but, nevertheless, the three maladies under this sub-division have been given constant attention and, as a result of discussions and deliberations even by members of the Commission who are not versed in the medical profession, the Health Department was given an added incentive to inaugurate preventive measures against the spread of all of these dread diseases.

During the summer months, the Asian flu began its spread throughout various sections of the country but, through the alertness of the Health Department, we secured sufficient vaccine to inoculate all city personnel who came in contact with those suffering from an illness, such as Health and Hospital Department personnel. In addition, 1,500 men in the Fire Department were inoculated, resulting in little or no absenteeism in any of these departments. Around the middle of October it was thought that Asian flu had really hit Boston, when some 25,000 children were absent from school, together with some 72 school teachers, and there was a slight increase in absenteeism in private industry but, before the end of October, absenteeism in both public and private schools and in private industry had decreased to the usual rate during this particular time of the year. In the first instance it was assumed that Asian flu was the cause of absenteeism but recoveries were so rapid, with no deaths recorded, it was believed that the common cold or grippe was the main cause rather than Asian flu.

Due to a systematic program of inoculations against poliomyelitis, inaugurated in 1956 and continuing during 1957, no case of polio appeared in Boston during the past year.

Tuberculosis in Boston has been given considerable attention during the past year and a great deal of publicity, which was unwarranted. During 1957, the death rate from pulmonary tuberculosis was the lowest ever recorded in Boston and was less than 17 per 100,000 of population. As a matter of fact, this rate has indicated a steady downward trend for the past 10 years. Many sections of Boston have very low rates, well below state and national levels. The heart of the tuberculosis problem lies in the South End, where the death rate is many times higher than in any other section of the city. However, there are many factors that enter into the picture. Tuberculosis is now a disease of older age groups, especially those over 45, and particularly among men. It must be remembered that the South End contains the largest concentration of those in the old age group in the city and it also should be pointed out that Boston is obliged to take care of practically all indigent cases in the metropolitan area, where no facilities for tuberculosis treatment are available.

As a result of pinpointing the tuberculosis problem in certain areas of the city, intensive case finding has been and is being carried out. This program includes intradermal testing of school children and X-raying of adults in order to locate early cases which can respond to treatment. The extensive inspection of housing, with resultant demolition of substandard houses or areas, also will help to eliminate some of the conditions which contribute to the problem. It is the aim of this Commission to keep informed as to the progress being made in tuberculosis control and we are hopeful that by the end of 1958 the situation will be greatly improved.

MISCELLANEOUS

It was brought to the attention of the Commission that on several occasions individuals were apprehended for impersonating building inspectors and, in order to eliminate similar occurrences in the future, arrangements were made to have photos taken of all building inspectors by the Fire Department photographer, these photos to be attached to the inspectors' identification cards. (Fire and Health Department Inspectors have been using the photo system of identification for several years.)

Discussions were held at various times during the year on the practices and procedures being followed in boarding and nursing homes for the aged where, upon cursory examination, it was found that in many privately operated homes it was the custom or practice to be lax in providing maximum comforts, for which inmates were paying. It is the intention of the Commission to intensify its campaign against such operations through the facilities of the Health Department and, possibly the Police Department, if necessary.

A Dental Clinic Program was inaugurated during the year by the Health Department, with a view to installing dental chairs and equipment throughout the various schools in the city, thereby realizing a saving in transportation costs and making more accessible dental treatment for children. In addition, installation of such equipment in parochial schools is now under consideration, with such schools standing part of the expense. Dental units cost in the vicinity of \$400 and, through eliminating the necessity of transferring children to dental clinics in town and making dental treatment for children more accessible, the costs for this installation are considered an investment well worth while and one that should be expanded in the future.

Both the Building and Health Departments, because of their experience in demolition procedures, have been most helpful to other departments in prosecuting this type of work. For example, the demolition of the North End Pier and the Ferry House in the North End were being held in abeyance until some set procedure was established and, except for the cooperation of this Commission and the Building Department, it is doubtful if these projects would have been initiated up to the present time. However, the Building Department offered its services to solicit bids for the razing of both properties and started the ball rolling on these two important eyesores.

Regarding the enforcement of the Building Code and Building Department regulations, it has been a practice in the past to be a little lenient with violators, with the result that such violators took advantage of the city's leniency and hesitated to correct abuses — some major and many minor. However, at the insistence of this Commission, the Building Department has been taking many of these so-called violators to court during the

past year, with the result that stricter attention is now being paid by violators upon receipt of the first notice of a violation.

Under date of December 9, 1957, a new statute governing all-night parking on alternate sides of the streets went into effect. This Commission, in cooperation with the Traffic Commission and the Law Department, was successful in securing this legislation which should be most helpful in the plowing of streets during and after snow storms, providing a greater accessibility for fire apparatus and ambulances on emergency calls and the eliminating of traffic tie-ups in some of the congested and narrow ways throughout the city. It will take a little time to acquaint and educate car owners to the provisions of this new law, but as soon as a few offenders are taken into court, it is believed that we will receive the wholehearted cooperation of the community, with resultant decreases in accident and fire losses.

A year-round program for painting parking meters and traffic lights was put into effect during the early summer, with regular employees of the Traffic Department performing the work at less cost than that which obtained when this work was awarded to private contractors. Special attention was devoted to center lines and crosswalks in the vicinity of churches, schools, libraries, etc., for the safety of the pedestrian.

The Health Department has expanded its Public Health Education Publicity Program by the distribution of press releases to all areas of Metropolitan Boston, in addition to the main and local Boston news agencies. We are confident that this work will pay off in a reduction of accidental deaths by drowning, heat exhaustion, sunstroke, athletic accidents and common everyday accidents in the home.

The appearance of the Building Department offices has taken on a new look during the past year, with divisions being relocated in more accessible locations and a new layout and redesign effected, making for a higher degree of efficiency in operations and a more businesslike atmosphere in surroundings.

With a view to securing additional revenue from dilapidated properties throughout the city, both habitable and non-habitable, many of which are detrimental to the health and safety of the community, and from

which the city has received little or no revenue over a long period of time, with little or no prospect of collecting anywhere near the amounts levied, it was the Commission's decision to look into the matter with a view to collecting taxes in every case where rents are being received by owners of such properties. It was also believed that, in the event of a fire and the city is required to raze such properties covered by insurance, the owner or insurance company should be required to pay for the cost of such demolition. As there are certain legal technicalities attached to both questions, the matter was referred to the Law Department for an opinion. As soon as we receive definite instructions from the Law Department as to what course the city should now take in cases of this nature, this Commission will recommend the carrying out of same at the earliest possible date.

A restaurant code and a code for food vending vehicles were adopted last year by the Health Department, with a view to placing a closer control over food handling and distribution. Incidentally, this is the first city in the Commonwealth to adopt such a code and it is believed that other cities and towns throughout the state will follow suit.

SUMMARY

The year's activities have been centered, more or less, on expediting the Demolition and Inspectional Programs, not only for the safety of the general public but for the furtherance of the Urban Renewal Program which has been accelerated through the joint efforts of the Building and Health Departments and the efficient supervision of John A. Murray, the Director of Demolition and Restoration.

The results of previous years' deliberations have borne fruit, and the year 1957 was the first full year many of the recommendations and suggestions of the Commission went into effect, the more important of which are listed herewith:

1. A new Housing Code.
2. The establishment of a Public Health Council.
3. The continuing fight against polio, Asian flu and tuberculosis.

4. The elimination of dangerous coasting areas.
5. Further improvement in Fire Department operations.
6. The adoption of safety regulations for the operation of elevators.
7. All new building plans being inspected by the Fire Department prior to final approval by the Building Department.

We have found the public safety field a most interesting one, which presents a different type of challenge each year. Our deliberations and discussions have been most educational and enlightening, and our recommendations and suggestions are always based on the interests of public safety in the first instance and on an efficient and speedy carrying out of such recommendations and suggestions in the second instance. Through the coordination of Building and Health Department operations we intend to make a large dent in the Demolition Program during the present year and place our Inspectional Programs in the Fire, Health and Building Departments on a sounder basis, with methods of procedures and of inspecting, reporting, etc., uniformly organized so that the net result will be increased production and greater efficiency in operations. It is difficult to visualize just what safety problems may arise during the present year but, in addition to the two items previously mentioned, we intend to follow through on the following programs upon which we have only touched the surface during 1957, namely,

The Dental Clinic Program,
More thorough inspection of Nursing Homes for the aged,
Enforcement of Building and Housing Code Violations,
Further Improvements in the Health, Building and Fire
Department Operations,
Several Minor Safety Measures which we have already
mentioned in this report.

Although the powers of this Commission are limited under the Ordinance as established, we are nevertheless interested in all phases of public safety and, with the publicity attached to juvenile delinquency, to atomic and hydrogen bombs, intercontinental missiles, etc., we were wondering whether or not the time is not too far distant when you should consider the advisability of

appointing to this Commission a representative of the Civil Defense organization and a representative of the Police Department to not only augment the operations of the Commission, but to keep us in closer touch with these important matters which, at the present time, are recognized problems of international rather than local interest. Your thoughts in this connection will be greatly appreciated.

BEACON HILL ARCHITECTURAL COMMISSION

JOHN CODMAN, *Chairman*

ISIDOR RICHMOND, *Vice-Chairman*

FRANK J. COUGHLIN, *Secretary*

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This report for the year 1957 is the third annual report of the Beacon Hill Architectural Commission, which, in accordance with the provisions of Chapter 616, Acts of 1955, is herewith submitted through the Building Commissioner.

The Commission, whose duty it is to pass on the appropriateness of all changes to exterior architectural features of structures in the historic Beacon Hill district, held seven meetings in 1957. Fees for Certificates of Appropriateness amounted to \$130.00. Cases before the Commission were disposed of as follows:

1. Certificates of Appropriateness issued . . .	26
2. Certificates of Appropriateness rejected . . .	2
3. Certificates of Appropriateness pending . . .	2
4. Certificates of non-applicability given . . .	31
5. Approvals given for ordinary repairs . . .	28
6. Advisory, no action required . . .	4
Total cases	93

For 1956, 73 cases were handled.

The membership of the Commission, as appointed by your Honor, remained the same throughout the year, as follows:

Member	Nominated By	Term Ends
John Codman, Chairman	Boston Real Estate Board	May 1, 1962
Robert E. Minot	Beacon Hill Civic Association, Inc.	May 1, 1961
Charles A. Callanan	The Mayor	May 1, 1960
Andrew H. Hepburn	Society for the Preservation of New England Antiquities	May 1, 1959
Isidor Richmond, Vice Chairman	Boston Society of Architects	May 1, 1958

Frank J. Coughlin, Executive Secretary of the Building Department, continued to act as secretary to the commission.

The Commission has continued to receive wholehearted cooperation from the Building and other city departments and from the public concerned with its work. We believe that it is filling its purpose of promoting "the educational, cultural, economic, and general welfare of the public through the preservation of the historic Beacon Hill district and of maintaining said district as a landmark in the history of architecture and as a tangible reminder of old Boston as it existed in the early days of the Commonwealth."

As the aspect of Boston proper is modernized by the many dramatic projects now in progress or soon to be undertaken, the significance of preserving Beacon Hill will become more and more apparent.

A city which replaces the obsolete and yet preserves from its past that which is beautiful and still useful is not only progressive, but has character, charm and interest for all.

Respectfully submitted,

JOHN CODMAN, *Chairman.*

THE FORTY-FOURTH ANNUAL REPORT
OF THE
CITY PLANNING BOARD

FOR THE YEAR ENDING DECEMBER 31, 1957.

BOSTON, January 31, 1958.

HON. JOHN B. HYNES,
Mayor of the City of Boston.

DEAR SIR:

The City Planning Board submits herewith, in accordance with the provisions of section 24, chapter 3, Revised Ordinances of 1947, its forty-fourth annual report, containing a statement of its acts and doings and receipts and expenditures for the year ending December 31, 1957.

The Board, at its annual meeting on May 14, acting under the provisions of section 9, chapter 3, of the Revised Ordinances of 1947, elected Timothy J. Regan, Jr., as chairman and re-elected Joseph A. Mitchell as vice-chairman for the ensuing year. Donald M. Graham, who was first appointed by the Board on January 7 as Planning Administrator, was reappointed, as was the Director of Planning, Thomas E. McCormick, and the secretary, Miss Mary T. Downey. These reappointments were approved by your Honor, in accordance with section 3, chapter 4, Ordinances of 1954.

Shortly before the annual meeting the resignation of Thomas F. McDonough, chairman and member of the Board since August, 1948, was received. Resolutions expressing appreciation by the Board of the services of Mr. McDonough are incorporated herewith. To fill the re-

mainder of his term, ending April 30, 1958, Mr. Robert A. MacLellan was appointed on May 6, 1957. The following resolution was adopted by the City Planning Board:

Whereas, For nine years preceding May 1, 1957, Thomas F. McDonough served as chairman of the City Planning Board of Boston with skill, industry, and accomplishment; and

Whereas, The General Plan for Boston, a guide for future generations, was developed from the scope of his vision and warmth of his devotion to his native city, and

Whereas, The city's first urban redevelopment projects, the Central Artery, a system of municipal parking garages, the Rezoning Study, Government Center and North End Water Front Proposal were either planned or brought into existence during his Chairmanship; and

Whereas, In summation, Thomas F. McDonough has counseled and led the Planning Board in great accomplishments marking the first step in the rebuilding of the City of Boston; be it

Resolved, That the Mayor of Boston and the City Planning Board regret keenly the retirement of Mr. McDonough and do hereby extend their deep appreciation for his outstanding civic contributions, as well as wish him all success and good health in his continuing achievements as one of the city's foremost architects.

(signed) JOHN B. HYNES, *Mayor*
and Planning Board Members

Samuel G. Fish, who had served as a member since September, 1952, died suddenly on February 12, 1957.

The following resolution was adopted by the City Planning Board at its meeting on Tuesday, February 26, 1957, on Samuel G. Fish:

Whereas, Almighty God, in His wisdom and mercy, has seen fit to remove from our midst by death our faithful and esteemed associate and friend, Samuel G. Fish; and

Whereas, Samuel G. Fish, in his six years as a member of the Boston City Planning Board, has given generously of his time and outstanding ability to the work of the Board; and

Whereas, His loss will be felt by the members of the City Planning Board to a degree rarely experienced and difficult to express; therefore, be it

Resolved, That in tendering our sympathy to his sorrowing family in their bereavement, we record our own deep appreciation of his work and his worth in the service he has rendered to the City of Boston; and be it further

Resolved, That these resolutions be forwarded to the family of our late associate and that they be also spread upon the permanent records of the meeting of the City Planning Board.

Mr. Carl Dreyfus was appointed to serve the unexpired portion of Mr. Fish's term, ending on April 30, 1962. Mr. Dreyfus took office on May 8, 1957.

During the year twenty-two formal meetings and many informal meetings and conferences were held.

As in previous reports, the various problems studied during the past year are presented herewith in as much detail as appears advisable for purposes of record, while all the maps, plans, charts referred to are on file in the office of the Board, and are open for inspection.

Very truly yours,

TIMOTHY J. REGAN, JR.,
Chairman.

THE GENERAL PLAN

During 1957, the Board's program continued to be concentrated largely on the so-called central area, including the central business district and the intown residential areas. The two most outstanding projects in the central area study are the Government Center Study and the Retail Core Study.

GOVERNMENT CENTER PROJECT

Following the publication of the Board's "Government Center Study, a Preliminary Report" in August, 1956, widespread support for the proposal developed. It received the immediate endorsement of Mayor Hynes as well as favorable response from the press. It has had the sustained support of the Greater Boston Chamber of Commerce among other prominent civic groups.

Though on occasion the staff worked with the Citizen Committee on the government center, it was not until September of this year that a renewed effort was made to effectuate this plan. With the formation of the Com-

mittee on Civic Progress and its desire to concentrate its efforts on a significant project in the rebuilding of Boston, a plan for action was developed.

Since the proposed project area qualifies as a decadent area under the provisions of chapter 121 of the General Laws as amended by chapter 613 of the Acts of 1957, it was decided to prepare the study as a redevelopment project wherein the Boston Redevelopment Authority would serve as the land purchase agent and would prepare with the assistance of the City Planning Board a redevelopment plan.

Necessary legislation was prepared for consideration by the 1958 Legislature to permit the city to borrow funds to build the Federal Building on a lease-purchase basis and also to build a City Hall.

As part of the preparation for a meeting of Mayor Hynes and members of the Committee on Civic Progress with General Services Administration officials scheduled for January 15, in Washington, a brochure containing a revised plan for the Government Center was nearing completion at the year's end.

RETAIL CORE STUDY

Intensive planning and design studies of Boston's downtown retail core were stepped up during 1957. This emphasis within the central area planning program was particularly timely in view of the growing concern for the future of the Retail Core area which was enlivened by the closing of two large retail establishments during the year.

During its initial phases, this study is concerned especially with the area between Tremont street and one block east of Washington, from Court street on the north to Stuart street on the south. Basic study objectives are to produce practical guides for the renewal of this area in a manner consistent with informed views and analyses on the prospects for the retail function in the downtown business district.

At the invitation of the Board a conference was held with representatives of the Tremont street retail business concerns, at which the problems and vicissitudes of the area were discussed. Lack of parking seemed to be the main complaint.

Toward the end of the year, the Planning Board met at a luncheon meeting with the Planning Committee of the Committee on Civic Progress. Also present at the luncheon were representatives of the Arthur D. Little Company, who were processing a report, referred to below, on the redevelopment of the retail district. The Board took this occasion to acquaint the Planning Committee with the work being carried on in the department. The Planning Committee in return discussed several of the projects mentioned, from the point of view of priority and the committee's desire to concentrate its efforts in the beginning on obtaining action on one or two of the most promising proposals.

NORTH END WATER FRONT PROPOSAL

Though the Board's proposal for redevelopment of the Atlantic Avenue water front had lain dormant since it was published in May of 1956, some interest was manifested towards the end of the year. It would appear that prospects for the fulfillment of the project will be definitely enhanced when a beginning is made on the Government Center.

ARTHUR D. LITTLE REPORT

In December, Arthur D. Little, Inc., issued its report on "Preliminary Research for the Development of Boston's Retail District." The report was contracted for by the Planning Board for the purpose of identifying useful research and suggesting means by which research could be conducted by the staff. The report, after noting that retail sales in the central business district will still continue to decline, recommended that there be an increased research effort by the staff, that the program of research be a continuing one, and that a research director with extensive training and experience in economic research and with knowledge of its application to the city planning function be appointed. It recommended travel pattern studies, examination of the pattern of ownership, a study of retail operating expenses, investigation of methods for transition from the present to the future, including taxation legislation and other action that may be taken by public and private agencies for the well-being of the community, and that the staff proceed with plans for redevelopment on the basis of a declining demand for retail space.

ZECKENDORF PROPOSAL AND "PRUDENTIAL CENTER"

During the early part of the year the staff continued to cooperate with representatives of the Zeckendorf interests in providing information and discussing the proposal for a major redevelopment of the South Station area.

Coincident with the announcement that the Prudential Center had purchased the 28-acre Boston & Albany Railroad yard site from the Stevens Development Corporation, Mr. Zeckendorf in a public release indicated that he was indefinitely discontinuing his plans for development in Boston.

On the other hand, the Prudential Insurance Company at a meeting with Mayor Hynes agreed on a plan of action to carry out its proposal for the development of "Prudential Center." Planners, architects, and engineers are under contract for plan development. At the end of the year the company took over a building on Columbus avenue to accommodate some hundreds of employees which would be needed for its expanded operations. Mr. Shanks, President of the Prudential Company, has been and continues to be optimistic on the soundness of investment in Boston.

Chapter 718 of the Acts of 1958, amended chapter 165, Acts of 1954, and authorized the city to borrow up to \$12,000,000 outside its debt limit to construct, operate, and maintain an auditorium and exhibition hall in connection with the development of Prudential Center. Construction of an auditorium has been a long-felt need among business and hotel interests, and Boston's attraction as a convention city has been hampered by the lack of a large convention hall.

TRANSPORTATION

EXPRESSWAYS

Construction progress continued under the Massachusetts Department of Public Works on the John F. Fitzgerald Expressway and the Southeast Expressway during the year. All property takings along the line of these expressways have been completed, and contracts for construction of the interchange connection between the two expressways at Southampton street were being readied at the end of the year.

The Fitzgerald Expressway, running from the Mystic River Bridge to Massachusetts avenue, is scheduled to be completed in the spring of 1960, will be 3.7 miles in length, and is estimated to cost \$110,000,000.

The Southeast Expressway is scheduled for completion in the spring of 1960, is 4.2 miles in length, and the estimated cost is \$31,678,000, not including the Roy C. Smith Bridge over the Neponset River which cost \$1,500,000.

Studies and discussion of the Inner Belt Route and the Southwest Expressway were carried on during the year at staff level and through the Inner Belt Committee, an informal group with representatives from Boston, Brookline, Cambridge, and Somerville. Studies of downtown circulation also continued during the year in connection with plans being developed for the Government Center and Retail Core.

COVERDALE AND COLPITTS REPORT

In July, 1957, a "Report on Traffic Studies for the Boston Metropolitan Area" by the consulting firm of Coverdale and Colpitts was released by the Massachusetts Department of Public Works. This report noted that current traffic volumes were already in excess of predictions for 1970 which were made in the 1948 Master Highway Plan for the area. It recommended increases in the capacity of the expressway system, immediate construction of a new two-lane tunnel parallel to the Sumner Tunnel, and proposed in addition to the basic 1948 plan: (1) a new bridge parallel to and south of the Sumner Tunnel, (2) extension of the Massachusetts Turnpike to a dead end at South Station, and (3) a new inner expressway "along an alignment extending from the vicinity of . . . Southampton street, the junction of the Southeast Expressway and the Belt Expressway, across downtown Boston, passing as near as practical the west end of the Boston Public Garden (parallel to Berkeley street) and then across the Charles River to connections with the Northern Expressway near . . . Sullivan square."

ROSLINDALE SQUARE

In response to a communication from the Roslindale Board of Trade, the Planning Board made a complete review of past proposals for the elimination of traffic congestion in Roslindale square. In December the Board

reported its recommendation to the Mayor. The plan showed a widening of South street from Belgrade avenue to Washington street and would permit two-way traffic. It also showed a direct connection between South street and Cummins Highway by reassigning a swath of land in the park to use as a street, which was discontinued in 1919. The estimated cost of the improvement amounted to \$275,000, \$175,000 of which is for land taking. Half the cost of construction would be made available from Chapter 90 funds.

OFF-STREET PARKING

Downtown

The fourth and fifth garages in the city's program were completed during the year. In June the St. James garage, containing 625 spaces and costing \$2,452,000, was opened, and in December the Hayward Place garage, the city's first mechanical-type garage, was opened for business. The latter garage, containing 700 spaces, was erected under the 40-year lease clause. Cost of acquisition to the city was \$1,025,600, and the cost of construction paid by the lessee was \$1,577,000.

During the year construction started on the Fort Hill Square garage and the Bedford-Kingston Street garage. The former will contain 650 spaces, costing \$1,519,200, and the latter 715 spaces, costing \$2,207,550.

Land has been acquired for two additional garages, one at Central and Kilby streets in the heart of the financial district and the other at Blackstone and John streets in the market area. Both of these garages, the eighth and ninth in the city's program, will be of the mechanical type, will provide 700 spaces each, and will bring the total of municipal garage spaces to 6,195.

Surface parking, under municipal auspices, amounts to 530 spaces, 200 at Franklin and Pearl streets and 330 under the Fitzgerald Expressway at the Sumner Tunnel.

An additional 1,000 car spaces have been supplied through private construction, 350 at Beach and Lincoln streets, 350 on High street by the United Shoe Company, both ramp garages, and 300 on Province street, a mechanical-type garage which is scheduled to open on January of 1958.

SUBURBAN

During the year the Real Property Department established a metered parking lot on Thomas street, near Centre street, containing eighty spaces. This makes a sum total of 617 spaces provided in eight locations by the city for off-street parking in suburban business districts.

BOSTON COMMON UNDERGROUND GARAGE

Chapter 701 of the Acts of 1957 authorized the construction and operation of a parking garage under the Common and created the Boston Common Garage Authority to construct and operate the garage. The Authority shall consist of the Commissioner of Parks and Recreation, the Commissioner of the Real Property Department, and the Chairman of the Boston Traffic Commission, ex officio, and four members to be appointed by the Mayor from nominations by the Boston Bar Association, Boston Real Estate Board, Greater Boston Chamber of Commerce, and the Retail Trade Board. It requires acceptance by the City Council, but no action had been taken at the end of the year.

RAPID TRANSIT

M.T.A. Extension to Brookline and Newton

Chapter 450 of the Acts of 1957 authorized and directed the Metropolitan Transit Authority to extend rapid transit facilities over the right of way of the Highland Branch of the Boston & Albany Railroad to Riverside in Newton. The act authorized a half-mile addition to the Boylston street subway to connect the new line with the M.T.A. system and stipulated that the cost of the Highland Branch extension should not exceed \$9,200,000. At the end of the year necessary steps in the advancement of the project had been taken. The project now awaits approval by the Public Utilities Commission of the Boston & Albany's application to discontinue railroad commuter services on this branch.

URBAN RENEWAL, REDEVELOPMENT, AND
HOUSING

LEGISLATION

Chapter 150 of the Acts of 1957 provided for the establishment of a separate Redevelopment Authority in Bos-

ton. In December to assume redevelopment functions formerly handled by the Boston Housing Authority Mayor Hynes appointed Mr. Joseph W. Lund Chairman of the Authority and Monsignor Francis J. Lally and Messrs. James G. Colbert and Stephen E. McCloskey as members. Mr. Melvin J. Massucco was the appointee of the State Housing Board. Previously the Housing Authority had the dual responsibility of carrying out public housing and redevelopment functions.

Chapter 613 increased the amount of indebtedness that a city or town may incur for renewal projects to 2 per cent of the average of the assessors' valuations of its taxable property for the three preceding years.

WORKABLE PROGRAM

The city's application for recertification of the Workable Program for Urban Renewal was submitted to the Housing and Home Finance Agency on June 18. The application was prepared by the City Planning Board in cooperation with the Urban Renewal Division of the Boston Housing Authority, the Department of Administrative Services, and other interested departments.

COORDINATING COMMITTEE

The Urban Renewal Coordinating Committee, which was established in July of 1956, continued to meet at the Planning Board office. Following the death of John A. Breen, the first chairman of the committee, Mr. William Arthur Reilly, the new Director of Administrative Services, became chairman in December. During the year the efforts of the committee were directed towards coordinating the work of the Health Department, Building Department, and Fire Department inspection groups to the end that the older sections of the city would be explored and surveyed with the intent of demolishing properties that are beyond restoration.

At the end of the year the Director of Demolition reported that 500 buildings had been razed since the program was inaugurated and that another \$300,000 had been appropriated for this work in addition to the original \$500,000 loan order.

The Health Commissioner reported that with the aid of temporary inspectors 27,000 units had been inspected.

His department was now tabulating the results and he requested guidance from the committee concerning the areas where code enforcement should be stepped up.

STAFF STUDIES

City-wide urban renewal studies conducted previous to 1957 identified areas and their respective renewal needs, enabling the staff to select renewal study areas at the community level for more detailed analysis. To facilitate community planning and renewal, the Community Renewal Division was formed in April to prepare community plans and recommend renewal needs and programs for each community. Studies were immediately undertaken for two communities: (1) Mattapan and (2) Parker Hill, Roxbury.

The community plans for Mattapan were completed and submitted to the Urban Redevelopment Authority. The base maps and plans were used in the application to HHFA for approval of the Mattapan project.

Preliminary plans were developed for the Parker Hill area, and final plans await priority designation of a renewal project in the area.

Recognizing the urgent need for rehabilitation and conservation measures as well as redevelopment, a study was made to determine rehabilitation and conservation areas of first priority to formulate Boston's first neighborhood renewal program. In October the first general study area for neighborhood renewal was recommended to the Urban Renewal Coordinating Committee and approved by that body. The study area selected was Roxbury, covering approximately 2,400 acres and homes of 140,000 persons. Through December the staff prepared detailed studies of survey areas within this study area and started preparation of a report on a neighborhood renewal program with Roxbury as the first priority area.

Concurrent with the development of a report on neighborhood improvement the staff prepared first drafts of a much-needed report on the total renewal problem in Boston, setting forth goals and principles for consideration of the Planning Board and for subsequent approval and action by the Urban Renewal Coordinating Committee and Redevelopment Authority.

During the year, the Planning Board staff representatives on the Urban Renewal Coordinating Committee

worked in close coordination with the other city departments in preparing procedures to be followed by the respective departments, with the objective of coordinating their forces in a city-wide renewal program.

Members of the Planning Board staff also met with citizen groups throughout the city periodically to advise of the city's progress in urban renewal. Citizen participation in the urban renewal program is particularly advanced in Roxbury, the South End, and Charlestown, as a result of meetings with active groups in these districts.

COMMITTEE ON PUBLIC HOUSING

In connection with the Boston Housing Authority's request to the City Council for authorization to build 3,000 additional units for such housing, Mayor Hynes appointed a committee to report on the need of public housing. The chairman and administrator of the Planning Board are members of the committee, and at the request of the committee a memorandum report was prepared by the Planning Board, covering favorable and unfavorable factors for committee consideration but without recommendations at that time. No decision had been made at the end of the year.

REDEVELOPMENT PROGRAM

New York Streets

The New York Streets Project, the first in Boston's redevelopment program, is now in the construction stage. The Boston Herald-Traveler Corporation has commenced the building of its new newspaper plant on a six-acre tract of the fourteen-acre project.

West End

In accordance with section 26KK of chapter 121 of the General Laws the Planning Board voted formal approval, on April 23, of the West End Redevelopment Plan.

The loan and grant contract with the federal government was being prepared in December with the expectation that it will be executed in January, thus permitting the Redevelopment Authority to commence taking proceedings.

Mattapan

A final plan was submitted by the Urban Renewal Division of the Housing Authority to the Housing and Home Finance Agency for final review. If approval is obtained it will then be submitted to local authorities for their approval preparatory to developing a loan and grant contract.

No action has been taken on recommendations of the Urban Redevelopment Division concerning the redevelopment of the "South Cove" and the Rutherford Avenue area of Charlestown. These proposals will be reviewed by the new Redevelopment Agency.

SCHOOLS AND RECREATION

LEGISLATION

Chapter 402 of the Acts of 1957 authorized the acquirement of the Franklin Park Zoo by the Metropolitan District Commission from the City of Boston. The transfer of custody and control is scheduled to take place on January 1, 1958.

Chapter 716 directed the Metropolitan District Commission to construct and maintain a playground containing 95,000 square feet of land in Dorchester, between Gallivan Boulevard and Minot street, in the vicinity of Gilmartin road.

SYSTEMS STUDY

Work on the combined study of the school and recreation systems continued during the year. A preliminary plan, based on a careful evaluation of the existing facilities, has been formulated as a guide towards long-range goals in the location and construction of new facilities. Some detail work remains to be done on the integration of the two systems, an important phase of the study. Though the plan is still a staff study pilot plan, it serves as one of the detailed elements of the general plan as a basis for capital improvement programming and as necessary background for renewal planning.

The Board prepared a plan for the proposed utilization of eighteen acres of the southwest corner of Franklin Park as a site for a new Technical High School. A bill entered in the Legislature requesting authorization for the transfer of this land from the Park Department to the School Department failed to pass.

The Board acted favorably on a referral of the Law Department proposing the sale of a large parcel of undeveloped land at Baker and Gardner streets in West Roxbury, which is under the jurisdiction of the Parks and Recreation Commission.

REZONING

A third draft of the proposed zoning code, with a set of printed maps, was issued in a limited number in April. This was distributed to members of the City Council, the Board of Zoning Adjustment, the Board of Appeal, the Building Department, and to an advisory committee of prominent citizens. Joint conferences were subsequently held with these officials and other interested groups in review of the proposed text and zoning districts as shown on the maps.

The Board, with the consultants and staff representatives, met with the City Council in May regarding the Zoning Enabling Act, Chapter 665 of 1956, which required Council acceptance before June 1, 1957. No agreement could be reached on City Council objections to certain provisions of the act. On petition of the Council, Chapter 408 of the Acts of 1957 was enacted. This extended the time for acceptance by the City Council from June 1, 1957, to June 1, 1958. An amendment was subsequently filed for consideration in the 1958 legislation, which comprised modifications in the present act necessary to meet City Council objections.

Review of zoning proposals was continued in several sessions at staff level with a representative of the Building Department. Members of the staff and consultants met several times with Mr. Kerr of the Law Department on definitions and the general form of the proposed regulations. The regulations as presently proposed, however, are still subject to detailed study and final review by the Law Department.

CAPITAL IMPROVEMENT PROGRAMMING

In January, 1957, the Planning Board submitted its sixth annual six-year Capital Improvement Program in accordance with section 5, chapter 4, of the Ordinances of 1952. This program recommended a total six-year expenditure of \$128,000,000. Of this amount only \$89,000,000 was scheduled to come from municipal funds. The remaining \$39,000,000 was to be obtained from state

funds for highways, bridges, and schools; from the federal government for urban redevelopment and urban renewal, from private funds for parking garages; and from trust funds for the Central Library and Park Department.

The program recommended a six-year borrowing program amounting to \$76,355,000, an average of \$12,500,000 per year. However, almost \$33,000,000 of this had been previously authorized and was available to be issued and used.

Over two thirds of the total funds to be spent were allocated for transportation facilities (streets, bridges, off-street parking) and educational and recreational facilities (schools, libraries, playgrounds). Other major allocations were for the new South Bay Incinerator, five new fire stations, major repairs to the City Hospital and to the utility systems at Long Island. Funds were also included in the program for the West End Redevelopment Project and for urban renewal.

During the latter part of the year the staff began the preparation of the 1958-63 Capital Improvement Program which will be released early in 1958.

LEGISLATION

METROPOLITAN DISTRICT COMMISSION

Chapter 620 provided for a further transfer of streets in the City of Boston to the Metropolitan District Commission. By this act the Commission is directed to maintain and police the following streets: Bussey street, between Walter and South streets; South street, between Bussey street and the Arborway and Washington street; Walter street, between Bussey and Centre streets; and Dedham street.

Chapter 627 authorized the Metropolitan District Commission to construct, enlarge, and improve its recreational facilities within the metropolitan parks district and appropriated up to \$5,000,000 for this purpose.

METROPOLITAN PLANNING AND TRANSPORTATION

Chapter 135 is a resolve providing for an investigation and study by an unpaid special commission relative to the creation of a metropolitan district and a metropolitan planning council. The commission will report in January of next year.

Chapter 121 is a resolve providing for an investigation and study by an unpaid special commission relative to

the creation of a Metropolitan Rapid Transit Commission to study the extension of rapid transit service in the Boston metropolitan area.

BILLS THAT FAILED OF ENACTMENT

S-584—Bill to enable the City of Boston to construct a new City Hall and to construct and sell to the United States a Federal Office Building.

S-497—Bill providing for the construction of a State Office Building in the City of Boston.

H-1889—Bill authorizing the City of Boston to borrow money for the preparation of new cadastral maps of the city.

H-1934—Bill directing the Massachusetts Port Authority to construct an additional vehicular crossing between Boston Proper and East Boston.

S-239—Bill providing for a study by the Department of Public Works of the advisability and feasibility of constructing the Western Expressway from Boston to Route 128.

PLANNING CONFERENCES

During the year the Board was represented at the following conferences:

East Lansing, Michigan	Conference on Working Problems in Urban Renewal, Kellogg Center, Michigan State University, February 22-26, 1957
New York, New York	ACTION, Regional Meeting at Hotel Roosevelt, September 23-24, 1957
Washington, D. C.	National Association of Housing and Redevelopment Officials at Hotel Statler, January 24-25, 1957
St. Louis, Missouri	National Association of Housing and Redevelopment Officials at Hotel Sheraton-Jefferson, October 22-25, 1957
San Francisco, California	American Society of Planning Officials, National Planning Conference at Hotel Sheraton-Plaza, March 17-21, 1957
Chicago, Illinois	American Institute of Planners at Hotel Congress, October 13-17, 1957

Fall River, Massachusetts Massachusetts Federation of
Planning Boards, Annual Meet-
ing at New Bedford Hotel, No-
vember 2, 1957

These conferences were attended by representatives of the Board or staff who were either among the speakers or took an active part in the discussions. The conferences serve a very useful purpose, making possible the exchange of ideas on planning techniques, administration, and promotion with the foremost experts in the planning field throughout the country.

THIRTY-FOURTH ANNUAL REPORT
OF THE
BOARD OF ZONING ADJUSTMENT

FOR THE YEAR ENDING DECEMBER 31, 1957.

February 1, 1958.

*To the Mayor of the City of Boston
and
To the General Court of the Commonwealth
of Massachusetts.*

In accordance with the provisions of section 20, chapter 488, of the Acts of the year 1924, and amendments thereto, the Board of Zoning Adjustment of the City of Boston submits herewith, in the form of its thirty-fourth annual report, a statement of its acts and doings and receipts and expenditures for the year ending December 31, 1957.

During the year the following appointments and reappointments have taken place in the membership of the Board:

APPOINTIVE MEMBERS

David F. Supple, upon nomination of the Associated Industries of Massachusetts, was reappointed for the term ending May 1, 1962.

Robert W. Fowler, Jr., upon nomination of the Boston Real Estate Board, appeared before the City Clerk under date of October 18, 1957, and was sworn as principal member for the term ending May 1, 1962.

Timothy J. Regan, upon election as chairman of the City Planning Board on May 14, is the ex officio member.

RESIGNATIONS

Mr. Thomas F. McDonough, having resigned as chairman of the City Planning Board, automatically relinquished his ex officio membership on the Board of Zoning Adjustment. Resolutions on his resignation were formally adopted by the City Planning Board and are contained elsewhere in this report.

ALTERNATE MEMBERS

John Codman, upon nomination of the Boston Real Estate Board, appeared before the City Clerk under date of May 9, 1956, and was sworn as alternate member for the term ending May 1, 1962.

C. Clark Macomber, upon nomination of the Associated Industries of Massachusetts, appeared before the City Clerk under date of May 27, 1957, and was sworn as alternate member for the term ending May 1, 1962.

Mr. John F. Murphy, vice chairman, who had served as a member of the Board for ten years, and for two years as vice chairman, found it necessary, because of business and personal matters, to decline a reappointment, and his letter of resignation was sent to the Mayor on June 12, 1957. The following resolution was adopted:

Resolutions Adopted by the Board of Zoning Adjustment at Its Meeting, October 2, 1957, on the Resignation of John F. Murphy from Membership on the Board.

Whereas, John F. Murphy, for over ten years a member of the Boston Board of Zoning Adjustment, for two years of that time its vice chairman, has found it necessary because of business and personal matters to decline a reappointment to the Board; and

Whereas, His years of service as a member and official of the Board, unpaid so far as material compensation is concerned, have earned for him the respect of all with whom he has come in contact; and

Whereas, By his resignation the City of Boston has lost the services of an eminent realtor, who has an outstanding knowledge of the city's problems, particularly as regards zoning, economics, and tax difficulties, and a man of unusual public spirit and civic ability; be it

Resolved, That the Board of Zoning Adjustment, while it regrets keenly the necessity that compels Mr. Murphy's withdrawal at this time, nevertheless accepts freely any arrangement that will tend to promote his business and personal aspirations; and be it further

Resolved, That the members of the Board of Zoning Adjustment, in recognition of his work and worth, are privileged to unite in this expression of gratitude to Mr. Murphy for his generous cooperation, of appreciation for his outstanding ability, and of sincere thankfulness for his friendship, understanding, and good will; and be it further

Resolved, That a copy of these resolutions be spread upon the records of the Boston Board of Zoning Adjustment, and that copies be sent to Mr. Murphy, his Honor the Mayor, and to the Boston *City Record*.

In accordance with the provisions of section 9, chapter 3, of the Revised Ordinances of 1947, the Board organized at an executive meeting on June 12, 1957, by its election of the following officers:

ALBERT V. COLMAN, *Chairman*

WILLIAM L. HYLAND, *Vice Chairman*

Thomas E. McCormick and Miss Mary T. Downey were reappointed respectively as engineer and secretary.

The method of procedure in connection with petitions for changes in the boundary lines of the zoning districts remains unchanged. Public hearings, executive sessions, and inspection trips were held as found necessary, the staff of the City Planning Board rendering such assistance as was essential in the way of investigations, field surveys, drafting, and clerical work. A detailed record of the proceedings has been filed by the Board in the office of the Building Commissioner, as required by law. This record is open to public inspection, and notice of the decision has been mailed to all parties in interest.

PETITIONS

Since the enactment of the Zoning Law in 1924, a total of 426 petitions has been received, 361 for changes in boundary lines, and 65 for review of Board of Appeal decisions on height variances.

This year one decision authorizing a change in boundary lines was the subject of an appeal to the Superior Court and the action of the Board was upheld. However an appeal to the Supreme Court is pending. A similar situation exists regarding a 1956 decision of the Board.

In but four instances have decisions of the Board been set aside. In these cases the question of procedure was at fault while the constitutionality of the Board was definitely upheld.

LEGISLATION

There were no amendments to the Zoning Law during the year. However, there was an amendment to chapter 665 of the Acts of 1956, the new zoning enabling act for the City of Boston in the form of chapter 408 of the Acts

of 1957. This amendment extended the time of acceptance of the act by the City Council from June 1, 1957, to June 1, 1958.

The purpose of the amendment was to provide more time for the members of the City Council to propose amendments to the original act during the 1958 legislative session.

Also chapter 4 of the Ordinances of 1957, ordained by the City Council, provided for the exemption of officers and employees of the City of Boston and the County of Suffolk from certain fees and charges when representing city departments. No fee is therefore required of city or county departments which seek a change in zoning boundaries.

FINANCIAL STATEMENT

Fees for petitions filed with the Board are \$35 (chapter 40A, section 1, Item 319, Ordinances of 1956). Eleven petitions were filed and \$385 has been deposited with the City Collector during the year. There is no fee required for review of Board of Appeal petitions on height variances; five such petitions were received during the year.

The Board was allowed \$2,360 in the regular budget for operating expenses in 1957. During 1957 the following expenditures were made:

ANNUAL REPORT
OF THE
DEPARTMENT OF CIVIL DEFENSE
FOR THE
YEAR ENDING DECEMBER 31, 1957.

February 1, 1958.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

I am pleased to present the Annual Report of the Department of Civil Defense for the year commencing January 1, 1957, and ending December 31, 1957, concerning activities in the various phases of Civil Defense during the year.

Respectfully submitted,
FRANCIS C. CLEARY,
Director.

CIVIL DEFENSE ACTIVITIES, 1957

Statement of Policy

The policy adopted by Executive Order 31 of the Governor in February of 1956 has remained in force throughout the year. For this reason early in 1957 this department again distributed both the Letter to Parents and Consent Cards to all public and parochial schools in Boston. Further distribution was made of placards and plans for the city indicating the evacuation routes which promised the best means of egress in times of emergency. This department participated and assisted in the work of the Survival Plan Project in outlining an evacuation plan for the state. However, it became increasingly apparent that the doubts expressed in our report of 1956 were well founded. The mass movement of hundreds of thousands of people under the best of circumstances is still a grave undertaking, and there are many indefinite factors which greatly complicate any evacuation plan. The constantly decreasing warning time and the hazards of radioactive fallout, possible in all parts of the country, motivated us to make a check on our shelter plan and we intend to continue exploring the possibilities of increasing protection for the people within the confines of the city.

Training Exercises

During the past year this department participated in four control center exercises held on March 11, April 8, May 5, and November 18. In each of these exercises we had very able and active participation by other city departments which would be involved in any grave emergency or disaster.

On May 24, 25, 26 we operated from an alternate control center located in the Fairmount School at Hyde Park as our participation in Operation Pre-Alert, which was the Massachusetts Civil Defense Agency's contribution to the National Civil Defense Test held in July. Transfer of location from the control center to alternate control center served a dual purpose. In the first place, it provided a safer place of operations in the event of a bomb being dropped on downtown Boston and, secondly,

it provided all control center personnel the opportunity of carrying out their functions without the normal accustomed conveniences of a standard control center.

The fourth control center exercise which was held on November 18 was conducted from 1 P.M. to 9 P.M. at the White Stadium and dealt with a severe phase of a natural disaster — a hurricane whipping across the state. This test proved to be more realistic and more within the scope of operations of all the departments and utility services represented. To make this test as practical as possible, all messages entering the control center were duplicates of messages that had actually been received in previous hurricanes or floods, or had been prepared by the engineers and officers of the various services as possible emergencies that should be anticipated.

From these control center exercises our department has been able to acquaint increased numbers of personnel in the protective and service groups of the city with a knowledge of disaster problems and the part which the various services play. The cooperation which we have received in all of these exercises has been excellent, and I feel that the city may well be proud of having produced so large a group of personnel able and willing to meet the unusual demands imposed on them by a disaster.

Training Schools

The training which was given to officers of the Fire and Police Departments in 1956 dealing with radioactivity and its possible hazards was continued in 1957. Lecturers from Civil Defense held classes at Fire Headquarters for the junior officers of the department every two weeks from January until June. In the course of these lectures lieutenants of the Fire Department were made familiar with radioactive elements, their use, and the hazards and methods of decontamination.

In February and March of this year this department sent two assistants to the director, a doctor from the Health Department, and two fire lieutenants to a course at Wellesley College conducted by the state for instruction in radiological monitoring. Two men were sent to the Federal Civil Defense Radiological School held at the Boston Edison Company on April 29, and

the five who had attended sessions at Wellesley College also attended the Atomic Energy Commission Radiological School held on June 25, 26, 27.

Police auxiliary units met monthly in the various police divisions under the supervision of the sergeant assigned to this work. This department has conducted two training schools consisting of six 2-hour sessions in radiological monitoring for the auxiliary police units in Division 14 and 17. The interest shown in these groups has caused us to make arrangements to extend this training program to other auxiliary police units in the city. We initiated a policy of giving a session on radiological hazards at the Boston Police Academy and have made commitments to continue these orientation lectures at future classes as they are held.

Last year Boston Civil Defense provided emergency medical treatment bulletins to medical schools to incorporate certain phases of emergency treatment into their curriculum. As part of this program we have given Civil Defense orientation lectures at dental and medical schools. This orientation of Civil Defense has been followed by other lectures given by faculty members on various types of specialized treatment necessitated by disaster conditions.

The fire auxiliaries have conducted their training throughout the year with weekly meetings. Much of this training in the good weather was performed at the Fire School in South Boston and the remainder was conducted in the fire stations throughout the city.

Schools

First aid courses were conducted in all Boston schools in May and June of this year. At the conclusion of the courses, first aid circulars were distributed to school children to take home, where they would be available to all the family during the summer months.

First aid books and flip charts for classroom teaching of first aid were distributed to all the Catholic high schools so that they would have proper equipment to initiate a first aid program.

Teaching of mass feeding was resumed in the Boston School System, and all the elements of such a course have been incorporated into the curriculum of the home

economics class. In this way, students will have the benefit of all the information and training without disturbing the normal teaching programs of the schools.

Routine Tasks

The following routine work has been carried on by the members of the department throughout the year:

1. Speaking engagements to clubs, civic and church organizations, hospitals, and nursing groups.
2. Liaison meetings with other Civil Defense units at national, state, and area level.
3. Meetings with the Red Cross.
4. Supervision and checking on siren system.
5. Maintenance of Civil Defense equipment such as trucks, generators, pumps, and radiac instruments.
6. Relocation and checking of all first aid supplies throughout the city.

Peacetime Emergencies

The unusually dry conditions which prevailed in the late spring resulted in forest fires in this area. This department cooperated fully with the Massachusetts Civil Defense Agency and operated the control center from May 8 to May 11 when the emergency ended. Two Civil Defense fire pumpers were sent to Manchester and two others to Plymouth, Massachusetts. At that time, we were fully prepared to send more equipment should it be necessary. At the request of the state and with the cooperation of the Boston Fire Department a crew of seven officers was assigned to the state to assist in the supervision of the fire-fighting forces at both Manchester and Plymouth. Relief crews were provided for operation around the clock.

The threat of an epidemic of Asian Flu caused this department to set up in cooperation with the Boston Health Department an information center which operated during the period of emergency. Civil Defense personnel were on duty sixteen hours a day from October 8 to October 21.

Matching Funds

We have acquired on a matching fund basis during the past year ten sirens, ten generators, and radio equipment on the fire, police, and public works bands. We have also applied for reimbursement on some of the fixed charges incurred by the maintenance of our air raid warning system and control center operations.

This program has proved of greater value to us than the surplus property program, which to date has not offered much equipment suitable to the needs of a Civil Defense program in a city such as ours.

Radioactivity

The testing of atomic and hydrogen weapons and the studies which have been made on the subject have proved that the radioactivity produced by fallout from a nuclear attack would create a most disastrous situation in this country. Such tests as have been held in Nevada have produced radioactive fallout sufficient to be measured thousands of miles from the scene of the testing. From this information it appears that in a nuclear attack the evacuation of large cities would be beneficial only to the extent that it protected people from the effects of blast. Under such conditions moving people into suburban or rural areas would place them in locations that for the most part offer inadequate protection against the amount of radioactive fallout that would ensue. This is one of the reasons why FCDA has proposed the creation of thirty billion dollars' worth of shelters throughout the country. Ironically, the greatest protection against heavy radioactive fallout lies in the steel and concrete buildings and the subways of the city, although it must be admitted that even these are not suitable for other than short-time occupancy.

In peacetime, radioactivity may be found in the air from cosmic rays, in minor form of fallout from the testing of nuclear weapons, and in the X-rays taken by people for various reasons. The first two sources of radioactivity we can do nothing about; however, the medical profession in recent months has done much to police the use of X-rays and to dispel any fears that people might have as a result of the articles on the normal hazards of radioactivity.

During the last two years the problem arose concerning the use of radioactive material in industry and the transportation of radioactive waste through the city. Over a year ago we initiated radioactive schools with the fire and police so that they would have information necessary for their own protection in the event of fire, explosion, or accident. During these sessions decontamination was stressed. This program was continued during the past year and extended to some 270 junior officers of the Fire Department and to certain auxiliary police units. Further extension of this program is planned for the coming year. Our program in this respect has helped focus attention on this problem, and several meetings of public safety and health officials were held so that legislation is now being considered by the Commonwealth to govern the handling of transportation of radioactive wastes.

Since the development of atomic and hydrogen power will unquestionably increase in the near future, it is most desirable that people have information on this subject. Our problem is to foster knowledge so people will have ordinary protection without engendering fear. This is something that will have to be worked out with the full cooperation of the press and radio.

Summary

Civil Defense during the past year continued a policy of evacuation and has worked with the state and Survival Project group on evacuation plans. We have done this with some misgivings as to their practicality in view of the shortened warning time and the increased radioactive hazards in outlying areas. Our shelter program is being re-evaluated even though we are aware that shelter areas in the largest of buildings are inadequate protection against the blast effect of hydrogen bombs. These areas, however, do offer places of refuge superior to the open road, and there is, at present, increased doubt as to the accuracy of long-range missiles.

Our control center exercises during the past year have been based both on the possibility of a bombing attack, as in the national tests, and a natural disaster such as a hurricane. All of these exercises were well attended by the various services, and we have had very fine cooperation. We have continued during the year our first aid

classes in the school system and reintroduced the aspects of mass feeding in home economics classes. We hope to be able to stimulate further interest in science by furnishing geiger counters and radioactive sources to schools for use in the physics and science classes.

We shall continue to promote in a practical manner every aspect of Civil Defense so that this department will be able to render effective service in any type of emergency.

HON. JOHN B. HYNES,
Mayor of the City of Boston.

SIR,—In compliance with section 24, chapter 3, of the Revised Ordinances, the Board of Election Commissioners respectfully submits its annual report.

REGISTRATION.

In accordance with chapter 246 of the Acts of 1945 registration was held continuously at the central office from January 2 to September 4, inclusive, from September 25 to October 16, inclusive, and from November 6 to December 31, inclusive. Registration in wards was held on August 27, 28, 29, 30 and September 3 and 4 from 6 P.M. to 10 P.M., for the Preliminary City Election; and October 7, 8, 9, 10, 11, 14, 15 and 16, from 6 P.M. to 10 P.M. for the City Election. This registration was held in two places in different sections of each ward, seven nights in each place.

In Ward 3, an additional registration place was open on August 30 and September 3 and 4, from 6 P.M. to 10 P.M., for the Preliminary City Election; and October 11, 14, 15 and 16, from 6 P.M. to 10 P.M., for the City Election.

NUMBER OF VOTERS.

At the State Election held November 6, 1956, the number of voters on the list was 375,568. The number of such voters in the first list published by the Board August 28, 1957, was 335,945. From that time to the close of registration for the City Election there were added the names of 9,876 voters. Included in this latter figure are the names of 6,955 voters who were omitted from the 1957 police listing and who were restored to the voting list without registration, under the provisions of chapter 244 of the Acts of 1947. The number of voters on the final list sent to the polls on the day of the City Election, held November 5, 1957, was 345,821, a decrease of 29,747 from the number on the list at the preceding State Election. The number of voters on final list December 31, 1957, was 345,862.

NOMINATION PAPERS, REFERENDUM AND RECOUNT PETITIONS.

A total of 97 persons declared their intentions for nomination to City offices; 60 for City Councillor and 37 for School Committeeman, 31 of these did not file nomination papers; the remaining 66 candidates submitted 3,845 nomination papers on which 98,927 names were checked; 22 candidates were certified for the office of City Councillor and 17 candidates were certified for the office of School Committeeman; 1 initiative petition consisting of 116 papers on which 2,511 names were certified, making a total of 3,961 papers filed on which the names of 101,438 voters were certified. There were no recount petitions.

REVISION OF THE VOTING LIST.

The names of 3,844 voters were stricken from the voting list by reason of death, removal from the city and other causes.

JURORS.

The jury list prepared by the Board in 1957 contained the names of 7,634 voters of Boston. During the time covered by this report, 3,053 were drawn for jury service.

REGISTRATION OF THE PHYSICALLY DISABLED.

In accordance with the provisions of chapter 196 of the Acts of 1946, persons qualified to vote but unable to appear at a registration office because of physical disability were examined for registration in their homes or other places of confinement upon receipt of an application for such registration. Applications were received from 2 such persons. Of that number, 2 were found to be qualified and were duly registered. Persons found qualified to register were furnished with applications for absentee ballots for the City Election.

SUPPLEMENTARY REGISTRATION OF SOLDIERS AND SAILORS.

Under the provisions of chapter 51, sections 50 and 51, of the General Laws, 4 persons in the military service were registered as voters in Boston during the period from the close of registration to the third day preceding the City Election.

ABSENTEE VOTING.

Absentee voting applied to this City Election, and set forth below are statistics relating to absentee ballots:

- 52 applications received from civilians.
- 52 civilian ballots mailed.
- 37 civilian ballots returned and sent to polls.
- 34 applications received from physically disabled.
- 34 ballots mailed to physically disabled.
- 29 ballots returned and sent to polls.
- 8 applications received from both members of the armed forces and kin, qualifying members of the armed forces (S. A. V.).
- 20 applications received from both members of armed forces and kin for registered voters in the armed forces.
-
- 28 total applications for servicemen's ballots.
- 28 ballots mailed to servicemen.
- 17 ballots returned by servicemen and sent to polls.
- 2 civilian ballots returned "unclaimed."
- 0 servicemen's ballots returned "unclaimed."
- 3 civilian ballots returned too late to be cast.
- 4 servicemen's ballots returned too late to be cast.
- 117 total applications received.
- 114 total ballots mailed.
- 83 total ballots returned and sent to polls.

VOTING MACHINES.

Two hundred sixty-seven precincts were covered by voting machines in 1957. This was an increase of eight machine precincts and left the City with only eighteen paper ballot locations. The total precincts in Boston were also reduced by four as a result of consolidation and mechanization.

All voters using machines for the first time were invited by mail to attend night demonstrations in their districts. Those unable to attend in the evening were asked to avail themselves of the day instructions in the Voting Machine Room at City Hall Annex. The returns at both functions were speedy and accurate.

MEMBERSHIP OF THE BOARD.

The term of Mr. Perlle Dyar Chase expired on March 31, 1957, and he was reappointed for the term of four years ending March 31, 1961. Commissioner Lasker was designated by the Mayor to be Chairman of the Board, and Commissioner Gertrude A. Pfau continued as Secretary.

EXPENSES OF THE ELECTION DEPARTMENT.

The expenses of the Election Department for the year ending December 31, 1957, amounted to \$449,576.31.

DAVID LASKER,
GERTRUDE A. PFAU,
JOSEPH RUSSO,

SPECIAL COMMENTS

In Memorandum No. 1 dated January 2, 1958, the Director of Administrative Services William Arthur Reilly requested a summary of the major accomplishments during the year 1957 and specification of the objectives for the current year of the department. He further stated that this preliminary report may be submitted for the published annual report containing whatever supplementary material is deemed necessary for departmental use and recommendation.

Therefore, I am presenting the report I made to the Director at that time:

For the first time in the history of the Boston Fire Department, a promotion study course was organized for those fire fighters seeking to be promoted to fire lieutenant.

Eight (8) pumpers were changed for single unit procedure.

A procedure was adopted for the use of single unit procedure with double unit companies.

Extensive instructions were given throughout the year in all phases of Fire Department procedure and the introduction of supplementary pumping in case of a large fire, which makes use of distant water mains.

Development of 68 First Aid Instructors, and completion of the standard First Aid Course for 1,046 members.

The inauguration of In-service Inspection in the mercantile and business district downtown.

The recharging of all fire extinguishers by our department in public buildings.

The placing of the Authority for the disposition of hose in the hands of the Assistant Fire Chief in Charge of Fire Fighting. This should give us a better control over hose.

Three 1,250 g.p.m. pumpers and two 100-foot steel aerial ladder trucks were delivered to this department in 1957.

Converted a 600 gallon oil tank truck which was in service at Long Island Hospital into a water tank truck with a delivery capacity of 200 g.p.m. This can be used at any location on the island with a much faster response and getting water on the fire quicker, without running long lines of hose.

Commenced construction on the Training School at Moon Island, the firehouse on Neponset avenue, and the firehouse on Gallivan Boulevard.

Engaged architects for the firehouses on Cummins Highway and Tremont street.

Installed IBM machines for use on permits.

Fire Prevention Week brought us to third place for the first time in cities of over 500,000.

Formation of a committee to prevent water-front fires, consisting of the Fire Department, Coast Guard, Harbor-master's Office, ship owners' representatives, clergy, and representatives of the Longshoremen's Union.

The installation of a record amount of underground cable and removal of a large amount of overhead wire and cable.

The last gaslight on the fire alarm boxes was removed this year, and practically all of our fire alarm boxes now have electric lights on them.

An atomic energy course was conducted in cooperation with the Atomic Energy Commission, the first in New England.

Our major objectives for 1958 are— the replacement of some of the old apparatus with new apparatus; continued extensive training at Training School and in the firehouses; the Prevention Maintenance Program to be continued in all its phases; the completion of the reflective material on fire coats and helmets.

We expect to have at least two thirds of the department changed over to single unit procedure by the end of 1958.

The completion of the First Aid Course with every member of the Boston Fire Department having a certificate for First Aid work.

We expect to have the firehouse at Neponset avenue and the one at Gallivan Boulevard completed in 1958, with a consequent reduction in the number of companies and men required.

The commencement of the building of the new firehouses at Cummins Highway and at Tremont street.

In 1958, with the cooperation of the Building Department we expect to have every license current and paid for.

An extensive drive is being made to make every vacant building in Boston secure against fire, and this program will be continued until this end is accomplished.

The first prize in the *Fire Prevention Week* contest, under the auspices of the N. F. P. A.

The completion of the Fire Code to be submitted to the City Council should be accomplished this year.

The obtaining of two motor launches for the fireboats, which were ordered last year.

Construction of manholes and installation of underground ducts on some of the prescribed streets this year. The amount of work done will, of course, depend upon the Budget appropriation for underground work as well as the streets selected for construction by the Public Works Department.

The installation of an emergency generator unit and voltage regulator at Fire Alarm Headquarters.

Installation of new radio transmitter at the courthouse with radio control and repeater system between Fire Alarm Headquarters and the courthouse transmitter, with operating console at Fire Alarm Headquarters.

To maintain all previous good practices installed.

I feel that we should comment on the fact that there has been a reduction in the accidents in the department during my administration, and I am noting here the number of accidents over that period of time. This does not indicate that the apparatus of the department

was always responsible but does indicate the times there was an accident:

1953 . . .	133	1956 . . .	104
1954 . . .	117	1957 . . .	90
1955 . . .	108		

During the past year, Assistant Fire Chief John F. Howard in charge of the Fire Fighting Force has completed a disaster inventory of all emergency equipment of Federal and State branches, with city equipment, and that of private industry. This includes the most expedient manner of opening drawbridges, location of large quantities of available sand and means of getting it on the scene, where large hoists, booms, derricks are stored, and telephone numbers of all officials who might need to be contacted.

The Mystic Pier, due to our efforts, is installing fire barriers in close proximity along the entire pier. If this had existed before the large fire last year, it would have prevented the rapid extension of the fire.

The Fire College for officers in the department was continued in 1957, and it was also made available to officers of other departments who have commented very highly on the value of it.

The filing system for licenses for inflammables has been brought up-to-date, and unused licenses have been recommended to the Licensing Commission for cancelling and have been cancelled. Other licenses which had not been paid over a period of years have now been brought up-to-date so that the work on this recording of license fees is current.

For many years, permits were sent out and some 30 per cent of the permits were returned as being unknown as the Post Office Department was not able to deliver them to the person addressed. A drive was made to straighten out this situation with the result that 10,000 of these permits were paid and another 10,000 were cancelled as not being active. The remainder are being

pursued diligently for the purpose of determining whether or not they should be cancelled or the persons using them pay the proper fee.

The money collected because of the increase of fees and our diligence in pursuing the collection has been increased from \$119,554 to \$251,197.99.

The Assistant Chief in Charge of Fire Prevention advises that fires caused by oil burners have again been reduced to 135. This gradual reduction from 329 in 1954 is very encouraging. We feel a great deal of this improved condition is due to the In-service Inspections.

The number of building fires in relation to the high point 3,698 in 1954 has been reduced by a thousand in 1957.

Church Inspection. The program of Archbishop Cushing in relation to the inspection of churches and the installation of warning signals has proved eminently satisfactory because during the past year these devices have provided warning of fire on these properties in three different instances and caused early notification which made it possible for the Fire Department to extinguish these fires before they reached a seriously advanced stage.

Fire Prevention Week. A most satisfactory *Fire Prevention Week* was held during the year. The Honorable John B. Hynes, Mayor of Boston, provided a luncheon to religious, civic, and business leaders of the city wherein our program for fire prevention was laid before them, and their aid and cooperation most undoubtedly brought us to the point of receiving the award mentioned in the report made to the Director of Administrative Services. Fire Prevention announcements were made in all church pulpits, editorials were printed in all church publications, essay contests were conducted in all schools—both public and parochial—prizes being donated by the various individuals and groups who attended the mayor's luncheon. Newspapers, radio and TV stations cooperated wholeheartedly in placing the fire prevention message before the people. Plans were

made for year-round fire prevention on a month to month basis with a committee from the religious, civic, and business leaders who had participated at the mayor's luncheon. These plans were to be discussed in the early part of January 1958 with a Fire Prevention Committee from the Boston Chamber of Commerce, who were to give us assistance in this year-round program.

The possibility of Asian flu coming to the City of Boston and attacking the Fire Department was given consideration by the Mayor, and he ordered purchase of sufficient quantities of Asian flu serum for the Fire Department. Every fire fighter wishing to be inoculated was given the dosage by the Fire Department Medical Examiner, Dr. Edward H. Hommel, without any charge for the doctor's services. Further, all fire fighters under 40 years of age who wanted polio shots, first and second dosage, were inoculated by the Department Medical Examiner, Dr. Edward H. Hommel, without any charge for his services to them.

There were many fires in vacant buildings in 1957, totaling 98. Under the City of Boston demolition program, many of those buildings have been or shall be torn down by the end of 1958 which will eliminate almost entirely this problem.

Preventive maintenance has been an important part of our care of the apparatus, and no opportunity to put this principle into effect is passed up. After a recent snowstorm, the clutch in every piece of apparatus in the department was checked, and it was found necessary to adjust many of them. This will save a great deal of money in repairs and less time out of service to correct the worse conditions that could develop.

Training. All men appointed to the department are given an extensive drilling and instruction in the basic elements of Fire Department work. So much of the knowledge required for a competent fire fighter is not used on every occasion — every fire is different and all knowledge is not necessary on every occasion, but no fire that presents itself should find us wanting in the proper

approach. The skill required is constantly sharpened by drills in equipment and technique for all men in the department. Instructions and drills are carried on in the firehouses in the winter season and instructions and drills, under the competent and excellent instructors, outdoors in the remainder of the year. No part of the requirements for participation in fire-fighting activities are neglected.

Critiques are conducted on all multiple alarms, and we find them very valuable in an over-all approach in the extinguishment of fires.

Research is conducted continuously on new equipment and where new methods in other departments are being used, they are studied to see if they can be used advantageously in the Boston Fire Department.

EIGHTY-SIXTH ANNUAL REPORT
OF THE
HEALTH DEPARTMENT

FOR THE YEAR 1957

Boston, January 1, 1958.

THE HONORABLE JOHN B. HYNES,
Mayor of the City of Boston.

DEAR MAYOR HYNES:

The eighty-sixth annual report of the Boston Health Department is hereby submitted.

The record of accomplishments of the Boston Health Department for the year 1957 is highlighted by no deaths of Boston mothers in childbirth, no deaths from any of the major communicable diseases, no cases of poliomyelitis, a high birth rate, with 15,553 resident births recorded, and a near record low infant mortality, with a rate of 25.2 per thousand live births.

A more extensive report of the activities of each division, section, and bureau in the Health Department is contained in the following pages in order that a complete picture may be gained of the public health in the city of Boston during 1957.

At this time, I should also like to thank the many organizations, both public and private, who have co-operated with me and my staff for the advancement of public health.

Respectfully submitted,

JOHN H. CAULEY, M.D., M.P.H.,
Commissioner.

PUBLIC HEALTH COUNCIL

The Public Health Council, which was organized by ordinance in 1956, completed its first full year of activity. The Council consists of nine members appointed by the Mayor, of whom at least one shall be a registered physician, one a registered dentist, one a representative of an industry engaged in handling food, one a representative of another industry, one a representative of labor, and one a housewife. The members, who serve without compensation, are appointed for three-year terms which are arranged so that one third of the terms elapse each year. From time to time the Mayor designates one of the members as Chairman and another as Vice-Chairman.

The duties of the Board as outlined in the ordinance are: (a) to make, upon its own initiative or at the request of the Mayor, the Director of Administrative Services, or the Health Commissioner, studies and recommendations with respect to the organization, activities, policies, procedures, and budget of the Health Division, (b) to review from time to time such rules and regulations of the Health Commissioner as may then be in force and report to the Health Commissioner its findings with respect to the adequacy thereof and its recommendations, if any, for the amendment or repeal thereof or for new rules and regulations, and (c) to advise the Health Commissioner on such matters within the scope of his duties as he may refer to said Council.

During 1957 the Council held regular meetings discussing problems facing the Health Division of the Boston Health Department. As a result of serious consideration of the problem of tuberculosis case-finding and control, the Council felt an inquiry into this problem to determine its scope and the present situation was warranted and decided that an impartial group of experts should be invited to make a survey. Consequently, the United States Public Health Service agreed to send a team to Boston to make a thorough study of the tuberculosis situation, including not only the activities and functions of the Boston Health Department but also those of other official and voluntary agencies active in this field.

Section of General Services

BUREAU OF ADMINISTRATION

The Bureau of Administration is responsible for the compilation of the annual budget and for the preparation of orders and the authorization for purchase of supplies and repairs incident to the operation of the Health Division, including the George Robert White Fund Health Units and other substations of the division throughout the city. All fiscal matters of the Health Division of the department are processed by this bureau.

The 1957 budgetary appropriation for the Health Division of the Boston Health Department was \$1,691,320. In addition, there was a supplemental budgetary allowance of \$45,000 necessitated by a special survey program required as a result of the adoption of a new housing code.

Processing for payment of hospitalization for Boston-settled cases is also a function of this bureau. During 1957, as required by state law, payment was made for the care of 219 premature infants at a cost of \$63,525.29. Reimbursement of \$7,055.55 of this amount will be received for cases having settlements outside of the city. Hospitalization costs of Boston-settled tuberculosis patients at the Massachusetts Department of Public Health Sanatoria at Lakeville, North Reading, and Rutland totaled \$58,414, and an additional \$6,215.93 was paid to other sanatoria. Since the Commonwealth of Massachusetts aids local communities in the payment of hospitalization costs at the rate of \$5 per week per patient, the sum of \$2,302.84 was received by Boston as a subsidy payment.

BUREAU OF HEALTH EDUCATION

The Bureau of Health Education has a staff of five, a director and four public health educators. Each member of the bureau is responsible for one or more special activities. All educators cooperate in the production of materials, news releases, and exhibits.

PUBLIC INFORMATION

Newspaper releases and material for radio and television are prepared as the need arises. Spot announcements, however, are sent each month to all Boston radio stations. These announcements feature current activities of the division and emphasize health and safety protection.

The annual report of the Health Department was again edited by the bureau.

STUDENTS AND VISITORS

Considerable time is devoted to students and visitors. High school and college students given assignments relating to Health Department activities and functions are assisted with their projects.

During 1957 three Boston University undergraduate students majoring in health education were assigned to the bureau for four weeks of observation and orientation.

LOCAL HEALTH COMMITTEE ACTIVITIES

During the year a member of the staff assisted the physician in charge of the Local Health Committee in the Roxbury area. The committee membership is made up of professional people and interested citizens. Monthly meetings, a clean-up drive, and assistance in a community survey of housing conditions were among the activities.

PAROCHIAL SCHOOLS

The Bureau of Health Education continued its program in the parochial schools during the school year 1956-57. The topic for the annual meeting, which was held in each of the fifty-six elementary schools, was "Focus on Emotional Health." Attending were the principal, the teachers, the school nurse, and the health

educator. The health educator was responsible for planning, scheduling, and conducting the meetings. Statistics giving evidence that poor emotional health exists in the school-age population were presented. The importance of teacher recognition of emotional difficulties, particularly in pupils of the lower grades, was stressed. The advantages of the school health conference in which the principal, the teacher, the nurse, and other school specialists participate were pointed out. Resources that are available for referral of such cases were outlined and discussed; examples of problem situations were also explored. A four-page bibliography of teacher reference material prepared by the health educator was distributed to all attending the meetings.

Three times during the year packages containing posters, leaflets, charts, bibliographies, reprints of articles, and other items of interest to the teacher were mailed to the schools. These materials help to keep the teacher aware of the new items available and give her an opportunity to obtain free materials for her teaching program.

In August the bureau again prepared an exhibit for the Annual Teachers' Institute. Approximately 4,000 educators attended the four-day meeting. Since the *Course of Study in Science, Health, and Safety* was rewritten during the year, the exhibit featured teaching aid materials to correspond with the units in the revised course of study.

As has been the policy, consultation services to individual teachers was provided on request. The bureau also maintained a loan service for visual materials including charts, models, and films. Several schools took advantage of this service.

CHEST X-RAY

During 1957 the Boston Health Department, in conjunction with the Massachusetts Department of Public Health and the Boston Tuberculosis Association, conducted a community chest X-ray program in the following sections of the city: Back Bay, South Boston, North End, Scollay Square, Brighton-Allston, and Jamaica Plain. A total of 29,480 free chest X-rays were taken. A public health educator from this bureau was assigned full time to work with the staff of the other participating agencies to make this program a success.

The duties of the health educator were primarily those of a community organizer contacting and speaking before civic, religious, and fraternal groups, seeking their cooperation in the formation of neighborhood committees. The health educator was also responsible for the statistical presentation of program results to inter-agency advisory committees.

EXHIBITS

The Bureau of Health Education prepared an exhibit for the New England Health Institute, which was held at the University of Massachusetts in Amherst during the week of June 11-15.

The health education staff combined its efforts in planning, outlining, and collecting information and materials for the exhibit. It was decided that a three-panel exhibit, each panel measuring 4 feet by 6 feet, with the title of "Boston's Changing Face," would best conform to the theme of the conference — "Industrial Expansion in New England." Each panel had a separate subtitle pertaining to Boston and its new programs of road construction, area development, and sanitation projects.

In the fall of 1957 an exhibit was prepared for the Diabetic Fair which was held at the First Corps Cadet Armory during the week of November 18. The exhibit consisted of a graph, mounted in a panel with an illuminated background, which charted the decline in the number of diabetic deaths in Boston for the past fifteen years. Also a true and false punchboard quiz was constructed so that people attending the fair might self-test their knowledge of diabetes. An answer sheet, with the questions and an explanation for each answer, was provided for those who took the quiz.

DAY CARE AGENCIES

Each day care agency for children was visited at the time of license renewal by the health educator assigned to the program for the purpose of checking the educational qualifications of the personnel. The educator also informed staff members of any courses available to them in the local colleges and universities in order to encourage in-service training in the field of nursery school operation and child growth and development.

BUREAU OF VITAL STATISTICS

The most outstanding feature of the 1957 annual statistical report is the unprecedented record of not a single maternal death among Boston mothers in 15,553 live births. This amazing achievement is the result of many factors — the ever increasing proportion of expectant mothers receiving early and adequate prenatal care, the large percentage of hospital births, the advancement in obstetrical techniques, the discovery and availability of new drugs, and the educational program in prenatal care.

The death rate from pulmonary tuberculosis was one of the lowest ever recorded in the city, with 146 deaths and a rate of 17.7 for 1957. Just a decade ago, in 1948, there were 411 deaths from pulmonary tuberculosis, with a resulting rate of 53.6.

A significant decrease in deaths of infants was recorded in 1957. There were 392 infant deaths, with an infant mortality rate of 25.2 — slightly lower than the national rate. This compares favorably with 445 infant deaths and a rate of 28.3 recorded in 1956. However, deaths among infants, particularly in premature births, still represent a sizable proportion of the total annual population loss through death.

There were no reported deaths from poliomyelitis, epidemic meningitis, diphtheria, scarlet fever, typhoid fever, chicken pox, whooping cough, or measles during 1957.

The general death rate for 1957 was 11.4 and the birth rate, 18.9. Detailed allocated statistical tables may be found in the statistical section of this report. The five leading causes of death in Boston, as in the nation as a whole, were heart disease, cancer, vascular lesions of the central nervous system, diseases of the arteries, and all types of accidents.

Section of Medical Services

During 1957 federal- and state-initiated programs placed heavy responsibility upon local health departments to provide increased medical services. Nation-wide programs for the immunization and the prevention of anterior poliomyelitis and "Asian Flu" were started, with a limited supply of vaccine available at first to meet the needs of the public whose demands were stimulated by all-out methods of education and publicity. The Section of Medical Services participated in these programs to help provide better public health for the citizens of Boston. In spite of difficulties caused by a sometimes uncertain vaccine supply and short-time intervals for preparation, both programs were completed satisfactorily.

A study group from the United States Public Health Service was asked by the Public Health Council of the Boston Health Department to conduct a study on the tuberculosis problem in Boston. Every possible means of reducing morbidity and mortality from this disease is under investigation. Case-finding programs including community chest X-ray and tuberculin testing have received concentrated effort during the year. The death rate from this disease has been materially reduced in recent years and a still further drop is anticipated.

Nationally, an increased incidence of venereal disease among teen-agers was noted. An analysis of statistics for this age group in Boston for the years 1956 and 1957, fortunately, reveals a very small increase and substantially no increase in the total number of cases reported.

CIVIL DEFENSE

Civil Defense activities were maintained in spite of the apathy of the general public. Volunteers staffed the Medical Control Center during the National Alert Test Exercises. The training of personnel in the Police, the Fire, and the Public Health Departments in the control of radiation hazards both in disasters and for peacetime uses of atomic energy was accelerated by the appointment and training of five radiation monitoring instructors to the Massachusetts Civil Defense Administration Radiac Service. This group will be able to extend this important training to all interested personnel of city departments. More instruments and source materials will now be available for teaching classes following issuance of an AEC license for possession and utilization of radioactive source materials.

LICENSING

INSTITUTIONS

In the Section of Medical Services, the program for the inspection of hospitals, nursing and convalescent homes, and rest homes, and the program for licensure for day care agencies was carried on as in the past. During the year the Massachusetts Department of Public Welfare requested a further service. Inspections will be made of foster homes for children when required.

By an Act of 1957, Chapter 545, the name "Boarding Homes for the Aged" was changed to "Rest Homes."

At the present time there are seventy-four nursing and convalescent homes and forty-five rest homes. These figures will probably increase as applications are now being made for more institutions of this type. The bed capacity also will be greatly increased by enlargement of many of the existing homes.

In addition to regular inspections, sixty special inspections of institutions in this category were made and fifteen combined inspections were made with the state hospital inspector in order to expedite licensing.

There were thirty office interviews with prospective operators of nursing and convalescent homes and rest homes.

DAY CARE AGENCIES

During 1957, seventy-four applications were received, five of which were rejected. Four were pending approval at the year's end. About fifty office interviews and twenty-five special field trips were made in conjunction with applications for day care agency licenses. Sixty-nine day care agencies operated during the year under direct licensure of the Boston Health Department.

HOSPITALS

Fourteen hospitals were inspected and certified to the Massachusetts Department of Public Health in 1957. This category showed an increase of two hospitals over the year 1956 — one being a chronic hospital and the other a new hospital for mild nervous disorders. In conjunction with the hospital program, fifteen special field inspections were made.

Under licensure by the Massachusetts Department of Public Health, forty-five hospitals, seventy-five convalescent and nursing homes, and forty-five rest homes were operating. Also, in conjunction with the Massachusetts Department of Public Welfare, there were twelve children's foster care agencies.

BUREAU OF DISEASE CONTROL

During 1957 the Bureau of Disease Control placed its major effort on the tuberculosis program. In the area of communicable disease, the control of salmonella infections received greater emphasis, and a new program was initiated in the mental health field.

TUBERCULOSIS

The tuberculosis record of the City of Boston continued to show improvement. In 1957, 142 deaths from pulmonary tuberculosis and nine from nonpulmonary tuberculosis were reported, resulting in a pulmonary death rate of 17.7 and a tuberculosis death rate, all forms, of 18.9 per 100,000.

A total of 547 new cases of pulmonary tuberculosis and 34 of nonpulmonary tuberculosis were reported in Boston in 1957, representing a decrease of 95 new pulmonary cases from 1956. The resulting 1957 case rates per 100,000 population are 68.4 for new pulmonary tuberculosis and 72.8 for all forms tuberculosis. With increased emphasis on case finding a drop of 95 in the number of new cases of pulmonary tuberculosis reported during the year is very encouraging.

CASE FINDING

The case-finding program was intensified in 1957. A total of 65,204 70mm X-rays were taken in Health Unit clinics and with the mobile unit servicing colleges, private schools and industry. One thousand one hundred forty-nine suspicious or positive cases were recalled for large recheck X-rays. This total included about 5,000 teachers and school personnel who are required by law to be X-rayed at least every three years and who had been last X-rayed in 1954. The number of new active cases of tuberculosis discovered through this program will not be available until the Diagnostic Clinic has completed the study of these cases and made definite diagnosis or until the case is reported by the patient's private physician.

The community program carried out by the Boston Health Department in cooperation with the Massachusetts Department of Public Health, the Boston Tuberculosis Association, and the Boston Division of the Massachusetts Tuberculosis and Health League, which

began in 1955, continued its activity with the addition of a pilot tuberculin-testing program for school children in South Boston. Mass X-ray programs were carried out in the Back Bay, South Boston, North End, Scollay Square, Brighton-Allston, and the Jamaica Plain areas. A total of 29,480 70mm. X-rays were taken, of which 426 were found to warrant large recheck X-rays. Tuberculin testing in South Boston was started one week before the mass X-ray program was scheduled there, in order to allow several weeks for positive reactors to be X-rayed while the mobile unit was in the area. There were 5,550 children, the majority from primary and elementary grades with some from high school, tested, and a total of 284 positive reactors were found. Family rosters were made up for the positive reactors from the parochial schools by the Health Department public health nurses and for the public school positive reactors by the public school nurses, with graduate nursing school students from Boston College and Simmons College helping out where the numbers were heaviest. The people on these rosters were urged by the nurses to come in for X-raying or for tuberculin-testing depending on whether they were over or under eighteen years of age respectively. A total of 1,495 family contacts of positive reactors were listed on the rosters, but only 855 came in for an X-ray or a tuberculin test. To date, two cases of active tuberculosis have been diagnosed as a result of the tuberculin testing program, one among the original reactors and one in a contact of a reactor who was most likely the source case.

The South Boston tuberculin-testing program was not as profitable a case-finding source as anticipated. The amount of work involved for the doctors, nurses, and clerks was tremendous. An average of five contacts on the family rosters per positive reactor seems very low, and of these only 57 per cent were X-rayed or tuberculin tested. Since the number of new active cases discovered to date from this program was only two, it was the feeling of the Bureau of Disease Control that the same amount of time and effort applied to the other facets of case finding would be more productive than the tuberculin-testing program in its present form. The Community X-ray Program Committee, however, worked out a new technique for the mail follow-up of positive reactors which it hopes will be much less laborious but more productive than the one previously used and which will be tried in 1958.

NEW PROJECTS IN CASE FINDING

1. In the future, as soon as the necessary equipment and tuberculin dilutions become available, the intradermal method (Mantoux) will be used exclusively by the Health Department.

2. The Section of Local Services has agreed to introduce intradermal tuberculin testing routinely in all the well child conferences of the department. The number of positive reactors so found will unquestionably be small but of extreme significance, since they should point fairly directly to the source case of active tuberculosis.

3. In 1958 the mobile X-ray unit of the Boston Health Department will drop the X-raying of colleges and industry and will be assigned instead to the X-raying of special groups in the community with high tuberculosis incidence.

The college and industrial program has not been productive of enough new cases of tuberculosis to warrant the full-time assignment of the mobile unit. In 1957, in almost 50,000 X-rays, ten new cases of tuberculosis were discovered, about one-fifth case per thousand X-rays, which is a very low yield. Since this program was started as a demonstration program for colleges and industry and was carried on for ten years, the bureau felt that enough demonstration had been carried out so it now could be turned over to the individual college or industry to continue. Each organization was notified by letter of the cessation of the X-ray service, with the recommendation that it be continued through private X-ray companies.

A program will be gradually developed for the Boston mobile unit to X-ray at frequent intervals those special population groups where a higher incidence of tuberculosis generally occurs, such as older age groups and institutionalized populations.

THE PUBLIC HEALTH COUNCIL TUBERCULOSIS STUDY

Because of the high incidence of tuberculosis in Boston, the Public Health Council of the Boston Health Department invited the United States Public Health Service to send in a team to study the case-finding, record keeping, follow-up, and treatment methods in tuberculosis of the Boston Health Department. Also to be examined were the activities of the Hospital Department, the Welfare Department, and the voluntary

agencies such as the Boston Tuberculosis Association which are engaged in the management and control of this important disease.

A study group arrived in July, 1957, and conducted a detailed study which lasted through October, 1957. The preliminary report of this study was received by the Public Health Council in November, 1957, and the final report is expected early in 1958.

The Boston Health Department and the Bureau of Disease Control appreciates the excellent analysis of the tuberculosis problem in Boston and the recommendations for the management of this problem which the survey team prepared. The Bureau of Disease Control will make every effort to implement the recommendations directed to it and has, in fact, already made a start in this direction.

TREATMENT

A total of 14,563 clinic visits were made by patients or suspects to the tuberculosis clinics of the Health Department in 1957. Ten thousand twenty-three large X-rays were taken. All of the X-ray equipment of the Health Department has been carefully coned and screened by X-ray physicists to minimize unnecessary and stray radiation. In addition, special equipment is being installed on all the X-ray machines of the department to place a lead-rubber screen to shield those portions of the patient's body which are not being X-rayed.

The pneumothorax and pneumoperitoneum clinics are continuing to show the decline in attendance that has been evident in the past years. Cases requiring these treatments are being discharged when they have received the maximum benefits possible, and, since few new cases are being referred to these clinics, it is expected that in a few years there will be little or no need for them. Conversely, the chemotherapy clinics of the Boston tuberculosis program are increasing rapidly in attendance and importance. So many more patients are getting chemotherapy that plans have been made to increase the number of clinics, where these patients are being examined by physicians for the progress they are making under chemotherapy, from one to two. This change will become effective in January, 1958.

The center for the legal detention of uncooperative patients with active tuberculosis has been completed by the Massachusetts Department of Public Health and is

located at the Rutland Sanatorium. In the future, patients with active tuberculosis who refuse medical treatment and who are menaces to the public health may be forcibly hospitalized by court order. It is hoped that the knowledge of the existence of such facilities will obviate the need for their use.

A part-time rehabilitation counselor has been supplied to the South End Health Unit tuberculosis program first by the Massachusetts Commission on Rehabilitation and more recently by the Boston Tuberculosis Association. The rehabilitation work is proceeding smoothly.

The Tuberculosis Integrating Committee of Boston, composed of representatives from hospitals caring for tuberculosis patients and from official and voluntary agencies concerned with the tuberculosis problem, held seventeen meetings during 1957. The meetings were well attended and the discussion was lively and informative. The committee voted into membership representatives from the Massachusetts Division of Mental Health, the Massachusetts Commission on Rehabilitation, and the Boston Tuberculosis Association. As a result of these meetings, there has been great improvement in relations among these agencies and in the integration of their activities into the Boston tuberculosis program. Interestingly, the tuberculosis study emphasized the importance of the work of this committee.

MENTAL HEALTH

Numerous conferences were held with the Massachusetts Department of Mental Health and with Dr. Gerald Caplan, Associate Professor of Psychiatry at the Harvard School of Public Health, to set up an in-service training program in mental health for the personnel of the Boston Health Department. As a result, the Massachusetts Department of Mental Health allocated the sum of \$3,000 for each of the two years, July 1, 1957-June 30, 1958 and July 1, 1958-June 30, 1959, for such a program.

The purpose of the two-year study is primarily to determine, with the help of the personnel of the Boston Health Department, what the nature of a contemplated enlarged in-service program in mental health for the department should entail. In the process, those participating in the study will have the opportunity to become aware of the latest thinking in the field of mental health since the professional leaders will be psychiatrists, psychologists, and mental health nurses.

OTHER COMMUNICABLE DISEASES

During 1957 the number of resident cases of communicable disease reported to the Boston Health Department was 7,691, an increase of 2,600 over 1956. This was due essentially to an increased number of cases of measles and mumps which had a very low incidence in 1956 and reached average figures in 1957. The figure for 1957, however, is still a low one for a city the size of Boston. A total of 3,056 visits were made by public health physicians to these cases.

In 1957 the City of Boston did not experience a single death from any reportable communicable disease except meningitis, salmonella infections, and tuberculosis.

POLIOMYELITIS

Not a single resident case of poliomyelitis was reported in 1957. It is too soon to determine what part the Salk vaccine program played in achieving this remarkable record, but, undoubtedly, it made a large contribution.

MEASLES

There were 2,683 resident cases of measles and 426 resident cases of German measles reported. No deaths occurred from either disease. Since there are no preventive inoculations for these diseases, practically everyone will contract them at some time during his life.

MUMPS

In 1957, 2,053 cases of mumps were reported for Boston residents, with no deaths. This is three times the number for 1956, but, again, since there is no method of prevention, little can be done.

WHOOPIING COUGH

There were only 174 cases of whooping cough reported for Boston residents during the year, with no deaths. This is about the same as 1956 and a very creditable testimonial for the efficacy of the Sauer vaccine.

SCARLET FEVER

In 1957 there were 551 cases of scarlet fever reported in Boston residents, with no deaths. This is a drop from 1956 and a satisfactory experience.

DIPHTHERIA

There were four resident cases of diphtheria reported in 1957, with no deaths. A good record, but it can be improved.

OPHTHALMIA NEONATORUM

There were ninety-six cases of ophthalmia neonatorum reported for Boston residents in 1957. None showed the gonococcus on examination, an excellent record.

ENTERIC COMMUNICABLE DISEASES

In 1957 four cases of typhoid fever, thirty-five cases of bacillary dysentery, and one hundred three cases of salmonellosis in Boston residents were reported. This is a considerable increase over 1956. The typhoid cases all undoubtedly came from carriers since they were individual cases and one was actually traced to a carrier. The bacillary dysentery and paratyphoid cases (salmonellosis) are harder to explain. They may represent the increased awareness of the medical profession of the frequency of these diseases, with the resulting examination of more stool cultures in diarrhea cases. Because of this increased incidence, the Boston Health Department has changed its method of follow-up of these cases from having a single public health physician follow all of these cases, which has been the procedure in the past, to having each of the fifteen public health physicians follow up the cases which occur in his district. So far the results in the follow-up by this new arrangement have been gratifying.

RABIES CONTROL

During 1957, 3,206 dog bites and 52 small animal bites for a total of 3,258 were reported in the City of Boston. Of these, 699 were treated at the Boston City Hospital and antirabic treatment was deemed unnecessary in all cases.

VENEREAL DISEASE

There were 413 lapsed cases and contacts of venereal disease referred to the Bureau of Disease Control for disposition. Of this number, 330 were successfully followed up by the personnel of the Bureau and returned to treatment.

BUREAU OF DIAGNOSTIC LABORATORY

The Diagnostic Laboratory of the Health Division has maintained its high standards of work performance in the diagnostic field of microscopic, cultural, and serological bacteriology despite staff shortages. By maintenance of standards, techniques, and conscientiousness beyond the average, the annual recertification by the Massachusetts Department of Public Health of the Bacteriological Laboratory in personnel, performance, and use of equipment was again accomplished in 1957.

Again in 1957, the type of diagnostic service rendered reflects the progressive accomplishments in the field of medicine and immunization. An infinitesimal drop in venereal disease examinations reflects the gradual assimilation of preventive information in that service. The increased volume of tuberculosis specimens reflects the increasing emphasis on intensified case-finding and follow-up treatment in order to reduce the incidence of this disease. The marked increase in the number of enteric pathogen specimens, involving tremendous laboratory "detective" work, shows the growing activity in recognition of the seriousness of having undiagnosed cases in any population.

The personnel of the Bacteriological Laboratory co-operates constantly with each bureau of the entire Health Division, its daily reports motivating functions in the several respective Bureaus of Public Health Nursing, Child Hygiene, Medical Service, Tuberculosis, Food, and Sanitation.

The laboratory has acted for the second year as distributing agent for the enormous quantities of poliomyelitis vaccine supplied by the Massachusetts Department of Public Health for use in all public and parochial schools, all maternity hospitals, all health units, as well as Boston's private physicians who have been supplied through the laboratory's seventy-two culture stations.

The Bacteriological Laboratory continues its services in the orientation of student nurses, medical students, and college level students from some eleven Boston institutions by lectures on the correlation of public health laboratory functions with professional services.

BUREAU OF PUBLIC HEALTH NURSING

The year 1957 stands out as one of accomplishment in the Bureau of Public Health Nursing. Although hampered by considerable staff turnover, progress has been attained and the bureau has kept pace with the many department programs including the time-consuming community poliomyelitis inoculation program.

The bureau has discontinued a previously important function, i.e., home visiting of cases of minor communicable diseases which was performed for many years, and instead programs to meet changing conditions and needs have been assumed. This established policy has removed some of the pressure under which the staff worked last year. It has also provided an opportunity to participate in and concentrate on other important phases of the program of the bureau.

TUBERCULOSIS

The tuberculosis supervising nurse has worked closely with the Chief of the Bureau of Disease Control in the tuberculosis program. Through their efforts, clerical activities previously done by the public health nurse have been eliminated to some degree. The nurses participated in a special tuberculin-testing program in the schools which was carried out in one area of the city.

Emphasis has been placed on intensive case finding in the following programs: the Boston Chest X-ray Program, the Industrial Program, the School Program, and the Tuberculosis Clinic Service Program. From these programs, there were 400 referrals made to the Public Health Nursing Bureau.

MENTAL HEALTH

The additional number of requests for guidance in the mental health program shows an increased interest in the mental and emotional aspects of family life. The mental health supervisor had 152 individual conferences with the staff nurses and twenty-seven individual conferences with students. In eight of the thirteen nursing

districts, there were requests for twenty-six group conferences on problems relative to mental and emotional health.

NUTRITION

Through the nutrition service, the diet for diabetic patients in nursing homes has been adjusted on a personal basis through the combined interest of nurse and nutritionist, and the type of care the diabetic patient receives has been improved. Group conferences with the nutritionist have been held in districts where there is a large number of nursing homes. In connection with these conferences, a seminar on diabetes was planned for the staff by the "Diabetic Unit Group" of the Peter Bent Brigham Hospital. This kind of teamwork has established a cooperative relationship in regard to the referral of the diabetic patient.

STUDENT PROGRAM

Each year there is an increasing demand by collegiate schools of nursing for training opportunities in the public health nursing field. In 1957 thirty-seven collegiate nurses spent eight weeks with the bureau, and forty-five student nurses from the Boston City Hospital spent four weeks with the bureau. A total of 104 students from nine hospitals had a one-day observation period with the field nurses.

IN-SERVICE EDUCATION

This program is planned each year by a committee selected by the staff in cooperation with the principal nurse assigned to this program. Wherever feasible, the requests for certain programs are discussed with the section director and planned cooperatively. Group conferences concerned with the organization of programs are also held in each health unit.

During 1957, nineteen staff nurses attended twenty-seven courses in the various collegiate schools of nursing.

Reference materials, books, magazines, and films are available and supplied for nurses and students.

BUREAU OF CHILD HEALTH AND HEALTH UNITS

During 1957, for the first time in history, not a single death from childbirth occurred among Boston mothers. The absence of a maternal death rate is most gratifying to the department, and indicates the excellence of the obstetrical practice in this city.

Although there was approximately the same number of live births during 1957 as in the previous year, infant mortality dropped from a rate of 28.3 in 1956 to 25.2 in 1957.

During 1957, 1,044 premature babies were born, and the hospital expenses for 219 of these, amounting to \$63,525.29, were provided by the Boston Health Department.

CHILD HEALTH CONFERENCES

Thirty-five Well Child Conferences were conducted each week during the year throughout the city. The ten health units and the three substations held conferences twice a week. Single clinics were held weekly at the remaining substations as well as at Children's Medical Center and at the New England Hospital. The Tyler Street Well Child Conference was discontinued at the end of the year because of the small attendance and the children were referred to the South End Health Unit for continued services.

The Boston Housing Authority allotted quarters for a new well child conference and dental clinic at the Bromley Park Project in Roxbury, and both services are being well attended.

The well child conferences are staffed by the full-time public health physicians of the Health Department and by pediatricians from the Pediatric departments of Harvard, Tufts, and Boston University Schools of Medicine.

During 1957, 69,477 visits were made by children to the thirty-five clinics chiefly for the routine procedures of regulation of milk formulae and other dietary changes, advice to parents, immunizations, and physical examinations. This number of visits by preschool children represents a considerable increase over last year, which is undoubtedly due in part to the desire to obtain inoculations of free polio vaccine. Initial visits were made by 6,962 children under one year of age during the year. This number is 741 more than last year.

Routine inoculations of the triple antigens of diphtheria, tetanus, and whooping cough were given to children as follows: 5,943 received first doses, 5,558 second doses, and 5,053 completed the series of three inoculations, while 2,603 were given a booster dose. Vaccination against smallpox was administered to 5,723, and 3,822 were later given certificates for successful results.

Inoculations of poliomyelitis vaccine were available for those enrolled at the conferences, and 7,032 first, 7,132 second, and 8,638 third inoculations were administered. Free Salk vaccine will be available in the future for all children attending the well child conferences who start the injections before the end of the first year.

PAROCHIAL SCHOOLS

The school health program in the Boston public schools is administered by its own health service; the parochial schools in Boston obtain their school health services from the Boston Health Department. Working with the administration of the parochial schools, the Boston Health Department helps in providing health services through the Bureaus of Public Health Nursing, Health Education, and Child Health. Two extra physicians were employed from September 15 to June 15 to perform the duties of school physicians. This was made necessary by the large enrollment in the schools.

When school opens in the fall, all parochial school children of Boston are given a routine health inspection by a Boston Health Department physician and nurse.

About the first of October the immunization program is started and antigens of diphtheria and tetanus are given either as booster doses to those who require them or a series of three inoculations to pupils who have not

previously received them. The number of inoculations given in this part of the program may be found in the statistical section of this annual report.

The administration of free poliomyelitis vaccine provided by the Federal and State Legislatures was continued in the schools up until October 31, 1957, the date on which the program terminated. The statistical report shows numbers done in the schools during 1957.

Physical examinations are ordinarily begun about the first of November. All students in the first, fifth, and eighth grades are examined routinely, and those in other grades who, because of appearance or other reasons are referred by teacher, parent, or school nurse, are also included in the examinations.

A routine vision test is given to the pupils of the first, third, fifth, and seventh grades. Included also in the testing are those in other grades in whom impaired vision is suspected by teacher, school nurse, or physician. Pupils found to have serious impairments of the eyes are given referrals — first to a private physician (ophthalmologist) selected by their parents or guardians, or, secondly, to the ophthalmologist of the Health Division who conducts clinics at several of the health units.

Hearing tests are given to students in the third grade and to others who indicate possible hearing abnormalities. A public health nurse trained in the use of the pure tone audiometer has charge of this part of the program and supervises all the hearing examinations. Children showing auditory deviations are referred to a private otologist or to one of the hospitals conducting a clinic for diseases of the ear. Statistics concerning these tests may be found in the report of the Bureau of Public Health nursing.

HEALTH UNITS

The full-time public health physician conducts a clinic five afternoons a week. Two such sessions are spent in the well child conference, and the other three periods are devoted to the administration of smallpox vaccine, triple antigens of diphtheria, tetanus, and whooping cough, gamma globulin and typhoid-paratyphoid vaccine to persons seeking such inoculations.

An opportunity was also afforded for continuing the mass poliomyelitis vaccine program, and many pre-school children were given inoculations.

Physical examinations of children and adults scheduled for vacation at supervised camps and other recreation areas were also performed at these afternoon clinics.

Each health unit provides quarters for both an operating room and waiting room for children referred for dental service. Morning and afternoon clinics are held daily in which dentists, dental hygienists, and dental assistants carry on the dental program as recorded under the "Bureau of Dental Services."

The Health Department employs an ophthalmologist who each week conducts a morning clinic at four of the health units, where children referred from both public and parochial schools are examined, given eye drops, prescriptions for glasses, and advice.

Obstetrical hospitals are encouraged to make use of the health units in their prenatal programs. At the East Boston, South Boston, and West End Units, clinics are maintained by the personnel of the Boston Lying-In Hospital, while the Department of Obstetrics of St. Margaret's Hospital operates a similar program at the South Boston Health Unit. All clinics are conducted once a week.

Six mental health programs are in operation at the South Boston, the East Boston, the West End, the Harvard Street, and the Whittier Street Health Units under the direction of the Harvard School of Public Health, Carney Hospital, Massachusetts Department of Mental Health, and other groups.

A number of private agencies which are engaged in health or welfare activities are furnished office space in the units, together with heat, light, and janitor service.

BUREAU OF DENTAL SERVICES

During the year 1957 the Bureau of Dental Services continued its program of education in preventive dentistry. The aim and goal of the Bureau is to teach the children who attend clinics the proper care of their teeth.

The bureau established two new dental clinics during 1957. One clinic at the Bromley Park Housing Project opened in March and the second clinic at the Bird Street Municipal Building in Dorchester opened in November. This makes a total of eighteen clinics operated by the Boston Health Department.

Parochial school children attend the dental clinics on Monday and Tuesday, and public school children on Wednesday, Thursday, and Friday. The work done in the dental clinics consists of fillings, extractions, and prophylaxis.

Approximately 55,201 patients, preschool children and school children up to and including eighth grade students, were treated in 1957 at the dental clinics.

Section of Environmental Sanitation

The three bureaus which comprise the Section of Environmental Sanitation had a very busy year due to the adoption of new regulations and codes.

During 1957 the Bureau of Milk and Chemistry of the Section of Environmental Sanitation had a regulation established which adjusted the standards for bacterial content of milk. As a result, the maximum permissible number of colonies of bacteria per cubic centimeter was lowered. This was the culmination of the vigorous inspectional and enforcement activities which have been conducted by the bureau over the past decade. The quality of milk sold in Boston rivals the best of any sold anywhere in the country.

On February 1, 1957, the Bureau of Food had enacted a Sanitary Code for Eating and Drinking Establishments and for Prepared Food Vending Vehicles. The code was written after a series of meetings were held between members of the food industry and the Health Department. Copies may be obtained either at the Bureau of Food or the Bureau of General Sanitation.

The Bureau of General Sanitation conducted an intensive inspectional program on a housing survey relative to enforcement of the new housing code which provides minimum standards for human habitation. Approximately thirty-five temporary environmental sanitation inspectors were employed for the purpose, and 27,000 dwelling units were inspected. A study of the statistics revealed that certain sections of the city, such as Charlestown and the South End, were so badly debilitated that enforcement of the provisions of the code were unfeasible, and a recommendation was made that these sections should be considered by the Planning Board as urban renewal areas. With the survey completed, the bureau intends to start an enforcement program for next year.

BUREAU OF MILK AND CHEMISTRY

LICENSES AND PERMITS

During 1957 a slight decrease was shown in the number of milk licenses and oleomargarine registrations issued by this bureau. The number of permits to sell or serve milk from a dispenser increased from 212 to 273. As a result of the action of the Boston City Council in December, 1956, a fee of \$1 was collected for each milk dispenser license; there had been no fee previously. Also as a result of a City Council ordinance, a fee of \$100 was collected for each of 28 permits to sell cream. In 1956, when the fee was \$50, 46 such permits were issued. Although the number of permits decreased, an additional revenue of \$500 was realized from this source. The decrease in the number of permits to sell cream was not attributable to the increased fee, but to the abundant supply of high quality New England cream available in the Boston market all through 1957.

In all, \$10,155, representing \$1,098 more than in 1956, was deposited with the cashier of the Health Department. In addition, 3,247 applications for permits to sell or deliver frozen desserts, 114 applications for permits to manufacture frozen desserts, and 15 applications for licenses to maintain an establishment for the pasteurization of milk were approved and turned over to the cashier who issued the permits and licenses and collected fees totaling \$5,442 in payment thereof.

NUMBER OF SAMPLES

In 1957, 17,146 samples were collected by this bureau as compared with 20,728 samples in 1956. However, the collection force consisted of three men in 1957, while four men comprised the sample collection force for most of 1956. In addition, the laboratory of this bureau examined 2,000 samples of foods and water submitted by other bureaus of the Health Department and other departments of the City of Boston.

NEW LEGISLATION

As the result of a request made by this Bureau to the Health Commissioner, the Mayor of Boston caused certain legislation to be initiated to correct an existing loophole in the frozen desserts law enforced by this bureau. The legislation, which was subsequently enacted into law, establishes a standard for ice milk mix, requires a license for its manufacture, and generally

imposes the same controls and supervision on ice milk that have long applied to ice cream mix.

NEW REGULATION

On June 7, 1957, by regulation of the Health Commissioner, the maximum bacterial content of milk destined for sale in Boston, both before and after pasteurization, was revised for the first time in approximately twenty years. The new standards require that there be not more than 10,000 colonies of bacteria in one cubic centimeter of milk-pasteurized and not more than 200,000 colonies in one cubic centimeter of any raw milk destined for pasteurization. The new regulation was necessary to correct an inconsistent situation resulting from a change in the regulations of the Massachusetts Department of Public Health. Inasmuch as Massachusetts Department of Public Health regulations apply only to pasteurizing plants within the Commonwealth, a situation was created whereby milk pasteurized outside the Commonwealth could legally contain more bacteria than locally pasteurized milk. The action of the Health Commissioner restored the status quo.

The quality of milk sold in Boston in 1957 was the best ever. The average bacteria count of milk-pasteurized was 2,600 colonies in one cubic centimeter. This compares with 2,900 in 1956. The standard is 10,000. Grade A milk maintained its excellent quality with average count of 900 colonies in one cubic centimeter. The standard is 5,000. Because of the change in bacterial standard, forty-six notices were sent to milk dealers warning of high bacteria counts. Thirty-one cream and twelve skimmed milk notices were sent out regarding high bacterial content. Skimmed milk is not required to be marked with the day of the week when it is pasteurized, and a few dealers are not pasteurizing skimmed milk every day. Hence some skimmed milk is old when delivered. Steps are being taken to correct the situation.

During 1957, 104 notices were sent out concerning the excess of coliform content. Also this year, as it has been for decades, not a single case of disease traceable to the Boston milk supply was found.

COURT CASES

In 1957, there were ten prosecutions, with a total of \$220 in fines.

BUREAU OF FOOD

During the year, three animal inspectors of the Brighton Abattoir, which closed its doors permanently on July 31, were reassigned as environmental sanitation inspectors to the Bureau of Food.

The present personnel of the Bureau of Food consists of:

- Acting Chief of Bureau
- 1 Senior Clerk-Stenographer
- 11 Environmental Sanitation Inspectors
- 1 Temporary Environmental Sanitation Inspector
- 1 Superintendent of Pedlers
- 1 Constable

The Sanitary Code for Eating and Drinking Establishments and for Prepared Food Vending Vehicles appeared in booklet form on February 1. Copies were distributed widely throughout the city and, upon request, to many parts of the country.

FOOD VENDING VEHICLES

This year, for the first time, food vending vehicles were given semiannual inspections for certification by the Boston Health Department. Such inspections were made when each vehicle was loaded and ready for operation. The regulation (stating that service rooms used for preparation of food sold from vending vehicles must be acceptable to the Health Commissioner) has given the Bureau of Food an opportunity to coordinate inspection activities with those of the various local health departments under whose jurisdiction these commissaries are located.

To date, a summary reveals that forty-three commissaries and eighty-seven vehicles were inspected, with eighty-three vehicles certified and four pending certification. Commissaries, servicing food vending vehicles operating in the City of Boston, are located in Everett, Medford, Revere, Quincy, Somerville, Cambridge, Belmont, as well as throughout Boston.

On October 17 a joint meeting of the nine poultry slaughterhouse owners and operators was held with members of this bureau at a private auditorium in the Boston Market District. Its purpose was to clarify

the pending revised regulations of the Poultry Ordinance of the United States Department of Agriculture. These regulations are to take effect in January of 1959, but they are voluntary as of January, 1958. With the cooperation of the Bureau of Health Education, motion pictures emphasizing modern sanitation methods of a poultry slaughterhouse were shown.

In 1957 it was necessary for the Bureau of Food to petition the Boston Licensing Board to suspend the common victuallers license of a diner and a cafe, respectively, until sanitary conditions therein were remedied. In addition, in November, a complaint against a Dorchester bakery resulted in a maximum penalty being levied by the Chief Judge of the Dorchester Court on its owner and operator for insanitary conditions.

The South Station Terminal, covering thirteen acres, one of the largest in the world, and the fruit terminal in South Boston are the center of the fruit and vegetable activity in New England. This year it became imperative to supplement the single food inspector of the Bureau of Food with an additional inspector (reassigned from the Brighton Abattoir).

One of the accomplishments of Boston's improvement schedule is the "Newmarket District" in South Boston. This has become the terminal for western dressed meats and the center of about two thirds of the city's meat packing processors. It is modern in design and operation, and the tremendous amount of business and activity require the continuous services of an inspector of the Bureau, (reassigned from the Brighton Abattoir).

To correlate the inspectors' reports into a clear appraisal of the activities of the bureau, there is now being prepared a new folder file listing of each food and drink establishment.

The continued and steadfast cooperation with the Federal Bureau of Animal Industry, as well as with the United States Food and Drug Division, is very much in evidence. In a joint participation with the latter, this bureau was able to prosecute a wholesale distributor in the Municipal Court for keeping large quantities of flour and rice under insanitary conditions.

The Food and Drug Division of the Massachusetts Department of Public Health and the Bureau of Food have consolidated their efforts in handling of large fires

in the City of Boston. A particular instance was the fire at Lewis Wharf in December, where approximately \$500,000 worth of sausage casings were involved. The coordinated efforts of both divisions resulted in the salvage of the uncontaminated and undamaged portions of the casings. The same is true of the untold value of the paper stock (used in the food industry) in the adjoining building, which was severely damaged in the same fire.

The coordination of the two agencies was again in evidence when the Governor of the Commonwealth selected the directors of these two bureaus to be members on the newly-created "Board of Registration of Environmental Sanitarians."

BUREAU OF GENERAL SANITATION

DEMOLITION PROGRAM

During 1957 the Demolition Program, which was initiated in the fall of 1956 by the Section of Environmental Sanitation, was greatly accelerated. Through December 31, 1957, the department has either demolished or has under contract to demolish 152 buildings comprising 420 dwelling units at a cost of \$149,626.

Although the program has been a costly one, the department is of the opinion that the results obtained from the demolition of these buildings more than justify the money expended. The buildings involved constituted a definite health menace to the community by virtue of the fact that they were vermin- and rodent-infested, and the general disrepair of the structures had caused a depressed neighborhood spirit, resulting in the further spread of blight throughout the city. Additional funds are being requested in the 1958 budget to continue the program.

Thirty-five temporary environmental sanitation inspectors, including eight women, were employed during the last four and one half months of 1957. They conducted a survey throughout the city relative to compliance or noncompliance of dwelling units with the code establishing minimum standards of fitness for human habitation, which was adopted by the department in 1956 as part of Boston's Workable Program for Urban Renewal. Those sections of the city with the greatest incidence of overcrowding, tuberculosis, juvenile delinquency, and mobility of population were chosen to be surveyed.

Of the first 27,000 dwelling units inspected, 21,561 violations of the code were discovered. These violations, for the most part, were concentrated in Wards 2, 3, 9, 15, 16, and 22. Any violation that required immediate action by the department was referred to the inspector in the district.

The enforcement of the remaining violations is being held in abeyance until a determination is made as to which sections of the city are to be declared as urban renewal areas. The department feels that it would be unfair to have owners spend considerable sums of money to effect compliance with the code only to find later that the section has been earmarked for clearance by the Urban Renewal Committee.

FOSTER CARE AGENCIES

Regulations for Minimum Standards of Children's Foster Care Agencies were adopted by the Massachusetts Department of Public Welfare during 1957.

Under the provisions of these standards, the department has to inspect these institutions relative to compliance with respect to water supply, sewerage system, disposal of garbage and refuse, lighting and ventilation, laundry, screening, food storage and sanitation. In 1957, thirteen of these institutions were inspected and certified by this bureau.

Weights and Measures Division

GENERAL POWERS AND DUTIES

Section 41 of Chapter 98 of the General Laws of Massachusetts states that all weighing and measuring devices used for the purpose of buying or selling goods, wares, or merchandise, or for public hire or reward shall be tested and sealed annually.

The primary duty of the Weights and Measures Division is to see that equity prevails in all sales of commodities or services which involve the use of weighing and measuring devices to determine the value thereof. It is the duty of the division to make sure that all citizens, merchants and consumers alike, receive protection from faulty weighing and measuring devices, and from fraudulent practices of those who would take unfair advantage not only of their competitor but also consumers.

In order to carry out the responsibilities and duties, the work of the division has been divided into two classes, mechanical and supervisory. The mechanical work consists of testing with working standards each device found in commercial use. Such devices that are found correct are sealed. Devices that are found incorrect are condemned and removed from commercial use until such time as the device has been repaired and again tested and sealed.

The use of correct weighing and measuring devices duly certified by the weights and measures official, is not in itself any guaranty that correct quantities will be delivered. There is still the opportunity for carelessness, inaccuracy, and fraud to creep into a transaction through ignorance of proper methods or through intentional wrongful use of correct equipment.

The supervisory work performed by the division to prevent any of these conditions involves inspection of equipment after sealing, reweighing of packaged goods put up in advance of sales, reweighs of loads of coal and coke in transit, observation of deliveries of fuel oil and comparison of meter indications with certificates left at time of deliveries.

During 1957 the consuming public in Boston has been protected by the procedures of the Weights and Measures Division. It is the goal of the Weights and Measures Division to insure correct quantity determination for consumers in Boston.

LITIGATION

A. APPELLATE COURTS

The following appellate cases handled on behalf of the city or its officials by the Corporation Counsel were decided during the year:

Cabot v. Alphen, 354 U.S. 907. On June 10, 1957, the United States Supreme Court dismissed for want of a substantial federal question the appeal taken to it by ten taxpayers of Boston and three garage corporations doing business in Boston from the decision of the Supreme Judicial Court of Massachusetts holding valid the tax exemption granted by St. 1946, c. 294, s. 2A, to Boston Common Garage, Inc. upon the portion of Boston Common which it had leased for the purpose of constructing an underground garage. See *Cabot v. Assessors of Boston*, 1956 Mass. Adv. Sh. 1299.

The Franklin Foundation v. City of Boston, 1957 Mass. Adv. Sh. 661. This was a petition in the Supreme Judicial Court of Massachusetts for a declaratory decree to establish whether or not the sum of \$408,396.48 given to the City in 1905 by Andrew Carnegie in duplication of that part of the legacy left the City by Benjamin Franklin and used to construct what is now the Franklin Technical Institute was an unrestricted gift which might be applied to current expenses of the Institute or otherwise for its benefit as The Franklin Foundation in a lawful exercise of its discretion might determine. The Supreme Judicial Court thought that Mr. Carnegie intended to double the amount of capital available for the purposes of the Institute, and so held that the principal of the Carnegie donation cannot be used in payment of payrolls or other current expenses of the Institute.

Court Street Parking Co. v. City of Boston, 1957 Mass. Adv. Sh. 873. This opinion of the Supreme Judicial Court of Massachusetts dealt with three suits in equity* brought by three owners and operators of parking lots in Boston to enjoin action to take their parking lots under St. 1946, c. 474, as amended by St. 1948, c. 612, for the purpose of constructing thereon public parking facilities. The Supreme Judicial Court held that the statute just cited is constitutional, that no unlawful action was forecast, and that the plaintiffs were not entitled to injunctive relief. On December 16, 1957, sub nomine *Rosengard v. Boston*, the United States Supreme Court dismissed for want of a substantial federal question the appeal which the plaintiffs took to it from the decision of the Supreme Judicial Court of Massachusetts.

* The companion cases were *Rosengard v. City of Boston and Pilgrim Parking, Inc. v. City of Boston*.

B. DEPARTMENT REPRESENTATION AT PUBLIC HEARINGS

1. DEPARTMENT OF PUBLIC UTILITIES.

When the City's interests warranted, a representative of the Law Department was in constant attendance at hearings before the Massachusetts Department of Public Utilities. Economic conditions being what they are today much more time was required in this particular work than in previous years. The City petitioned for a license for the construction of a tunnel for railroad side track access as part of the Urban Redevelopment Program in the so-called New York Streets Area. Also, the City petitioned for authority to rebuild or alter certain bridges within the City limits.

Considerable time was consumed on behalf of the public interest in matters involving proposed rate and fare increases involving the New England Telephone and Telegraph Company, the Boston and Maine Railroad, New York, New Haven and Hartford Railroad, Boston and Albany Railroad, Boston Gas Company, Boston Edison Company and other major utilities.

2. CIVIL SERVICE.

This department handled twenty-five hearings given to employees by the various department heads under the Civil Service laws.

This department represented department heads on seven cases appealed to the Civil Service Commission by City employees.

3. MISCELLANEOUS.

State Department of Public Works, Interstate Commerce Commission and Civil Aeronautics Board.

Members of the Law Department appeared on behalf of the City at hearings before the State Department of Public Works, the Interstate Commerce Commission and the Civil Aeronautics Board and other Commissions when the City's interests warranted.

The City intervened in the proceeding before the Interstate Commerce Commission wherein the equalization of freight rates in the North Atlantic Ports was sought. Also, the City took an active part before the Civil Aeronautics Board regarding flight service between Boston and Miami and between Boston and Puerto Rico.

C. TORT ACTIONS

During the year 567 tort cases were disposed of. The total amount paid by the city was \$456,490.72. Following is a brief comparison of such total payments since 1952:

1952	\$212,558 41
1953	182,855 16
1954	194,135 81

V. CONSULTING SERVICE.

During the year our legal staff advised city and county officials by telephone communications and at personal conferences regarding the performance of their duties. In addition the department rendered 27 formal opinions and passed upon the form and validity of 753 bonds and 1,044 contracts.

VI. CONVEYANCING.

A. REAL ESTATE.

Sales, Leases, Licenses — City-Owned Properties.

During the year 1957 the Conveyancing Section of the department prepared 10 deeds, 16 leases, 4 City Council orders and 6 licenses.

The Conveyancing Section conducted 16 title examinations during the year and examined numerous deeds, leases, plans and other instruments and conferred with and reported to public officers interested therein.

B. EMINENT DOMAIN.

Laying-Out and Construction of Public Highways.

The Conveyancing Section during the year prepared instruments in settlement of 97 petitions for land takings and damages to property resulting from the laying-out and construction of public highways involving payments of \$92,984.23.

C. LAND COURT.

The City of Boston is a party respondent to all petitions filed with the Land Court for registration of title to lands within the territorial limits of the City. During the year the office appeared in 75 cases in this court and examined all petitions and papers filed therewith, preparing many answers to said petitions and documents and stipulations affecting the land and title sought to be registered.

During the year appearances were made in numerous cases in the Probate Court in matters affecting the City of Boston in its capacity as a public charitable trustee. All accounts upon which the City or its departments were cited were examined.

VII. COLLECTIONS.

A. TAX TITLE DIVISION.

In 1957 the Tax Title Division of the Law Department disposed of 546 cases, and brought into the treasury of the city the sum of \$483,583.68.

The following statistics indicate the volume of work handled by the division in 1954, 1955, 1956, and 1957:

	1954.	1955.	1956.	1957.

C. COLLECTION FROM ESTATES OF DECEASED PERSONS RELIEVED FROM TAXATION.

Under authority of General Laws, c. 59, s. 5A, the Assessors of the City of Boston have committed to the Collector-Treasurer upon a special warrant the aggregate amount of the taxes from which certain persons were relieved. The claims for these taxes have been referred to the Law Department for collection.

During the year there were thirty-six such cases closed and the amount of \$2,095.71 was collected and turned over to the Collector-Treasurer of the City of Boston.

D. CLAIMS AGAINST BANKRUPTS.

During 1957, 168 bankrupt estates were investigated to ascertain whether the bankrupts were indebted to the City. In 115 of these estates claims aggregating \$21,752.31 were filed. Sums received in 1957 from bankrupt estates totaled \$21,486.37.

During 1957, 47 assigned estates were investigated to ascertain whether the assignors were indebted to the City. In 21 of these estates claims aggregating \$8,392.24 were filed. Sums received in 1957 from assignees totaled \$2,600.66.

Corporation Counsel.

ANNUAL REPORT
OF THE
PARKS AND RECREATION
DEPARTMENT

FOR THE
YEAR ENDING DECEMBER 31, 1957.

Boston, December 31, 1957.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In accordance with section 15 of chapter 185, Acts of 1875, the Parks and Recreation Commission herewith submits its annual report for the year 1957.

Respectfully submitted,

FRANK R. KELLEY,
*Chairman, Board of Parks
and Recreation Commissioners.*

HARRY J. BLAKE,
THOMAS J. CARTY,
DANIEL G. O'CONNOR,
O. PHILIP SNOWDEN,
Associate Commissioners.

INTRODUCTION

The Department of Parks and Recreation had its beginning with the appointment of the first Board of Park Commissioners on July 8, 1875, under the title "Park Department." The Board consisted of three members who served without compensation. As thus constituted, the Department continued up to 1913, when by provision of Chapter 10, Ordinances of 1912, it was merged with the Public Grounds, Bath and Music Departments, under the name of Park and Recreation Department. The Commissioners were appointed by the Mayor for a term of three years, one term expiring each year. The Chairman was a paid city official, in charge of the operation of the department. The other two members served without compensation.

In 1920 the Cemetery Department was merged with the Park and Recreation Department, and the title was changed to Park Department. On May 1, 1954, the department became the Parks and Recreation Department under the provisions of Chapter 2, Ordinances of 1954. The Board of Parks and Recreation Commissioners was increased to five members.

Under the latest ordinance, the Commissioner of Parks and Recreation becomes the active head of the department with power of authority far beyond that which existed when the Board consisted of three members (Sec. 36-42 incl., Chapter 2, Ordinances of 1954). The Commissioners meet as required on call from the Chairman.

The department is responsible for the maintenance and improvement of approximately 3,000 acres of parks and playgrounds. Included in this area are the following facilities: a general office building; 127 playgrounds and play areas, 47 of which have field houses; 20 parks, large and small; 2 service yards containing offices, mechanics' shops, storehouse and garage; a recreation office building; 13 indoor recreation centers; 16 public bath houses; 2 public golf courses (18 holes); 3 public bathing beaches with bath houses in which are 2 solaria; 4 swimming pools (2 indoor and 2 outdoor); 85 public squares; 1 laundry; 14 greenhouses; 19 cemeteries (3 active, 16 inactive or historic); 108 miles of parkways, driveways, walks and paths; 131 acres of ponds and rivers; and the care and maintenance of all trees on city streets, parks and playgrounds.

The department organizes, promotes and conducts a city-wide recreation program for all age groups with special emphasis on youth programs.

MAJOR ACCOMPLISHMENTS IN 1957

This report summarizes briefly the efforts of the Parks and Recreation Commission and the staff of the department to maintain a high standard in essential services and to expand the facilities of our Park System to meet the needs of the department within our appropriation allowances.

In this report there is no particular attention given to the extensive maintenance responsibilities of the Parks and Recreation Department. Reference to the introductory section of this report will indicate the large number of areas, buildings, etc., that require most of the time of our staff. It should be apparent that much of our appropriation is expended for the maintenance and improvement of parks, gardens, park and recreation buildings, mechanics' shops, golf courses, cemeteries, etc. Proper maintenance is the key to efficient service. We are confining this report to major work accomplished in 1957, all of which is substantially outside the area of general maintenance.

PARK AND PLAYGROUND IMPROVEMENTS

Construction of Playground at Veterans of Foreign Wars Parkway, Russett Road, Bruce and Weld Streets, West Roxbury: Construction of this new playground, including grading, drainage, water supply, backstops, etc., was started during the year and approximately 90 per cent of the work under the first contract, amounting to \$90,000, has been completed. We hope to continue another phase of the construction work on this playground in 1958.

Angell Memorial Plaza, Post Office Square: A new park in the center of the down-town financial district, including concrete walks, new type benches, grading, loaming and planting of trees, was constructed in 1957 and early 1958 at an approximate cost of \$10,000 appropriated by this department, and a like amount appropriated by the Massachusetts Society for the Prevention of Cruelty to Animals. Small-leaf European

linden trees have been planted in this newly constructed park and during the spring, summer and fall months, this park should be quite an attraction.

Public Garden: This beautiful area received a face lifting with the installation of ornamental park benches and the erection of an ornamental post and chain barrier fence on the main walk. This work was done under two contracts involving an expenditure of approximately \$13,000.

La Fayette Mall, Boston Common: A contract in the amount of \$138,000 was awarded for the reconstruction and beautification of Lafayette Mall on Boston Common. This will be the first step in the beautification of this area which, when completed, will include special flower beds, fountain, monuments, court of flags, etc. Construction work will start early in 1958.

East Boston Stadium and Recreation Area: Considerable repair work, including painting of the exterior of the stadium, was completed at a cost of approximately \$9,000.

John J. Connolly Playground, Marcella Street, Roxbury: One of the better known and older playgrounds in the city was completely redesigned and reconstructed, including loaming, regrading, erection of new backstop, bleacher repairs, setting aside of a new children's area with complete playground equipment, all at a cost of approximately \$42,000.

WALKS AND ROADWAYS

Reconstruction of Commonwealth Avenue Mall: A contract in the amount of \$44,000 was awarded and construction work started on the reconstruction and resurfacing of the main walk on Commonwealth Avenue Mall from Arlington Street to Massachusetts Avenue, as well as the resurfacing of the cross-sidewalk areas. The work is to include the paving of the existing gravel walk with a permanent asphalt surface, the erection of benches, and the replacing of the existing brick cross walks with new concrete walks. Much of the work under this contract will be done in 1958.

Franklin Park Yard: The department's service yard at Franklin Park was regraded, drainage installed, and resurfaced with an asphalt pavement, at a cost of approximately \$14,000.

Commonwealth Avenue Roadway: The in-bound roadway on Commonwealth Avenue between Kenmore Square and Charlesgate West was reconstructed and repaved, at a cost of approximately \$20,000.

St. Thomas More Drive, Brighton: This section, located in Brighton in the vicinity of the architecturally beautiful Boston College Law School, was resurfaced at a cost of approximately \$21,000.

BUILDINGS

Cabot Street Bath House, Roxbury: This building was completely renovated and painted at a cost of approximately \$25,000.

North Bennet Street Bath House: Repairs and renovations were made at this location including painting of the interior, at a cost of approximately \$15,000.

L Street Bath House: One of the handball courts at this bath house was completely rebuilt at a cost of \$7,300.

TREES

Approximately 1,000 trees were planted during the year on city streets and parkways, at a cost of \$30,000.

Approximately 350 dead or diseased trees were removed during the year under contract, at a cost of \$24,000. The total number removed was approximately 800, the balance over and above those removed by contract being removed by the tree staff of the Parks and Recreation Department.

PARKS AND BEACHES

Early in the year, for the first time, there was formed a water ballet school in which participants were taught synchronized swimming. In cooperation with the American Red Cross, this department staged swimming championships open to all under 17 years of age, at Curtis Hall Pool. There were 759 participants.

Another responsibility assumed during this year was the instruction of 125 girl scouts in the art of swimming, and following this, we initiated for the first time a "Learn to Swim Program" in the indoor pools operated by the bath division. The month of May was designated as "Learn to Swim Month." Our swimming program was conducted indoors, with special classes for retarded children. In the summer months a special lifeguard training course was organized, designed to raise to the highest level of efficiency the lifeguard group serving at our beaches and pools. During the summer months beginners and intermediates were instructed in junior lifesaving and competitive swim events at L Street in South Boston, and at the George Robert White pools in Charlestown and the North End. Later in the summer, outdoor swimming championships with demonstrations in synchronized swimming were held at the above locations.

One of the outstanding events of the year was "Playground U.S.A. Day", held on Boston Common and other areas. The Bath Division participated by staging a half-hour swimming program for TV viewers, televised over station WBZ-TV, with an additional 15 minutes on a national hookup on Dave Garroway's program. The highlights of this day were the beginners' classes in action, intermediate demonstrations, and skill in swimming by the best of Boston swimmers, lifesaving demonstrations, and water ballet. Also held in the summer, under direction of the Bath Division, were CYO championships for girls and boys, and the first annual Aqua Classic for men and women.

Our indoor pools were in use daily by school groups and special classes throughout the entire season.

RECREATION

Our recreation program and what this department accomplishes for all groups, from the youngest to the Golden Age, is well known in the community. Our program has been copied by many other cities in the United States.

As in former years we have conducted our city-wide basketball, baseball, handball and football programs in all sections of the city. Thousands of persons competed in all our events, which are set up in Junior, Junior Varsity, Varsity and Senior Varsity, and Senior

Park leagues, in all these sports. It might be of interest to point out that in our Senior Park Football League, whose games are witnessed by hundreds of thousands, the final play-off game was held in the new Boston College Stadium. This privilege was granted to us through the courtesy of His Excellency Archbishop Richard J. Cushing and Boston College officials.

During the summer season, for a ten-week period, we staffed 125 play areas with recreation leadership, and the young men and women instructors, most of whom were college graduates or upper classmen in college, directed a workshop covering sports, games, athletics, handicrafts, music, etc. Among the more popular attractions were the several soft ball leagues, which now include women as well as men.

A special indoor recreation demonstration, which included girls from each of the 14 recreation centers throughout the city, was held at the Tobin Memorial Gymnasium at which the May Queen was selected.

In addition to the regular annual events like May Day, Halloween, and the Golden Age parties, the Recreation Division promoted weekly programs beginning with "Get Acquainted Week" and including "Be Kind to Animals Week," "Do It Yourself Week," "Be a Good Citizen Week," etc.

The outstanding recreation event was held on August 9, when "Playground U.S.A. Day" was presented on Boston Common with participants from all sections of Greater Boston and some coming from a distance of more than 50 miles. The program included a Junior Olympics Novice Track Meet, folk dancing of all racial groups, and swimming events, comprising an all-day program which was carried on local radio and local and national television schedules.

CEMETERIES

Roadways were reconstructed and resurfaced with a permanent asphalt pavement in Mount Hope, Fairview, and Evergreen cemeteries, at a cost of approximately \$31,000. New areas for burials were developed in the three active cemeteries mentioned above, which included the installation of concrete grave liners, at a cost of approximately \$14,000. Incidentally, our interments in these three cemeteries during 1957 numbered 1,980.

Additional work done during the year in our three active cemeteries included the painting of the fences at Mount Hope and Evergreen cemeteries, the installation of 500 feet of water pipe at Mount Hope Cemetery and 735 feet of water pipe at Evergreen, and the planting of 60 new trees in Mount Hope Cemetery.

ANNUAL REPORT
OF THE
PUBLIC WORKS DEPARTMENT

FOR THE YEAR ENDING DECEMBER 31, 1957.

Boston, January 2, 1958.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In compliance with the provisions of section 24 of chapter 3 of the Revised Ordinances of 1947, I respectfully submit the annual report of the Public Works Department and the Public Improvement Commission for the year ending December 31, 1957.

FISCAL

The total expenditures of the department for the year were \$25,357,692.66, of which \$3,328,696.68 represents water assessments levied by the Metropolitan District Commission and \$874,165.17 represents Metropolitan District Commission sewer assessments. The water assessments are \$37,901.24 greater than those levied in 1956, and the sewer assessments show an increase of \$179,709.03 in excess of those levied in 1956. The sewer assessments will continue to rise due to the large expenditures being made by the Metropolitan District Commission in providing for sewage treatment plants and deep rock tunnels to convey sewage to Deer Island and Nut Island, and also because of the policy (now curtailed to some extent) of admitting relatively

remote communities to the Metropolitan District Commission sewer system with Boston paying an unreasonably large share of the cost of the connection. The full impact of the Metropolitan District Commission program will not be felt for four or five years, but even beyond that period the sewer assessments unquestionably will continue to increase. The present rate of \$80 per million gallons charged by the Metropolitan District Commission for water will also probably have to be increased to \$100 or \$120 within the next five years. Under the circumstances, Boston can look for no financial relief in the foreseeable future, insofar as Metropolitan District Commission assessments are concerned.

The receipts of the Water Division totaled \$6,274,-964.54, and the revenue derived from the Sumner Tunnel reached a record high to \$2,581,503. The operation of the Sumner Tunnel resulted in a record-breaking surplus of \$1,194,586.30 and the surplus resulting from the sale of water amounted to \$97,607.45.

LOAN ORDERS

On July 26, 1957, a City Council order was approved by your Honor which provided, under the provisions of section 7 of chapter 44 of the General Laws, that the sum of \$3,000,000 be appropriated for the construction of public ways. Ordinarily loan orders for street construction and reconstruction work provide for an amount of \$2,000,000, but we requested the above-referenced larger sum in order that it would be unnecessary to request an additional loan order this year, which would automatically have added 10 cents to the 1958 tax rate.

LEGISLATION

Under the provisions of chapter 718 of the Acts of 1956, the City of Boston was allocated the sum of \$2,530,208.82 for the reconstruction of highways. This allocation — which was paid from the proceeds of the Highway Fund — was expended under the direction and in accordance with regulations established by the State Department of Public Works. It was of tremendous benefit in carrying out the department's highway program in 1957 and it was a factor in making it unnecessary to issue a loan order in 1958 for the construction and reconstruction of highways.

Of the above-referenced amount, the sum of \$250,000 was earmarked for the installation of traffic signals under the direction of the Traffic Commission.

STREET CONSTRUCTION WORK

State-Aid Program

The Chapter 90 Highway Program was continued at the same tempo that has characterized this program since 1951. In my opinion, our Chapter 90 Program for the improvement of main highways is second to none in the state. Since 1951, the cost of Chapter 90 projects has averaged approximately \$800,000 each year; of which from fifty to sixty per cent has been paid out of the State Highway Fund. I don't believe that a comparable program for highway improvements has ever been carried out in the history of the department. Incidentally, it would never have been possible to carry out such a program without the enthusiastic and whole-hearted support of the officials and engineers of the State Department of Public Works, both past and present. Their cooperation has been outstanding.

Our Chapter 90 Program provides for the complete modernization of main highways with emphasis on safety features to protect pedestrians and motorists. Our Chapter 90 highways are well-lighted by means of mercury vapor luminaries and, where possible, a center divisional island of a minimum width of five feet is provided. The latter acts as a haven for pedestrians, separates vehicular traffic going in opposite directions, and unquestionably tends to reduce vehicular speed and prevents motorists from driving on the wrong side of the traveled way. A good example of modern urban highway reconstruction may be observed on Commonwealth avenue, from Brighton avenue to Warren street, and on Blue Hill avenue, from Columbia road to Mattapan square. Both of these highways were reconstructed in 1957 as Chapter 90 projects, and they are concrete examples of the type of improvement that we have been able to effect under the Chapter 90 Program with the cooperation of the State Department of Public Works.

I submit herewith a schedule of the Chapter 90 activities in 1957 and those proposed in 1958:

Projects started in 1956 and completed in 1957

STREET CONSTRUCTION WORK
Exclusive of Chapter 90 Projects

We also completed a major street reconstruction program comprising extensive construction and reconstruction in every section of the city. Several important traffic arteries resurfaced by the department during the year are listed as follows:

Arlington street, City Proper, from Boylston street to Beacon street.

Beech street, West Roxbury, from Kittredge street to Poplar street.

Berkeley street, City Proper, from Boylston street to Beacon street.

Boylston street, City Proper, from Tremont street to Charles street and from Arlington street to Berkeley street.

Centre street, West Roxbury, from Eliot street to Prince street.

Clarendon street, City Proper, from Boylston street to Beacon street.

Day Square, East Boston.

Jackson square and vicinity, Roxbury, including parts of Centre street, Columbus avenue and Ritchie street.

Massachusetts avenue, City Proper and Roxbury, from Huntington avenue to Columbus avenue.

Metropolitan avenue, Hyde Park, from Beacon street to Milton line.

North Harvard street, Brighton, from Hooker street to Western avenue.

Parker Hill avenue, Roxbury, from Parker street to Sunset street.

Perkins street, West Roxbury, from Prince street to Francis Parkman Drive.

Ruggles street, Roxbury, from Columbus avenue to Leon street.

Roxbury Crossing, Roxbury, from Tremont street to Roxbury street.

In continuation of our policy of replacing brick sidewalks with cement concrete in the older sections of the city, contracts during the year, totaling approximately \$153,500, were awarded for this work.

The following is a summarized financial statement of the expenditures made in 1957 for highway improvements:

Public Ways, Construction of (Loan Account) . . .	\$1,785,406 98
Public Ways, Construction of (Revenue Account) . . .	84,147 12
Reconstruction of Streets (including sidewalks) . . .	19,069 46
Sidewalks, Construction and Reconstruction of . . .	165,711 01
Expended under provisions of chapter 718, Acts of 1956	1,484,467 59

Total	<u>\$3,538,802 16</u>
-----------------	-----------------------

The following is a summarized record of the highway improvement work done by the department in 1957:

Number of Streets Constructed or Reconstructed, 220.

Includes 50 new streets ordered laid out and constructed as public ways under the provisions of chapter 393, Acts of 1906.

Streets Improved, 37.66 miles.

Includes 6.8 miles reconstructed as chapter 90 projects.

Sidewalks Improved, 6.35 miles.

This item does not include sidewalks improved in the above-noted street improvements.

STREET LIGHTS

During the year, we removed 1,704 gas lamps which were replaced with electric lights of a 2,500 lumen intensity. It is our intention to continue this program in 1958 and, if possible, remove all of the remaining gas street lights located in Boston. As of December 31, there were only 710 gas lamps remaining. In the past eight years, we have removed 6,263 gas lamps and replaced them with modern street lights. Incidentally, for the past forty or fifty years, the city has had a contract for the servicing and maintaining of all gas lamps throughout the city. This contract service was terminated at midnight on December 31, as the contractor, the American Service Company, did not wish to continue the contract, in view of the small number of gas lamps remaining. Therefore, as of January 1, 1958, we took over the maintenance and servicing of the remaining gas lamps, and we are employing — for a temporary period — three former employees of the American Service Company. Up to date, the servicing work being done by the department has proved very satisfactory.

SNOW REMOVAL

While we did not encounter any major snow storms during the year; that is, those in excess of eight inches, we did encounter a series of small storms which necessitated extensive plowing, sanding, and salting operations. Our sanding and salting program has been greatly accelerated over the past six years due to the necessity of eliminating hazardous driving conditions during the winter months. The number of vehicles now on the road makes it absolutely necessary to continue with an extensive sanding and salting program even when only light snowfalls are encountered.

The plowing, sanding and salting operations are expensive as they involve the rental of contractors' equipment, overtime payment to department employees, and the purchase of large volumes of sand and salt. The salt item alone is a major item as we now use from six to eight thousand tons a year, and it costs approximately \$15.60 a ton. It is not unusual to use 400 tons of salt in a single night to eliminate hazardous driving conditions caused by sleet or light snowfalls.

The cost of snow removal work in 1957 was \$449,797.64.*

* Not available.

BRIDGES

During the year, work continued on the major contract for rebuilding and repairing the Charlestown Bridge, which probably is the most important drawbridge in the city as it is used by approximately 20,000 motorists and M. T. A. passengers daily. The drawspan was closed to the passage of all marine traffic from May 1 to December 31, due to the necessity of effecting major repairs. We have had some difficulty in making the necessary adjustments for operating the draw, but we hope that we will be able to re-open the draw for marine traffic some time early in 1958.

SOUTH BAY INCINERATOR

During the year, the contract for the driving of foundation piles was completed by the J. F. White Contracting Company. This contract was awarded in 1956, and the final payment to the contractor totaled \$419,000.

New Massachusetts Avenue Bridge Over New York, New Haven & Hartford Railroad Tracks, Looking Northerly Towards Saint Botolph Street.

The New Winthrop Bridge over Belle Isle Inlet. Taken at Winthrop, Looking Toward East Boston, Saratoga Street,
Showing Upstream Side of Bridge Feb. 14, 1938.

A contract was awarded to Coleman Brothers Corp. in June for the construction of the refuse storage bin. The bid price was \$423,000 and the work was substantially completed by the end of the year.

Under date of November 25, a contract for the construction of the building was awarded in the amount of \$2,693,793 to the Bowen Company. This contract has not started as yet, but it is expected to start very early in 1958.

PERSONNEL

There were 1,948 employees in the Department as of December 31, as compared with 1,990 employees on the rolls on January 1, 1957.

OUR PLANS FOR 1958

1. First — and of utmost importance — we will make every reasonable effort to reduce expenditures to a minimum consistent with the rendering of proper service to the public. We fully realize the necessity of observing an austerity program, and will be guided accordingly in connection with our expenditures.

2. Every effort will be made to reduce personnel another 5 per cent, although we are scraping bottom in certain areas insofar as a future reduction in personnel is concerned. This is due, in part, to the fact that we have been carrying out a “no hire — no fire” program for the past eight years as evidenced by the fact that the Department now has 582 employees less than we had on January 1, 1950. This reduction takes into consideration the transfer of 65 employees from the Street Laying-Out Department to this department on May 1, 1954.

3. We intend to continue our accelerated Chapter 90 Program for the improvement of main highways.

4. We intend to place Boston's first incinerator in operation some time in 1958.

5. We intend to complete our gas lamp elimination program.

6. We are going to make an effort to close the Charlestown Drawbridge to marine traffic, thereby effecting a minimum saving of \$70,000 a year to Boston's taxpayers. We are now required to maintain a three-man crew around the clock, seven days a week, to operate this drawspan for the benefit of scows and barges hauling sand and oil upstream to plants located

in Cambridge. The maintaining of a drawspan at the Charlestown Bridge places an unreasonable burden on Boston's taxpayers, particularly in view of the fact that we receive no benefit as the vessels are hauling material to and from plants located in Cambridge.

In addition to the excessive cost of operating this span, the motorists and M. T. A. passengers are subjected to an unreasonable inconvenience every time that the draw is opened for the passage of a boat. An average of 20,000 motorists a day use this structure, as well as 80,000 M. T. A. passengers. Since May 1, 1957, the drawspan has been closed to all marine traffic in order to permit the repairing of the draw at a cost of approximately \$600,000.00. It seems reasonable to assume that if marine traffic got along without the opening of the draw for eight months, it might be able to get along permanently without a drawspan, thereby resulting in a substantial reduction in cost to the city and eliminating the inconvenience now caused to approximately 120,000 people. Therefore, it is our intention to petition the U. S. Army Engineers to permit the closing of the drawspan and maintain the bridge structure as a fixed span. Incidentally, there is a vertical clearance of 23 feet under the drawspan at high water, thereby permitting scows, small tugs, small barges and pleasure-craft to pass through the channel without opening the draw. The only vessels requiring the operation of the drawspan are the large oil barges and large towboats. In view of the expense assumed by the city in maintaining and operating the draw, it does not appear unreasonable to require the owners of oil barges to use only the small-sized barges when making deliveries of oil upstream of the bridge to plants located in Cambridge. In any event, I feel that the entire matter should be thrashed out at a public hearing before the Army Engineers, and I intend to petition for the closing of the drawspan as soon as we have prepared sufficient material to substantiate our opinion that the city should not be required to maintain the Charlestown High Bridge as a draw-bridge.

7. We are going to make every reasonable effort to eliminate the contract which provides for the hauling of refuse material from the Fort Hill Wharf to Spectacle Island. This service, which costs the Department approximately \$400,000.00 per year, will be eliminated when the incinerator is placed in operation. The present

contract expires on March 31, and we can effect a substantial saving for the remaining nine months of 1958 or until the incinerator is placed in service, if we can find other suitable areas in which to dump the refuse now hauled by scows to Spectacle Island.

I was unsuccessful in my efforts in 1957 to eliminate this operation, but am hopeful that I will be more successful this year, particularly in view of the fact that the construction of the incinerator is well under way. It appears reasonable to assume that it should be in operation before the end of the current year. We must make a determined effort to eliminate the costly scow operation for the last nine months of 1958 to offset an anticipated increase in the cost of the refuse collection contracts. These contracts are bound to increase in cost in 1958 as the agreement with the Union provides for a 15-cent-an-hour wage increase to all employees engaged in refuse collection work, effective next April 1. We estimate that a 10-cent-an-hour increase to such employees will increase the cost of the contracts approximately \$75,000, and this cost normally is passed along to the city by the contractors. Therefore, we are faced with an increased cost of refuse collection of approximately \$110,000, but this can be offset to some extent if we are successful in our efforts to terminate the Spectacle Island operation.

Incidentally, the total cost of the refuse collection and disposal contracts in 1957 was \$2,608,681. This compares favorably with the 1956 cost of \$2,571,813 when you consider that the hourly rate for the contractors' employees in 1956 was \$2 and in 1957 \$2.15. The cost of these services in 1950 was \$2,730,019 or \$129,338 in excess of our 1957 cost despite the fact that the hourly wage rate in 1950 was only \$1.38. However, I am at my wits' end as to how to reduce the cost of refuse collection and disposal any further unless we are successful in eliminating the scow operation on April 1, 1958. We are working on a plan to accomplish such an objective, but I am not confident that we will be successful.

8. We intend to continue with our program of enclosing hazardous open brooks with concrete conduits similar to the work done in Stony Brook in the past three years. The open Stony Brook has been entirely replaced with a concrete conduit, and a conduit has also replaced a section of the open Canterbury Branch of Stony Brook in Roslindale adjacent to American

Legion Highway. We intend to further enclose the Canterbury Branch between the terminus of the present conduit, which was installed in 1957, and Walk Hill street. This type of project is worth-while as open brooks are a hazard to children and act as a deterrent to the development of adjacent areas. They generally overflow during spring freshets or following heavy rains, causing flooding of cellars.

RECOMMENDATIONS

1. We should press for the passage of a law to permit the Massachusetts Port Authority to function. With said Authority in business, we will get a minimum of \$7,619,380 for the Sumner Tunnel, and we might never obtain anything for it if we permit this opportunity to pass. We can, of course, recover the \$2,619,380 paid out of real estate taxes to make up tunnel deficits for the period from 1935 to 1944. However, under the provisions of Chapter 297 of the Acts of 1929, the City can never derive a profit from the operation of the tunnel. Section 12 of the Acts provides, in substance, that after the tunnel is debt free, a schedule of tolls shall be established sufficient to meet operating costs only. The tunnel revenue cannot be transferred to the General Fund of the city, nor can it be used to finance another tunnel or a bridge to span the harbor. If Boston retains ownership of the tunnel, it is faced with the prospect of operating the present inadequate tube for the foreseeable future without being able to apply a single penny of tunnel revenue to reduce the tax rate. The advantages that will accrue to Boston for the sale of the tunnel to the Port Authority are obvious.

2. Transfer of vehicular roads from the jurisdiction of the Parks and Recreation Department to the Public Works Department. We are responsible for the construction, reconstruction, and maintenance of 750 miles of public highways, and I believe that there are approximately 25 miles of public roads under the Park Department's jurisdiction. It makes sense to me to have all the highway work under the jurisdiction of one department from a point of view of efficiency and also economy. However, if the park roads are transferred to us, all personnel, plant, and equipment related to the maintenance and construction of the roads should also be transferred.

3. As pointed out by Chief Engineer Haley in his report on the activities of the Survey Division, our inability to attract engineers has reached the acute stage. This problem not only affects the Survey Division, but all divisions of the department, and all departments of the city. Many years ago, the city abandoned all hope of attracting college men to enter the municipal engineering field, but we are now in the position of not being able to attract high school graduates. In 1957, conditions reached such a state that we reached into the labor ranks of the department and temporarily promoted four motor equipment operators to the position of senior engineering aids. We have been instructing them in the duties of transitmen.

This is a problem that should be met head on in order to solve it. I think that a sitdown with the school officials might be of some help. As a springboard to further discussion, I suggest the following:

Hire no rodmen during the summer months unless they are at least 16 years old, enrolled in a technical high school in Boston, and intend to follow the civil engineering field upon graduation from high school.

This policy will give young men, who do not intend to go to college, an opportunity to become interested in the municipal engineering field and practically assure them of passing the civil service examination for rodmen on their graduation. We still have a wage differential to overcome to compete with the State Department of Public Works, but that matter can be adjusted if we find enough high school students interested enough in the program. The municipal engineering field has many attractions, and I am reasonably certain that we can get enough young men interested in such a career if we give them the opportunity to try it out.

4. All proposed legislation concerning the M. D. C. should be carefully scrutinized and examined to make certain that its passage would have no detrimental effect on Boston. I know of several instances of laws being passed concerning the M. D. C. and which appeared to be innocuous, but which actually will cost the City of Boston many hundreds of thousands of dollars; and this statement is no exaggeration. The laws were passed before I got interested in studying such matters

following a study that I made of the effect that the admitting of Randolph and Westwood into the M. D. C. sewer system would have on Boston.

I also view with alarm the many strictly local improvements that the M. D. C. has been undertaking over the past three or four years. These improvements not only have been effected in the other cities and towns of the metropolitan area, but also in Boston. Regardless of where they are constructed, improvements strictly for the benefit of individual communities are contrary to the concept of metropolitan government and should be undertaken and paid for by the communities benefiting by them. The cost should not be spread over the entire M. D. C. area unless the benefits or improvements are metropolitan in character. The trend (probably promoted by political pressure) to have the M. D. C. construct improvements of a local nature, should be stopped, and any legislation pertaining to them should be vigorously opposed by Boston and all other communities interested in restricting the M. D. C. to projects or improvements that are metropolitan in character. In any event, I wish to emphasize the necessity of carefully studying any proposed law affecting the M. D. C., in order to make certain that Boston is being fairly treated.

5. As you well know, chapter 407 of the Acts of 1957 provided for the alternate parking of vehicles on public ways on alternate sides of the streets on alternate nights. In accordance with the provisions of this act, the Traffic Commission passed a vote under date of November 27 of 1957, implementing the law. A concerted effort should be made to inform the public of the provisions of this law because if motorists are properly informed, I am certain that they will comply with it. The law was passed in the public interest and to increase safety and provide for clean streets throughout the year and properly plowed streets during the winter months. Up to now, the law has been followed in the breach rather than in the observance, and I feel that the principal reason is due to the fact that people do not understand the precise provisions of the regulation. I feel that a card informing the motorists of the law should be placed under the windshield wiper of every vehicle parked in the public streets during the nighttime. It would be more effective if the Police Department placed these cards, but apparently said department is

not desirous of undertaking such an assignment. Therefore, it is my intention to have some cards printed and have them so placed by P. W. D. employees. There probably are from 30,000 to 50,000 cars illegally parked every night, so that we have a tremendous problem, but I think that we should make a start on it. Conditions have reached the point where we cannot properly plow residential streets, and we cannot keep them clean, due to the continuous occupation of curb space by parked cars during the nighttime.

Appended are reports submitted by the division heads relative to the activities of their divisions in 1957, and also report of the Public Improvement Commission for the same year.

Respectfully submitted,

GEORGE G. HYLAND,
Commissioner of Public Works.

APPENDIX A

REPORT OF THE AUTOMOTIVE DIVISION
FOR THE YEAR 1957

BOSTON, January 2, 1958.

To the Commissioner of Public Works.

DEAR SIR:

I am submitting herewith the annual report of the Automotive Division of the Public Works Department for the year ending December 31, 1957. This report covers the activities of the five garages, the Mobile Guard Section and the Motor Pool.

The quota of employees assigned to the Automotive Division for 1957 was 143, but due to transfers and vacancies the number of employees dropped to an average of 115. These employees were assigned to the following duties: One chief automotive engineer in charge of the division, 9 employees assigned to office work, one dispatcher in charge of Motor Pool, four employees assigned to stockroom, three employees assigned to wreckers, 40 employees assigned to repair work, 38 employees assigned to maintenance of buildings, gasoline and oil dispensing, cleaning, watchmen's duties, and motor vehicle operation, and 19 employees assigned to the Mobile Guard Section which maintains a watch over Public Works Department property and equipment between the hours of 4:00 P.M. and 8:00 A.M. weekdays, and all day Saturday, Sunday, and holidays.

The office maintained by the division at City Hall processed 1,758 requisitions in 1957, of which 1,077 were service orders, and 687 were purchase orders. A petty cash fund of \$300 was used to make about 100 purchases a month, usually under \$3 each. The City Hall office reports the following expenditures from the 1957 appropriation.

Personal services	\$452,301 00
Contractual services	64,601 00
Materials and supplies	181,070 00
Rents and registration fees	11,281 00
Purchase of new equipment	102,932 00
	<u>\$812,185 00</u>

The following equipment was purchased in 1957 from budget appropriations and equipment loan:

For Sanitary Division:

- Two street sweepers
- Two front bucket loaders
- Three 3-ton dump trucks
- Three Tarco salt spreaders

For Highway Division:

- Two tractor shovels
- One core drill

For Sewer Division:

- One sedan

For Water Division:

- One derrick truck
- Four 2-ton dump trucks
- One 2-ton platform truck
- Six express trucks
- Four sedans

For Automotive Division (Mobile Guard Section):

- Three 1½-ton pick-up trucks

The department's fleet of 493 units of automotive equipment, under the supervision of this division, consists of 82 sedans and other vehicles used for transportation purposes, and 278 trucks of various sizes, including 36 snowfighters, ten compressors, four catch-basin cleaners, 35 pick-up trucks, 131 dump trucks, six wreckers, six flushers, three derrick trucks, two lumber trucks, one rack truck with crane, three platform trucks, 32 emergency trucks and nine miscellaneous trucks. There are 28 street sweepers, 11 gasoline road rollers, seven snow and bucket loaders, 19 front bucket loaders, two tractor shovels, four crawler tractors, one grader, and three trailer compressors, and 58 pieces of miscellaneous equipment; 440 of these units are registered under the motor vehicle law of the Commonwealth.

The repair shop at the Highland street garage performed approximately 12,000 repair jobs, including tire repairs and lubrication check-ups. Six thousand repair work orders were made out by the motor equipment repairmen. Contracts in the amount of \$10,000, and \$6,000 were issued for the respective repair of Walter Snowfighters and F.W.D. trucks.

The Mobile Guard and the Motor Pool operated in a satisfactory manner during 1957. The laborer-watchmen in the Mobile Guard were transferred from the Automotive Division to the Sanitary and Highway Divisions. The Motor Pool consists of one dispatcher and seven drivers (one from the Automotive Division). The dispatcher makes all assignments to the drivers, and also has charge of the short-wave radio. Within the Public Works Department are 44 cars equipped with two-way radios. The Motor Pool assignments outside the Public Works Department consist of the following:

Institutions Department—Conveying patients to Tewksbury, Long Island, and Nazareth.

Purchasing Department — Conveying inspectors to sources of supplies.

Public Library — Checking district libraries.

Election Department — Conveying voting machine inspectors, and work on election days.

Assessing Department, Printing Department, Public Celebrations, and Mayor's Office — Various assignments.

Real Estate Division — Conveying city auctioneer to locations where city-owned property is to be auctioned.

The Mobile Guard Section, with 19 men and three vehicles, patrolled the city, protecting Public Works property. The guards inspect all yards and at each location punch a Detex time clock. Watchmen are permanently stationed on locations where experience has shown that it is advisable to have a man present at all times to protect city property.

Several improvements to the buildings and equipment were made in 1957. A new hoist with lubrication equipment was installed at the Forest Hills garage to take care of snow fighting equipment. New overhead doors were installed at the Albany street, and Hyde Park garages. The lubrication lift at the Highland street garage was remodeled to handle the latest models of passenger cars. A complete new Alemite system was installed at Highland street to replace the worn out system.

If sufficient funds are available from Equipment Loans in 1958, considerable new equipment to replace worn out and outmoded automotive equipment will be purchased.

REPORT OF THE DIVISION ENGINEER OF
THE BRIDGE DIVISION

BOSTON, January 2, 1958.

To the Commissioner of Public Works.

DEAR SIR:

Submitted herewith is the annual report of the Bridge Division, covering the income, expenditures and operation of the Bridge Service and the Sumner Tunnel for the year ending December 31, 1957.

Respectfully,

JOHN J. McCALL,
*Division Engineer,
Bridge Division.*

I. BRIDGE SERVICE.

* No openings allowed from May 1, 1957.

At the beginning of 1957, the Bridge Division maintained eleven (11) drawbridges, three of which were not operated as such; Broadway, Dover Street, and Warren Bridge.

The status and conditions of the various drawbridges are summarized as follows:

Fort Point Channel

Dover Street and Broadway Bridges

These bridges were not operated during the year but were maintained in operable condition in the event that the construction of the Fitzgerald Expressway would require the use of waterborne equipment using the channelway. To date, this has not been necessary.

In connection with the Dover Street Bridge, it has been decided to replace this structure with a solid fill causeway having culvert facilities to accommodate the tidal flow of the channel; and the Massachusetts Department of Public Works has agreed to execute the project under the provisions of Section 34, Chapter 90, of the General Laws, on condition that the City will contribute \$350,000 which represents 50 per cent of the estimated cost of the project.

This decision was based on an engineering study and report made for this department by William A. Fisher Company, Inc., consulting engineers.

At the present time, the Massachusetts Department of Public Works are having plans and specifications drawn for the project; and it is expected that these will be completed and the work commenced within the next few months; more or less in conjunction with the construction of the Fitzgerald Expressway facilities at Dover and Albany streets.

It is hoped that the replacement of Dover Street Bridge with a solid fill causeway will accelerate the filling-in of the channel at least to its upper end at Massachusetts avenue.

Summer Street, Congress Street, and Northern Avenue Bridges

These bridges are still fully operating.

The rebuilding of the Summer Street Bridge is being deferred until the American Sugar Refinery has re-located in the Charlestown area; at which time it is

fully expected that the Fort Point Channel will be entirely closed to navigation, thereby permitting the replacement of the Summer Street Bridge with a fixed span.

The Congress Street Bridge is in good condition.

The Northern Avenue Bridge is operating satisfactorily but requires constant maintenance. Structurally, the bridge is of an age, type and condition that warrants replacement; and this project should be scheduled as soon as feasible, consistent with the expected closing of the channel to navigation.

Reserved Channel

Summer Street Bridge (Formerly L Street Bridge)

This bridge is scheduled for major repairs to the approaches in the coming year. Under a Chapter 90 project, with the City assuming 40 per cent of the cost and the Commonwealth 60 per cent, the South Boston approach is to be entirely rebuilt and the Boston approach pilework repaired throughout. On the basis of bids received on December 10, 1957, the estimated cost is \$234,326.

The work to be done under this project is based on the findings of a professional inspection of the pilework and timberwork made by the Carnes Company, Inc., who were engaged by this department for the purpose. The inspection was made early in the year and completed with a report on March 28, 1957.

The drawspan of this bridge is not included in the work to be done. The draw is in good operating condition; and although the deck and superstructure will probably need repairs in the near future, it is hoped that the channelway can possibly be closed to navigation in the reasonably near future, thereby making it possible to build a fixed span to replace the draw span.

CHARLES RIVER

Warren Bridge

This bridge has been deactivated since November of 1954; with the movable draw spans pulled back to leave the waterway unobstructed. Although the bridge was closed to highway traffic and the drawbridge out of operation, it was maintained in operable condition for

emergency use until such time as the Charlestown Bridge reconstruction had progressed sufficiently to rule out the further need of Warren Bridge.

In September, 1957, Warren Bridge was officially discontinued as a public way from the pierhead line on the Charlestown end to the line of the Fitzgerald Expressway at the Boston end.

Accordingly, the drawspan structures were dismantled and removed under contract late in 1957, at a cost of \$1,497.

It is hoped that the remaining pile trestle approaches can be removed in the reasonably near future under the provisions of Chapter 91, of the General Laws, with the Commonwealth and the City each paying 50 percent of the cost.

Charlestown Bridge

The drawspan of this bridge has been closed to navigation since May 1, 1957, in order to permit the removal of the old mechanical and electrical operating equipment and installation of the new system.

This work is now near completion; and the drawspan will be restored to operation early in 1958.

Otherwise, the reconstruction of this bridge is in its final stage. At the present time, the bridge is still carrying 2-way vehicular traffic on one roadway; and sometime in February, 1958, should be fully opened to traffic with all work completed.

CHELSEA RIVER

Chelsea Street and Andrew P. McArdle Bridges

The two drawbridges spanning the Chelsea River at Meridian street and Chelsea street are in good condition and fully operating.

At the Chelsea Street Bridge, it is intended to alter the fender pier construction to comply with an order of the Corps of Engineers, United States Army, to widen the navigable waterway under the bridge to 96 feet. It now varies from 70 feet at the upstream side to about 98 feet at the downstream side. The alteration is made necessary because of the proposed permanent removal of the New York Central Railroad bridge immediately upstream of the City bridge.

MYSTIC RIVER

Malden Bridge (Alford Street)

This bridge is fully operating but is in very poor condition structurally, requiring constant maintenance.

This bridge should be replaced by a new structure as soon as possible; and it is expected that this project will be undertaken by the Massachusetts Department of Public Works as soon as Federal Aid funds are available, around July 1, 1958.

Inland Bridges

This department is involved in the maintenance of 80 inland bridges as follows:

During 1957, two major improvements were completed in the rebuilding of the Massachusetts Avenue Bridge over the New York, New Haven and Hartford Railroad, and the Winthrop Bridge over Belle Isle Inlet. These projects are described in detail hereinafter.

The Boylston Street Bridge over the Boston and Albany Railroad is in serious need of a new steel floor system and deck. It was intended to prosecute such work in 1957, but because of the uncertainty of final plans involving the use of the railroad right of way for an extension of the Massachusetts Turnpike as far as the proposed new Prudential Center, and the possibility that the present bridge may have to be rebuilt, the re-decking work has been deferred.

The Broadway Bridge over the Boston & Albany Railroad is in poor condition, and the city has petitioned the Massachusetts Department of Public Utilities on the matter of rebuilding. A hearing on the matter was held before the Department of Public Utilities on October 7, 1957, and was postponed to permit of further inspections and reports on the existing structure.

The city engaged the services of the Charles A. Maguire and Associates to furnish such inspection and report.

Any action relating to this bridge may possibly be deferred until such time as it is decided whether the Massachusetts Turnpike will be extended to the South Station.

The same is true of the Massachusetts Avenue Bridge over the Boston and Albany Railroad, which should be scheduled for major repairs or rebuilding within the next few years.

In general, otherwise, the fixed bridges throughout the city are in good condition, although several should be rebuilt to provide modern structures to accommodate present day traffic conditions.

Among these are the bridges located over the railroads at Tremont street (Arlington square), Southampton street, Boston street, Dorchester avenue, and Bennington street, East Boston.

Major Construction Work and Repairs

Reconstruction of Charlestown Bridge

At the close of 1957, this project was nearing completion under separate contracts covering the drawspan and the approach spans. The work has been fully described in previous reports, having started late in 1955.

The work should be entirely completed early in 1958, at an estimated cost of \$615,000 for the drawspan; and \$925,000 for the approach spans. The original estimated cost based on the bid of the contractor, Builders Iron Works, was \$606,204 for the drawspan and \$931,965.50 for the approach spans.

Reconstruction of the Massachusetts Avenue Bridge Over the New York, New Haven & Hartford Railroad

A contract for this work was awarded to the low bidder, Builders Iron Works, in the amount of \$143,854.75.

Work was commenced on April 8, 1957, and completed on November 15, 1957, at a final cost of \$144,978.36.

This work was carried on without interfering with traffic by rebuilding the bridge one third at a ti

This work has resulted in a major improvement by replacing the old through girders with a deck type beam span thereby eliminating a dangerous traffic hazard and restriction.

Rebuilding the Winthrop Bridge over Belle Isle Inlet

Under the provision of Chapter 90, Section 34 of the General Laws, this bridge was rebuilt at a final cost of \$148,942.05; which cost was apportioned as follows:

Commonwealth (60%)		\$89,365 23
City of Boston (24%)		35,746 09
Town of Winthrop (16%)		23,830 73

The new bridge was built one half at a time in order to maintain traffic; and consists of a pile trestle foundation carrying a reinforced concrete deck and sidewalks. The new bridge is 10 feet wider than the old bridge which was of pile trestle construction with an all-wooden deck and sidewalks. The approaches were widened and improved to meet the new conditions.

Under a contract awarded to the low bidder, Eastern Roads Company, Inc., work commenced on March 27, 1957 and was completed on December 31, 1957.

*Reconstructing Span No. 3 of the Northern Avenue
Bridge over Fort Point Channel*

Because of the badly deteriorated condition of some of the main steelwork in this span it was necessary to make a major improvement. Inasmuch as the defective condition of the steelwork was brought about mainly by the Union Freight Railroad traffic, the railroad company was asked to participate in the cost of repairs, to which they agreed.

Accordingly, it was arranged for the city to remove the old decking, allowing the railroad to repair the steelwork, after which the city would construct a new deck.

This work was commenced under a contract awarded to Frederick W. Byron for the city's portion of the work, on June 24, 1957.

The railroad engaged the Groisser & Shlager Iron Works to make the necessary steel repairs and renewals.

At this writing the work is two thirds completed and the final third is expected to be completed early in 1958. The final portion of work was of necessity postponed because of winter conditions.

The total estimated cost to the city for this work is approximately \$27,000.

The railroad's cost is estimated to be approximately \$20,000.

Emergency Repairs to the Operating Machinery of the Congress Street Bridge over Fort Point Channel

On April 10, 1957, a very serious defect was discovered in the gears of the operating machinery of the drawspan of this bridge, which made it extremely dangerous to attempt further openings of the draw.

Accordingly, an emergency contract was awarded to the General Ship & Engine Works of East Boston for making the necessary repairs. This was necessary in order to make all possible speed in restoring the bridge to operation so that the important sugar cargo boats could be allowed to pass.

Repair work was commenced on April 11, 1957, and finished on May 1, 1957, at a final cost to the city of \$12,000.

On the thirteenth of April, temporary repairs were made to permit one opening for a sugar cargo vessel which otherwise would have been held up for more than two weeks.

Demolition and Removal of the Warren Bridge Drawspan

Warren Bridge was closed permanently to highway traffic on November 26, 1954, and the two drawspan units drawn back to permit an unobstructed waterway. The bridge was kept operable until such time as the Charlestown Bridge reconstruction project was substantially completed.

In September, 1957, Warren Bridge was officially discontinued as a highway under a contract awarded to James G. Grant Co., low bidder, for the removal and disposal of the two movable drawspan superstructures.

The work was commenced on November 12, 1957, and completed on December 29, 1957, at a cost of \$1,497.

Yard Forces

The maintenance force of the Bridge Service is utilized in the various repair operations of both emergency and routine nature in repairs to bridge roadway decking, sidewalks, fender piers, retractile bridge tracks, stairways, railing and pertinent facilities.

Other work included placing barricades and traffic control signs necessary during the periods of pouring concrete deck slabs and the testing of mechanical and electrical facilities of bridges being repaired; and cleaning bridge sidewalks and stairways of ice and snow.

SUMNER TUNNEL

The Sumner Tunnel is a vehicular crossing between Boston proper and East Boston, and was opened for public use on June 30, 1934, and has been in continuous operation up to the present time.

The total traffic for the past year of 1957, which has been the highest in its history; amounted to 12,896,724 vehicles, an increase of 159,998 cars over the previous year of 1956.

All of the electrical and mechanical machinery and equipment used in connection with the ventilating and operation of the tunnel is in good condition and operating satisfactorily.

The Toll Collecting equipment including all treadles, key boxes and toll registers are under constant supervision and are recording and totalizing properly as per traffic requirements. All adjustments and repairs are made as may be required.

On December 20, 1957 a hearing was held by the Massachusetts Department of Public Utilities relative to toll rates for the coming year, 1958. It was agreed that the present rates be continued without change.

To date, the Massachusetts Port Authority which was created to consolidate several facilities, including the Sumner Tunnel, under one agency has not begun to function. Consequently, the operation, care and control of the Sumner Tunnel remains with the City of Boston.

CONTRACTS AWARDED IN 1957

1. Drainage System

A contract was awarded to the Mercer Marine Company after being properly advertised, for the sum of \$1,910 to clean and remove all mud and dirt from all catch basins, 72 drop inlets, all sand traps, sumps, etc., of the tunnel drainage system. All of the work had to be performed between the hours of 12.30 A.M. and 5.30 A.M.

2. Oil Burner

Invitation bids were sent to eight (8) of the larger oil companies for furnishing and installing a new oil burner in the Boston Ventilation Building, to replace the original burner that had been in continuous service since 1934. This contract was awarded to the Esso Oil Burner Company for the amount of \$456.

3. Boston and East Boston Ventilation Buildings

Specifications were written and a contract awarded after advertising, to the Bond Painting Company for the sum of \$14,321 to paint all of the steel and structures of these two buildings, including all glazing, and the removal of all existing glass louvers, and replacing them with Transite panels, all in accordance with the contract.

4. Cleaning Exhaust Air Duct and Fan Rooms

Bids were received after public advertisement for the "cleaning of exhaust air duct and fan rooms" and a contract awarded to the Mercer Marine Company for the cleaning and removal of all dust and dirt from the exhaust air duct and from 14 exhaust fan rooms. The total bid for this work amounted to \$1,195.

5. Cleaning and Painting Ventilation Equipment at Ventilation Buildings

Specifications were written and advertised, and a contract awarded to Joseph and Nicholas Bello, in the amount of \$7,941 for the cleaning and painting of ventilation equipment at the Sumner Tunnel Ventilation Buildings. This work called for the cleaning and painting of 28 ventilating fans, fan motors, dampers, damper operating mechanisms, fan housings, inside and outside, controllers, etc.

6. Control Cable

During the past year a contract was advertised and awarded to the Minot Construction Company for the sum of \$5,691 to install 4,292 feet of new 259 conductor No. 19 A.W.G. control cable furnished by the City of Boston. All work performed as per contract and specifications.

7. Splicing Chamber Cover Plates

Bids were received after public advertisement and a contract awarded to the Albany Contracting Company for the sum of \$1,830 to clean and paint all south wall chamber frames and cover plates. All work was performed as per specification and with no interference to vehicular traffic, all work between the hours of 12.30 A.M. and 5.30 A.M.

The regular forces of the Paving Service were employed as usual in the maintenance of public streets, resurfacing and patching macadam pavements, patching permanent pavements, such as asphalt and granite block, and maintaining gravel, brick, and artificial stone sidewalks.

In the snow removal season, division forces were employed in spreading rock salt and sand on icy streets and also supervised plowing work throughout the City by 250 contractors' hired plows after snowstorms. All snow removal bills for plowing, hauling, force account work, cubic yard removal, etc., were processed through the Paving Service office.

The following work was done in placing new street signs and replacing and repairing existing street signs:

- Erected 217 4-inch street signposts.
- Erected 8 new hero signs for dedication.
- Replaced 186 hereo square signs.
- Installed 752 new street signs.
- Removed 384 old hand-painted signs, damaged baked enameled signs and obliterated signs.
- Repaired and straightened 168 bent or broken street sign posts (4-inch type).
- Repaired 276 broken street sign frames and welded 59 4-inch street sign posts in blacksmith shop.
- Repaired 598 street sign frames, collars, and brackets on 4-inch street sign posts and light poles on location.
- Removed 132 pieces of rope, wire, old tires, etc. from 4-inch street sign posts and light poles.
- Installed 588 street sign frames.
- Installed 367 street sign collars on 4-inch street sign posts and light poles.
- Installed 57 adapters on wooden poles.
- Installed 201 4-inch acorns on 4-inch street sign posts.

Installed 110 "Private Way" signs on 4-inch street sign posts and light poles.

Removed 53 "Private Way" signs from 4-inch posts and light poles because of the making of public ways.

Painted 602 4-inch street sign posts.

Painted 898 street sign frames.

Painted 397 4-inch acorns on 4-inch street sign posts.

Painted 649 street sign collars on street sign posts and light poles.

Installed 12 directional signs on 4-inch posts.

Washed and cleaned 376 street sign name plates.

Painted 293 blanks for temporary name plates.

APPENDIX D

REPORT OF THE DIVISION ENGINEER OF
THE SANITARY DIVISION

BOSTON, January 2, 1958.

To the Commissioner of Public Works:

DEAR SIR:

I submit herewith a statement of the activities of the Sanitary Division of the Public Works Department for the year ending December 31, 1957:

Refuse Collection and Disposal

Contracts for the collection of refuse, awarded in March, require that all the districts of the City now be provided with totally enclosed steel bodies on the collection trucks, which is an improvement in sanitation that has been a goal of the division for many years.

Disposal contracts for the so-called contract area, for the first time, split the work between two contractors, the DeMatteo Construction Company to continue the scow-towing and Spectacle Island dump operation, and the Coleman Disposal Company to operate the Calf Pasture dump for a one-year period from April 1, 1957 to March 31, 1958.

The total cost of refuse collection and disposal for 1957 was approximately \$2,600,000, which is more than \$200,000 under the cost of the same service in 1949.

This holding the line in costs is remarkable in view of the increase in the wage rate for collectors from \$1.30 an hour in 1949 to \$2.15 an hour in 1957, and the fact that fully enclosed packer-type truck bodies are now used in place of the open body trucks furnished previously. The resultant savings to the City were made possible by acquiring control of the refuse dumping sites and the institution of authentic competitive bidding on the refuse collection and disposal contracts over the past seven years.

Modern Refuse Collector of the Packer Type with Fully-Enclosed Steel Body. This Type now in Use in All Districts of the City.

A modern Elgin street-sweeping machine. This Machine Efficiently Sweeps Up the Dirt from gutters and street, performing the Same Amount of Work as About 20 Men.

A New Street-Flushing Machine Using a Nacconol-N.R. Solution—a Detergent—Washing Down School Street with a Bubble Bath.

Other disposal facilities have been maintained during the year by —

(a) Renewal of the Daggett contract for disposal of the East Boston refuse at the Saugus dump.

(b) Continuing the sale of garbage delivered at the Victory Road Receiving Station to a hog farmer in Sterling, providing an income of \$4,615 per year.

(c) Repairs to the roof of the Victory Road Station were done by J. F. Shea Company at a cost of \$1,475, and the interior steel work cleaned and painted by the C. A. Foley Company, at a cost of \$2,549.

(d) At the Gardner street dump, improvement was made by demolition of the old Brookline Water Works structures by Dooley Brothers, Inc., at a cost of \$4,300. The excellent dumping operation conducted at this site demonstrates the sound judgment exercised in acquiring the ninety-seven acres purchased by the department during the past few years, commencing in 1951.

Street Cleaning and Snow Removal

Mechanization of the street cleaning function proceeded with the acquiring of two new mechanical pick-up sweepers complete with cabs for the operators, and two new front-end bucket loaders.

An appropriation of \$200,000 was made for a new sweeper garage and office building at 650 Albany street. Borings were taken by the Carr Construction Corp., and preliminary architectural studies are in progress. Construction of this building may be commenced in 1958.

The division's street cleaning force removed snow from the streets in the down-town retail stores district following storms in excess of two inches, which occurred during the months of January, February and March. No snow fell during the fall months.

The entire division was mobilized for the Spring Clean-Up Campaign, conducted from March 25 to April 20. At the end of this period, every section of the city was in a clean condition, and the winter's accumulation of sand in the gutters had been removed.

Incinerator Construction

Construction of the South Bay Incinerator proceeded without delay this year. The J. F. White Contracting Company completed driving 62,000 feet, or almost twelve miles, of concrete-filled twelve-inch steel pipe.

piles, averaging a depth of 160 feet below the ground surface, at a cost of \$419,000. A revision of the contract with George Allen Company was made on April 24, providing for furnishing six instead of four incinerator furnaces and appurtenances, thereby increasing the plant capacity from 600 tons to 900 tons per twenty-four hours. The cost was \$462,264, the same price bid by the Allen Company sixteen months earlier, which brought the total amount of this equipment contract to \$1,426,131. This contract was later assigned to the Tynan Incinerator Company.

A contract for construction of the Refuse Storage Bin was awarded on June 3 to the low bidder, Coleman Brothers Corp., at a bid price of \$423,000. Due to difficult sub-soil and high ground water conditions, the bin was constructed in a cofferdam of steel sheeting. Work was approximately 95 per cent completed on this contract on December 31st.

The plans and specifications for the incinerator building were completed by the consulting engineers, Metcalf & Eddy, in September, and a contract was awarded on November 25 to the low bidder, the John Bowen Co., Inc., in the amount of \$2,693,793. The Bowen Company plans to commence work early in 1958, as soon as the Coleman Brothers Corporation leaves the site, and is expected to complete the building within twelve months.

The only remaining incinerator work not contracted for is the steam main for transmitting steam, to be generated by burning refuse at the incinerator, to the Boston City Hospital. Plans and specifications for this work will be completed early in 1958. Utilization of the waste heat of incineration will provide a saving of over \$150,000 annually in fuel oil costs at the hospital. Additional revenue may be derived from the sale of surplus steam to the Boston Edison Company which has expressed an interest in this commodity.

The undersigned was promoted to the position of Division Engineer of the Sanitary Division on August 6, 1957, to fill the vacancy caused by the death of Division Engineer, Adolph J. Post, in February, 1956. The Acting Division Engineer in the interim was General Superintendent Timothy J. O'Leary.

Respectfully submitted,

JOHN F. FLAHERTY, *Division Engineer,*
Sanitary Division, P. W. D.

APPENDIX E

REPORT OF THE DIVISION ENGINEER OF
THE SEWER DIVISION

BOSTON, January 2, 1958.

To the Commissioner of Public Works.

DEAR SIR:

I submit herewith statement of the activities and expenditures of the Sewer Division for the year ending December 31, 1957.

Expenditures During 1957 — The activities of the Sewer Division during the year consisted of advertising for sewer construction at a contract bid price of \$141,520.80, and the maintenance and operation of the sewer system at a cost of \$786,871.90.

Contract Work — Contract work consisted of the extension of the sewer system to provide drainage for new buildings and street construction and to eliminate cess-pools, the locations and cost of which are attached.

Maintenance Work — Maintenance work consisted of the cleaning of 10,882 catch basins by contract and 1,894 by yard forces, the freeing of stopped sewers and catch basins, and the repair of sewers, manholes, and catch basins by the yard forces and the operation of the pumping station and disposal works, the cost of which is attached.

Major Accomplishments — Completion of enclosing Section 18 of Stony Brook, Hyde Park, in a conduit from Willow Street to Bald Knob Road, a distance of 4,678.45 linear feet. The contract was awarded to Pacella Brothers, it was started October 3, 1955, and completed September 28, 1957. The total and final amount paid under the contract was \$490,263.02.

Completion of the enclosing of the Canterbury Branch of Stony Brook, West Roxbury, in a conduit from the main line of Stony Brook Conduit to beyond Canterbury Street, a distance of 1,321 linear feet. The contract was awarded to Civitarese-Piatelli Corporation, the work started November 5, 1956, and was completed June 28, 1957. The total final payment under the contract was \$207,184.45.

A contract was awarded to P. J. Riley & Co. at an estimated cost of \$20,318, to furnish and install one main sluice gate at Calf Pasture Pumping Station. The work will start in 1958.

The emergency repair of sewers by advertised contract at a total cost of \$25,453.52.

The maintenance of about 1,200 miles of sewers and surface drains; the emergency cleaning of catch basins, the repair of broken sewers and catch basins, the answering of house drain complaints, the operation of pumping stations and storage basins for the disposal of sewage by division forces.

The keeping of records, the issuance of permits for and the inspection of the construction of house drains.

Engineering, clerical and inspectional work in connection with the construction of sewerage works done by advertised contract.

Proposed Work to be Done by Advertised Contract During 1958 is as Follows —

Emergency repairs of sewers, estimated cost, \$30,000.

Cleaning of catch basins, estimated cost, \$60,000.

Extension of sewer system to provide drainage for new buildings and new street construction. Estimated cost, \$300,000.

The covering in of that part of open Bussey Brook for a distance of about 1,400 linear feet, from the Dedham branch railroad to South street. Estimated cost, \$110,000.

The covering in that part of open Canterbury Branch of Stony Brook from Canterbury street to Walk Hill street, estimated cost, \$130,000.

The Sewer Division Labor Force consists of the following — 15 laborers, 1 carpenter, 30 motor equipment operators and laborers, 9 catch basin machine operators, 3 tide gate repairmen and 1 working foreman tide gate repairman, 8 working foremen sewer cleaners, 14 sewer cleaners, 4 bricklayers, 2 yardmen, 1 heavy motor equipment operator, 5 sewer district foremen, and 1 main drainage foreman. This makes a total of 94 men assigned to answering complaints, cleaning catch basins, cleaning sewers, repairs to manholes and catch basins, repairing broken sewers, and other related work.

Length of Sewers Built — During the fiscal year 1957 there were built by contractors and day labor 4.06 miles of common sewers and surface drains throughout the

city. After deducting 0.05 miles of sewers and surface drains, rebuilt or abandoned, the net increase for 1957 is 4.01 miles, which added to the existing 1,291.30 miles of common sewers and surface drains and 30.93 miles of intercepting sewers, makes a grand total of 1,326.24 miles of all sewers belonging to the City of Boston, and under the care of the Sewer Division on January 1, 1958.

There were 218 catch basins built or rebuilt and 42 abandoned or removed during the year, making a net gain of 176 catch basins and a grand total of 24,698 catch basins under the care of the Sewer Division on January 1, 1958.

Permit Office Report — Entrance fees to the amount of \$14,457.70 have been deposited with the City Collector for collection from estates upon which no sewer assessments were ever paid, in accordance with Ordinances of 1945, Chapter 27, Section 10.

Seven hundred and seventy-five permits have been issued, viz.: 112 to district foremen and contractors and 663 to drain layers for repairing or laying new house drains. Inspectors from this office have personally inspected the work done under these drain-layers' permits.

Two thousand and one complaints have been investigated and inspectors are instructed to report in writing in each case.

Two thousand and sixty-four catch basin complaints were received.

Reported in writing on 2,761 municipal liens to the City Collector, in accordance with Chapter 60, Section 25, of the General Laws. Reported orally on about 2,200 requests for information on municipal liens.

Notices have been mailed to abutters in conformity with the Ordinances of 1925, Chapter 27, Section 8, apprising them of the construction of new sewers or repairs to old sewers.

Respectfully,

ROBERT P. SHEA,
Division Engineer, Sewer Division.

APPENDIX F.

REPORT OF THE
SURVEY DIVISION

BOSTON, January 2, 1958.

To the Commissioner of Public Works:

DEAR SIR:

I respectfully submit the following report of the activities of the Survey Division for the year ending December 31, 1957.

This Division performs engineering services for other divisions of the Public Works Department and other city departments, boards and commissions. It also performs administrative and engineering duties required by the Public Improvement Commission for its operation.

The principal engineering duties include:

(a) the making of plans, surveys, estimates and reports relating to the laying out, widening, construction and design of public highways;

(b) the taking of easements for sewerage works;

(c) staking out lines and grades for the construction of highways, sewerage, etc.;

(d) the making of property surveys of land to be acquired by the City of Boston by eminent domain;

(e) the making of plans and surveys of city-owned land for purposes of sale, interdepartmental transfer or new development;

(f) the making of various engineering surveys and plans required by other city departments.

For the Public Improvement Commission, the administrative functions include the processing of petitions, arranging public hearings, preparing estimates and orders relating to land damages and street and sewer betterments, preparing orders for the laying out of streets and the construction of streets and sewers, preparing orders for eminent domain land takings, preparing orders for the granting of permits for use of public highways, erection of poles, etc., and the maintenance of all records in the charge of the Public Improvement Commission.

Personnel — On December 31, 1957, there were thirty-five permanent and five temporary employees as listed below in this Division.

The personnel allowance of this division has been dropping steadily from 73 in 1935 to 57 in 1945 to 45

this year. Of the 45 positions, 10 are now permanent vacancies because of our inability to secure qualified personnel through Civil Service in competition with higher salaries offered by the State and other public and private agencies. Obviously, this situation which has continued now for over 10 years, is a serious handicap to the division.

During the period covered by this report, the Survey Division completed one hundred eighteen (118) surveys and plans for the improving of existing highways, laying out of new ones and discontinuances, totaling 11.95 miles. Eleven (11) surveys and plans for .57 miles of sewerage easements were also made. Sixteen (16) surveys and plans of city-owned land or land to be taken for municipal purposes were also made.

Field engineering work included the staking out of eighty (80) streets for the Paving Service of the Highway Division, twenty-seven (27) for the Sewer Division, and miscellaneous services for other City departments. Regular routine work included the resurveying of street lines for private engineers wherever existing records were inadequate or obsolete, marking lines and grades for private construction abutting public streets, examining land court plans for the Law Department, preparing land damage reports for the Public Improvement Commission.

Listed below are the major engineering surveys and plans completed during the period of this report.

For the Public Works Department (Central Office), a plan was prepared for exchange of land at Gardner street, West Roxbury. Study plans were made of the following: Parker Hill avenue, Sachem street, Waymount street, Roxbury; land bounded by Southampton, Bradston streets and Southeast Expressway; Metropolitan avenue and railroad location in Hyde Park.

For the Public Works Department (Highway Division), eighty (80) highways were staked out for construction.

For the Public Works Department (Sewer Division), eighty-three (83) catch basins were staked out. Also, thirty-four (34) drainage surveys and reports were made.

For the Public Works Department (Sanitary Division), locations of test piles at incinerator site, South Bay avenue, Roxbury, were checked periodically. Topographical plan of land adjacent to incinerator site was made.

For the Real Property Department, surveys and plans were made of city lands on Battery street, Boston Proper; Sumner street, East Boston; Lewis street, East Boston; Eastern avenue, Boston Proper; Medford street, Charlestown, and Ritchie street, Roxbury. A plan was prepared showing the relocation of Fitzgerald Expressway at Fort Hill square.

For the Law Department, a survey was made for encroachment on Harrison avenue at East Newton street. Accident plans were made for the following locations: Arlington street, Boston Proper at Chandler street; Boylston street, Boston Proper at Hemenway street; 1245 Columbus avenue, Roxbury and North Bennet street, Boston Proper at North Bennet Street place. Lines were marked at 58 L street, South Boston, Ballard street and Custer street, West Roxbury. A survey and plan was made of boundary line between Boston and Winthrop. A plan of sewer easement in Wave avenue, Dorchester, was prepared.

For the Building Department, property lines were checked at 10 Grove street, West Roxbury, 38 Prospect street and 1 Mt. Vernon street, Charlestown; 41-51 Hanover street, Boston Proper. A topographical plan of area adjacent to Lodgehill road and Beech street, Hyde Park, was made.

For the Hospital Department, a plan was made showing the location of inflammables at City Hospital.

For the Fire Department, a survey and taking plan and topographical and utilities plan was made of Tremont street and West Concord street, Boston Proper.

For the School Buildings Department, a survey and plan of land on Worcester street, Boston Proper, for addition to Dwight School. Plans were prepared of Dorchester High School lot and English High School lot. A sketch plan was prepared of Greenwood School on Metropolitan avenue, Hyde Park. Line and grade was furnished for new school on Warren avenue, Boston Proper.

Engineering Information Services

The preservation of street line locations is one of the most important responsibilities of this division. As brought out in recent annual reports, we have been losing ground steadily in maintaining adequate records of these street line locations, due primarily to lack of personnel. To establish an adequate program for this work, it will be necessary to increase the engineering force by employing twelve additional competent engineering aides at a cost of \$45,000 per year. With these additional men, we could establish four new survey parties to work exclusively on street line surveys.

Atlases

Second only to the street line problem is our need for new up-to-date atlases or maps of the city. The ages of our best atlases are as follows:

Hyde Park	46 years
South Boston	39 years
East Boston-Charlestown	36 years
West Roxbury	34 years
Brighton	33 years

Roxbury	27 years
Dorchester	25 years
Boston Proper	20 years

The need for new atlases is obvious, not only for our needs, but all city departments and many other public and private agencies.

"Boston's Streets" (Street Book)

On April 30, 1957, this division issued for the first time a Street Book "Supplement" showing all changes in street records occurring since the 1955 edition of the Street Book. The supplement was well received and it is proposed that each year a new supplement be issued with a new street book edition being published only once every five or six years.

Preparation of the following private ways for public travel, as provided for in Chapter 393, Acts of 1906, as amended, was approved by the Public Improvement Commission to be done under the general supervision of engineers of this division.

Altacrest road, West Roxbury
 Arborfield road, West Roxbury and Hyde Park
 Beech street, Hyde Park, between Sherrin street and Asheville road
 Corcoran road, Dorchester
 Desmond road, Dorchester
 Dow road, West Roxbury
 Gould street, West Roxbury, from Belle avenue to Northdale road
 Itasca street, Dorchester, northeast and southwest of Messinger street
 Kiernan road, West Roxbury
 Lodgehill road, Hyde Park, from Beech street to Goff street
 Manchester street, Dorchester, extension to Temple street
 Mansur street, West Roxbury and Hyde Park

 Northdale road, West Roxbury
 Surreyhill road, West Roxbury

Reproduction Work

On January 1, 1957, a new policy requiring signed requisitions for all reproduction work was put into

effect. Also, a charge to the public of \$1 per copy was begun in accordance with a revised schedule of fees established by the City Council, December 1, 1957.

As expected, the total amount of work fell off considerably. One exception was ozalid printing which increased slightly. This increase was caused by one particular job, the South Bay Avenue Incinerator, of which over 8,000 prints were made.

The new fee schedule brought an income of \$623 to this division from the sale of copies of its plans and records. Other departments and divisions likewise received substantial new revenues from the sale of copies produced by our reproduction service.

Following is the report of reproduction work of the division for the year 1957.

Photographic Service—In carrying out a policy introduced in 1956, we have established a Photographic Service for the Public Works Department and other city departments. As a part of this program we now take photographs of the location of all new highway layouts and proposed improvements, and lands taken for municipal purposes. The following is a summary of this work during the year 1957:

Land Damages—During 1957, 67 land damage reports recommending awards totaling \$24,500 were submitted to the Public Improvement Commission.

Assessments—During the period reported on, estimates of benefit for assessment purposes were prepared amounting to \$241,503.01. These estimates are included in orders for street and sewer improvements. Also, final assessments were prepared amounting to \$286,936.04.

Chief Engineer.

APPENDIX G.

REPORT OF DIVISION ENGINEER OF THE
WATER DIVISION

BOSTON, January 2, 1958.

To the Commissioner of Public Works:

DEAR SIR:

I respectfully submit the following report of the activities of the Water Division, operations and expenditures for the fiscal year ending December 31, 1957.

During the year a total of 22,282.6 linear feet, or 4.22 miles, of main pipe was laid or relaid, varying in size from 4 inches to 24 inches and 720 applications were received for installation of new service pipes, enlarged service pipes and fire pipes, etc., into new or remodeled buildings.

There were 13 petitions received for the extension of water mains. The particular streets in which the above work was performed are shown on the accompanying tables.

The districts in which the main pipe was laid and relaid are as follows:

DISTRICT	LAI Linear Feet	RELAID Linear Feet
City Proper	7,271.0	1,656.4
East Boston	80.0	0
South Boston	323.0	0
Dorchester	3,809.0	0
Hyde Park	6,604.7	0
West Roxbury	2,326.5	212.0

Under the provisions of Chapter 4 of the Ordinances of 1952, which deals with capital improvements, the Water Division submitted a capital improvement program, which program was not followed to any great extent due to the fact that all available funds were needed to extend water mains to provide water into residential areas.

ENGINEERING OFFICE

The office force assisted the public in ascertaining official information in relation to water mains and service pipe locations, making studies and estimates on new mains and services and other assistance relating to water matters. The record plans, pressure charts and other official records were brought up to date. The office drew up plans and contracts for laying new and relaying old mains, supervised construction, and had supervision of snow removal in contract areas 4 and 10.

The engineering office assisted in design and supervision of construction of water mains and appurtenances for the following major projects; their status being as follows:

Central Artery.

Fort Hill Square to South street, completed.

South street to Dover street, one third complete.

Southeast Expressway

Dover street to Boston street, plans completed.

Boston street to Columbia road, 90 per cent complete.

Savin Hill Section, 90 per cent complete.

William T. Morrissey Boulevard to beyond Neponset avenue, complete.

Soldiers Field Road

Eliot Bridge to Cambridge street, completed.

Reinforced Faulkner Hospital Area, completed by connection to new 36-inch M.D.C.H.H.S. Main at Weld street and West Roxbury Parkway.

Reinforced Hyde Park with 16-inch main on Providence street, completed.

New York Street Area, completed.

Temporary pump installation during summer months to raise pressure in Stony Brook Village, Hyde Park.

Codman Hill Section of Dorchester reinforced by M.D.C. installation of 12-inch Det. Meter Gallivan Boulevard at Morton street.

PROJECTS UNDER STUDY

(a) Reinforce southern section of West Roxbury.

(b) Reinforce Stony Brook section of Hyde Park with H.H.S.

(c) Reinforce Low Service, Roxbury and South Boston, by cleaning and lining 30-inch-24-inch main Roxbury Crossing to Andrew Square.

(d) Storage building for water works supplies in Albany Street Yard.

Hydrants

There were 24 new hydrants established, 136 hydrants changed and 35 hydrants abandoned, a decrease of 11 hydrants.

Summation

System relaid .35 miles, extended 3.87 miles, abandoned 2.95 miles, 24 new hydrants established and 35 hydrants abandoned; an increase of .92 miles and a decrease of 11 hydrants.

THE DISTRIBUTION BRANCH

The Distribution Branch consisting of the main yard at 710 Albany street (with a small subyard in Charlestown) and three district yards are responsible for the repair and maintenance of main pipes, service and fire pipes, hydrants, gates, and providing emergency and general service to the public. The main yard maintains emergency crews around the clock for any water service that might be required in any section of the city.

The main yard and three district yards were assisted by three contracting firms, one in each yard with one contractor having two districts. The contractual work consisted of excavation and backfilling to allow the water division employees to repair leaks, lay or relay water services, change hydrants and repair or replace defective water appurtenances. This contractual work was performed in a satisfactory manner and proved its value by giving service to the public.

During the year the main yard was cleaned up on the northern side by removing the old sheds, placing an asphalt pavement over the area and erecting a modern chain link fence from Albany street to the channel.

DISTRICT YARDS

The three district yard forces (West Roxbury, Dorchester and Brighton) were utilized in general assistance to the public repairing leaks, installing new services, meter changes, hydrant changes, off and on calls, etc.

A new combination garage and shelter of prefab steel

was constructed in the Dorchester District Yard, replacing the old wooden stable and garage, and chain link fence was installed on Gibson street, replacing the old wooden fence.

THE MACHINE SHOP

The machine shop and plumbing shop handled all drilling of services in the main yard and assisted in case of emergency in the district yards. The machine shop continues to machine and assemble all new gates up to and including 12 inches, tapping gates up to 6 inches. Gates 16 inches and larger are now purchased under contract made under Specifications of New York Pattern, M. D. C. Type. They machine and assemble all hydrants, repair defective hydrants, repair in the ground if possible defective gates and rebuild gates both corporation, tapping and high pressure. Along with this work they, both the plumbing and machine shop, are called on to assist other branches of the Public Works Department in many special jobs.

THE METER BRANCH

The meter shop handled a total of 17,981 meters, divided as follows:

Meters applied on new services	626
Meters discontinued	1,683
Meters Changed Out	5,562
Meters Changed In	5,440
Meters tested in shop	6,809
Meters repaired in service	570
Meters repaired in shop	753
Meters reset	733
Meters junked	1,367
Total	23,543

BUSINESS OFFICE

This office performs all the work related to the processing of bills to property owners for water used and the maintenance of water meters.

These operations include receiving applications for new services and fire pipes; reading 95,000 meters quarterly; computing and preparing 382,000 bills amounting to \$6,223,229.77; keeping account of paid and unpaid bills; testing, repairing, installing, and removing water meters and receiving complaints from the water-consuming public.

It is unfortunate that for many years the surplus of the Water Division was not allowed to accumulate a reserve fund which would have been available when water receipts failed to meet expenditures.

1957

Main pipe petitions received	13
Domestic service applications	659
Fire pipe applications	61
Special meter tests	34
Hydrant permits issued	13
Repair deposits received	84

APPROPRIATIONS, EXPENDITURES, AND REVENUE

Budget appropriation, 1957	\$2,465,718 00
Amount expended	2,472,526 00
Amount of money collected from all sources during the year 1957	\$6,274,964 54
Amount expended from all sources	6,177,357 09
Surplus	\$97,607 45

The Metropolitan assessment for 1957 amounted to \$3,328,696.68 at the rate of \$80 per million gallons, an increase of \$37,901.24 over the assessment of 1956, based on the \$80 per million gallon rate.

Total amount billed for 1957	\$6,232,598 76
Total amount collected for 1957 bills, as of December 31, 1957	\$4,825,825 43
Total amount abated for 1957 bills, as of December 31, 1957	\$21,124 18
Total amount collected in 1957 on bills rendered prior to 1957	\$822,762 68

By chapter 487, Acts of 1954, entitled "An Act Relative to Liens for Water Rates and Charges" effective January 1, 1955, the law was changed so that liens for water rates take effect by operation of law without the necessity of recording a lien statement at the Registry of Deeds.

The issuance of statements of outstanding water bills to the consumers at the end of the year has been continued as a courtesy to the customer.

Respectfully submitted,

D. M. SULLIVAN,
Division Engineer.

APPENDIX H.

REPORT OF THE
PUBLIC IMPROVEMENT COMMISSION

BOSTON, January 2, 1958.

HON. JOHN B. HYNES,
Mayor of Boston.

Through the Commissioner of Public Works.

DEAR MR. MAYOR:

In accordance with the provisions of section 24, chapter 3 of the Revised City Ordinances of 1947, the following report of the Public Improvement Commission for the year ending December 31, 1957, is respectfully submitted.

The Public Improvement Commission was established May 1, 1954, by the provisions of section 57, chapter 2 of the 1954 Ordinances. This Commission, consisting of the Commissioner of Public Works, the Commissioner of Real Property, and the Chairman of the Boston Traffic Commission, was assigned all of the powers and duties of the former Board of Street Commissioners, except:

- (a) Those relating to the storage and sale of inflammables, filling stations, and parking lots which were transferred to the Committee on Licenses in the Public Safety Commission;
- (b) Those relating to the planting and removal of trees in public ways, the use of public ways for any temporary obstruction in, under, or over the same, the use of public ways for the storage and sale of merchandise, and the designating of coasting streets, which were transferred to the Commissioner of Public Works; and
- (c) Those relating to the abatement of taxes which were transferred to the Real Property Department.

Functions of the Board of Street Commissioners transferred to this Commission include the authority to lay out, widen, relocate, alter, discontinue, or rename public highways, and to order the making of specific repairs therein; to order the construction of sanitary sewers and storm drains; to take land by eminent

domain for municipal purposes (except housing and off-street parking); to permit the opening of private ways for public travel; to levy assessments for street, sidewalk, and sewer betterments; and to issue permits for the location of wire-carrying poles, conduits, pipes, tracks, and similar uses of the public ways.

STREET PROGRAM

During the period covered by this report, eighty-three (83) highway improvements, including the laying out of thirty-nine (39) new highways, the widening and relocation of seventeen (17) public ways, and the making of specific repairs in twenty-seven (27) existing streets, were ordered by the Public Improvement Commission.

Of particular interest in these groups are the following projects:

The improvement of Commonwealth avenue, Brighton, from Brighton avenue to Warren avenue, at an estimated cost of \$270,000. With the volume of traffic on this main artery into Boston from the west greatly increased since the opening of the Massachusetts Turnpike, this Board has ordered the reconstruction of a particularly dangerous section between Brighton avenue and Warren avenue with the new construction to include a four-lane divided highway for through traffic and the service roads on either side altered to allow much additional parking area at the local business districts.

The improvement of Blue Hill avenue, Seaver street, Columbus avenue, from Columbia road to Egleston square, at an estimated cost of \$250,000. In 1956 we began at Mattapan square on the Milton boundary line ordering major improvements, most of which are now constructed, of Blue Hill avenue to Columbia road. In our current year, we have continued the improvement of this major route into the heart of the city from the south by ordering the construction of a wide divided highway throughout the length of Seaver street, using the abandoned street car reservation for a new road.

The improvement of East Broadway, South Boston, from West Broadway to L street, at an estimated cost of \$105,000. This improvement, consisting of the reduction in width of existing sidewalks, will widen the newly reconstructed road so as to allow ten feet additional for highway travel.

The improvement of Massachusetts avenue, Boston Proper, from Columbus avenue to Huntington avenue, by installing a highway divisional island at an estimated cost of \$13,000.

The improvement of Cleveland Circle, Brighton, at an estimated cost of \$50,000, by removing the existing circular traffic island and installing channelizing islands which will eliminate the rotary traffic movement and permit a well-controlled traffic intersection.

The improvement of Baker street, West Roxbury, at an estimated cost of \$100,000, will include the widening of the existing roadway to thirty feet throughout most of the length with an additional widening being made at the proposed site of the Central Catholic High School at the corner of Gardner street. Baker street is one of the principal thoroughfares across West Roxbury from the Newton boundary line to Dedham.

The following streets were ordered laid out as Public Ways during 1957:

Alleghany street, Roxbury, from Parker street approximately 692 feet northwesterly. Length, 690 feet; estimated cost, \$18,431; estimated benefit, \$5,261.75.

Asheville road, Hyde Park, from Deforest street approximately 477 feet easterly. Length, 477 feet; estimated cost, \$12,105; estimated benefit, \$5,111.26.

ANNUAL REPORT
OF THE
SUPERINTENDENT OF CONSTRUCTION
OF THE
DEPARTMENT OF SCHOOL BUILDINGS
FOR THE TWELVE MONTHS ENDING DECEMBER 31, 1957

HON. JOHN B. HYNES, *Mayor of the City of Boston*;
JOHN P. McMORROW, *Chairman*; WILLIAM F. CARR,
GEORGE F. HURLEY, JOSEPH LEE, TIMOTHY J.
MCINERNEY, *Members of the School Committee*.

JOSEPH F. O'CONNELL, JR., *Chairman*, MATTHEW T.
CONNOLLY and THOMAS A. CRONIN, *Commissioners
of School Buildings*.

GENTLEMEN:

Under the provisions of Section 2, Chapter 351 of the Acts of 1929, the Superintendent of Construction of the Department of School Buildings is required to submit to his Honor the Mayor, to the School Committee, and to the Commissioners of School Buildings a written report annually, or oftener, as required.

In compliance with that statute, I submit the following report covering accomplishments for the fiscal year 1957.

This report is supplemented by a financial statement of Departmental Appropriations and Expenditures.

In addition to ordinary maintenance of school buildings, the following is a listing of major items of work performed:

In order to prepare buildings for painting at some future date it is necessary to seal exterior walls against water leakage and in many instances it is necessary to replace roofing.

Exterior walls of the following schools were sealed:

George H. Conley School	Roslindale High School
East Boston High School	Clarence R. Edwards School
Andrew Jackson School	Henry L. Higginson School
Patrick F. Lyndon School	Dorchester High School

Theodore Roosevelt School

New roofs and repairs to existing roofs were completed:

Bowditch School	Charles Logue School
Thomas Gardner School	Charles Sumner School
Grover Cleveland School	Charles C. Perkins School
Pauline A. Shaw School	Chapman School

Jeremiah E. Burke High School

The interior and exterior of the following school buildings were painted:

Jeremiah E. Burke High School	Edward Southworth School
East Boston High School	Andrew Jackson School
Prince School	Louisa May Alcott School
Ralph W. Emerson School	Henry L. Higginson School
Lowell Mason School	Bowditch School
Beethoven School	Rochambeau School
Patrick T. Campbell School	Oak Square School
Charles C. Perkins School	Roslindale High School
Randall G. Morris School	Amos Webster School

School Administration Building, 15 Beacon Street

Plumbing was entirely modernized in the Winship School and in the Samuel Mason School.

Improvements of a major nature in the plumbing systems were made in the following schools:

Rochambeau School	James A. McDonald School
Quincy E. Dickerman School	John A. Marshall School
William Lloyd Garrison School	Everett School
Charles C. Perkins School	George Frisbie Hoar School
Sarah J. Baker School	Roxbury Memorial High School

Improvements were made in the electrical systems of the following buildings:

John Cheverus School
15 Beacon Street
Girls' Latin School
Eliot School
East Boston High School
26 Norman Street
Brighton High School

Donald McKay School
Dorchester High School
Boston Clerical School
Memorial High School
William B. Rogers School
Hyde Park High School
William L. Garrison School

Changes were made in the heating and ventilating systems of the following buildings:

Spencer Memorial, new boiler
Charlestown High School, new boilers
Charles C. Perkins School, new boilers
15 Beacon Street, connection with Edison Steam
Boston Trade High School, new paper burner
Dudley School, new oil burners
William Howard Taft School, new oil burners
Clarence R. Edwards School, major repairs to system
Retubing of boilers in various schools
Rebuilding fire walls in boilers, various schools
Renewal of handhole and manhole gaskets, various schools

New stage curtains were installed at the Jeremiah E. Burke High School and the Grover Cleveland Junior High School.

A modern cafeteria was established at the Patrick F. Gavin School.

A yard extension for athletic purposes was made at the English High School.

Yard improvement, including retaining walls, was made at the Mozart School.

In presenting this summary of accomplishments by the Department of School Buildings for the year 1957, it should be called to your attention that the department remained well within the amount allowed for alterations and repairs to school buildings. The Department is allowed by statute to expend for this purpose the sum of \$1.70 on each \$1,000 of valuation, however the department budget provisions for the year 1957 represented \$1.27 of the statutory allowance or a saving on the tax rate of 43 cents.

Report on 1957 accomplishments in the Land and Buildings Account (New Buildings)

During the year, the following new school buildings were accepted finally:

Elihu Greenwood District, Hyde Park (Needham Road Lots). This is an elementary school consisting of 12 classrooms, 1 sewing room, 1 kindergarten and 1 all-purpose room to accommodate 445 pupils.

William E. Russell District, Dorchester-Columbia Point-Calf Pasture Area. This is an elementary school consisting of 24 classrooms, 2 kindergartens, 1 manual training room, 1 sewing room, 1 assembly hall and 1 playroom to accommodate 1010 pupils.

James J. Chittick District, Mattapan. This is an addition to an elementary school and the addition consists of 4 classrooms, 1 double kindergarten, 1 all-purpose room and miscellaneous rooms to accommodate 190 pupils.

Mary Hemenway District, Dorchester. This is an elementary school building to replace the Elbridge Smith Building, consisting of 8 classrooms, 2 kindergartens, 1 sewing room and 1 all-purpose room to accommodate 330 pupils.

Solomon Lewenberg Junior High School, Mattapan. This is an addition to the existing building in order to provide a gymnasium.

Elihu Greenwood District, Hyde Park. This is an elementary school to replace the Elihu Greenwood Building and is to accommodate 470 pupils. This new building consists of 12 classrooms, 2 kindergartens, 1 sewing room, 1 manual training room and 1 all-purpose room. This building was accepted for occupancy during the year and was occupied as of September 9, 1957.

The department has advertised for land for three proposed buildings, namely, the Harvard-Warren District, Charlestown; the Lowell District, Jamaica Plain and the Technical High School. The land takings for the Harvard-Warren District and the Lowell District will develop shortly. The proposed land for Technical High School, involving possible transfer of Park Department land, will require legislation and until that time no definite report can be made.

During the year 1957 construction started on the following projects:—

Blackinton-John Cheverus District, East Boston-Orient Heights Area. This is to be an elementary school consisting of 9 classrooms and 1 kindergarten and will accommodate 340 pupils.

Henry Grew District, Hyde Park (Henry Grew School Site). This is to be an elementary school consisting of 8 classrooms, 1 kindergarten, 1 sewing room and 1 all-purpose room and will accommodate 305 pupils.

Rice-Franklin District, South End. (Former English High School Site). This is to be an elementary school consisting of 22 classrooms, 1 kindergarten, 1 woodworking shop, 1 sheet metal shop, 2 sewing rooms, 1 cooking room, 1 gymnasium and 1 assembly hall and will accommodate 1010 pupils.

During the year two school yards were developed for play purposes. In the Dudley District, Roxbury, land was acquired and yard developed at the William Bacon School. In the Roslindale Section, the additional yard area of the George H. Conley School was developed for play purposes.

Architects are now working on plans and specifications on the following proposed projects: —

An elementary school in the Martin District, Roxbury. Original bids were rejected because they exceeded appropriation. Architects have made revisions and are about to readvertise for bids.

An addition to the Dorchester High School, Dorchester, to provide a gymnasium.

Eight Classrooms addition to the David A. Ellis School in the Henry L. Higginson District, Roxbury.

No further report can be made at this time on proposed new building construction until projects are initiated by the School Committee.

In the case of alterations and repairs to school buildings it is impossible to furnish a definite program until such time as the final budget for that purpose is effective. However, it is felt that the same amount of work performed in 1957 in the respective categories will be performed in 1958.

In submitting this report, it is felt that much constructive work was performed during the year 1957.

Respectfully submitted,

CHARLES A. CALLANAN,
Superintendent of Construction.

He had been a member of the Executive Board of the Delaware and Montgomery Counties Council, Boy Scouts of America, of the Historical Society of Pennsylvania, the American Academy of Political and Social Science, the Union League, The Philadelphia Club, The Rabbit, the Rittenhouse Club and the Germantown Cricket Club.

Over the years he served as director of the National Industrial Conference Board, Chairman of the Board of the Pennsylvania Economy League, Director of the American Arbitration Association, President of the Bryn Mawr Hospital, Vice President and Trustee of Episcopal Academy, Director of the Y.M.C.A., and a member of the Executive Committee of the Boy Scouts of America.

Within the past two years he served as President of the Philadelphia Committee on Alcoholism and as Director of the Pennsylvania Plan to Develop Scientists in Medical Research, University of Pennsylvania.

On April 29, 1915, he married Angela R. Forney, a daughter of Brigadier General James Forney, U.S. Marine Corps, who survives him.

He is also survived by three sons, Samuel T. (Princeton '39 — Harvard '41); William W., Jr. (Harvard '42); James F. (Yale '44 and Harvard '48), and a daughter, Jane, as well as fourteen grandchildren.

His principal recreations when younger were tennis and sailing. More recently he spent most of his spare time working on his beautiful place at Villanova, Pennsylvania.

During the last few years his health gave him increasing concern and discomfort. He recovered slowly from some operations and it became necessary for him to use a hearing aid. He finally developed an obscure ailment of the bone marrow preventing the formation of red blood corpuscles, from which he finally succumbed on September 19, 1959, shortly before his 72nd birthday.

William W. Bodine was a highly intelligent, sensitive man who gave of his best to the many activities which sought his support and guidance. His sensitivity was matched by his self-control, so that he never showed impatience or irritation at difficult situations he was so often called upon to handle. Instead, he met awkward or trying problems with a quiet, half-humorous

approach, which in itself went far toward settling matters satisfactorily to all. He was in every respect a gentleman of the old school, with the high standards of honor, honesty, dignity, ethics and kindness which that term implies. He is a great loss to Philadelphia, and his like will not soon be seen again.

My life since graduation? Inasmuch as the details have been covered elsewhere in this and prior reports, I shall confine myself to a general survey of the fifty years.

After graduation, my chief concern was to obtain a job as quickly as possible in order to discharge a financial obligation which I had incurred in order to finish college. The first two years were spent in an educational course with a manufacturing concern along with about twenty-five other fellows from various colleges. This was a wonderful experience which I never regretted. I learned at first hand the life of an employee in a shop, which proved to be a very valuable asset in later years.

After about five years and along with most of the other men in that group, I went into other work, this time along managerial lines. This did not seem to be exactly what I was seeking.

In February, 1919, I went with a public accounting firm in Philadelphia, Pennsylvania. In a few years I had my C.P.A. degree. At that time preparation for the state examinations was based largely upon actual experience. There were no special preparatory courses as there have been in recent years. I had now found what interested me and which I enjoyed. The next thirty-three years were spent with and in the same firm, although we went through many changes due to deaths, the depression of the nineteen thirties, and so forth.

To summarize, it took me about eight years after graduation to find my right niche in business. From talking with other men, I have found that many of them have had similar experiences. It all goes to show that one will have a more satisfactory life by searching for the kind of work for which he is best suited, even if it takes a few years after graduation to find it.

About 1950, I took account of stock from all angles and decided that it would be a good thing to think of easing up before it was too late. Consequently, in 1952, I retired and moved to Falmouth, Mass., where my wife and I had spent considerable time in past summers.

Here I seem to be very busy. There are endless jobs in the gardens to do, some of which are done and some are not. Frequently, my wife and I spend a few days in Boston, Exeter, Vermont, Virginia and other places which interest us, in order to rest up. I have also found time to devote to the activities of my church, the Harvard Club of Cape Cod, and to various activities for the University in Cambridge.

✠ THOMAS SHAW BOSWORTH

DIED: Portland, Maine, December 17, 1957.

Bosworth withdrew from Harvard at the end of our sophomore year. He later studied at Lincoln College, Oxford, and during World War I was in the Field Service. He then went to work for the *New York Times*, where he remained for thirty years, in various editorial capacities. World War II was then on, and he tried to get into various branches of the service but was rejected because of his age. He finally became a fire fighter (j.g.) in a civilian capacity at Presque Isle, Maine, where he was stationed for two and a half years, then a year with the Veterans Administration at Augusta, Maine. From there was recalled to serve eighteen months more at the Air Station at Limestone, Maine, where, to quote from his last report to the Class, "Alone under the northern lights I learned the technique of the first star watchers in the world. All the worries of people who talk over the radio and all the ills of the world seem such cheap foolishness."

Shortly before our Forty-fifth he had two strokes and a brain hemorrhage and was completely incapacitated for the rest of his life, part of the time in the Veterans Administration Hospital in Washington, and for some months before his death in a rest home in Portland, Maine. He died Dec. 17, 1957.

The quotation gives the character of the man, particularly when he occasionally saw those northern lights while standing guard on a northern Maine winter night.

OCCUPATION: Teacher, retired; Camp Director, still active.

MARRIED: Florence Beebe, April 26, 1918, Montclair, N. J. CHILDREN: Mildred Weatherbee Boyden, June 17, 1920, married Vincent J. Oliver, November 28, 1942; Barbara Boyden, October 30, 1923, married Winslow Wetherbee, Jr., January 18, 1947; Mariella Boyden, April 8, 1930, married Harry J. Bowles, June 14, 1949. GRAND-CHILDREN: Fifteen.

ACADEMIC DEGREE: A.B., 1910.

MEMBER OF: American Camping Association; Associate American Meteorological Society; Maine Camp Directors Association; Country Day School Headmasters Association of the United States; Pi Gamma Mu, Honor Society Social Sciences.

OFFICES HELD: President, Maine Camp Directors, 1941-1945.

Since our graduation in 1910 I have devoted myself to education in two phases: teaching in the winter for forty-nine years, and camping in the summer for forty-three years. My teaching has mainly been in college preparatory schools, but I have taught and done administrative work in all grades from the elementary to junior college. Even in France, during World War I, I was drafted to teach English in the American Expeditionary Forces University at Beaune. My teaching has been chiefly with boys, but my summer work in camping has been mostly concerned with girls, for since 1923 Mrs. Boyden and I have directed "Little Wohelo," the younger girls' camp of The Luther Gulick Camps in Maine. I retired from teaching in June, 1959, but I expect to keep on camping for a number of years more.

As I look back on my career, the chief thing that stands out in my mind is the fun and enjoyment I have had in working with

young people. There is the fun of teaching classes and the deep enjoyment that comes when the students progress scholastically and show capacity for learning. There is the fun of athletics, of coaching — track, hockey, baseball — and the satisfaction of seeing young people develop physically. There is the fun of living with young people in boarding school and in camp and seeing them change from mischievous youngsters into responsible citizens. I have had the fun of being a part of new educational developments, such as the Dalton Plan, and a successful plan of school government and Honor System at Proctor Academy.

Despite the frustration when a teacher in some way fails to reach or help some individual student, I feel that it has been a great privilege and a lot of fun to work with the young. I have watched a great many of my earlier pupils grow into useful citizens. I have great hopes for the future of my more recent pupils. I believe American youth is basically sound, basically capable, and needs only wise guidance and inspirational teaching to carry on the best American traditions.

As I consider the past fifty years, I feel that life has been good to me. I have enjoyed my growing family, my work, my play, my friends. What could be more satisfactory?

Eck, Bowdoin Class of 1941, and daughter-in-law Shirley, together with their children Deborah (13) and Robert (9) are a source of great enjoyment to us.

ACADEMIC DEGREE: A.B., Harvard, 1910.

MEMBER OF: Oyster Harbors Golf Club; Clearwater (Florida) Golf Club; Bath Club (St. Petersburg, Fla.; Boston Madison Square Garden Club; Harvard Varsity Club; Harvard Club of Boston; United States Seniors Golf Association.

As previously reported in our other anniversary reports, I have, since graduation in 1910, spent some time in various cities in our wonderful country, as follows: Manchester, N. H., three years; New York City, seven years; and Los Angeles, fifteen years, finally returning in 1934 to Boston and the East, which, in retrospect, I find to be, in my mind, at least, the tops in most respects.

Since my retirement in May, 1950, my wife, Edith, and I have spent about six months each year in the summer at our home, since 1949, at Oyster Harbors on Cape Cod, the other six months at a variety of places on the west coast of Florida.

Having recently purchased a co-operative apartment in Clearwater, Florida, at the water's edge, overlooking the Bay, with the Gulf of Mexico in view in the distance, we doubtless will spend more and more time there as the years go by.

We both continue to enjoy playing golf, whenever and wherever possible, and always, in addition, are ready and willing to participate in any kind of out-of-doors, or indoor, sport.

✠ JAMES HAROLD BRADDOCK

DIED: June 27, 1958.

Harold Braddock — invariably called and known by his middle name — spent three years with the Class in college. Born in New Jersey, he lived there the greater part of his life, though he prepared for college at the Marion Collegiate Institute, Marion, New York. He was intensely loyal to the Class, and to Harvard College.

A public relations counsel and management engineer throughout his active life, his career was a continuing story of varied activities and constructive accomplishments. In the spring of 1917 he became associated with the Red Cross War Council in Washington, serving as associate director of the first Red Cross War Fund in the summer of that year. In the autumn of 1917 he was lent by the Red Cross to become director of the Library War Council appointed by the Secretary of War, Newton D. Baker, to raise \$1,000,000 for books and library facilities of our soldiers and sailors. During 1918 Braddock was director of the Military Entertainment Council appointed by the Secretary of War to finance the entertainment of the men by selling \$1,000,000 of Smileage books to civilians, who in turn sent them for use by men in the armed forces. Upon the signing of the armistice he was invited by the Secretary of the Treasury to become Director of the newly organized Treasury Department Savings Division, where he served until his resignation August 1, 1919, when he returned to private affairs. Braddock's obituary appeared in the *New York Times* of June 29, 1958, and included therein was the following item of unusual interest:

"During 1918-19, Mr. Braddock was director of the savings division of the War Loan Organization of the United States Treasury Department. While in that post he wrote the first letter that was ever sent across the Atlantic by air.

"The letter was addressed to Sir Robert Kindersley, Chairman of the British National War Savings Committee. It was taken to England aboard the Navy seaplane N-C 4, which flew from Newfoundland to the Azores on May 16-17, 1919, and later by stages to Plymouth, where it arrived on May 31. The dispatch of the letter was made public on June 17, 1919, in Washington, when a reply was received from Sir Robert."

From 1919 to 1943 Braddock's activities were principally as a public relations engineer. Between 1927 and 1932 he was chairman of the educational relations committee of the New Jersey Bell Telephone Company, in charge of technical employment and training. He wrote little about himself in earlier Class reports and in the later ones mostly about his children. His older son, James Harold, Jr., was Harvard 1935. However, in the thirtieth anniversary report he wrote:

"During the past five years life has had some financial vicissitudes, but life was never so interesting. Have been personnel research specialist, so-called, with the United States Rural Rehabilitation activity of the Resettlement Administration; secured proxies for a famous corporation; was labor relations director for 16 corporations in a Mid-West city, helping maintain industrial peace when labor leaders and federal authorities were endeavoring otherwise; helped conduct a Congress of American Private Enterprise in New York City.

"Am now engaged in the hospitalization movement, and at present am with the Associated Hospital Service of New York, the largest non-profit organization of its kind."

In the fortieth report he tells of miscellaneous tasks since Pearl Harbor, notably with the General Electric Company in the manufacture of remote control turrets for B-29 Superfortresses. He then called himself semi-retired and "yeoman with Seamen's Church Institute," New York City. In the forty-fifth report he indicated that he had "retired twice." A detailed outline of his life would surely make interesting reading — and it would be a story of which his family, and his classmates as well, might truly be proud.

Surviving are his widow, the former Helena Hunziker, two sons and a daughter; seven grandchildren and two great-grandchildren.

Durfee Trust Co., Fall River, 1934 to present time; Board of Investment, Fall River Savings Bank, Fall River, 1937 to present time; treasurer, District Nursing Association of Fall River, 1918 to present time.

Since graduation, I have led the life of the average businessman in a city and business which have not grown. Probably I have not worked as hard as many, taking a month's vacation in the winter and much time in the summer for sailing and fishing.

I have had boats of various kinds for over forty years, and raced my schooner "Whistler" to Bermuda in 1923, and used to

cruise considerably. Before the war, I helped to organize the Sakonnet Yacht Club and was Commodore for nine years and am still Treasurer.

At present, we spend about six months of the year at our house in Little Compton, a few months in Fall River, and the remainder of the year traveling.

As for my satisfactions and convictions, I have always tried to do well what I have attempted and have found a good deal of satisfaction when I have succeeded. At present my philosophy of life is not to worry about things, but to go fishing.

I was employed by casualty insurance companies until 1946. These companies had offices scattered in various cities throughout the United States. In 1918 I was transferred from the New York City area to Syracuse, New York. Then in 1937 to Detroit, Michigan, and three years later to Chicago, Illinois. At this point, after doing some very solemn thinking, I decided that I was going to return to the up-state area of New York where I had been the happiest. My five children had grown up in Syracuse, New York, and this section had become "home" to us. I was therefore transferred back to Syracuse. In 1946 I had the opportunity to join an insurance agency in Rochester, New York. At that time I went with Roller-Clark, Inc., as a Vice President, and was with them until my retirement, June 30, 1959.

Several years ago I resumed a boyhood hobby of collecting postage stamps. This hobby of collecting *all* United States stamps grew and grew until I finally made the decision to restrict my collection to the One-Cent Blue Stamp of the 1851-57 issue. This stamp is a most interesting one and affords unlimited opportunity for study and research. I am a member of several philatelic societies, among them "The 1851-60 Unit." This, I believe, would classify me as a "philatelist."

LINDSEY BROWN

OCCUPATION: Retired.

MARRIED: Dorothy K. Puddington, 1920, Madison, N. J. CHILDREN: Margaret Puddington Brown (unmarried), November 8, 1923; Sally Lindsey Russell, December 7, 1924, married April 27 1949, to Robert K. Russell, Jr. GRANDCHILDREN: One.

ACADEMIC DEGREES: A.B., 1910; A.M., 1911.

MEMBER OF: Graduate Club, New Haven.

In brief interim reports since 1935 I have noted two family events, namely, the marriage of my younger daughter, Sally Lindsey, in April, 1949, to Robert K. Russell, Jr., and the birth of my grandson, George Lindsey Russell, in September, 1953. The Russells have been living near San Francisco the past four years. To complete the family record, I am now reporting that in the fall of 1941, when she was a student at Connecticut College for Women, my older daughter, Margaret Puddington, developed the most malignant type of mental illness known to medical science. She has been hospitalized since April, 1942, and it is unrealistic now to assume that her basic condition is likely ever to improve. Mrs. Brown and I have continued to reside in the Westville district of New Haven, where we bought a house in October, 1929, about half a mile from the Yale Bowl. Our social life has been largely domestic, with few outside contacts except those related to my position as city librarian and to Mrs. Brown's volunteer services at New Haven Hospital and as a board member of a home for aged women. With one daughter living in California and the other a patient in a mental hospital, our children are no longer part of our family circle in the way we should like to have them.

As required by the regulations of the city employee retirement act, I retired as city librarian as of April 1, 1959, having already passed the mandatory retirement age of 70 (for men) in October, 1958.

On the retirement date I had been city librarian for exactly thirty years. At my request the observance of my retirement was simple and informal, though not without considerable newspaper publicity. There was a reception at the central library building on December 28 and some months later a portrait of me painted by Deane Keller, professor of painting at Yale, was presented to the Library by the Board of Library Directors and the

Library Staff Association. This hangs in the Directors' Room next to a portrait of my predecessor, the first New Haven city librarian, whom I succeeded on April 1, 1929.

In order to install the new city librarian as early as possible in the calendar year, it had been arranged for me to leave my position on January 15, my salary to be continued to April 1 as accrued sick leave. This plan enabled Mrs. Brown and me to spend two winter months in 1959 in Florida and North Carolina and it provided a much desired break between the interests and attachments of a long employment and the inevitable problems and adjustments of retirement. Without hobbies and conventional social interests such as card playing, I had known that retirement was not going to be easy at first. Luckily it has turned out to be easier than I had anticipated, and both Mrs. Brown and the family doctor seem pleased with my reactions. There will continue to be, I hope, two months at Winter Park, Florida, and at Chapel Hill, North Carolina, each winter and a few weeks at Jackson, New Hampshire, and at Northfield, Massachusetts, each summer. Mrs. Brown and I have spent 26 summer vacations at the Eagle Mountain House in Jackson since 1932. In New Haven I try to walk about two miles every pleasant day and to take an automobile ride in our beautiful Connecticut country several times a week. So far I have been able to keep almost entirely away from the New Haven Public Library, where I was top executive for thirty years. My visits there are brief and infrequent and I do not meddle in what is no longer any business of mine. I have recently joined a private subscription library in New Haven, so that I do not have the excuse of having to visit the public library to get books. All my old privileges as city librarian have been retained, however, including the use of the library's convenient parking space.

It is not my intention to write books or to engage in any other occupation that did not amuse me when I was gainfully employed. There will be more time now for reading, a recreation that has been considerably restricted since a serious eye infection in 1929, and I expect to get a great deal of evening entertainment out of listening to greatly improved radio and phonograph musical programs as received over a Pilot stereophonic radio, recently purchased.

Though Mrs. Brown and I have resigned from the Yale Faculty Club, where we had been associate members for some twenty years, I am retaining my membership in The Graduate Club, which is the men's university club of New Haven. I joined this club in 1923. For most of my working years I used to have lunch at the Graduate Club several times a week and through this contact met a large number of college men, including many Yale faculty members. These luncheon engagements, though now less frequent, seem to enable me to keep up the pleasant personal associations I have found at the Graduate Club over the years.

PRESCOTT BATCHELDER BROWN

HOME ADDRESS: 24 Richards Road, Weymouth Heights, Mass.

OCCUPATION: Retired.

MARRIED: Lillian Agatha Gately, June 5, 1911, Rothesay, Canada.

HONORARY DEGREE, DECORATIONS, AND AWARDS: Awarded the Joseph Warren Medal in 1957 by the Grand Lodge of Massachusetts.

MEMBER OF: Masonic Fraternity, Harvard Club of Quincy.

OFFICES HELD: Master of Orphan's Hope Lodge, A.F. & A.M., 1940-1942; Master of the Twenty-Second Lodge of Instruction, 1949-1950; Chairman of Southeastern Massachusetts League of School Publications, 1930-1932; Past President of the Weymouth Teachers' Association; at present Trustee and Auditor of East Weymouth Savings Bank.

My life has, on the whole, been peaceful. For almost forty-five years I was a teacher engaged in secondary education. And I am glad to fancy that I was successful. Most of my summers I have spent in New Hampshire. After I retired in 1956, my wife and I sojourned in England, a country we are both fond of. Since my return to the States I have divided my time between New Hampshire and Massachusetts.

As I look back on the world of fifty years ago, I recall the words from an old musical comedy: "I sigh in vain to live again in the days of old." These words make me conjure up the days in our land before many regrettable changes had come. And I have chiefly in mind the great changes in the social, the educational, and the economic fields. Every period has its excellencies and its shortcomings, and I do not intend to try to weigh the merits and faults of 1910 against those of 1960. Apart, however, from the advance of medical science, I regret many changes. For

instance, I regret the decay of culture, the softening of education, and the insatiable demands of the organized groups that are, more or less unwittingly, undermining our economy. The following incident is apropos. Some years ago I was lunching with an educated man who had become a radical agitator. Upon my taking him to task for urging a group of reasonably well-paid workmen to strike, he said in substance: "What the hell do I care about those poor fools! If they were getting a thousand dollars a week, I'd try to get 'em to strike for more. I'm doing all I can to bring about the downfall of the capitalistic system, and that's one damned good way." But lest I be deemed an old man who finds unpleasant things to which he was not accustomed in his younger days, I must stop airing my views. Nevertheless, many of my coevals would, I fancy, agree with me that the kind of world they lived in half a century ago would be a pleasant world in which to live their remaining years.

After leading a busy life, I now lead a quiet one. Although I am no longer active in Masonic and educational affairs, I am by no means a recluse. Once or twice a week my wife and I go out to lunch. Incidentally, my face is not unknown at Jacob Wirth's, where I still relish Bratwurst. Now and then my cronies rout me out to play penny ante. And every November I go shooting in northern New England. I read a good deal, my taste in books ranging from the classics to recent detective stories. At times I work hard, cutting and splitting logs for the fireplace. In short, whatever I am doing, even if I am only puttering about, I generally enjoy myself.

Throughout my life people have been kind to me. As a matter of fact — and I acknowledge it with shame — the people that have been kind to me outnumber those I have been kind to. My faults mount up to many a score. But I like to flatter myself that, notwithstanding certain quirks, I get on well with others. Without being taken for a moralist, I should, in closing, like to express the wish that more Americans would practice the cardinal virtues. Whether what I have written is fated to be a swan song or not, I shall perhaps do well to end with the ancient saying: "This too shall pass."

MARRIED: Marion Arnold Martin, September 25, 1920, Marblehead, Mass.

CHILDREN: Harriett, Pitman Brown, July 20, 1922, married Norris Langdon Bull, Jr. GRANDCHILDREN: Two.

ACADEMIC DEGREES: S.B., 1910.

MEMBER OF: Post 32, American Legion; 10th Deck Division; Unitarian Layman's League.

The first year after my graduation I spent at M. I. T. Then I was employed by various naval architects around Boston, namely: B. B. Crowninshield, Swazey, Raymond & Page and John Alden. In the fall of 1914 I coached the Marblehead High School football team. In 1916 I volunteered in the 10th deck division of the Massachusetts Naval Militia. April 1, 1917, the Navy called the Militia to active duty. I spent two months on the U.S.S. *Nebraska* and then was transferred to the inspection of submarine chasers at the following places: Pensacola, Fla.; Cleveland, Ohio, and Annapolis, Md. I was released from active duty in the Navy about the 9th of April in 1919. Then I went to work helping to manage the Chance Marine Construction Co., Annapolis, Md. While I was keeping busy with this job, I learned that there was an opening for a civilian instructor at the Naval Academy in the department of Marine Engineering and Naval Construction. I passed the examination and was sworn in on September 9, 1920. Now that my position was secure, I made hasty arrangements to be married to Marian Arnold Martin of Marblehead. We have gotten along together ever since. A daughter was born to us July 20th, 1922. In 1923 there was a cutback in the number of midshipmen, which meant a reduction of instructors. I was relieved of my duties, which gave me a chance to go in the Bermuda Race on the "Malabar IV." In the fall of 1923 I went to Portland, Maine, for two years and managed the Cumberland Shipbuilding Co., and from 1925 to 1928 I taught manual training in the Marblehead High School. During the summer of 1928 I

1959, but then decided to quit, not wanting to collapse or have the elderly legs fail in the middle of an operation. However, on looking back, it is clear that I succeeded in cramming in a lot of fun, too — such as a hunting trip in the Canadian Rockies; once grouse shooting in Scotland; much enjoyable golf in various parts of the world (U.S.A., England, Scotland, France, Australia); many stream fishing expeditions; some bird shooting; two trips to Japan and several to Europe; and some wonderful cruising in the Mediterranean and from Maine to Jamaica, B.W.I. (in several small bites, not all at one go). These are a few highlights to indicate a reasonably active life. It is impossible to express succinctly the satisfactions coming from some civic activities or from teaching and practicing a profession that leaves one with no regrets for having chosen it. My main joys and satisfactions come from having been blessed with a healthy, happy family with children and now grandchildren.

GRANDCHILDREN: Six.

ACADEMIC DEGREE: None from Harvard; Law Degree, 1918, from Boston University.

MEMBER OF: Sakonnet Yacht Club, Little Compton, R. I.; Harvard Musical Association; The Age Center of New England of Boston.

OFFICES HELD: Clerk of Municipal Court of Brookline, 1925-1928; Assistant Counsel, New Haven Railroad at Boston, 1928-1954.

It would seem to call for some explanation, why I received no academic degree from Harvard despite the fact that I am listed as a member of the Class of 1910, and have so been carried on the rolls of that "family" ever since. The answer is very simple; in that I had a much interrupted preparatory school record at Brookline, and was not prepared to take the entrance examinations for admission to Harvard as a freshman in regular standing, but was admitted as a special student, and was so carried throughout my academic career, which status precluded me from receiving a regular A.B. degree. I had a year thereafter at the Harvard Law School; and after an interim in business I completed my law course at Boston University, where I received

my law degree. Since my admission to the Bar of Massachusetts and of the federal courts, I have been continuously engaged in the practice of law until the present time, when I am still engaged from time to time as an Auditor for the Superior Court of Norfolk County, in hearing cases and reporting evidence to the Court; this semi-retirement practice of law I find most congenial and rewarding.

Since my semi-retirement in 1954, I have also become very interested in the problems of aging in all their aspects, including those especially attendant upon compulsory industrial retirement, at any fixed and arbitrary age; and interested in its effect upon the health, happiness and earnings of those individuals whose capacities are often prematurely, even brutally and wastefully, put on the shelf. But thanks to the research initiated in the Age Center of New England in Boston by Dr. Hugh Cabot and Dr. Robert Munroe and their associates, together with other like-minded medical men, sociologists and psychologists, and even industrialists, we find that industry is taking a "new look" at this problem in our midst. Inasmuch as that organization, by its own declaration of purpose, is devoted to "the development and study of extended independence in people of advancing years," I have taken that declaration to heart by trying to apply it personally, that is, by choosing the alternative of semi-retirement as against the alternative of a complete one, and thereby extending my own independence to that extent. It is very heartening to see that more and more men of our own vintage are doing likewise.

Returning for the moment to the subject of our educational background in general and to my own in particular, I would like to add some thoughts and recollections. They are these. Because of the interruptions in my secondary school preparation, already referred to, I was entirely ungrounded in the sciences of physics, chemistry, and biology, and even in mathematics. Accordingly, when I entered college, thanks to the free elective system then in vogue under President Eliot's administration, it was open to me as a special student to elect courses that were not dependent upon any technical preliminary background and to "concentrate" in the field of philosophy and psychology; what is more, that was at a time when the department of philosophy at Harvard was so blessed with professors of the outstanding calibre of William James and George Herbert Palmer, that the

period became known as the "Golden Age" of that department for all time thereafter. Furthermore, I was fortunate enough to just "get under the wire" in my first half of freshman year, when William James gave his last course at Harvard, and when at his last lecture the boys gave him a silver loving cup and a "regular cheer with nine Harvards on the end."

In this connection, the thing that has often intrigued my speculation is the fact that in one's teen-age years a maturing thinking evolution goes on, quite without aid from any of the formal disciplines traditionally accredited to the conventional and established order of educational curriculum; and, furthermore, quite without experience on one's part in taking written examinations, and yet that maturing process has enabled me to cope with the advanced thinking of scholars in the field of philosophy and psychology. To my mind it offers food for thought for the educators in their appraisal of the established order in education.

MARRIED: Katharine Gray, June 28, 1920, Manitowse, Wisconsin.

ACADEMIC DEGREE: A.B., February, 1910, Harvard.

MEMBER OF: Harvard Club of New York City; Mt. Tabor Country Club.

OFFICES HELD: On Vestry, St. Peter's Church (Episcopal), Morristown, for many years.

Since I left college I have been in the sales end of manufacturing. In 1957 I was forced to retire at the active age of 70. During 1953-57 I traveled extensively in Europe; visiting my company's plants in England, France, Austria, Italy, Spain and Portugal. I have traveled by automobile through all of Europe, including Yugoslavia, Norway and Denmark, and Holland. I have covered over 25,000 miles, the last two times in a Mercedes Benz, which I purchased in Stuttgart, Germany, and have brought back to this country.

When I retired in 1957, I did not want to be idle, so I took a job teaching American History, Geography, Elementary English and Public Speaking, at St. Bernard's School in Gladstone, N. J. This is a boys' day school, enrollment about 100, ages 12-18.

From a close study of skilled workmen in many plants in this country and in Europe, and from my teaching experience, I make the following observations:

This country is riding for a fall in competition with Europe and Russia, unless we change our habits and philosophy of life on two counts:

First: We are more intent on quantity than quality. The average American working man has lost the pride of workmanship of our forefathers. He is a clock puncher and time watcher. Our products are sloppily produced and assembled.

In Europe, the average workman takes pride in his job, and serves a long apprenticeship. The plant manager is intent on quality, not quantity. For example, the production manager of the Mercedes plant in Stuttgart told me he had no fixed production schedule. Every car must be perfect before it is delivered. Result: the best car I ever drove, no rattles, no squeaks, no defects after 20,000 miles. The same with most other European cars.

Our plant in this country learned many things about quality from European factories; they were not interested in our increased speed of production.

I shall not discuss the reasons for the sloppy workmanship in this country, though I have many ideas on whose fault it is: partly the unions, management and the fierce competition for sales, and quantity production.

The second observation I make is due to my brief teaching experience. The chief difficulty in all classrooms is lack of discipline. Its lack is due entirely to the parents. The great tragedy of America today is the fact that, in the average American home, the man is no longer the master in his own house. The men are becoming more feminine and the women more masculine. In Europe, this situation is the direct opposite. There is strict discipline in the home and in school, due in a great measure to the Catholic religion. Maybe, some day, in this country, we will regain our pride of workmanship, and the man will be the master in his own home. If not, God help America!!

OFFICES HELD: Member Board of Directors, The Sanford Schools, Hockessin, Delaware, 1953-; Member Board of Directors, The Springfield (Mass.) Symphony Orchestra; Secretary, The Truro (Mass.) Neighborhood Association, 1959-.

The highlights of the last fifty years have shone in three fields: academic, musical and philosophical.

Although music, specifically singing and teaching the art of singing, has always been my compelling interest, I spent the first fifteen years after 1910 teaching English and history to teen-age boys and girls in several well-known private schools and in Springfield (Mass.) College and a season in the Harvard Summer School. With modest surplus earnings I studied voice with Stephen Townsend in Boston and New York.

In 1926, in the finals at Carnegie Hall, I won a national competition of American artists to appear as soloist with the New

York Philharmonic Orchestra. The New York critics were so good to me that I was launched on a busy concert career. The largest audience I faced filled San Francisco's Panama Pacific Exposition Building Auditorium, which seated between ten and twelve thousand. There I sang with the San Francisco Symphony under the direction of Alfred Hertz, formerly German conductor at the Met. After I returned to New York, the manager of the Salzburg Festival chamber concerts heard me in the church where I was soloist and engaged me to sing the third recital in the Mozarteum at the 1929 International Mozart Festival. European music critics were very kind, encouraging managers to sponsor many concerts throughout the continent. I sang recitals in Vienna (2), Berlin, Paris, and London (2), and two concerts with the Vienna Symphony. Opportunities developed rapidly: an offer of an engagement in opera at the Bayreuth Wagnerian Festival, a contract to make records for the Gramophone Company, and another to sing bass-baritone roles in the three opera houses on the Rhine, whose manager had heard me in Berlin. But the curtain fell on my European career during its infancy. The stock market crash of October, 1929, shocked Europe as well as America. I cancelled plans to sign the contracts and returned to New York where the legitimate concert business had shared the fate of many another.

At present I am a pioneer, developing the voice department of the newly-organized Cape Cod Conservatory of Music and Arts in Hyannis. I commute the 80 miles round trip from my home in Truro and rejoice in the possession of an opportunity to be of service to young and not-so-young ambitious singers in the field where I had chosen to make my major contribution. I am thankful that *I have not retired*; and I am grateful for the opportunity to inspire people to be proficient and happy through the better cultivation of their voices and to bring happiness to others who listen to them. Although the Great Depression frustrated a concert-operatic career, it did not conquer my spirit. Through success and failure I have come to realize the truth of Dr. Tom Dooley's reply (in a radio interview sometime in January) to the question, "What do you consider the most important thing in life?" He answered, "To be of service to others." That is my philosophy.

MARRIED: Gertrude W. Knowlton, March 25, 1916, Watertown, N. Y.

CHILDREN: Malcolm (Harvard 1939), born March 15, 1917, married Jane Purse, 1942; Gertrude (Vassar 1942), born February 13, 1920, married John Taylor, Jr., June, 1946; Florence Anne (Vassar 1944), born April 2, 1922.

My wife and I are still living where we started our married life.

As to my engineering work, I have gradually shifted my responsibilities to my son.

In August, 1959, he and my wife and I were in a very serious automobile accident on the Massachusetts Turnpike. The effects of this will long be with us.

If this prevents my being at our most important reunion in body, I will be there in spirit, with good wishes to you all.

The really worthwhile events of the past fifty years are too personal to put down for publication. I have had a lot of satisfaction with the "growing-up" of my family and in sharing pleasures with them, especially two wonderful summers abroad with a car and the open road. I haven't done much philosophizing, but possibly along these lines my aim would be to maintain a reasonably optimistic attitude and to be more tolerant in my views.

✕ HENRY NORRIS PLATT

DIED: November 20, 1956.

Born at Philadelphia, Pa., Oct. 19, 1888. His parents were Charles Platt, Jr., and Elizabeth Norris.

He came to our Class from De Lancey School, Philadelphia, Pa., and received his A.B. degree in 1910.

He married Page Randolph Anderson, Savannah, Ga., on Apr. 2, 1921, and they had three children: Henry Norris, Jr., Mar. 23, 1922; Ann Page, Nov. 22, 1924; and Jefferson Randolph, May 13, 1929.

When our class first assembled at Cambridge in September, 1906, Harry Platt and Percy Madeira had rooms on the fourth floor of Randolph, next to Stewart Robinson, Jesse Metcalf, John Butler and myself. It is sad that as this is written Percy and I are the only survivors. In any event, Harry, Percy and I were close friends during the next fifty years.

Harry was an excellent student, and had no great difficulty in keeping on friendly terms with the Dean's office and graduating in due course. He enjoyed people and all sides of the undergraduate life of those days.

Harry's family was for many years identified with the insurance business in Philadelphia. His grandfather, Charles Platt, was a president of the Insurance Company of North America, and his father, Charles Platt, Jr., was one of the founders of the insurance brokerage firm of Platt, Yungman & Co., and was its senior partner when Harry graduated. His brother, Charles Platt, 3rd, of the class of 1902, who died in 1918, was also a partner at that time. Harry followed the family tradition. He spent several years after he left college with an underwriters' rating bureau to learn something of insurance, and in 1912 became a partner in Platt, Yungman & Co. He spent his entire business life with the firm, becoming its senior partner in 1935.

Harry enjoyed our first class reunion in 1913 a great deal, and was doing well at our second in 1916, when his time, and mine, was cut short by orders sending the Philadelphia City Troop to El Paso for duty during the Mexican difficulties following Villa's border raids. The troop arrived in El Paso in July, 1916, and was there until January, 1917. I am sure that, in retrospect, Harry thought, as do many of us, that these were gala days, particularly after the troop discovered that alcohol was not as destructive of human life in that climate as had been rumored by mothers and wives when it left Philadelphia.

In the spring of 1917, a few months after he came back from the Mexican border, Harry went to the Officers' Training Camp at Fort Niagara for three months. At the end of the course he was commissioned a Second Lieutenant of Field Artillery and was

sent to Fort Sill for training. Later he became a First Lieutenant and was in line for a Captaincy when discharged at Fort Meade in December, 1918.

Not long after the end of the war, in 1921, there was a gay journey from Philadelphia to Savannah, where Harry married Page Randolph Anderson. The memory of Savannah hospitality is still vivid in the minds of all. A happy sequence is the fact that Henry N. Platt, Jr., is now a partner of the author of these recollections of his father.

Harry had a great many friends in Philadelphia and elsewhere throughout his life, and while the number of those with whom he was intimate was relatively small, their devotion to him was great. He enjoyed games and was noted as an expert and extremely successful player of snuff and backgammon, far too good for any ordinary player. His favorite sports were golf, fishing and sailing. He belonged to a number of clubs and was fond of club life. He was also active in public and charitable organizations and activities, being for many years Treasurer of the Episcopal City Mission and President of the Philadelphia City Institute.

✠ ADOLPH JOSEPH POST

DIED: February 12, 1956.

Post, at the time of his death, was Division Engineer of the Sanitary Division of the Boston Public Works Department.

Associates and a former chief of this department describe him as an exceptionally able sanitary engineer, whose methods and innovations in the field caused him to be consulted by persons from other cities faced with municipal sanitation problems.

Trained as a civil engineer, Post brought to his work an insatiable curiosity and a capacity for new ideas.

The street signs which finally were adopted by the city were of his design. He also designed the catch-all rubbish boxes in use in Boston and created slogans to promote municipal cleanliness.

He supervised the design and construction of the city's incinerator in Roxbury and directed the sanitary force of 1,000 Boston employees.

Post gave his life to career service with the city. He entered the field immediately after graduation and continued in the work for 45 years, except for two years during World War I, when, as an army officer in Construction Division, he directed construction and maintenance work at Fort Devens.

He also assisted in a Boston traffic survey, directed studies of street design and location, and was secretary of the First Federal Savings and Loan Association.

Reading and sailing afforded him recreation. To those who knew him well, Adolph was an unusually earnest, forthright and warm friend. He was highly regarded by successive municipal administrations in Boston.

Adolph's nickname was Ajax. I knew him in high school days. I used to visit him, occasionally, at his home on West Springfield Street, Boston. Usually his father would be holding a "jam session" with some musical friends. He (the father) was a member of the Boston Symphony Orchestra. Adolph's brother, John, composed a symphonic which was played by the Washington Air Force Orchestra. Adolph's parents were German and in later life he was proud to carry on some of the old country traditions in folk songs, games and cookery.

Ajax and I were roommates in Hollis 1, South Entry, in our senior year. "Copey" was our proctor and held sway on the top

floor. Ajax and I used to whip up our own meals, contrary to college regulations. Ajax was always coming up with some (wild to me) scheme for getting rich. He once asked me to take the civil service examination for rodman. Neither one of us knew anything about surveying, but we took the test and both passed. The \$10.00 Stillman Infirmary fee bothered Ajax. "Why should we pay the fee and get no benefit from it?" Well, lo and behold, Ajax came down with a cold. He saw the college doctor, who assigned him to Stillman for three days.

After graduation I saw Ajax occasionally. He once took me to the city garbage disposal plant, out in the harbor. He had devised a scheme for extracting grease for soap making. The garbage left was converted into fertilizer.

Ajax disliked waiting between installments in serial stories, so he would save his S.E.P.'s and read the story in one fell swoop.

Ajax was a good friend, had an inventive mind, was deeply religious, and raised a fine family.

MEMBER OF: Somerset Club, Boston; Travellers Club, Boston; Myopia Hunt Club, So. Hamilton, Mass.; Cruising Club of America; Ocean Cruising Club (British); Master of Foxhounds Association of America; National Aeronautic Association.

The first few years after graduation were spent on State Street, Boston, Mass., in the banking and investment business. In 1916, being an ardent believer in "preparedness" and the crying need of an air force for our country, I resigned from the Militia Cavalry Troop, in which I had been a member for a number of years, and took up flying at a small civilian school at Marblehead. The plane was a Burgess-Dunn hydro-airplane without a tail, shortly to become obsolete. It was designed by Mr. Starling Burgess of Cup Defender fame, and I doubt if there are alive today three people who have flown the contraption.

In March, 1917, I was in the first hundred to enlist in the Army Signal Corps, of which our Air Service was a part. I trained first at the Curtis Flying School at Newport News, Va., where I received my "brevet" as pilot number 754 in the Federation Aeronautique Internationale. When our planes were all bust, we went to ground school and I landed in France as a sergeant in July. My first lieutenant's commission caught up with me in Italy. There and in France I served as dual-control instructor and test pilot until I was sent home in April, 1919, with never a chance at the French front. I felt pretty badly about it, but perhaps I wouldn't be here today had my desire been fulfilled. Three of us "passed coal" on a bet on the way home and got in excellent physical trim to greet our friends. Walter Wanger of Hollywood fame was one of the "black gang."

The next spring I helped our classmate Harold Peters and several others sail their forty-five-foot water-line schooner, "Lloyd W. Berry," from Boston to France. It was a new game then, but today ocean racing and voyaging in small craft are a matter of common occurrence.

On my return, I took up the care of real estate and became a trustee. I did not give up flying, however, and coached an early Harvard flying team that was beaten by Yale, and as a captain remained on active duty in the Reserve Corps. I also helped found the 101st Observation Squadron of the Massachusetts National Guard. In 1928 I was grounded, as I could no longer pass

the eye examination — even after learning all the eye cards by heart.

The favorite sports and recreations of my wife and myself may be summed up two words, "Surf and Turf." On our honeymoon we sailed a forty-foot ketch over three thousand miles of Atlantic coast with the assistance of a parrot called "Bracy" — my wife never having cruised or sailed much. Since then we have explored the Atlantic coast from the Gulf of St. Lawrence to the Gulf of Mexico, including the Bahamas. The 25th Reunion of this famous class was by-passed, as we were assisting my friend, the late General George S. Patton, Jr., and his wife, "B," sail their fifty-foot over-all schooner, "Arcturus," from Los Angeles to Hawaii. I also did some ocean racing and was second mate on "Highland Light" when she hung up a Bermuda Race record that stood for over twenty years.

On the "Turf" side, we are both ardent horse enthusiasts, having ridden and hunted from childhood. For a number of years I was M. F. H. of the Myopia Hounds at Hamilton, Mass., until "grounded" by arthritis. From 1912 to 1928, when a neck injury put an end to it, I was active in amateur steeplechasing and have had the good fortune to ride in the Maryland Hunt Cup and over most of the famous courses in the country, with a reasonable number of winners.

In 1938 I smelled trouble and wanted to get in the air again, so once more took up flying and got a license.

Having been turned down by the Army and Navy because of my arthritis (though I think if I had persisted I might have wangled a job flying a desk in some obscure back room of a remote supply depot), I was made Wing Commander of the Massachusetts Civil Air Patrol in late '41. I soon resigned to fly Anti-Submarine Patrol off the Delaware Capes with the Second Coastal Patrol Base until September, 1943. Never did I "sight a sub," but I counted so many waves that a president for whom I did not vote awarded me the Air Medal. I got no closer to the war.

Whether or not I have earned my keep on this ball of clay is problematical. If I have failed, I am at any rate in excellent company. To date the world and fate have treated me very well, better than I deserve. I have few complaints.

To have filled these pages with the ways in which I acquired my daily bread would be uninteresting and leave no secret clues or formulas to help posterity. Life has been interesting, with considerable action, and rarely dull.

After graduation in 1909, I traveled and studied languages in France, Germany and Mexico, and then traveled in the United States. After a year at the Harvard Law School, I decided not to become a lawyer and accepted an opportunity to work on the *Newburyport Herald*. I went to Newburyport and remained there until World War I. As I was not accepted by the armed services on account of physical disabilities, I worked in the Food Administration in Washington. While there, I was fortunate to marry Marjorie Burnhome, of Newburyport. Upon our returning to Boston, I became treasurer of the New England Industrial Co., engaged in financing small companies. Later I acquired an interest in Neill, Tyson, Inc., an investment news service, and also became interested in the financing of other enterprises. As president of the Sharon Sanatorium, an institution for the research in and care of children with rheumatic fever, and as a director of the Judge Baker Guidance Center for the mental care of children, I took part in their valuable work. Both organizations are now associated with the Children's Hospital Medical Center. The Sanatorium, under the noted surgeon, Dr. Gross, cares for heart cases. Also, I became interested in the effect of high frequency radio waves on living organisms — a field of research now developing on account of modern electric generators. During World War II, I assisted in organizing the air-raid defense of

Administration

Fifteen formal meetings of the Traffic Commission were held during the year 1957.

Total revenue for the year from parking meter fees, loading zone permits, and directional sign fees amounted to \$577,340.75 while total expenses were \$738,208.63.

A significant change in the structure of the Traffic Commission took place on April 2, 1957, by the establishment of an Act of the Legislature, Chapter 253, reorganizing the Commission.

Under the terms of this reorganization a Traffic Department was established and the Traffic Commissioner was named Chairman of the Traffic Commission. The Traffic Commissioner was granted the powers and duties of a department head with respect to making of contracts (other than contracts for the acquisition, installation and maintenance of parking meters) and the appointment, suspension, discharge, compensation and indemnification of engineers, engineers' assistants and other employees of the Traffic Department, and is responsible for all other administrative functions of this department.

The Traffic Commissioner was empowered to make, erect and maintain, or cause to be made, erected and maintained, traffic signs, signals, markings and other devices for the control of said traffic in the city and for informing and warning the public as to rules and regulations adopted or promulgated.

The Traffic Commissioner likewise was granted the right to exercise the authority of the Commission during emergency periods when the Commission is not in session.

The intent of this reorganization is to assign to the Traffic Commissioner work which formerly could be undertaken only by vote of the Traffic Commission. Thus, in effect, the Traffic Commissioner now has the power to execute the administrative policies of the Traffic Commission without being subjected to delays which resulted from awaiting meetings of the Commission.

The Massachusetts Turnpike Toll Road opened this year, bringing traffic in as far as Auburndale, Mass., and various plans are under consideration for the ex-

tension of the toll road, either into the South Station area or to meet the proposed innerbelt at Brighton. Meanwhile progress continues in the construction of the Central Artery in the South Station area, and the Southeast Expressway, by the Commonwealth.

A new scale of permit and license fees was approved by the City Council covering Loading Zones and Directional Signs for various civic and charitable organizations.

On August 27, 1957, the Traffic Commission lost its oldest member and one of the city's outstanding public officials by the death of Police Commissioner Thomas F. Sullivan. The long and illustrious public career of Commissioner Sullivan was memorialized in many public tributes. His wisdom and counsel in Traffic Commission matters were most valuable contributions in all our deliberations. His successor, Police Commissioner Leo J. Sullivan, has taken up membership on the Traffic Commission and has already evidenced his active interest in traffic problems and has otherwise indicated that he is a worthy successor to the revered former Police Commissioner.

It was voted to establish special speed zone regulations with supporting speed zone signs in Saratoga street, East Boston, Hyde Park avenue, West Roxbury and Hyde Park, Western avenue, and Cambridge street, Brighton. The law requires that establishment of such regulations be jointly approved by the Massachusetts Department of Public Works and the Registrar of Motor Vehicles before speed zone signs are erected. Approval was secured and signs were erected in Saratoga street. Approval of the other three streets is pending.

After many years of effort a satisfactory statute law was finally developed which made possible the legalizing and regulating of all-night parking in all areas of the city where parking is not specifically prohibited. The enactment of these regulations took place in November becoming effective December ninth. Thus, at long last, indiscriminate night parking on streets in violation of law became regulated and properly controlled.

A comprehensive pattern of one-way streets in the Roxbury and East Boston districts was established during the year.

For the month of December it was voted by the Traffic Commission that parking at meters on Saturdays throughout the city would be legal for the usual two-hour

period without the payment of parking meter fees. This step was taken in an effort to encourage Saturday shoppers to patronize Boston merchants and, likewise, regulations on the east side of Tremont street were changed so that two-hour parking would be legal every day during the month of December, and, also on the Boston Common side of Beacon street between Charles street and Park street in the area formerly reserved for the exclusive use of members of the Legislature. As the Legislature was not in session during the month of December this area was opened to the general public.

In November it was decided to post signs indicating the Towing Areas of the City in response to requests for such signs from the Retail Trade Board and the Chamber of Commerce.

With the support of the Chamber of Commerce and the Back Bay Association it was agreed that legislation should be sought for the extension of the Towing Area to the commercial zone of the Back Bay District.

A Chamber of Commerce Committee Report was made to the City Council, the Mayor, and the Traffic Commissioner recommending various improvements including the establishment of a 10-cent meter fee in the downtown section and various other items designed to enhance traffic flow.

The Chamber of Commerce Report followed a public hearing on the traffic problem of the City of Boston which was conducted by the Boston City Council early in the year. Recommendations were for the establishment of traffic-actuated signals in the downtown section and the painting of lane lines on all principal streets. Other recommendations advocated pedestrian control signals, separation of pedestrians and vehicles in downtown streets, extension of the city's off-street parking program in order to provide 9,000 to 11,000 off-street spaces in the downtown area, fringe parking spaces, and more drastic enforcement of existing traffic regulations.

A change in the system of appropriations for the provision of funds for traffic signal installations took place during the current year. Where, formerly, our revenues had been obtained from the proceeds from the sale of city land and buildings, this year we had made available to us the sum of \$251,610.36 from an appropriation made by the State to the City for roadway construction and traffic signal installation. Accordingly,

a list of locations for approximately forty traffic signals was made up and contracts were signed for installation during 1958.

Mr. Robert Drummond of our engineering staff was released to attend a full year's graduate course at Yale University under an ESSO Foundation Scholarship. Upon his return to service it is hoped that we may be able to send a second student to gain likewise a Master's Degree in Traffic Engineering at the renowned Yale School. Thus, we shall overcome the shortage of traffic engineers available for public service, by developing our own experts.

Reorganization of the Parking Meter Division operations was undertaken through reassignment of personnel and alteration of the collection processes.

An audit of our departmental books and accounts was conducted by the City Auditor and the recommendations made in the Auditor's Report are to be followed.

On December 2, 1957, Traffic Commissioner William Arthur Reilly was appointed Director of Administrative Services of the City of Boston and he was succeeded by Chief Engineer of the Traffic Department, Timothy J. O'Connor, as Traffic Commissioner. The position of Chief Engineer was filled by the appointment of Joseph M. Galeota, Principal Traffic Engineer (Electrical).

Recommendations by this department to the Public Improvement Commission resulted in reconstruction by the Public Works Department of the Jackson square area including the intersection of Centre street, Columbus avenue and Heath street; Amory street, Centre street and Ritchie street; and Columbus avenue and Ritchie street; and of a portion of the Roxbury Crossing area at the intersection of Columbus avenue, Station street and Tremont street.

In connection with these two projects traffic signals were installed at both locations. The result of the channelization effected in both areas by the new reconstruction and the installation of the signals has materially improved the movement of the heavy volume of traffic passing through the areas.

A similar scheme to improve traffic conditions in the Mattapan square area was submitted to the Metropolitan District Commission for consideration because most of the specific street improvements contemplated in the scheme involved Blue Hill avenue from Mattapan square for a considerable distance southerly.

This roadway is under the jurisdiction of the Metropolitan District Commission. We have been assured that the latter agency has approved the concept and is proceeding with the project.

During December of 1957 small sticker-type signs bearing the legend "Towing Area" were affixed to all existing "No Parking" signs in the downtown towing area. This was a stopgap "crash" program adopted in order to immediately implement a recommendation of the Urban Transportation Committee of the Greater Boston Chamber of Commerce. As soon as possible during 1958 a large sign with the legend "Towing Area" will be erected in each block of the towing area zone.

A further recommendation of the Chamber of Commerce that the towing area be extended to include the Back Bay retail business section is before the legislature as a result of a bill filed by the Chamber of Commerce. It is expected that enabling legislation will result. This department will then erect the necessary signs throughout the new additional area.

The department's budget estimates include a request for increased funds for roadway painting during 1958. If the funds are provided a more comprehensive coverage of the city will be made possible.

We propose to amend the hours of operation of parking prohibitions on residential streets throughout the city so that signs which now read "No Parking Any Time" will be changed to signs reading "No Parking 8 A.M. to 6 P.M." The result will be that the prohibition and signs will conform to the newly-adopted regulation which permits all-night parking on alternate sides of residential streets on alternate nights of the calendar month. This will entail the removal of existing signs and replacement of new signs to the number of approximately 5,000.

Further studies will be made with a view to establishing comprehensive one-way street patterns in various districts of the city.

We are in the process of changing our methods of collection of parking meters from the present coin box system to a so-called "dump" system. It is expected that this change will improve security, simplify the collecting and accounting and, we hope, effect a reduction of 4 in the personnel requirements of the Parking Meter Division.

When the portion of Commonwealth avenue, Brighton, between Brighton avenue and Warren street, was

reconstructed under a so-called Chapter 90 project by the State Department of Public Works during 1957, additional parking stalls were provided and posts were erected for future parking meter installations. We are installing approximately 250 new parking meters in this area during the current year.

One of the recommendations for traffic improvements of the Urban Transportation Committee of the Greater Boston Chamber of Commerce is for increasing the fee at parking meters in the downtown area from the present rate of five cents per hour to ten cents per hour.

If this Commission adopts this proposal it will require the acquisition of perhaps 2,000 and possibly 3,000 new parking meters. Procurement of these meters would require that an appropriation of from \$100,000 to \$150,000 be made.

DEPARTMENTAL ACTIVITIES

Engineering Division

Many plans for new road design, curb cut-backs, channelization, street widenings, new signal installation, and parking-meter layouts were prepared by the Engineering Division during 1957.

Some of the more outstanding improvements completed during the year are as follows:

1. Jackson Square area—rotary traffic patterns involving three intersections and including complete coordinated signal control, channelization, improved curb radii, street widening, and new modern street lighting.
2. Roxbury Crossing—southern side of the intersection channelized, signal controlled, widened, and divisional island with protective pedestrian barrier.
3. Summer Street—widened to provide divisional island with dual-arm modern street lighting, signal controlled at main intersections, standard bridge prows with warning flashers.
4. Blue Hill Avenue—removal of central street car reservation with provision of divisional island and dual-arm modern street lighting, widening to two three-lane roadways allowing for parking lane, signalizing and providing left-turn lanes at all major intersections.
5. Massachusetts Avenue—reconstruction of railroad overpass eliminating central bridge abutment, street widening including improved curb radii, provision of divisional island with dual-arm modern street lighting, improved signal control between Columbus avenue and St. Botolph street, and standard bridge prow at St. Botolph street end of divisional island.
6. Commonwealth Avenue—widening central roadway from Brighton avenue to Warren street to provide divisional island with dual-arm modern street lighting. Reducing reservation on side of local roadway to provide metered parking for 174 additional cars in this highly congested apartment area.
7. In addition to the above completed projects many detailed plans of other suggested improvements were approved by the Traffic Commission and submitted to the Public Improvement Commission for future action.

Paint and Sign Division

There were 2,878 new traffic signs of varied types placed throughout the city along with 4,485 signs replaced. In addition there were several hundred special and temporary signs used for construction detours, emergencies, etc. Total estimated number of traffic control signs in the city at the end of the year 1957 was 35,482.

The roadway paint program was once again leased out on contract in 1957 for center lines and crosswalks. Total linear footage of contract painting was 133.5 miles. All other painting including loading zones, parking stalls, stop lines, and roadway SLOW signs along with special emergency calls for painting was done by our own permanent painting crew totaling about 29 miles for an overall of 162 miles.

A summary of the roadway painting program is as follows:

TYPE PAINTING	LINEAR FEET
Crosswalks	315,971
Center-lines	395,248
Lane-lines	44,850
Stop-lines	2,280
"SLOW"	10,102
Curbs	2,680
Loading Zones	34,920
Other (parking stalls, special, etc.)	50,000
Total linear feet	856,051
Miles of roadway painting	162

Parking Meter Division

There was a net loss of 181 parking meters throughout the City in 1957 over the previous year, for a total of 8,298. This loss was due to the removal of meters in some of the downtown areas along the path of the construction of the Central Artery, and in one of the City-owned parking lots which area is now offered as a free parking facility to shoppers.

During the year the Traffic Commission voted a temporary ruling allowing parking at meters throughout the City on Saturdays for the two-hour limit without payment of a parking meter fee. Shoppers were quick to take advantage of this concession, and merchants agreed that this encouragement to shop in Boston did result in a stimulation of business to the point where an extension of this practice appears certain to be voted on in 1958.

A summary of parking meter revenue by districts for 1957 is as follows:

Safety Education Division

Boston motorists are to be commended for their efforts in accident reduction resulting from careful driving as a new low in traffic fatalities was recorded for 1957. During the year fifty-three people were killed in 52 motor vehicle accidents as compared to seventy-one in 1956, and a previous low of fifty-six in 1949. This reduction of 25.4% in the City of Boston was the greatest reduction among leading cities throughout the country and is an outstanding contribution to a national decrease of 3% for such accidents.

In cooperation with the Recreation Division of the Park Department, the Public School Department, the Police Department and the Massachusetts Safety Council, the Safety Education Division inaugurated a Bicycle Safety Program in several playgrounds in each district of the City. Over 2,500 boys and girls of all ages up to sixteen participated with prizes for the highest scores in all classes awarded. Mayor Hynes officially designated Bicycle Safety Week and the program met with such success that his Honor consented to an annual program to be known as the Mayor Hynes Bicycle Safety Program. Evidence of the effect of such a program was indicated when at the end of the year statistics showed a decrease of exactly 50% bicycle injuries due to traffic accidents with 89 in 1957 as against 178 in 1956 and 223 in 1955. Such a program is a most worthy one and it is hoped that there will be over 5,000 participants in 1958 with a proportionate decrease in accidents.

Following is an analysis of motor vehicle traffic accidents for the year 1957.

High lights of the analysis:

1. Fifty-three people were killed in 52 fatal accidents—this is the lowest figure ever recorded in the City of Boston since records of this type have been kept.
2. There were 44 pedestrians, 7 operators, and 2 occupants killed.
3. There were 12,004 nonfatal accidents, 18,451 persons injured, and 1,387 property-damage accidents.

4. Boston's motor vehicle death rate for 1957 was 7.3 per 100,000 compared to over 10 for other cities in our group, and compared to a national average of 22.9.
5. There were 1,154 pedestrian accidents, and the 44 pedestrians killed made up 83 per cent of the total fatalities, while the total pedestrian accidents constituted only 9.3 per cent of all accidents.
6. In the age groups there were 5 youngsters up to age 14 killed (all pedestrians), and there were 17 over 65 years of age killed (all pedestrians).
7. During hours of darkness 34 people were killed, and 29 died during daylight hours.
8. Excessive speed for conditions caused 7 fatalities.
9. There were 3 fatalities at signalized intersections, 17 at intersections with no control, and 27 people died as a result of traffic accidents between intersections.
10. May, October, and December, each with 9 fatalities, were the worst months, and Saturday was the worst day with 10 fatalities.
11. The downtown area with 18 fatalities was the highest of the districts, and West Roxbury with 3 was one of the lowest. This was indeed remarkable for the West Roxbury section where 12 fatalities occurred in 1956, and it was also reflected in the over-all number of traffic accidents with almost a 50 per cent reduction, 1,782 in 1956 as against 926 in 1957.
12. Boston registrations totaled about 191,000 in 1957, about 2,000 less than in 1956.
13. Ratio of injuries to deaths was 348 to 1, an improvement of about 100 to 1 over the previous year.

Traffic Department Fleet

Thirty-five vehicles in all are maintained and serviced in the Department's garage, including 24 trucks, 7 passenger vehicles, 3 motorized line markers, and one carry-all trailer. A policy of purchasing new vehicles equipped with automatic transmission followed since 1955 has definitely reduced maintenance costs, and increased the efficiency of the fleet. When eventually all vehicles are replaced and are thus equipped, and with the continual vigorous preventive maintenance program as always carried on it is evident that cost of operation will be at a minimum while maximum fleet efficiency will be available for the important operations demanded of the various divisions.

Over 240,000 miles were covered by the Department fleet during 1957 with gasoline consumption totaling 23,451 gallons of gasoline and 1,267 quarts of oil. There was an increase of about 3,000 gallons of gasoline, but a reduction of about 500 quarts of oil over 1956.

Traffic Signal Division

During the year 1957 sixteen new sets of traffic signals were put into operation at the following locations:

Ward 2	Bunker Hill street at White Fund Pool
Ward 2	Bunker Hill street and Lowney Way
Ward 2	Alford street at Boston Edison Company
Ward 4	Forsyth street, Ruggles street, and Whittier street
Ward 6	D street and Summer street
Ward 6	Harbor street and Summer street
Ward 6	Summer street and viaduct to Commonwealth Pier
Ward 8	Eustis street, Washington street, and Williams street
Ward 9	Columbus avenue, Station street, and Tremont street
Wards 9, 11	Columbus avenue and Tremont street
Ward 9	Arnold street and Washington street
Ward 11	Centre street, Columbus avenue, and Heath street
Ward 11	Amory street, Centre street, and Ritchie street
Wards 14, 18	Blue Hill avenue, Fessenden street, and Welling-ton Hill street
Ward 21	Commonwealth avenue and Fordham road
Ward 21	Commonwealth avenue and Spofford road

The following traffic signal installations are nearing completion and should be ready for operation early in 1958:

Wards 5, 21	Blandford street, Commonwealth avenue, and Sherborn street
Ward 11	Brinton street, Marcella street, and Washington street
Ward 13	Belfort street, Dorchester avenue and Victoria street
Ward 17	Norfolk street and Stanton street
Ward 18	Babson street and Fremont street
Ward 18	River street at entrance to Boston Sanatorium
Ward 18	River street at Reverend Francis A. Ryan Playground
Ward 22	Faneuil street and Parsons street

The total number of traffic signal installations, including warning flashers and bridge signals now being maintained by this department is 371, comprising 1,614 signal posts, 2,386 signal faces, and 7,326 signal lamps.

Modern signal controllers were substituted for obsolete controllers for more efficient operation at the following locations in the Unit 1 (Downtown) signal system:

Beacon street, School street, and Tremont street.
Boylston street, Charles street, and Park square.
Boylston street, Essex street, and Washington street.
Boylston street and Tremont street.
Broadway and Harrison avenue (pedestrian push button operation).
Stuart street and Tremont street (pedestrian push button operation).
Court street, State street, and Washington street.
Kneeland street, Stuart street, and Washington street.
Summer street, Washington street, and Winter street.

Additional signal indications for improved operation were added to the following signalized intersections:

Avery street, Mason street, and Tremont street.
Avery street, Hayward place, and Washington street.
Berkeley street and Commonwealth avenue.
American Legion Highway and Blue Hill avenue.
Blue Hill avenue, Harvard street, and Talbot avenue.
Columbus avenue and Ruggles street.

ANNUAL REPORT
OF THE
VETERANS' SERVICES DEPARTMENT
FOR THE YEAR 1957.

Boston, January 1, 1958.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

I have the honor to present the 1957 Annual Report of the Veterans' Services Department.

The present Veterans' Services Department was established by Ordinances of 1954, chapter 2, section 66, and operates under the provisions of General Laws, chapter 115. Prior to 1954 the department was known as the Department of Veterans' Services and prior to January 1, 1947, it was known as the Soldiers' Relief Department. A complete revision of General Laws, chapter 115, effective January 1, 1947, necessitated the earlier change in the name and structure of the department.

The department has two primary functions prescribed by law:

1. The furnishing of Veterans' Benefits to or for veterans and dependents of veterans. Veterans, dependents, and the various wars and conflicts included in our program are defined in the General Laws.

2. The furnishing of information, advice, and assistance relative to the procurement of employment, vocational or other educational opportunities, hospitalization, medical care, pensions, and other veterans benefits.

Certain accomplishments of the department are not peculiar to any one year. Particular care is exercised each and every year to extend the monetary benefits provided by law to those who are entitled to them and who require them but to withhold benefits to those not entitled. Each application is investigated thoroughly. The department exerts special effort to assure that Federal or State benefits available to recipients be received so that the burden upon the City of Boston is reduced as much as possible. In operating a division at the Boston City Hospital we collect by way of reimbursement from the Commonwealth moneys that the City would not otherwise receive. It will continue to be our intention to pursue the course of action outlined.

In November, 1957, the Veterans' Services Department moved from its two locations at 18 Oliver Street and 14 State Street, to our present quarters at 18 Cornhill. This move has brought together under one roof the two main services that we perform — the furnishing of benefits and dispensing of information, advice, and assistance. By grouping these two activities we have effected a greater efficiency of operation. We have been able to make greater use of the service of our Medical Officer, Dr. Lydon, which in the long run will inure in greater benefits to the City. Simultaneously with the moving the department discontinued its photostat service. For necessary photostats veterans are now referred to existing facilities.

With the submission of the 1958 budget requests, the goal of a 5 per cent personnel reduction had been exceeded prior to the time limit set by your Honor. The 1957 authorized personnel was 82; the 1958 authorized personnel is 76.

In 1957 this department prevailed upon the State Commissioners of Veterans' Services to provide us with the services of qualified personnel to perform much of the work involved in the processing of assignment claims and collections thereon, thus saving the City the expense involved in the assigning of an individual of this depart-

ment to the work. In 1957 the department collected \$19,042.50 on assignments executed by recipients of our program.

Over three quarters of the appropriation for this department represents benefits paid to or for Veterans' and their dependents. The amount that we spend in any one year on this item is governed largely by the economic climate. Experience has indicated that this expenditure, the only one over which any savings may be affected, can only be done by thorough investigation of the claims received, yet in the final analysis and in a large measure it cannot be said to be an absolute control for the reason that demands are governed by so many of the circumstances over which we have no control. This department maintains the attitude that when a great many veterans and dependents are in genuine need it is our obligation to render service and to help and as we have said in so many words before that we stand willing to assist those who are entitled to and require assistance under the law but we exercise stringent efforts to withhold benefits to persons not entitled to them and not actually in need. Furthermore, we shall do our utmost to see that our recipients avail themselves fully of any Federal or State benefits which would reduce the burden upon the City of Boston.

In 1957 the department was composed of three divisions, as follows:

1. Administrative
2. Benefits and Settlements
3. Hospital

I am proud to report that our relations with the office of the Commissioner of Veterans' Services for the Commonwealth of Massachusetts have been excellent. It is particularly important to maintain this relationship in order that the City of Boston may attain the greatest possible reimbursement from the Commonwealth.

The department received \$773,695.28 in 1957. The sources of this revenue and the amounts are listed.

December	1,643	3,844	1,601	3,085
Total	19,152	37,960	19,061	36,971

The foregoing statistics indicate that the Veterans' Benefits expenditures of 1957 exceeded that expenditure of 1956 by only \$3,128.82 despite increased medical costs. On the other hand the department received from various sources in 1957, \$25,610.07 more than was received from the same sources in 1956. The amounts received on assignments in 1957 was over \$8,000.00 more than the amount received in 1956.

I think the department has been successful in its efforts to control its expenditures and to collect for the City of Boston every amount possible.

Respectfully yours,

VICTOR C. BYNOE,
Commissioner.

ORDINANCES OF 1948.

*CHAPTER 1.

CONCERNING AUTOMATIC AMUSEMENT DEVICES.

Chapter forty of the Revised Ordinances of 1947 is hereby amended by inserting after section one hundred and one the following:

AUTOMATIC AMUSEMENT DEVICES.

SECTION 101A. (1) On and after May 1, 1948, no person managing or controlling any restaurant, cafe, tavern or other eating or drinking establishment or any inn, hotel, club or public lodging house or any store, terminal, public hall, bowling alley, place of amusement or other place to which members of the public may resort, shall keep or offer for operation therein or allow to be kept or offered for operation therein any automatic amusement device, unless and until such automatic amusement device has been licensed by such licensing authority as the mayor shall from time to time appoint. Such authority may, upon written application and upon such reasonable terms and conditions as the mayor may prescribe, grant a license for any or all automatic amusement devices and may, after written notice to the licensee, suspend or, after hearing, revoke the same. The licensing authority shall act upon every application for a license under this section within fifteen days after the filing of such application, shall not deny any application except for good cause, and upon the denial of any application shall forthwith endorse thereon the reason for such denial. No license shall be granted under this section for any automatic amusement device unless such device is of a type approved by the director of standards and necessities of life under section two hundred eighty-three of chapter ninety-four of the General Laws. No license shall be granted under this section for any automatic amusement device to be kept or offered for operation upon premises within a radius of three hundred feet of a church or a school except after

* Repealed by chapter 7, Ordinances of 1949.

a public hearing of which notice shall be given by the licensing authority, at the expense of the applicant, to the minister, priest, rabbi or other person in charge of the church, or the headmaster, principal or other person in charge of the school, by registered mail sent at least five days (Saturdays, Sundays and holidays excluded) before the hearing.

(2) The term "automatic amusement device" as used in this section shall be construed as meaning any mechanism whereby, upon the deposit therein of a coin or token, any apparatus is released or set in motion or put in a position where it may be set in motion for the purpose of furnishing music or other entertainment or for the purpose of playing any game involving, in whole or in part, the skill of the player, including, but not exclusively, such devices as are commonly known as juke boxes, music boxes, phonographs, pinball machines (including free play pinball machines), marble games, diggers, grab machines, baseball or football game machines, bowlers, roll-down machines, target machines and horse racing machines.

(3) Licenses granted under this section, unless sooner revoked, shall expire on December thirty-first of each year. Every such license shall specify the street and number of the premises where the automatic amusement device is to be kept or offered for operation or give some particular description of such premises, shall name the person managing or controlling such premises, shall state the type of the automatic amusement device to which it relates, and shall protect any automatic amusement device of the same type which as a substitute or replacement for the automatic amusement device licensed may, during the term of the license, be kept or offered for operation on the premises specified while managed or controlled by the person named; but such license shall under no circumstances protect an automatic amusement device of a type other than the type stated in such license; and such license shall not protect the automatic amusement device if in any place other than the premises from time to time specified in such license or if such premises be managed or controlled by any person other than the person from time to time named in such license. No such license shall specify more than one premises at one time. Upon written application, the licensing authority may

from time to time amend any license granted under this section by changing the premises specified or by changing the person named as managing or controlling the premises or by changing both; provided, however, that no premises within a radius of three hundred feet of a church or a school shall be specified by amendment except after a public hearing of which notice shall have been given as hereinbefore provided.

(4) The annual fee for a license under this section for any automatic amusement device other than a pinball machine (including a free play pinball machine), or for any renewal thereof, shall be twelve dollars. The annual fee for such a license for a pinball machine (including a free play pinball machine), or for any renewal thereof, shall be thirty dollars. The fee for any license issued after January thirty-first in any year shall be prorated on the basis of the number of months in which the license is to be in force compared with twelve months. The fee for every change of premises and the fee for every change of person shall be two dollars.

(5) Automatic amusement devices licensed under this section shall be so installed on the premises described in the license as to be in open view at all times while in operation, and shall at all times be available for inspection by the mayor and the police commissioner of the city of Boston or their authorized agents.

(6) No person keeping or offering for operation or allowing to be kept or offered for operation any automatic amusement device licensed under this section shall permit a minor to operate the same; nor shall he use or permit the same to be used for the purpose of gambling.

(7) Any violation of any provision of this section or of chapter one hundred and thirty-six of the General Laws by any person managing or controlling any premises where an automatic amusement device licensed under this section is kept or offered for operation shall be cause for the revocation of all licenses for automatic amusement devices kept or offered for operation on such premises.

(8) The mayor may make rules regulating the use and operation of automatic amusement devices licensed under this section and may require, from time to time, the furnishing of reports concerning the ownership of

such devices or any interest therein, and any other information which he may deem pertinent concerning such devices and their use and operation.

(9) If any of the provisions of this section shall be invalid, such invalidity shall not affect other provisions which can be given effect without the invalid provisions, and to this end the provisions of this section are hereby declared to be severable. *[Approved April 14, 1948.]*

* CHAPTER 2.

POSTPONING THE TIME WHEN THE ORDINANCE CONCERNING AUTOMATIC AMUSEMENT DEVICES BECOMES OPERATIVE.

CHAPTER 9.

CONCERNING CERTAIN BILLS AND DEMANDS
AGAINST THE CITY OF BOSTON AND THE
COUNTY OF SUFFOLK.

SECTION 1. Chapter 3 of the Revised Ordinances of 1947 is hereby amended by striking out section 19 and inserting in place thereof the following section: Section 19. Every person selling any goods to, doing any work for, or rendering any services to, the city of Boston or the county of Suffolk, shall submit his bill or demand for the same to the city auditor in such form as said auditor may require. The board or officer contracting for such work, goods or services shall certify to the city auditor, at such time and in such form as said auditor may require, that such work has been done, goods delivered, or services rendered, as the case may be, and that payment therefor, in a specified amount, should be made. This section shall not apply to the payment of the salary or wages of any officer or employee.

*SECT. 2. Chapter 6 of the Revised Ordinances of 1947 is hereby amended by striking out section 4 and inserting in place thereof the following section: Section 4. The auditor shall examine every bill and demand rendered against the city of Boston or the county of Suffolk and shall ascertain whether the following facts exist: (a) that such bill or demand has been incurred by some person duly authorized; (b) that funds appropriated for the purpose are on hand in a sufficient amount for the payment of such bill or demand; (c) that the clerical computations involved in such bill or demand are correct; and (d) that the certificate prescribed by section nineteen of chapter three of these ordinances has been furnished. If the auditor finds that all of said facts exist, he shall make an appropriate notation on the bill or demand and forthwith forward the same to the city treasurer for payment, and, as soon thereafter as conveniently may be, shall draw a draft upon the city treasurer for the payment of such bill or demand. If the auditor finds that any of such facts does not exist, he shall return the bill or demand with his objections to the person submitting the same.

SECT. 3. This ordinance shall take effect on January 1, 1950. *[Approved December 28, 1949.]*

* Amended by substitution of collector-treasurer for city treasurer by Ordinances of 1954, chapter 2, section 18.

CHAPTER 2.

CONCERNING DAYS OFF FOR FIREMEN.

Chapter sixteen of the Revised Ordinances of 1947 is hereby amended by adding the following two sections:

SECTION 8. If any member of the fire fighting force or fire alarm division of the Fire Department of the City of Boston is required to work on January first, February twenty-second, April nineteenth, May thirtieth, July fourth, the first Monday of September, October twelfth, November eleventh, Thanksgiving day or Christmas day, or the day following when any of the five days first mentioned, or October twelfth, November

* Stricken out by Ordinances of 1956, chapter 7, section 1.

eleventh or Christmas day, occurs on Sunday, he shall be granted an additional day off, or, if such additional day off cannot be granted by reason of a personnel shortage or other cause, he shall be entitled to an additional day's pay.

SECT. 9. The provisions of section eight shall apply to those men whose hours of duty are within the twenty-four hour period commencing at eight o'clock ante meridian on the days there specified.

[Approved May 1, 1950.]

* CHAPTER 3.

CONCERNING SALARIES OF ENGINEERS IN CHARGE OF DIVISIONS OF THE PUBLIC WORKS DEPARTMENT.

Section five of chapter three of the Revised Ordinances of 1947, as amended by chapter six of the Ordinances of 1949, is hereby further amended in the clause establishing the salaries of engineers in charge of divisions of the public works department, by striking out the words "the engineer in charge of the water division, not more than seventy-seven hundred dollars", and inserting in place thereof the words "the engineer in charge of the water division and the engineer in charge of the bridge and highway division, each not more than seventy-seven hundred dollars."

[Approved May 29, 1950.]

† CHAPTER 4.

CONCERNING ORGANIZATION OF THE HEALTH DEPARTMENT.

SECTION 1. Section 1 of chapter 17 of the Revised Ordinances of 1947 is hereby amended by adding at the end thereof the following: The health commissioner may appoint, subject to the approval of the mayor, an assistant health commissioner, who shall be sworn to the faithful discharge of his duties and shall hold office until his successor is appointed and qualified. The assistant health commissioner shall perform such duties as may be assigned to him from time to time by the health commissioner.

* Superseded by chapter 6, Ordinances of 1952.

† Repealed and superseded by Ordinances of 1954, chapter 2, section 31.

SECT. 2. Said chapter 17 is hereby further amended by striking out section 2 and inserting in place thereof the following: *Section 2.* There shall be in the health department the following sections: section of general services, section of medical services, section of environmental sanitation, and section of local health service. Each section shall be in charge of a director who shall be appointed by the health commissioner. The health commissioner may, from time to time, determine the divisions, if any, within each of said sections, and shall appoint the heads of such divisions. In appointing the director of a section or the head of a division, the health commissioner shall certify that in his opinion the person appointed is an expert in the work which will devolve upon him, that he is a person specially fitted by education, training, or experience to perform the duties of the position, and that the appointment is made solely in the interest of the city, such certificate to be filed with the city clerk and to be open to public inspection.

SECT. 3. All employees of the divisions of the health department abolished by this ordinance who are subject to civil service shall, without civil service examination or registration, be reappointed to similar positions with similar status and like compensation in a division established by the health commissioner under this ordinance; and all such employees shall, upon such reappointment, retain all rights to retirement with pension that have accrued or would hereafter accrue to them; and the service of all such employees shall be deemed to have been continuous, to the same extent as if such abolition had not taken place. This ordinance shall take effect on July 5, 1950.

[Approved June 27, 1950.]

* CHAPTER 5.

CONCERNING FEES FOR LOADING ZONE PERMITS.

Section 22 of chapter 41 of the Revised Ordinances of 1947, as most recently amended by chapter 1 of the ordinances of 1950, is hereby further amended by adding after clause 26 the following new clause:

* Stricken out by Ordinances of 1956, chapter 7, section 1.

27. The fee for a permit for a loading zone, so called, issued under the provisions of section 2 of chapter 263 of the Acts of 1929 shall be computed at the rate of one dollar for each foot of curbing abutting on said zone, but in no event less than twenty dollars.

[Approved July 11, 1950.]

CHAPTER 6.

FURTHER AMENDING THE BOSTON BUILDING CODE.

Section 1201 of chapter 479 of the Acts of 1938 is hereby amended by striking out paragraph (c), as amended by section 138 of chapter 2 of the Ordinances of 1943, and inserting in place thereof the following:—

(c) Structures of Division 2, erected on the roof or on the façade of a building in the first or second fire zone, shall be constructed with incombustible materials, except water tanks, flag poles, isolated signs flat against an exterior wall not more than twenty square feet in area, and isolated signs projecting from an exterior wall; provided, that such projecting signs have a frame of incombustible material, that the combustible material in such projecting signs is no more combustible than wood, that no part of such combustible material is nearer an exterior wall than fifteen inches, and that the surface area of such combustible material is not more than thirty-five square feet on any face and not more than seventy square feet in the aggregate, except that the surface area of such combustible material, if the nearest point thereof is eighteen or more inches from all exterior walls, may be more than thirty-five square feet on a face and more than seventy square feet in the aggregate if the building commissioner certifies on the application for the permit to erect such sign that in his opinion the spread of fire therefrom is no more likely than from a projecting sign having an incombustible frame and two wooden faces each thirty-five square feet in area the nearest point of which wood is fifteen inches from the nearest exterior wall.

[Approved July 11, 1950.]

The foregoing ordinance was passed in accordance with and after the recommendation of the Building Commissioner to the Mayor and City Council, dated June 26, 1950.

* CHAPTER 7.

CONCERNING THE STREET LAYING-OUT DEPARTMENT.

SECTION 1. Chapter 33 of the Revised Ordinances of 1947 is hereby amended by striking out section 1 and inserting in place thereof the following section:—

Section 1. The street laying-out department shall be under the charge of a board of three commissioners, who shall exercise the powers and perform the duties provided by statute.

SECT. 2. Section 2 of said chapter 33 is hereby repealed.

SECT. 3. This ordinance shall take effect as of the effective date of chapter 318 of the Acts of 1950.

[Approved July 18, 1950.]

CHAPTER 8.

ESTABLISHING A DEPARTMENT OF CIVIL DEFENSE.

SECTION 1. DEPARTMENT OF CIVIL DEFENSE. There is hereby established a department of civil defense (hereinafter called the "department"). It shall be the function of the department to have charge of civil defense as defined in section 1, chapter 639, Acts of 1950, and to perform civil defense functions as authorized or directed by said chapter or by any and all executive orders or general regulations promulgated thereunder, and to exercise any authority delegated to it by the governor under said chapter 639.

SECT. 2. DIRECTOR OF CIVIL DEFENSE. The department shall be under the direction of a director of civil defense (hereinafter called the "director"), who shall be appointed as prescribed by law. The director shall have direct responsibility for the organization, administration, and operation of the department subject to the direction and control of the appointing authority and shall receive such salary as may be fixed from time to time by the appointing authority. The director may, within the limits of the amount appropriated therefor, appoint such experts, clerks, and other

assistants as the work of the department may require and may remove them, and may make such expenditures as may be necessary to execute effectively the purposes of chapter 639, Acts of 1950. The director shall also have authority to appoint district co-ordinators and may accept and may receive on behalf of the city, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of civil defense, offered by the federal government or any agency or officer thereof or any person, firm or corporation, subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer. The director shall cause appropriate records to be kept of all matters relating to such gifts, grants, or loans.

SECT. 3. CIVIL DEFENSE ADVISORY COUNCIL. There is hereby established a civil defense advisory council (hereinafter called the "council"). Said council shall serve without pay and shall consist of the director of civil defense, such other department heads and such other persons as the authority appointing said director may deem necessary. Such member of said council as said appointing authority shall designate shall serve as chairman of said council. Said council shall serve subject to the direction and control of the appointing authority and shall advise said appointing authority and the director on matters pertaining to civil defense.

SECT. 4. POLICE AID TO OTHER CITIES AND TOWNS IN EVENT OF RIOTS AND OTHER VIOLENCE THEREIN. The police department is hereby authorized to go to aid another city or town at the request of said city or town in the suppression of riots or other forms of violence therein.

*SECT. 5. TERMINATION OF ORDINANCE. This ordinance shall remain in force during the effective period of chapter 639, Acts of 1950, and any act in amendment or continuation thereof or substitution therefor.

SECT. 6. DEFINITION. All references to chapter 639, Acts of 1950, as now in force shall be applicable to any act or acts in amendment or continuation of or substitution for said chapter 639.

[Approved August 29, 1950.]

* CHAPTER 4.

CONCERNING THE ORGANIZATION, POWERS AND DUTIES OF THE CITY PLANNING BOARD.

Chapter 12 of the Revised Ordinances of 1947 is hereby amended by striking out sections 1, 2 and 3 and inserting in place thereof the five following sections:—

SECTION 1. There shall be in the city a department, known as the city planning department, which shall be under the charge of a board, known as the city planning board, consisting of nine planning commissioners appointed by the mayor, of whom at least one shall be a registered professional engineer, one a registered architect, one a landscape architect or city planner, and one a woman. No planning commissioner shall hold any office or position under the city government, except the office of planning commissioner and offices held ex officio by virtue of being chairman of the city planning board; nor shall a planning commissioner hold any office or position under any other public body politic and corporate or political subdivision of the commonwealth exercising powers within the limits of the city.

On or before September 1, 1952, the mayor shall appoint nine planning commissioners to hold office for terms commencing September 1, 1952, and expiring, in the case of three commissioners, two years, in the case of three other commissioners, four years, and in the case of three other commissioners, six years, respectively, from May 1, 1952. As the term of any planning commissioner so appointed, or of any subsequent planning commissioner, expires, his successor shall be appointed by the mayor for a term of six years. Any vacancy in the office of a planning commissioner shall be filled by the mayor for the unexpired term. Notwithstanding the provisions of their respective appointments, the terms of the members of the city planning board in office when this section takes effect shall expire on September 1, 1952.

The city planning board shall elect one of its members as chairman and another as vice chairman. Said board shall also elect a secretary who need not be a member of said board. The members of the city planning board

* Amended by Ordinances of 1954, chapter 2, section 27.

shall serve without compensation, but shall be reimbursed for their traveling and other necessary expenses incurred in the performance of their duties.

SECT. 2. Subject to the civil service laws and rules, so far as the same may be applicable, the city planning board shall appoint a director of city planning and such other officers and employees as said board may deem necessary or expedient, and may remove the same, and define their duties, and fix their compensation; provided, however, that no person shall be appointed director of city planning without the approval of the mayor.

SECT. 3. The city planning board shall have the powers and perform the duties from time to time conferred or imposed upon planning boards created under section 70 of chapter 41 of the General Laws. The city planning board shall also from time to time make studies and reports on the resources, possibilities and needs of the city, and acting by a majority of all its members, shall make and from time to time add to or amend a master plan for the improvement and development of the city, showing, in addition to such other things as in the opinion of said board will promote the coordinated improvement and development of the city and the health, safety and welfare of its inhabitants, existing and recommended use and bulk districts and pierhead and bulkhead lines, existing and recommended use of land for public and private purposes, existing and recommended public and private ways and parkways, existing and recommended bridges, viaducts and tunnels, existing and recommended transportation facilities, existing and recommended parks, playgrounds and recreational facilities, and existing and recommended sites of public buildings, works and projects, including housing and urban redevelopment projects and off-street parking facilities.

SECT. 4. No board or officer of the city or county having power to incur, in carrying on the work of the department, office or undertaking entrusted to it or him, obligations payable from the treasury of the city shall request the mayor to originate any appropriation or loan order for any capital improvement unless within the preceding six months such board or officer has referred such capital improvement to the city planning board and requested said board to report specifically upon such capital improvement and accompanies the request to the mayor with the report of said board

thereon or a certificate by the secretary of said board that said board was duly requested to report specifically on such capital improvement but has allowed two months to elapse without making such report. Referral of capital improvements to the city planning board under this section shall be deemed mandatory.

SECT. 5. Every board and officer of the city and county having power to incur, in carrying on the work of the department, office or undertaking entrusted to it or him, obligations payable from the treasury of the city, shall submit to the city planning board on or before October first in each year, in such form as said board shall require, a list of all capital improvements proposed to be made in carrying on the work of such department, office or undertaking in the six succeeding years. The city planning board shall forthwith after October first in each year proceed to prepare, upon the basis of such lists and of its own studies, a capital improvement program for each of the six succeeding years, and shall, not later than the second Monday of the succeeding January, submit such programs, with its report and recommendations pertaining thereto, to the mayor, who, not later than the first Monday of the succeeding March, shall submit such programs, revised as he shall think proper, to the city council. Subject to such further revisions as the mayor shall from time to time consider advisable, the programs so submitted to the city council shall be deemed the capital improvement program of the city until the second Monday of the succeeding January.

use shellfish permit may be granted upon written application by any inhabitant of the commonwealth; but a commercial use shellfish permit shall be granted only upon written application by an inhabitant of the city of Boston. No application for a family use, or for a commercial use, shellfish permit shall be denied except for good cause. Every family use, and every commercial use, shellfish permit, shall be upon the condition that the holder thereof shall at all times conform to all applicable laws and shall not take shellfish from any area determined under section 74 of chapter 130 of the General Laws to be contaminated except in accordance with a permit granted under section 75 of said chapter 130 and upon such other conditions as the city council shall think proper. Any family use, or commercial use, shellfish permit may at any time, after due notice and hearing, be revoked by the city council for any breach of condition or other good cause. No family use, or commercial use, shellfish permit shall be transferable. Every family use, and every commercial use, shellfish permit, shall, unless sooner revoked, expire on the fifteenth day of whichever of the months of January, May or September next succeeds the month in which such permit is granted. The fee for every family use shellfish permit, and for every renewal thereof, shall be one dollar; and the fee for every commercial use shellfish permit, and for every renewal thereof, shall be five dollars.

(2) Any inhabitant of the commonwealth holding a family use shellfish permit granted under paragraph (1) of this section may, on and after January 1, 1953, take, for his own family use, shellfish from the following area in the city of Boston, to wit: the flats and coastal waters adjoining on the south such portion of the road leading from Marine Park to Castle Island as lies within fifteen hundred feet of the upland of Castle Island; provided, however, that no shellfish shall be taken from said area of a size or at a season prohibited by law; and provided, further, that the amount taken for any family shall not exceed in any one week one bushel of any or all kinds of shellfish; and provided, further, that no shellfish shall be taken from so much of said area as shall from time be determined under section 74 of chapter 130 of the General Laws to be contaminated except in accordance with a permit granted under section 75 of said chapter 130.

(3) Except as otherwise provided in paragraph (2) of this section, on and after January 1, 1953, no person shall take any kind of shellfish within the city of Boston unless he holds a commercial use shellfish permit granted under paragraph (1) of this section. No shellfish shall be taken for commercial purposes from the area described in paragraph (2) of this section.

[Approved December 23, 1952.]

NOTE. This ordinance was not approved by the Director of Marine Fisheries, as required by chapter 130 of the General Laws, and therefore is ineffective.

ORDINANCES OF 1953.

CHAPTER 1.

REGULATING THE TAKING OF SHELLFISH IN THE CITY OF BOSTON.

SECTION 1. Chapter 5 of the Ordinances of 1952 is hereby repealed.

SECT. 2. Chapter 40 of the Revised Ordinances of 1947 is hereby amended by inserting after section 22 the following:

* TAKING OF SHELLFISH.

SECT. 22A. (1) Effective May 15, 1953, there shall be granted by the city council family use shellfish permits and commercial use shellfish permits. (A family use shellfish permit may be granted upon written application by any inhabitant of the commonwealth; but a commercial use shellfish permit shall be granted only upon written application by an inhabitant of the city of Boston except that, at such times as the city council shall deem the number of commercial use shellfish permits so granted to be insufficient for the proper working of the shellfish areas in the city, a commercial use shellfish permit may be granted upon written application by any inhabitant of the commonwealth.) No application for a family use, or for a commercial use, shellfish permit shall be denied except for good cause. Every family use, and every commercial use, shellfish permit, shall be upon the following conditions: (a) that the permit shall not be transferable; (b) that the permit shall expire in accordance with law and, prior to such expiration, may be terminated by revocation in accordance with law; (c) that the holder thereof shall at all times conform to all applicable statutes, ordinances, rules and regulations; (d) that the holder thereof shall not take shellfish from any area determined under section 74 of chapter 130 of the General Laws to be contaminated except in accordance with a permit granted under section 75 of said chapter 130; and (e) that the holder thereof shall at no time during the period in any year beginning May fifteenth and ending

September fifteenth take any shellfish from a beach area. Any family use, or commercial use, shellfish permit may at any time, after due notice and hearing, be revoked by the city council for any breach of condition or other good cause. No family use, or commercial use, shellfish permit shall be transferable. Every family use, and every commercial use, shellfish permit, shall, unless sooner revoked, expire on the fifteenth day of whichever of the months of January, May or September next succeeds the month in which such permit is granted. The fee for every family use shellfish permit, and for every renewal thereof, shall be one dollar; and the fee for every commercial use shellfish permit, and for every renewal thereof, shall be five dollars.

(2) Any inhabitant of the commonwealth holding a family use shellfish permit granted under paragraph (1) of this section may, on and after May 15, 1953, take, for his own family use, shellfish from the following area in the city of Boston, to wit; the flats and coastal waters lying within the territorial limits of the city of Boston and easterly of a line drawn from Wind Mill Point in the town of Hull to the southeasterly point of Deer Island and through Deer Island to Point Shirley, except the shores of Lovell's, Gallup's and George's Island; provided, however, that no shellfish shall be taken from said area of a size or at a season prohibited by law; and provided, further, that the amount taken for any family shall not exceed in any one week one bushel of any or all kinds of shellfish; and provided, further, that no shellfish shall be taken from so much of said area as shall from time to time be determined under section 74 of chapter 130 of the General Laws to be contaminated except in accordance with a permit granted under section 75 of said chapter 130.

(3) Except as otherwise provided in paragraph (2) of this section, on and after May 15, 1953, no person shall take any kind of shellfish within the city of Boston unless he holds a commercial use shellfish permit granted under paragraph (1) of this section. No shellfish shall be taken for commercial purposes from the area described in paragraph (2) of this section.

[Approved May 5, 1953.]

Approved by the Director of the Division of Marine Fisheries, May 12, 1953.

CHAPTER 7.

AMENDING DIVERS PROVISIONS OF THE BOSTON BUILDING CODE.

SECTION 1. Section 111 of Chapter 479 of the Acts of 1938, as amended by sections 29, 30 and 31 of Chapter 2 of the Ordinances of 1943, is hereby further amended by striking out the last sentence of paragraph (e) and inserting in place thereof the following two sentences:—Any permit issued shall become invalid unless the work authorized by it shall have been commenced within six months after its issuance; provided, that for cause one or more extensions of time, for periods not exceeding three months each, may be allowed in writing by the commissioner, except that in no event shall the time for commencing the work be extended beyond eighteen months after the issuance of the permit. Any permit issued may be revoked by the commissioner at any time after notice and hearing if there is a false statement or misrepresentation of a material fact in the application for the permit or in the plans or computations filed therewith, or if the work authorized by the permit violates any provision of this code or other provision of law or the permit is otherwise issued in error, or if in the

course of the work there is any violation of any provision of this code or other provision of law, or if after commencement of the work there is unreasonable delay in completing the work, or if there is other good cause for revocation of the permit.

SECTION 2. The second paragraph of subdivision (c) of Section 1417 of said Chapter 479, as appearing in Section 171 of Chapter 4 of the Ordinances of 1943, is hereby amended by striking out the first two sentences and inserting in place thereof the following two sentences: — Posts shall be well braced the full story height, and walls shall be framed to them by a stud-sized brace attached to the post just below the girt and running in the wall at an angle not more than sixty degrees from the vertical, attached at the other end to the girt or sill. These braces shall be horizontally braced at the corner post at least once in each story, and the studs which they intersect shall be well fastened above and below the brace. [Approved December 31, 1953.]

The two sections of the foregoing ordinance were passed in accordance with and after the recommendation of the Building Commissioner to the Mayor and City Council, dated November 23, 1953.

CHAPTER 8.

CREATING IN THE CITY OF BOSTON THE ADMINISTRATIVE SERVICES DEPARTMENT AND CONSOLIDATING THEREIN CERTAIN EXISTING DEPARTMENTS OF SAID CITY.

SECTION 1. Section 4 of chapter 1 of the Revised Ordinances of 1947 is hereby amended by striking out clause *Ninth* and inserting in place thereof the following clause:

Ninth. The word "officer" shall include officers and boards in charge of departments and the members of such boards; and the word "subordinate" shall include all assistants, deputies, and employees appointed by an officer.

* SECTION 2. Section 1 of chapter 2 of the Revised Ordinances of 1947, as amended by section 1 of chapter 3 of the Ordinances of 1953, is hereby further amended by striking out the words "the budget commissioner;" in line 28, the words "the superintendent of printing;" in

line 32, the words "the superintendent of supplies;" in line 34, and the words "one art commissioner;" in line 43.

*SECTION 3. The first paragraph of section 5 of chapter 3 of the Revised Ordinances of 1947, as most recently amended by section 2 of chapter 3 of the Ordinances of 1953, is hereby further amended by striking out clauses (1), (2) and (3), and inserting in place thereof the following clauses:—

(1) The director of administrative services, fifteen thousand dollars; the supervisor of personnel, ninety-five hundred dollars; and the purchasing agent, ninety-five hundred dollars.

(2) The chairman of the board of assessors, ten thousand five hundred dollars; and the other four members of said board, eighty-five hundred dollars each.

(3) The city auditor, twelve thousand dollars.

SECTION 4. Said first paragraph of said section 5, as amended as aforesaid, is hereby further amended by striking out clauses (16) and (23).

SECTION 5. Chapter 3 of the Revised Ordinances of 1947 is hereby further amended by striking out section 12 and inserting in place thereof the following section:—

Section 12. Every officer in charge of a department shall to the best of his ability cause all statutes, ordinances, regulations, and orders relating to the duties of his department to be observed and enforced, and subject to the civil service laws and rules, when applicable, shall employ, fix the compensation of, and may discharge for such cause as he shall deem sufficient and cause to be recorded in the records of his department, all subordinates in his department; provided, however, that none but citizens shall be employed in any capacity; and provided, further, that no emergency, provisional, temporary, intermittent, permanent or other appointment, transfer or promotion nor any reinstatement except upon the expiration of a suspension or a valid leave of absence, nor any increase in the compensation, nor any change in the title or rating, of any subordinate shall take effect until approved in writing by the director of administrative services except in cases where the mayor by a writing orders otherwise. The director of administrative services shall file each day with the mayor a copy of all approvals given by him on the preceding day under this section.

* Amended by Ordinances of 1954, chapter 3, section 2, and Ordinances of 1956, chapter 3, section 1.

SECTION 6. Said chapter 3 is hereby further amended by striking out section 14 and inserting in place thereof the following section:—

Section 14. If the officer in charge of any department shall at any time have the care, custody and management of any personal property belonging to the city which is not required for the purposes of such department, he shall by a writing executed in triplicate, one copy of which shall be retained by him, one copy filed with the city auditor and one copy delivered to the purchasing agent, transfer the care, custody and management of such personal property to the purchasing agent, who, if such personal property is required for the purposes of another department, shall by a writing executed in like manner transfer the care, custody and management thereof to the officer in charge of such department and, if such personal property is not so required and he estimates the value thereof not to exceed five hundred dollars, may, with the written approval of the mayor, lease, sell or otherwise dispose of the same at such time, for such price and in such manner as he shall adjudge most advantageous to the city.

SECTION 7. Said chapter 3 is hereby further amended by striking out section 16, as amended by section 1 of chapter 3 of the Ordinances of 1952, and inserting in place thereof the following section:—

Section 16. The board in charge of the library department may, and the officer in charge of every other department shall, when material or supplies or any kind, including printing and binding, are required, obtain the same from the purchasing agent by requisition in writing on forms furnished by said agent, who shall cause to be included in the annual report of the administrative services board a statement of the cost of all printing, binding and other material and supplies furnished each department.

SECTION 8. Said chapter 3 is hereby further amended by striking out section 22 and inserting in place thereof the following section:

* *Section 22.* Any officer may, with the approval of the mayor, by a writing deposited with the city auditor, or in the case of the city auditor with the city treasurer, designate a subordinate, who shall, for such time, not exceeding four weeks from the date of such designation,

* Amended by Ordinances of 1954, chapter 2, section 11.

as shall be specified in the writing, be authorized to perform the duties required of such officer, and for the acts of such subordinate such officer shall be responsible.

SECTION 9. The Revised Ordinances of 1947 are hereby amended by inserting after chapter 3 the following new chapter:

CHAPTER 3A.

ADMINISTRATIVE SERVICES DEPARTMENT.

* *Section 1.* There shall be in the city a department, known as the Administrative Services Department, which shall be under the charge of a board, known as the Administrative Services Board, consisting of an officer, known as the Director of Administrative Services, who shall be chairman of the board, an officer known as the Supervisor of Personnel, an officer known as the Purchasing Agent, and the city auditor and the city treasurer, ex officio. The director of administrative services, the supervisor of personnel, and the purchasing agent shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, and shall devote their whole time to the duties of their respective offices. The director of administrative services shall exclusively have the powers, and perform the duties, of a department head with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates for the administrative services department and the several officers thereof.

Section 2. It shall be the duty of the administrative services board, and more especially of the director of administrative services, to make, under the mayor, studies and recommendations with respect to the organization, activities, policies and procedures of all departments, boards and officers so that the administration thereof shall be economical and efficient. The administrative services board shall divide the administrative services department from time to time into such divisions as said board shall adjudge necessary for the proper conduct of the department. The director of administrative services shall, from time to time as written studies and recommendations are made by him or by the administrative services board, and at such times as the city council may order, file a copy thereof with the

* Collector-Treasurer, instead of city treasurer, by Ordinances of 1954, chapter 2, section 13.

city clerk for transmission to the city council, and shall cause to be included in the annual report of said board, summaries of all such studies and recommendations.

* *Section 3.* The director of administrative services shall, under the direction of the mayor, prepare in segregated form the annual and all supplementary budgets to be submitted by the mayor to the city council, and shall report to the mayor on all subsequent revisions of the items in any budget. The director of administrative services shall also prepare under the direction of the mayor all transfer orders to be submitted by the mayor to the city council under section 3B of chapter 486 of the acts of 1909. The director of administrative services shall further prepare under the direction of the mayor the form of estimate sheets to be used by each officer, board and department, and each division of a department, for which the city appropriates money, and the form of monthly report of such officer, board and department, and each division thereof, showing expenditures to date of all appropriations by item. The director of administrative services shall, in addition, have the powers and perform the duties conferred or imposed on the budget commissioner by any statute other than section 56 of chapter 35 of the General Laws.

Section 4. The supervisor of personnel shall (a) establish and maintain personnel records, as complete as practicable, for all persons in the service of the city, (b) make a continuing study of personnel problems, employment conditions and economic changes affecting the several departments of the city, (c) recommend, from time to time to the mayor and the several officers appointing subordinates, programs designed to provide opportunities for career service with the city and administrative policies tending to improve and coordinate the handling of personnel matters, (d) supervise the administration of all compensation plans established for employees of the city and recommend such changes in those plans as from time to time shall seem to him necessary or advisable, and (e) have the powers and perform the duties conferred or imposed on the budget commissioner by section 56 of chapter 35 of the General Laws. The supervisor of personnel shall furnish the director of administrative services such assistance as said director shall require in connection with the per-

formance by said director of his duties under section three of this chapter.

Section 5. The purchasing agent shall, when satisfied of the legality of any requisition in writing signed by the officer in charge of a department requiring material or supplies of any kind, at once comply with such requisition and furnish the material or supplies requisitioned, shall require suitable evidence that the material or supplies furnished are accepted by the officer issuing the requisition, and shall keep suitable records of all requisitions received and materials and supplies furnished.

Section 6. The purchasing agent shall have charge of the printing plant, shall, when satisfied of the legality of any requisition in writing signed by any officer to whom the city is required by law to furnish printing or binding, supply the printing or binding requisitioned, and shall, wherever practicable, standardize all such printing and binding. All printed matter done for the city shall, so far as it can legally do so, bear the imprint of the union label of the Allied Printing Trades Council of Boston.

Section 7. The purchasing agent shall number and print as city documents copies of the mayor's inaugural or annual address, the department reports and such other matter as may be ordered to be printed in the form of a city document by the city council or by the mayor. The number of copies of each document to be printed shall, unless specified by the city council, be determined by the mayor; provided, however, that the minimum shall be two hundred, of which number one hundred copies shall be bound in sets of volumes containing all such city documents with an alphabetical index. All city documents and sets of volumes shall be delivered to the city messenger and distributed in such manner as the city council may direct. Special publications shall, from time to time, be printed on order of the city council approved by the mayor, to which the provisions of this section except as to distribution, shall not apply.

Section 8. There shall be in the administrative services department a board, known as the Art Commission, consisting of five commissioners appointed by the mayor as follows:—one from three candidates nominated by The Boston Society of Architects, one from three candidates nominated by the Copley Society

of Boston, one from three candidates nominated by the Massachusetts Institute of Technology, one from three candidates nominated by the Museum of Fine Arts, and one from three candidates nominated by the Trustees of the Public Library of the City of Boston. The members of the board of art commissioners in office immediately prior to the taking effect of this ordinance and hereinafter called the expiring board shall, without further nomination or appointment, become the initial commissioners of the art commission created by this ordinance and shall serve in the case of the member appointed upon nomination of The Boston Society of Architects, for a term expiring May 1, 1955, in the case of the member appointed upon nomination of the Massachusetts Institute of Technology, for a term expiring May 1, 1954, in the case of the member appointed upon nomination of the Museum of Fine Arts, for a term expiring May 1, 1958, in the case of the member appointed upon nomination of the Trustees of the Public Library of the City of Boston, for a term expiring May 1, 1956, and in the case of the member appointed upon nomination of the Boston Art Club, for a term expiring upon the qualification of the commissioner first appointed upon nomination of the Copley Society of Boston, who shall serve for a term expiring May 1, 1957. As the term of any initial commissioner other than the member of the expiring board appointed upon nomination of the Boston Art Club, or of any subsequent commissioner, expires, his successor shall be appointed in like manner as such commissioner for a term of five years. Vacancies in the commission shall be filled in the same manner for the unexpired term. The members of the art commission shall serve without compensation. Any secretary elected by the commission outside of its own membership shall also serve without compensation.

The art commission shall not be subject to the supervision or control of the administrative services board or any member thereof; but unless otherwise ordered by the mayor, the art commission shall not communicate with the mayor except through the director of administrative services and shall not make any annual or other report except through the administrative services board.

The art commission shall have the powers and perform the duties conferred or imposed by law on the

board of art commissioners in existence immediately prior to the taking effect of this ordinance.

SECTION 10. Chapter 4 of the Revised Ordinances of 1947 is hereby repealed; and the art department, including the board of art commissioners, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the art commission created in the administrative services department by section 9 of this ordinance.

SECTION 11. Chapter 6 of the Revised Ordinances of 1947 is hereby amended by striking out section 6 and inserting in place thereof the following section:

Section 6. The auditor, at the close of each month, shall charge as an expenditure of a department the transaction, act, or neglect of which caused a claim or suit, the amount paid in settlement, or on execution, therefor, unless provision is made for such payment out of some other appropriation; shall charge the amount of every bill allowed by him for printing or binding furnished any department by the purchasing agent during such month, except city documents, to the appropriation for the department to which the same was furnished, and shall credit such amount to the general revenue of the city; and shall charge to the appropriation for each division of the public works department, or to the appropriation for any special work, the amount of all bills for materials, tools or machinery furnished for such division, or for such work, by other divisions of said department, and shall credit such amount to the general revenue of the city, unless such materials, tools or machinery have been furnished by the water service, in which case the amount charged shall be credited to the water income.

SECTION 12. Chapter 8 of the Revised Ordinances of 1947 is hereby repealed; and the budget department, including the office of budget commissioner, is hereby abolished; and the powers and duties conferred or imposed on the budget commissioner by section 56 of chapter 35 of the General Laws and the appropriations relating to such powers and duties, are hereby transferred to the supervisor of personnel created by section 9 of this ordinance; and all other powers, duties and appropriations of said budget department are hereby transferred to the director of administrative services created by said section 9.

SECTION 13. Chapter 24 of the Revised Ordinances of 1947, as amended by sections 2, 3 and 4 of chapter 3 of the Ordinances of 1952, is hereby repealed; and the printing department, including the office of superintendent of printing, is hereby abolished; and the powers, duties and appropriations of said superintendent with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the director of administrative services created by section 9 of this ordinance; and all other powers, duties and appropriations of the printing department are hereby transferred to the purchasing agent created by said section 9.

SECTION 14. Chapter 34 of the Revised Ordinances of 1947, as amended by sections 6 and 7 of chapter 3 of the Ordinances of 1952, is hereby repealed; and the supply department, including the office of superintendent of supplies, is hereby abolished; and the powers, duties and appropriations of the superintendent of supplies with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the director of administrative services created by section 9 of this ordinance; and all other powers, duties and appropriations of said department are hereby transferred to the purchasing agent created by said section 9.

SECTION 15. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a department or agency created, or a department or agency not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 16. This ordinance shall be deemed to be made under section 5 of chapter 486 of the Acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an

office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or, except as provided in section 3 of this ordinance, be reduced in compensation.

SECTION 17. Anything in section 3 of chapter 1 of the Revised Ordinances of 1947 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

SECTION 18. This ordinance shall take effect on January 1, 1954. *[Approved December 31, 1953.]*

CHAPTER 9.

PROVIDING FOR NOTICE OF HEARING ON PETITIONS FOR JITNEY LICENSES.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by inserting after Section 92 the following new section:—

SECTION 92A. No person shall prosecute a petition to the city council for a license under Section 1 of Chapter 159A of the General Laws unless at his own expense he has caused to be published, in a newspaper of general circulation published in the city, at least seven days before the public hearing to be held by the committee on licenses of the city council, a notice of the time and place of such hearing, nor unless at his own expense he has also sent by registered mail not less than seven days before such hearing a copy of such notice to the police commissioner, the Metropolitan Transit Authority, and such persons as shall file with the clerk of committees a written request for notices under this section.

[Approved December 31, 1953.]

CHAPTER 10.

FURTHER REGULATING THE TAKING OF SHELLFISH IN THE CITY OF BOSTON.

Section 22A of chapter 40 of the Revised Ordinances of 1947, as amended by section 2 of chapter 1 of the

Ordinances of 1953, is hereby further amended by striking out, in paragraph (1), the second sentence and inserting in place thereof the following sentence:—
A family use shellfish permit may be granted upon written application by any inhabitant of the commonwealth; but a commercial use shellfish permit shall be granted only upon written application by an inhabitant of the city of Boston who shall have been such for not less than one year next preceding the making of such application; provided, however, that at such times as the city council shall deem the number of commercial use shellfish permits so granted to be insufficient for the proper working of the shellfish areas in the city, a commercial use shellfish permit may be granted upon written application by any inhabitant of the commonwealth.

[Approved January 2, 1954.]

Approved by the Director of the Division of Marine Fisheries, February 25, 1954.

ORDINANCES OF 1954.

CHAPTER 1.

ABOLISHING A CERTAIN OFFICE IN THE CITY MESSENGER
DEPARTMENT AND A CERTAIN OFFICE IN THE
CLERK OF COMMITTEES DEPARTMENT.

SECTION 1. Section 1 of Chapter 11 of the Revised Ordinances of 1947 is hereby amended by striking out, in the first sentence, the words "the second assistant city messenger."

SECT. 2. Section 1 of Chapter 13 of the Revised Ordinances of 1947 is hereby amended by striking out, in the first sentence, the word "four" and inserting in place thereof the word "three."

SECT. 3. This ordinance shall take effect upon the approval by the Mayor of the order passed by the City Council on January 11, 1954, providing for two additional temporary clerks and/or stenographers in the Clerk of Committees Department.

[Order and Ordinance Approved January 12, 1954.]

CHAPTER 2.

REORGANIZING CERTAIN BOARDS AND DEPARTMENTS
OF THE CITY.

SECTION 1. Section 4 of chapter 1 of the Revised Ordinances of 1947 is hereby amended by striking out, in clause *Fifth*, the words "park department" and inserting in place thereof the words "parks and recreation department" and by striking out, in clause *Twelfth*, the words "street commissioners" and inserting in place thereof the words "commissioner of public works";

and section 6 of said chapter 1 is hereby amended by striking out, in the last sentence, the words "superintendent of public buildings" and inserting in place thereof the words "assistant commissioner of real property".

SECTION 2. Chapter 2 of the Revised Ordinances of 1947 is hereby amended by striking out section 1, as amended by section 1 of chapter 3, and section 2 of chapter 8, of the Ordinances of 1953, and inserting in place thereof the following section:—

Section 1. The mayor shall appoint heads of departments and members of municipal boards and fill vacancies therein in the manner provided by law. He shall, in the municipal year in which the term of the incumbent expires, appoint the following officers, to serve for the terms hereinafter specified:

For the term of three years, beginning with the first day of May in the year of appointment: four overseers of the public welfare.

For the term of four years, beginning with the first day of May in the year of appointment: the fire commissioner, the corporation counsel, and the penal institutions commissioner.

* For the term of five years, beginning with the first day of April in the year of appointment, one assessor.

For the term of five years, beginning with the first day of May in the year of appointment: one trustee of the Boston city hospital and one trustee of the Boston public library.

SECTION 3. Section 2 of said chapter 2 is hereby amended by striking out, in the last sentence, the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 4. Said chapter 2 is hereby further amended by striking out section 5 and inserting in place thereof the following section:—

Section 5. The mayor may, upon payment to the collector-treasurer of the amount due on the mortgage of an estate mortgaged to the city, discharge or release the mortgage, or assign the same without recourse to the city, and may execute and deliver in behalf of the city any and all legal instruments necessary to effectuate such discharge, release or assignment.

* Stricken out by Ordinances of 1954, chapter 3, section 1.

SECTION 5. Section 8 of said chapter 2 is hereby amended by striking out the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 6. Chapter 3 of the Revised Ordinances of 1947 is hereby amended by striking out sections 2, 3 and 4 and inserting in place thereof the following three sections:—

Section 2. The collector-treasurer and the city auditor, before, and the city clerk, within five days after, entering upon the duties of their respective offices and annually thereafter and at such other times as the mayor shall determine, shall give bond to the city, in the case of the collector-treasurer, in the penal sum of five hundred thousand dollars, in the case of the city auditor, in the penal sum of one hundred thousand dollars, and in the case of the city clerk, in the penal sum of five thousand dollars.

Every bond given under this section shall be upon the condition that the person named therein as principal and all his subordinates shall, while he continues in office, by reappointment, re-election or otherwise, faithfully discharge their duties and trusts, and safely hold and lawfully dispose of and account for all money and other property belonging to the city or county which may come into his possession or that of his subordinates; and that he shall deliver, according to law, to his successor in office or such other person as may be authorized to receive the same all money and other property in his possession or that of his subordinates belonging to the city or county. Every bond given under this section shall be executed by a surety company authorized to transact business in Massachusetts as surety, shall be approved by the mayor, and shall be filed with the city auditor except that the bond of the city auditor shall be filed with the collector-treasurer.

Section 3. Every person intrusted with the collection, custody or disbursement of public moneys who is not required by statute or other ordinance to give bond shall, if the officer appointing him so requires, give before entering upon the duties of his office or position and annually thereafter and at such other times as such officer shall determine, a bond running to the city or, if such officer is bonded to the city upon the condition set forth in section two, to such officer, in such penal sum not exceeding twenty thousand dollars, with such

surety, and upon such condition as such officer shall prescribe. Every bond given under this section running to the city shall be filed with the city auditor.

Section 4. The premium for the surety upon any bond given under section two or section three of this chapter or section four of chapter thirty-six shall be allowed and paid as an expense of the department of which the principal on the bond is an officer or employee.

SECTION 7. The first paragraph of section 5 of said chapter 3, as most recently amended by sections 3 and 4 of chapter 8 of the Ordinances of 1953, is hereby further amended as follows:—

By striking out clause (8) and inserting in place thereof the following clause:— (8) The corporation counsel, thirteen thousand five hundred dollars.

By striking out clause (11) and inserting in place thereof the following clause:— (11) The health commissioner, eleven thousand dollars.

By striking out clause (14) and inserting in place thereof the following clause:— (14) The commissioner of parks and recreation, eleven thousand dollars.

By striking out clause (18) and inserting in place thereof the following clause:— (18) The commissioner of public works, thirteen thousand five hundred dollars.

By striking out clause (19) and inserting in place thereof the following clause:— (19) The commissioner of real property, ninety-five hundred dollars; and the assistant commissioner of real property, eighty-five hundred dollars.

By striking out clause (25) and inserting in place thereof the following clause:— (25) The collector-treasurer, twelve thousand dollars.

By striking out clause (26) and inserting in place thereof the following clause:— (26) The veterans benefits and services commissioner, eighty-five hundred dollars.

And by striking out clauses (7), (12), (17), (20), (22) and (27).

SECTION 8. Said section 5 of said chapter 3 is hereby further amended by striking out the last two paragraphs, as appearing in section 1 of chapter 6 of the Ordinances of 1952, and inserting in place thereof the following two paragraphs:—

Each member of the board of appeal in the building department shall receive for every day or part thereof of actual service twenty-five dollars; but in no event

shall any member of said board receive in any one year more than thirty-five hundred dollars in the aggregate for services rendered by him under the building code and the zoning law. Each member of the board of examiners in the building department, and the appointive member of the board of examiners of gasfitters in said department, shall receive for every day or part thereof of actual service fifteen dollars, but in no event more than fifteen hundred dollars in any one year.

The deputy assessors shall be compensated as if they held an office allocated to Grade No. 30 of the compensation plan from time to time in effect for the county; and the assistant assessors shall be compensated as if they held an office allocated to Grade No. 15 of said compensation plan; and the auctioneer in the real property department shall be compensated as if he held a position allocated to Grade No. 30 of said compensation plan.

SECTION 9. Said chapter 3 is hereby further amended by striking out section 10 and inserting in place thereof the following section:—

Section 10. Except as otherwise ordered by the mayor under section nine of chapter two of these ordinances, the collector-treasurer shall daily have an office open for the receipt and disbursement of money from nine o'clock in the forenoon until two o'clock in the afternoon and every other officer in charge of a department shall daily have an office open for the transaction of public business for not less than eight hours; provided, however, that every public office in the city shall remain closed on all Sundays and legal holidays and may remain closed on all Saturdays, except that the health commissioner shall have an office open for the issuance of burial permits and permits for the removal of dead bodies from ten o'clock in the forenoon until twelve o'clock noon on every day in the year.

SECTION 10. Section 15 of said chapter 3 is hereby amended by striking out the words "and the superintendent of public buildings".

SECTION 11. Section 18 of said chapter 3 is hereby amended by striking out, wherever appearing in said section, the words "city collector" and inserting in place thereof, in each instance, the word "collector-treasurer"; and section 22 of said chapter 3, as amended by section 8 of chapter 8 of the Ordinances of 1953, is hereby further amended by striking out the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 12. Section 24 of said chapter 3 is hereby amended by adding at the end thereof the following sentence:— Every board within a department not subject to the supervision or control of the officer in charge of the department shall make an annual report containing a statement of its acts and doings and such other matters as may be required by law or as it or the mayor may deem to be of public interest, which report shall be annexed by the officer in charge of the department as an appendix to his annual report.

SECTION 13. Chapter 3A of the Revised Ordinances of 1947, as inserted by section 9 of chapter 8 of the Ordinances of 1953, is hereby amended by striking out, in the first sentence of section 1, the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 14. Sections 2 and 3 of chapter 5 of the Revised Ordinances of 1947 are hereby amended by striking out, wherever appearing in said sections, the words "the city collector" and "the collector" and inserting in place thereof, in each instance, the words "the collector-treasurer".

SECTION 15. Section 1 of chapter 6 of the Revised Ordinances of 1947 is hereby amended by striking out the words "the city auditor, who" and inserting in place thereof the words "a city auditor who shall be appointed by the mayor, and hold office, subject to the civil service laws and rules and who", and by striking out, wherever appearing in said section, the words "the city treasurer" and "the treasurer" and inserting in place thereof, in each instance, the words "the collector-treasurer", and by striking out the words "sinking-funds commissioners" and inserting in place thereof the words "commissioners of sinking funds".

SECTION 16. Section 2 of said chapter 6 is hereby amended by striking out, wherever appearing in said section, the word "treasurer" and inserting in place thereof, in each instance, the word "collector-treasurer".

SECTION 17. Section 3 of said chapter 6 is hereby amended by striking out, wherever appearing in said section, the word "treasurer" and inserting in place thereof, in each instance, the word "collector-treasurer".

SECTION 18. Section 4 of said chapter 6, as amended by section 2 of chapter 9 of the Ordinances of 1949, is hereby further amended by striking out,

wherever appearing in the second sentence, the words "city treasurer" and inserting in place thereof, in each instance, the word "collector-treasurer".

SECTION 19. Section 8 of said chapter 6 is hereby amended by striking out all after the words "in the sinking funds" and inserting in place thereof the words "which statement shall be arranged so far as practicable to conform to the accounts of the collector-treasurer."

SECTION 20. Section 1 of chapter 9 of the Revised Ordinances of 1947 is hereby amended by adding at the end the following sentence:—The building commissioner shall also have the powers and perform the duties conferred or imposed by statute on the wire commissioner and on the fire commissioner as successor to the wire commissioner, and shall carry out the provisions and requirements of law relating to wires and inspection of wires and the installation and use of electrical conductors and appliances in buildings in the city.

SECTION 21. Said chapter 9 is hereby further amended by striking out section 2 and inserting in place thereof the following section:—

Section 2. There shall be in the building department a board, known as the Board of Appeal, consisting of five members appointed by the mayor as follows:— one member from two candidates nominated, one by The Boston Society of Architects and one by the Boston Society of Civil Engineers, one member from two candidates nominated by the Building Trades Council of Boston and Vicinity, one member from two candidates nominated, one by the Boston Real Estate Board and one by the Massachusetts Real Estate Association, one member from three candidates nominated, one by The Master Builders' Association of Boston, one by the Building Trades Employers' Association of the City of Boston and one by the Associated General Contractors of Massachusetts, Inc., and one member selected at large by the mayor. All members of the board of appeal shall be residents of, or engaged in business in, Boston. The members of the board of appeal in office when this ordinance takes effect shall serve, in the case of the member appointed upon nomination of The Boston Society of Architects or the Boston Society of Civil Engineers, for a term expiring five years, in the case of the member appointed upon nomination of the Building Trades Council of Boston and Vicinity, for a term expiring one year, in the case of the member appointed

upon nomination of the Boston Real Estate Board or the Massachusetts Real Estate Association, for a term expiring two years, in the case of the member appointed upon nomination of The Master Builders' Association of Boston, the Building Trades Employers' Association of the City of Boston or the Associated General Contractors of Massachusetts, Inc., for a term expiring three years, and, in the case of the member selected at large by the mayor, for a term expiring four years, respectively, from May 1, 1953. As the term of any such member, or of any subsequent member, expires, his successor shall be appointed in like manner as such member for a term of five years. Vacancies in the board shall be filled in the same manner for the unexpired term. No member of the board shall act in any case in which he has a personal interest; and when a member is so disqualified or absent or when there is a vacancy in the office of a member, the remaining members shall designate a substitute.

The board of appeal shall not be subject to the supervision or control of the building commissioner; but unless otherwise ordered by the mayor, the board of appeal shall not communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 22. Said chapter 9 is hereby further amended by striking out section 4 and inserting in place thereof the following section:—

Section 4. There shall also be in the building department a board, known as the Board of Examiners, consisting of three members appointed by the mayor, of whom one shall be an architect or engineer with at least five years' experience in the city, one a contractor or person well qualified in the supervision of construction work with at least five years' experience in the city, and one a lawyer or other person with proper legal qualifications. The members of the board of examiners in office when this ordinance takes effect shall serve according to the provisions of their respective appointments for terms expiring one, two and three years, respectively, from May 1, 1953. As the term of any such member, or of any subsequent member, expires, his successor shall be appointed by the mayor for a term of three years. Vacancies in the board shall be filled by the mayor for the unexpired term.

The board of examiners shall not be subject to the supervision or control of the building commissioner; but unless otherwise ordered by the mayor, the board of examiners shall not communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 23. Section 5 of said chapter 9 is hereby amended by striking out, in the last sentence, the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 24. Said chapter 9 is hereby further amended by striking out section 6 and inserting in place thereof the following section:—

Section 6. There shall also be in the building department a board, known as the Board of Examiners of Gasfitters, consisting of the building commissioner and the health commissioner, ex officiis, and a member appointed by the mayor. The appointive member shall be a licensed master gasfitter who shall have been continuously engaged in business as a master gasfitter during the five years next preceding his appointment. The appointive member of the board of examiners of gasfitters in office when this ordinance takes effect shall serve for a term expiring on May 1, 1954. As the term of such appointive member, or of any subsequent appointive member, expires, his successor shall be appointed by the mayor for a term of one year. Any vacancy in the office of the appointive member shall be filled by the mayor for the unexpired term.

The board of examiners of gasfitters shall not be subject to the supervision or control of the building commissioner except as he acts as a member of said board; but unless otherwise ordered by the mayor, the board of examiners of gasfitters shall not communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 25. Said chapter 9 is hereby further amended by adding at the end the following caption and section:—

Public Safety Commission.

Section 8. There shall also be in the building department a board, known as the Public Safety Commission, consisting of the director of administrative services, the building commissioner, the fire commissioner, the health

commissioner and the chairman of the Boston traffic commission, *ex officiis*. It shall be the duty of said commission to coordinate the work of the building, fire and health departments to the end that there may be efficient and concerted action by said departments. Said commission shall meet at least once each month, at the call of the director of administrative services, for the purpose of discharging said duty.

There shall be in the public safety commission a committee, known as the Committee on Licenses, consisting of the building commissioner, the fire commissioner and the chairman of the Boston traffic commission, *ex officiis*. Said committee shall have the powers and perform the duties conferred or imposed on the board of street commissioners by chapter 148 of the General Laws, as amended, by chapter 577 of the acts of 1913, as amended, by chapter 488 of the acts of 1924, as amended, and by chapter 349 of the acts of 1953.

Neither the public safety commission nor the committee on licenses shall be subject to the supervision or control of the building commissioner except as he acts as a member thereof; but unless otherwise ordered by the mayor, neither said commission nor said committee shall communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 26. The board of appeal, the board of examiners and the board of examiners of gasfitters are hereby placed in the building department but not under the supervision or control of the building commissioner; and the respective powers, duties, appropriations and personnel of said boards are hereby transferred with them except that, unless otherwise ordered by the mayor, none of said boards shall communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 27. Chapter 4 of the Ordinances of 1952 is hereby amended by striking out in the second line the words "sections 1, 2 and 3" and inserting in place thereof the words "sections 1, 2, 3 and 4", by striking out in the third line the word "five" and inserting in place thereof the word "six", and by adding at the end of said chapter 4 the following paragraph:—

SECT. 6. There shall be in the city planning department the board of zoning adjustment provided for by section 20 of chapter 488 of the acts of 1924, as amended.

Said board shall exercise the powers and perform the duties provided by statute. Said board shall not be subject to the supervision or control of the city planning board; but unless otherwise ordered by the mayor, the board of zoning adjustment shall not communicate with the mayor, or make any annual or other report, except through the city planning board.

SECTION 28. The board of zoning adjustment is hereby placed in the city planning department but not under the supervision or control of the city planning board; and the powers, duties, appropriations and personnel of the board of zoning adjustment are hereby transferred with it except that, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the city planning board.

SECTION 29. Chapter 14 of the Revised Ordinances of 1947 is hereby repealed; and the collecting department, including the office of city collector, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the treasury department as reorganized by sections 64 and 65 of this ordinance.

SECTION 30. Section 7 of chapter 16 of the Revised Ordinances of 1947 is hereby repealed; and the electrical inspection division of the fire department, including the office of the deputy in charge of said division, is hereby abolished; and the powers, duties and appropriations of said division and of the fire commissioner as successor to the wire commissioner are hereby transferred to the building department.

SECTION 31. The Revised Ordinances of 1947 are hereby further amended by striking out chapter 17, as amended by chapter 4 of the Ordinances of 1950, and inserting in place thereof the following chapter:—

CHAPTER 17.

HEALTH DEPARTMENT.

Section 1. There shall be in the city a department, known as the Health Department, which shall be under the charge of an officer, known as the Health Commissioner, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected.

The health commissioner may appoint, subject to the approval of the mayor, an assistant health commissioner, who shall be sworn to the faithful discharge of his duties and shall hold office until his successor is appointed and qualified. The assistant health commissioner shall perform such duties as may be assigned to him from time to time by the health commissioner.

Section 2. There shall be in the health department a health division under the direct charge of the health commissioner, a registry division under the charge of a city registrar appointed by the health commissioner, and a weights and measures division under the charge of a sealer appointed by the mayor. The health commissioner may appoint, subject to the approval of the mayor, not exceeding three assistant city registrars for the registry division; and the mayor may appoint a chief deputy sealer and not exceeding seventeen deputy sealers for the weights and measures division.

Health Division.

Section 3. There shall be in the health division the following sections:—section of general services, section of medical services, section of environmental sanitation, and section of local health service. Each section shall be in charge of a director appointed by the health commissioner. The health commissioner may from time to time determine the bureaus, if any, within each of said sections, and shall appoint the heads of such bureaus. In appointing the director of a section or the head of a bureau, the health commissioner shall certify that in his opinion the person appointed is an expert in the work which will devolve upon him, that he is a person specially fitted by education, training or experience to perform the duties of the position, and that the appointment is made solely in the interest of the city, such certificate to be filed with the city clerk and to be open to public inspection.

* *Section 4.* The health commissioner shall have the powers and perform the duties conferred or imposed by law on the board of health of the city or upon the chairman thereof; shall have the powers and perform the duties conferred or imposed on the office of health commissioner by section 2 of chapter 1 of the Ordinances of 1927; shall include in his annual report a review of the sanitary condition of the city; shall keep

* Section 3a inserted by Ordinances of 1956, chapter 1.

on hand, so far as practicable, a sufficient quantity of vaccine virus and antitoxin, and supply the same free of charge to the physicians in the several departments; shall appoint one or more medical inspectors and require them to vaccinate and revaccinate all inhabitants of the city who apply for vaccination, and to give certificates of vaccination required for admission to the public schools; and shall appoint a superintendent of peddlers and require him to see that every hawker and peddler conforms to law.

Registry Division.

Section 5. The city registrar shall have custody of all records, books and papers belonging to the city, relating to births, marriages and deaths, shall have the powers and perform the duties from time to time conferred or imposed on clerks of towns in Massachusetts by chapter 46, and by section 16 of chapter 66, of the General Laws, and may pay, out of any funds received by him, the fees due to persons making returns under the requirements of law.

Section 6. The official seal which the city shall provide for use by the city registrar and assistant city registrars shall be in the form prescribed by section 4 of chapter 34 of the Revised Ordinances of 1898 as appearing in chapter 4 of the Ordinances of 1902.

Section 7. The certificate or attestation of an assistant city registrar shall have the same force and effect as that of the city registrar.

Section 8. The city registrar shall file annually with the health commissioner a statement of the number of births, marriages and deaths recorded in his office during the previous year; and said commissioner shall include such statement in his annual report. Unless otherwise ordered by the mayor, the city registrar shall not communicate with the mayor, or make any annual or other report, except through the health commissioner.

Weights and Measures Division.

Section 9. The sealer shall have the powers and perform the duties from time to time conferred or imposed by general laws applicable to Boston on sealers appointed under section 34 of chapter 98 of the General Laws, shall have direction of the deputy sealers, shall keep records showing the work done and

the fees earned, in the weights and measures division, and shall daily pay over to the collector-treasurer all fees received by him or the deputy sealers, who shall perform the work respectively assigned to them by the sealer and shall daily pay over to him all fees received by them. Unless otherwise ordered by the mayor, the sealer shall not communicate with the mayor, or make any annual or other report, except through the health commissioner.

SECTION 32. Chapter 18 of the Revised Ordinances of 1947 is hereby amended by striking out section 1 and inserting in place thereof the following section:—

Section 1. There shall be in the city a department, known as the Hospital Department, which shall be under the charge of a board of five trustees who shall have charge of the city hospital, the sanatorium and the Long Island hospital (including the viaduct between Long Island and Moon Island and the approaches to said viaduct) and of the care and maintenance thereof, shall make all needful improvements in the lands and grounds connected therewith, shall have charge of all real estate held for purposes connected with said institutions, and shall pay or cause to be paid to the collector-treasurer the income thereof. Said trustees shall also investigate all questions relating to the commitment of the insane.

SECTION 33. Section 2 of said chapter 18 is hereby amended by striking out the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 34. Section 3 of said chapter 18 is hereby amended by striking out, in the last sentence, the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 35. Chapter 19 of the Revised Ordinances of 1947 is hereby repealed; and the institutions department, including the office of the commissioner of institutions, is hereby abolished; and the powers, duties and appropriations of said department in relation to the commitment of the insane and to Long Island and the institution thereon belonging to the city, including the viaduct between Long Island and Moon Island and the approaches to said viaduct, are hereby transferred to the hospital department; and the powers, duties and appropriations of the institutions depart-

ment in relation to all other matters are hereby transferred to the department renamed the welfare department by sections 44 and 68 of this ordinance.

SECTION 36. Chapter 22 of the Revised Ordinances of 1947 is hereby amended by striking out the caption "PARK DEPARTMENT" and inserting in place thereof the caption "PARKS AND RECREATION DEPARTMENT".

SECTION 37. Section 1 of said chapter 22 is hereby amended by striking out section 1 and inserting in place thereof the following section:—

Section 1. There shall be in the city a department, known as the Parks and Recreation Department, which shall be under the charge of a board, known as the Parks and Recreation Commission, consisting of an officer, known as the Commissioner of Parks and Recreation, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, who shall be chairman of the board, shall devote his whole time to the work, and shall serve in the stead of the chairman of the park commissioners as an associate commissioner of the Boston traffic commission, and four other officers, known as Associate Commissioners of Parks and Recreation, appointed by the mayor. The associate commissioners first appointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of one, one year, in the case of another, two years, in the case of another, three years, and in the case of the other, four years, from May 1, 1954. As the term of any such associate commissioner, or of any subsequent associate commissioner, expires, his successor shall be appointed by the mayor for a term of four years. Any vacancy in the office of an associate commissioner shall be filled by the mayor for the unexpired term. The associate commissioners shall serve without pay.

SECTION 38. Said chapter 22 is hereby further amended by striking out section 2 and inserting in place thereof the following section:—

Section 2. The commissioner of parks and recreation shall exclusively have the powers, and perform the duties, of a department head with respect to the making of contracts and the appointment, suspension, discharge, compensation and indemnification of sub-

ordinates for the department; but otherwise the board shall have the powers and perform the duties from time to time conferred or imposed on boards of park commissioners of cities in Massachusetts by general laws applicable to Boston and, except as aforesaid, shall also have the powers and perform the duties conferred or imposed by law on the board of park commissioners and board of recreation in existence immediately prior to the taking effect of this ordinance. The board shall further have the powers and perform the duties from time to time conferred or imposed on it by law.

SECTION 39. Section 3 of said chapter 22 is hereby amended by striking out, in the first sentence, the words "park department" and inserting in place thereof the words "parks and recreation department"; and section 4 of said chapter 22 is hereby amended by striking out all after the words "city council" and inserting in place thereof the words "and shall designate the persons to furnish the same."; and section 5 of said chapter 22 is hereby amended by striking out the words "street commissioners" and inserting in place thereof the words "commissioner of public works".

SECTION 40. Section 8 of said chapter 22 is hereby amended by striking out the words "park department" and inserting in place thereof the words "parks and recreation department".

SECTION 41. Section 10 of said chapter 22 is hereby amended by striking out the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 42. The park department, including the board of park commissioners, in existence immediately prior to the taking effect of this ordinance is hereby abolished; and the powers, duties and appropriations of said board with respect to the making of contracts and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the commissioner of parks and recreation created by section 37 of this ordinance; and all other powers, duties and appropriations of said park department are hereby transferred to the parks and recreation department created by said section 37.

SECTION 43. Chapter 25 of the Revised Ordinances of 1947, as amended by chapter 1 of the second series of the Ordinances of 1947 and by section 5 of chapter 3 of the Ordinances of 1952, is hereby repealed;

and the public buildings department, including the office of superintendent of public buildings, is hereby abolished; and the powers, duties and appropriations of the superintendent of public buildings with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the commissioner of real property created by section 58 of this ordinance; and all other powers, duties and appropriations of the public buildings department are hereby transferred to the assistant commissioner of real property created by said section 58.

SECTION 44. Chapter 26 of the Revised Ordinances of 1947 is hereby repealed; and the public welfare department is hereby renamed the welfare department.

SECTION 45. Section 1 of chapter 27 of the Revised Ordinances of 1947 is hereby amended by striking out the words "The department of public works shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession;" and inserting in place thereof the words "There shall be in the city a department, known as the Public Works Department, which shall be under the charge of an officer, known as the Commissioner of Public Works, who shall be a civil engineer of recognized standing in his profession appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected;".

SECTION 46. Said chapter 27 is hereby amended by striking out section 2 and inserting in place thereof the following section:—

Section 2. The commissioner of public works shall have the jurisdiction vested by statute in the board of street commissioners in relation to the planting and removal of trees in the public ways and to the use of public ways for any temporary obstruction or projection in, under or over the same; but such jurisdiction shall only be exercised with the written approval of the mayor in each instance. The commissioner shall also have the powers and perform the duties conferred or imposed by statute on the board of street commissioners in relation to the use of parts of public ways for the storage and sale of merchandise.

SECTION 47. Section 6 of said chapter 27 is hereby amended by striking out, in the last sentence, the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 48. Section 9 of said chapter 27 is hereby amended by striking out, in clause 2, the words "park department" and inserting in place thereof the words "parks and recreation department".

SECTION 49. Section 12 of said chapter 27 is hereby amended by striking out the words "street commissioners" and inserting in place thereof the words "public improvement commission".

SECTION 50. Said chapter 27 is hereby further amended by striking out section 13 and inserting in place thereof the following section:—

Section 13. The commissioner shall issue such a permit to a building mover actually engaged in the business, for the purpose of moving a building through the streets, on condition the terms of which shall be those stated in section nine of this chapter; provided, that an application for such permit, describing the locations from and to which, and the route over which, the building is to be moved, the length, width and height of the building, and the principal material of its exterior and roof, and accompanied by the written consent of the building commissioner to the placing of the building on the lot proposed, shall be first made to the commissioner. Whenever it appears that the moving of a building will encumber the tracks of any railroad corporation, a public hearing shall be given by the commissioner upon the subject before such permit is issued.

SECTION 51. Section 14 of said chapter 27 is hereby amended by striking out, wherever appearing in said section, the words "street commissioners" and inserting in place thereof, in each instance, the words "public improvement commission"; and section 15 of said chapter 27 is hereby amended by striking out, wherever appearing in said section, the words "street commissioners" and inserting in place thereof, in each instance, the words "public improvement commission".

SECTION 52. Section 20 of said chapter 27 is hereby amended by striking out the words "street commissioners" and inserting in place thereof the words "public improvement commission".

SECTION 53. Section 23 of said chapter 27 is hereby amended by striking out, in the first sentence, the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 54. Section 28 of said chapter 27 is hereby amended by striking out, wherever appearing in clause 5, the words "the city collector" and "the collector" and inserting in place thereof, in each instance, the word "the collector-treasurer".

SECTION 55. Said chapter 27 is hereby amended by striking out section 29 and inserting in place thereof the following section:—

Section 29. Except as otherwise provided by statute, the commissioner of public works shall have full charge of all engineering work of every nature and description connected with all public works and all public improvements, and shall make such surveys, plans, estimates, statements and descriptions, and take such levels, as any officer of the city may need in the discharge of his duties, and shall have the custody of all surveys and plans relating to the laying out, relocating, altering, widening, constructing, making specific repairs on, and discontinuing public ways and alleys.

SECTION 56. Section 33 of said chapter 27 is hereby amended by striking out the first sentence and inserting in place thereof the following sentence:—The commissioner shall divide the public works department from time to time into a survey division and such other divisions as the commissioner shall adjudge necessary for the proper conduct of the department.

SECTION 57. Said chapter 27 is hereby further amended by striking out sections 35 and 36 and inserting in place thereof the following sections:—

Section 35. The commissioner shall, in his annual report, include a statement of the repairs and expenditures on each street and each bridge under his charge, of the number of times each draw of a bridge has been opened for the passage of vessels, of the number of vessels laden with cargo that have passed through each draw, of the number of water takers and the purposes for which the water is taken, of the number and kind of water meters installed during the previous year, of the number and kind of water meters in use, of the number of cases where the water has been shut off, and of the number and amount of abatements which have been made during the preceding year on water rates.

Section 36. There shall be in the public works department a board, known as the Public Improvement Commission, consisting of the commissioner of public works, the commissioner of real property and the chairman of

the Boston traffic commission, *ex officio*. The public improvement commission shall not be subject to the supervision or control of the commissioner of public works except as he acts as a member of said commission; but unless otherwise ordered by the mayor, the public improvement commission shall not communicate with the mayor, or make any annual or other report, except through the commissioner of public works. The public improvement commission shall have all powers and perform all duties conferred or imposed by statute on the board of street commissioners except (a) those conferred or imposed on the committee on licenses in the public safety commission by section eight of chapter nine of these ordinances, (b) those conferred or imposed on the commissioner of public works by section two of this chapter and section forty of chapter forty of these ordinances, and (c) those conferred or imposed on the real property board by section one of chapter twenty-seven A of these ordinances.

SECTION 58. The Revised Ordinances of 1947 are hereby further amended by inserting after chapter 27 the following new chapter:—

CHAPTER 27A.

REAL PROPERTY DEPARTMENT.

Section 1. There shall be in the city a department, known as the Real Property Department, which shall be under the charge of a board, known as the Real Property Board, consisting of an officer, known as the Commissioner of Real Property, appointed by the mayor, who shall be chairman of the board and shall serve in the stead of the chairman of the board of street commissioners as an associate commissioner of the Boston traffic commission, an officer, known as the Assistant Commissioner of Real Property, appointed by the mayor, and three other officers, known as Associate Commissioners of Real Property, who shall be the chairman of the city planning board, *ex officio*, and two other persons appointed by the mayor. The commissioner of real property and the assistant commissioner of real property shall each be appointed for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected and shall devote their whole time to the work. The associate commissioners first ap-

pointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of one associate commissioner, one year, and in the case of the other associate commissioner, two years, from May 1, 1954. As the term of any such associate commissioner, or of any subsequent appointive associate commissioner, expires, his successor shall be appointed by the mayor for a term of two years. Any vacancy in the office of an appointive associate commissioner shall be filled by the mayor for the unexpired term. The associate commissioners of real property shall receive no compensation for their services as such associate commissioners.

The real property board shall have the powers and perform the duties conferred or imposed on the board of real estate commissioners by chapter 434 of the acts of 1943, as amended, and by chapter 474 of the acts of 1946, as amended. The real property board shall also have the powers and perform the duties conferred or imposed by statute on the board of street commissioners in relation to the abatement of taxes. The real property board shall divide the real property department from time to time into such divisions as said board shall adjudge necessary for the proper conduct of the department.

Section 2. The mayor shall appoint from the real property board a committee consisting of the chairman and two other members to be known as the Committee on Foreclosed Real Estate. Said committee shall have the powers and perform the duties conferred or imposed by law on the committee on foreclosed real estate established under section 4 of chapter 434 of the acts of 1943.

Section 3. The commissioner of real property shall have the powers and perform the duties conferred or imposed on the chairman of the board of real estate commissioners by chapter 434 of the acts of 1943, as amended, and shall exclusively have the powers, and perform the duties, of a department head with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates for the real property department (and the several officers thereof), including an auctioneer, who shall have the powers and perform the duties prescribed for the auctioneer in the office of the board of real estate commissioners by section 2A of

chapter 652 of the acts of 1945 as amended by section 3 of chapter 633 of the acts of 1951, and including also a superintendent of markets, who, subject to the supervision and control of the assistant commissioner of real property, shall have the charge and control of Faneuil-hall market and Faneuil-hall market limits; shall preserve order therein; shall make such changes, and place or allow to be placed in said market such pipes, drains, and other appliances, as he may deem proper; and shall take and forthwith destroy any article of food which in his opinion is diseased, unwholesome, or tainted, and is kept for sale within such market limits. Said superintendent may assign stands within such market limits for the sale of provisions and other articles, and may, at the expense of the owner thereof, remove from one place or stand to another within such limits, or to, and to be kept in, a proper storage place until the expense is paid, any merchandise, vehicle or animal, not under the charge of any person, or not immediately so removed on the direction of said superintendent or his deputies.

Section 4. The assistant commissioner of real property shall have the care, custody and management of, shall make all repairs in and upon, and shall keep in repair the furniture of, all buildings and parts of buildings belonging to or hired by the city, not wholly in charge of one department, or for which no other provision is made by statute or ordinance, whether the same are used for city or county purposes, and may, with the approval of the mayor, hire such buildings or rooms as may be required for such purposes; shall have the care and control of the city hall and the city hall annex; shall have the care and custody of the flags belonging to the city hall and to the old state house; shall display the national flag upon the city hall on every day, except Sundays, weather permitting; shall have charge of all city property in the armories provided by the city for the militia; and shall cause to be included in the annual report of the real property board a statement of the kind and amount of city property in such armories, of all buildings belonging to or used by the city, and of the land and appurtenances thereof, of the condition of such buildings and land, and the nature and amount of the expenditures that have been made during the preceding year relative thereto.

Section 5. The assistant commissioner of real property shall have the care, custody and management of Faneuil hall, shall, weather permitting, every day except Sundays, display the national flag upon the building in which said hall is located, shall, upon vote of the city council approved by the mayor, permit the use of said hall, and shall be paid therefor in advance, for opening, heating, lighting, and closing said hall, unless such vote shall otherwise provide, in the daytime a fee of fifteen dollars and in the evening or on Sunday a fee of twenty-five dollars, and shall hold all persons signing the application for such permit jointly and severally liable for all damage done to said hall at or in connection with the meeting for which such permit is granted.

Section 6. The assistant commissioner of real property shall lease, from time to time, by instruments approved as to form by the corporation counsel and approved in writing by the mayor, the stalls, cellars, and second floor in Faneuil-hall market for terms of three years from October 1, 1953, and at the expiration of such leases for further terms of three years, at the rents established by the city council and upon such other terms and conditions as may be approved by the corporation counsel and the mayor.

Section 7. The assistant commissioner of real property shall have the care, custody and management of the Dillaway house, so called, in the Roxbury district of the city, may establish rules and regulations for the use and preservation of said house as a historical relic of the revolutionary war, and may, upon vote of the city council approved by the mayor, let or lease the whole or any part of said house to a historical society or other association organized for historical purposes.

Section 8. The assistant commissioner of real property shall designate, in the places named in orders of the city council, a suitable room to be used for a ward-room for the ward in which it is situated. If any such room cannot be so used at any time, said assistant commissioner shall provide accommodation elsewhere for any public meeting in such ward for which he shall issue a permit.

Section 9. The assistant commissioner of real property shall have the care and custody of, shall determine the use of, and provide for opening, closing, lighting, and heating the ward-rooms; shall frame and keep in

some conspicuous place therein a copy of this and the following section, and as soon as a list or a revised list of voters in a ward is prepared by the election commissioners shall keep posted or hung up a copy thereof in the ward-room of the ward in such a manner as to be readily accessible to the public, and such copies shall be altered, revised or removed only under the direction of the election commissioners or said assistant commissioner.

Section 10. The assistant commissioner of real property, when a written application (containing a copy of the call for a meeting notifying all persons who may be present that it will be subject to the provisions of this section) is made to him by not less than five legal voters of a ward for the use of a ward-room for the purpose of holding such meeting, and when he is paid such sum of money as will in his opinion be sufficient to defray the expense of opening, lighting, heating, and closing the ward-room during the time specified in the permit, may issue a permit for the use of such ward-room, which permit may at any time be revoked by the mayor. Said assistant commissioner shall specify in the permit the time and purpose of the meeting, and that the meeting will be subject to the following provisions, viz.: Only legal voters in the ward in which such meeting is held, and to whom no objection is made by the majority of such applicants as are present or by the presiding officer of such meeting, shall mark or vote, or remain at such meeting, and the members of the police force present shall keep the peace at such meeting, obey the lawful orders of, and remove such persons as shall be designated by, the majority of such applicants as are present, or after the election of a presiding officer of the meeting, such persons as shall be designated by such presiding officer. Said assistant commissioner shall request the police commissioner to detail police sufficient to enforce such provisions.

SECTION 59. Chapter 28 of the Revised Ordinances of 1947 is hereby repealed; and the real estate department, including the board of real estate commissioners, is hereby abolished; and the powers, duties and appropriations of the real estate department, the board of real estate commissioners, the committee on foreclosed real estate, and the chairman of said board are hereby respectively transferred to the real property department, the real property board, the committee on

foreclosed real estate, and the commissioner of real property created by section 58 of this ordinance.

SECTION 60. Chapter 29 of the Revised Ordinances of 1947 is hereby repealed; and the registry department, including the office of city registrar, is hereby abolished; and the powers, duties and appropriations of the city registrar with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the health commissioner; and all other powers, duties and appropriations of the registry department are hereby transferred to the registry division created in the health department by section 31 of this ordinance.

SECTION 61. Chapter 31 of the Revised Ordinances of 1947 is hereby repealed; and the sinking funds department, including the board of commissioners of sinking funds, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the board of commissioners of sinking funds created in the treasury department by section 64 of this ordinance.

SECTION 62. Chapter 33 of the Revised Ordinances of 1947, as amended by chapter 7 of the Ordinances of 1950, is hereby repealed; and the street laying out department, including the board of street commissioners, is hereby abolished; and the powers and duties conferred or imposed on the board of street commissioners by chapter 148 of the General Laws, as amended, by chapter 577 of the acts of 1913, as amended, by chapter 488 of the acts of 1924, as amended, and by chapter 349 of the acts of 1953, and the appropriations of the street laying out department pertaining to all such powers and duties, are hereby transferred to the committee on licenses created in the public safety commission by section 25 of this ordinance; and the powers and duties conferred or imposed by statute on the board of street commissioners in relation to the abatement of taxes, and the appropriations of the street laying out department pertaining to such powers and duties, are hereby transferred to the real property department created by section 58 of this ordinance; and the powers, duties and appropriations of the street laying out department in relation to all engineering work and the custody of all surveys and plans pertaining to the laying out, relocating, altering, widening, constructing, making

specific repairs on, and discontinuing public ways and alleys, and the powers and duties of the board of street commissioners in relation to the designation of streets for coasting, the planting and removal of trees in the public ways, the use of public ways for any temporary obstruction or projection in, under, or over the same, and the use of parts of public ways for the storage and sale of merchandise, and the appropriations of the street laying out department pertaining to all such powers and duties, are hereby transferred to the public works department; and all other powers and duties of the board of street commissioners, and all other appropriations of the street laying out department, are hereby transferred to the public improvement commission created in the public works department by section 57 of this ordinance.

SECTION 63. Chapter 35 of the Revised Ordinances of 1947 is hereby repealed.

SECTION 64. The Revised Ordinances of 1947 are hereby amended by striking out chapter 36, as amended by chapter 4 of the Ordinances of 1948, and inserting in place thereof the following chapter:—

CHAPTER 36.

TREASURY DEPARTMENT.

* *Section 1.* There shall be in the city a department, known as the Treasury Department, which shall be under the charge of an officer, known as the Collector-Treasurer, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, who shall have the powers and perform the duties from time to time conferred or imposed on him by law, shall also have the powers and perform the duties conferred or imposed by law on the offices of city collector and city treasurer in existence immediately prior to the taking effect of this ordinance (including the powers and duties conferred or imposed by section 7 of chapter 434 of the acts of 1943), and shall further have the powers and perform the duties from time to time conferred or imposed on collectors of taxes and treasurers of cities in Massachusetts by general laws applicable to Boston. The collector-treasurer shall divide the treasury department from time to time into such divisions as he shall adjudge necessary for the proper conduct of the department.

* Section 1 amended by Ordinances of 1954, chapter 6, section 2.

** Section 2.* The collector-treasurer may, with the written approval of the mayor in each instance, appoint three assistant collector-treasurers, each of whom shall be sworn to the faithful performance of his duties and shall perform under the direction of the collector-treasurer such duties as shall from time to time be assigned to him by the collector-treasurer. Any assistant collector-treasurer may, at such times as he shall have been so authorized by written designation signed by the collector-treasurer, approved by the mayor and filed with the city clerk and such authorization shall not have been revoked in like manner, exercise the powers and perform the duties of collector-treasurer in relation to such matters as may be specified in such designation.

Section 3. The collector-treasurer may appoint such deputy collectors (including a chief deputy collector) as the service may be found to require, who shall have like power as the collector-treasurer to receive any tax, assessment, account, debt or claim payable to the city or county and to serve any bill, demand, notice or other paper of the collector-treasurer and make affidavit of the manner of such service, and, in addition thereto, shall have power to give notice of, serve and execute any warrant committed to him by the collector-treasurer under section 34 of chapter 60 of the General Laws, and in the service and execution thereof shall have all the powers and duties of a collector of taxes.

Section 4. The collector-treasurer shall require from each of his subordinates, before each enters upon the duties of his office or position and annually thereafter and at such other times as the collector-treasurer shall determine, for the faithful discharge of his duties and trusts and the safe custody and lawful disposition of all money and other property belonging to the city or county which may come into his possession, a bond running to the collector-treasurer with a surety company authorized to transact business in Massachusetts as surety in the penal sum, in the case of an assistant collector-treasurer, of two hundred thousand dollars, and in the case of every other permanent employee, of not less than five, nor more than fifty, thousand dollars as the collector-treasurer shall in each case prescribe.

Section 5. The collector-treasurer shall collect and receive all taxes and assessments payable to the city or

* Section 2 amended by Ordinances of 1954, chapter 6, section 1.

county, whether committed to him or outstanding at the time of his appointment. He shall also collect and receive all accounts, debts and claims payable to the city or county, and in the collection thereof shall have all the remedies provided by sections 35, 36 and 93 of chapter 60 of the General Laws. He shall further collect and receive, except where other provision is made, all other money to be paid to, or for the use of, the city or the county. He shall have custody of all leases from the city. He shall, whenever a water rate is paid, immediately notify the commissioner of public works of such payment.

Section 6. The collector-treasurer shall receive, receipt for, and have the care and custody of, the current funds of the city from the time the same shall come into his possession, and also of all money, property, and securities which may come into his possession by virtue of any statute or ordinance, or as a gift, devise, bequest, or deposit; may deposit any portion of such current funds in such savings banks or trust companies organized under the laws of Massachusetts and doing business in Boston or such national banks doing business in Boston or such national bank or trust company in the city of New York, and on such conditions and rates of interest, as he shall deem best, subject to the approval of the mayor, provided, however, that no such deposit shall be made except in conformity with law; shall, with the mayor and the city auditor, sign all bonds and certificates of indebtedness issued by the city; shall preserve all bids for loans, and papers relating thereto; and shall, if elected, serve as treasurer of the board of commissioners of sinking funds. If the collector-treasurer is elected treasurer of said board, his bond as collector-treasurer shall apply to and include his duties as treasurer of said board. The collector-treasurer shall not be eligible for appointment to said board.

Section 7. The collector-treasurer shall pay over to the board of commissioners of sinking funds all money received by him from assessments laid or to be laid on account of betterments from public improvements the expenses of which were paid for by the proceeds of loans, and all sums received from the sale or lease of city property purchased out of the proceeds of loans, except where provision to the contrary is made by statute or ordinance, to be by them credited to the sinking funds established for such loans, or in case of serial loans to

be held by them toward paying the installments as they fall due. The collector-treasurer shall also pay all drafts, checks and other orders directed to him by the city auditor, in accordance with these ordinances, for the payment of bills and demands against the city; shall on presentation pay every execution against the city, when approved by the corporation counsel, even if the appropriation to which the execution is chargeable is not sufficient to meet it; shall pay on presentation when due all bonds issued by the city and the interest on the same; shall cancel all bonds and coupons and daily deliver to the city auditor the bonds and executions paid during the day; shall at the close of business on the last day of each month deliver to the city auditor the coupons paid during such month and a statement of the total amount paid for interest during such month; and shall use and apply as the city council may direct all property, money and securities in his care and custody at the close of each financial year for the application of which no other provision has been made.

Section 8. The collector-treasurer shall, on or before the tenth day of each month, render to the mayor a statement of the receipts and payments of the treasury department for the preceding month and a summary of the like items for the current financial year up to the close of the preceding month.

Section 9. The collector-treasurer may make payments to school teachers, school building custodians, policemen, witnesses, jurors, and persons employed in and about the various departments and institutions of the city and of the county, in such of the public buildings in the different sections of the city, or upon such public works, as he may designate, and as will best facilitate such payments and prevent the loss of time by the persons receiving them.

Section 10. The collector-treasurer, unless the donors have otherwise directed, shall receive all properties given, devised or bequeathed to, or deposited with, the city for any specific purpose, and shall use the same, or the income thereof, as designated in the gift, devise, bequest or deposit. If the income only is to be used, he shall hold the properties as permanent funds. He shall invest and keep invested the said permanent funds in bonds, notes or certificates of indebtedness of the United States or of the commonwealth or of any city or town within the commonwealth. For the purpose of investment and

reinvestment he shall have power from time to time in his discretion to sell or exchange any of the securities of which any of the said permanent funds consist; but all purchases, exchanges and sales shall be with the written approval of the mayor.

Section 11. The collector-treasurer shall use the income of the police charitable fund for the relief of persons in necessitous circumstances who shall be found by the police commissioner to have been honorably discharged from the police force by reason of sickness, age or other disability, or to be the widows or orphans of police officers who have died while in the service of the city; and may monthly pay to such persons the amount of such income determined and allowed by the police commissioner, with the approval of the mayor, on a monthly payroll sent to the city auditor.

Section 12. There shall be in the treasury department a board, known as the Board of Commissioners of Sinking Funds, consisting of six commissioners appointed by the mayor. The commissioners first appointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of two commissioners, one year, in the case of two other commissioners, two years, and in the case of two other commissioners, three years, from May 1, 1954. As the term of any such commissioner, or of any subsequent commissioner, expires, his successor shall be appointed by the mayor for a term of three years. Vacancies in the board shall be filled by the mayor for the unexpired term. The members of the board of commissioners of sinking funds shall serve without compensation.

The board of commissioners of sinking funds shall not be subject to the supervision or control of the collector-treasurer; but unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the collector-treasurer.

The board of commissioners of sinking funds shall have the powers and perform the duties from time to time conferred or imposed on it by law, shall also have the powers and perform the duties conferred or imposed by law on the board of commissioners of sinking funds in existence immediately prior to the taking effect of this ordinance, and shall further have the powers and perform the duties from time to time conferred or im-

posed on sinking fund commissioners of cities in Massachusetts by general laws applicable to Boston. The board of commissioners of sinking funds shall, when a debt of the city becomes due, pay over to the collector-treasurer so much of the funds held as a sinking fund for such debt as may be required for the payment of such debt.

SECTION 65. The treasury department is hereby reorganized by abolishing the office of city treasurer and substituting therefor the office of collector-treasurer provided for by section 64 of this ordinance; and the powers, duties and appropriations of the city treasurer are hereby transferred to the collector-treasurer substituted for him.

SECTION 66. The Revised Ordinances of 1947 are hereby further amended by striking out chapter 37 and inserting in place thereof the following chapter:—

CHAPTER 37.

VETERANS SERVICES DEPARTMENT.

Section 1. There shall be in the city a department, known as the Veterans Services Department, which shall be under the charge of an officer, known as the Veterans Benefits and Services Commissioner, who shall be a veteran as defined in section 1 of chapter 115 of the General Laws, shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, and shall have the powers and perform the duties from time to time conferred or imposed by statute upon the soldiers' relief commissioner of Boston, veterans' agents appointed under section 3 of said chapter 115, and directors of veterans' services appointed under section 10 of said chapter 115.

Section 2. The veterans benefits and services commissioner may divide the veterans services department from time to time into such divisions as he may deem necessary for the proper conduct of the department, and, with the written approval of the mayor in each instance, may appoint such deputy, and such assistant, veterans benefits and services commissioners as he may from time to time deem necessary; provided, however, that no person other than a veteran as defined in said section 1 shall be eligible for such appointment.

Section 3. There shall be in the veterans services department an officer, known as the Supervisor of Veterans Graves and Registration, appointed by the mayor, who shall have the powers and perform the duties from time to time conferred or imposed by general laws applicable to Boston on persons appointed under section 9 of chapter 115 of the General Laws. The supervisor of veterans graves and registration shall not be subject to the supervision or control of the veterans benefits and services commissioner; but unless otherwise ordered by the mayor, such supervisor shall not communicate with the mayor, or make any annual or other report, except through such commissioner.

SECTION 67. The department of veterans services, including the offices of director of veterans services and commissioner of soldiers relief, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the veterans services department created by section 66 of this ordinance. The office of supervisor of veterans graves and registration in existence immediately prior to the taking effect of this ordinance is hereby also abolished; and the powers, duties and appropriations of said office are hereby transferred to the supervisor of veterans graves and registration created in the veterans services department by section 66 of this ordinance.

SECTION 68. The Revised Ordinances of 1947 are hereby further amended by inserting after chapter 37, as amended by section 66 of this ordinance, the following chapter:—

CHAPTER 37A.

WELFARE DEPARTMENT.

Section 1. There shall be in the city a department, known as the Welfare Department, which shall be under the charge of the overseers of the public welfare who shall have the powers and perform the duties from time to time conferred or imposed on them by law; shall have the powers and perform the duties conferred or imposed by statute on the directors of the house of industry, the board of directors for public institutions, the commissioners of public institutions, the institutions commissioner, the institutions registrar, the trustees for children, the pauper institutions trustees, the Boston infirmary trustees and the commissioner of institutions except in relation to matters within the jurisdiction of

the penal institutions commissioner, matters concerning the insane, and matters pertaining to Long Island and the institution thereon belonging to the city, including the viaduct between Long Island and Moon Island and the approaches to said viaduct; shall have the powers and perform the duties from time to time conferred or imposed on boards of public welfare of cities in Massachusetts by general laws applicable to Boston; shall have charge of the Charity building and temporary home on Chardon street, and the Lodge for Wayfarers on Hawkins street, and may make and enforce all such rules and regulations as they may deem expedient in relation thereto.

Section 2. Such person as the overseers of the public welfare may from time to time designate, after giving bond to the city in the penal sum of one hundred thousand dollars for the faithful discharge of his duties and trusts and the safe custody and lawful disbursement of all public money intrusted to him, which bond shall be executed by a surety company authorized to transact business in Massachusetts as surety, approved by the mayor, filed with the city auditor, and renewed annually and at such other times as the mayor shall determine, shall act as an authorized official of the city to disburse all relief, aid and assistance of every name and nature furnished by, or under the supervision of, the overseers; and all moneys appropriated for the purpose of furnishing such relief, aid and assistance and all moneys received by the city for such purposes shall, upon requisition made by the overseers with the approval of the city auditor and the mayor, be paid by the collector-treasurer to such authorized official for disbursement as aforesaid.

SECTION 69. Chapter 38 of the Revised Ordinances of 1947 is hereby repealed; and the weights and measures department, including the office of sealer of weights and measures, is hereby abolished; and the powers, duties and appropriations of the sealer of weights and measures with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the health commissioner; and all other powers, duties and appropriations of the weights and measures department are hereby transferred to the weights and measures division created in the health department by section 31 of this ordinance.

SECTION 70. Section 29 of chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out the words "director of markets" and inserting in place thereof the words "superintendent of markets".

SECTION 71. Section 31 of said chapter 40 is hereby amended by striking out the words "director of markets" and inserting in place thereof the words "superintendent of markets".

SECTION 85. Sections 32 and 33 of said chapter 41 are hereby repealed; and the board of recreation is hereby abolished; and the powers, duties and appropriations of said board with respect to the making of contracts and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the commissioner of parks and recreation created by section 37 of this ordinance; and all other powers, duties and appropriations of said board are hereby transferred to the parks and recreation department created by said section 37.

SECTION 86. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be con-

strued as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 87. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank, grade or compensation.

SECTION 88. Anything in this ordinance to the contrary notwithstanding, all rules, regulations, orders, votes and resolutions adopted, passed or promulgated by any board or officer abolished or reorganized by this ordinance shall, if in full force and effect when this ordinance takes effect, remain in full force and effect until amended, altered or repealed by the board or officer succeeding under this ordinance to the powers and duties of the board or officer so abolished or reorganized.

SECTION 89. Anything in section 3 of chapter 1 of the Revised Ordinances of 1947 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

SECTION 90. This ordinance shall take effect on the first day of the month next succeeding the month in which the annual budget for the current year shall become effective.

[Approved February 25, 1954.]

CHAPTER 3.

1953, and inserting in place thereof the following clause:—

* (2) The assessor of taxes, twelve thousand dollars; the two associate assessors of taxes, four thousand dollars each; the chairman of the board of review in the assessing department, ninety-five hundred dollars; and the other two members of said board, eighty-five hundred dollars each.

SECTION 3. The Revised Ordinances of 1947 are hereby further amended by striking out chapter 5, as amended, and inserting in place thereof the following chapter:—

CHAPTER 5.

ASSESSING DEPARTMENT.

Section 1. There shall be in the city a department, known as the Assessing Department, which shall be under the charge of an officer, known as the Assessor of Taxes, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. The assessor of taxes shall exclusively for the assessing department and the boards therein have the powers, and perform the duties, conferred or imposed by law on the board of assessors in existence immediately prior to the taking effect of this ordinance with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates. The assessor of taxes shall also have the powers and perform the duties conferred or imposed by statute on said board of assessors in relation to poll and motor vehicle excise taxes, and shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston in relation to poll and motor vehicle excise taxes.

Section 2. There shall be in the assessing department a board, known as the Board of Assessors, consisting of the assessor of taxes, ex officio, who shall be chairman of the board, and two other officers, known as Associate Assessors of Taxes, each of whom shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. Except as otherwise provided in sections one and three of this

* Amended by Ordinances of 1956, chapter 6.

chapter, the board of assessors shall have the powers and perform the duties conferred or imposed by statute on the board of assessors in existence immediately prior to the taking effect of this ordinance; and except as so provided, the board of assessors provided for by this section shall also have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston. The board of assessors provided for by this section shall not be subject to the supervision or control of the assessor of taxes except as he acts as chairman of said board; but unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes.

Section 3. There shall also be in the assessing department a board, known as the Board of Review, consisting of three members appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, one of whom shall from time to time be designated by the mayor as chairman of said board. The board of review shall have the powers and perform the duties conferred or imposed by statute on the board of assessors in existence immediately prior to the taking effect of this ordinance with respect to the abatement of taxes other than poll and motor vehicle excise taxes, and shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston with respect to abatement of taxes other than poll and motor vehicle excise taxes. The board of review shall not be subject to the supervision or control of the assessor of taxes; but, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes.

Section 4. Every application for abatement filed with the board of assessors with respect to a poll or motor vehicle excise tax shall be deemed to be filed with the assessor of taxes and shall be forthwith transmitted to him by said board; and every such application filed with said board with respect to a tax other than a poll or motor vehicle excise tax shall be deemed to

be filed with the board of review and shall be forthwith transmitted to said board by the board of assessors.

Section 5. The board of review shall be deemed to come within the terms "assessors" and "board of assessors" as used in any application for the abatement of, or in any appeal from a refusal (by failure to act or otherwise) to abate, or in any statute relating to the abatement of, or in any statute relating to an appeal from a refusal (by failure to act or otherwise) to abate, a tax other than a poll or motor vehicle excise tax.

SECTION 4. The board of assessors in existence immediately prior to the taking effect of this ordinance is hereby abolished; and the powers and duties of said board with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates, and the powers and duties of said board in relation to poll and motor vehicle excise taxes, and the appropriations of the assessing department pertaining to all such powers and duties, are hereby transferred to the assessor of taxes created by section 3 of this ordinance; and the powers and duties of said board with respect to the abatement of taxes other than poll and motor vehicle excise taxes, and the appropriations of the assessing department pertaining to such powers and duties, are hereby transferred to the board of review created by said section 3; and all other powers and duties of the board of assessors in existence immediately prior to the taking effect of this ordinance, and all other appropriations of the assessing department, are hereby transferred to the board of assessors created by said section 3.

SECTION 5. Section 19 of chapter 39 of the Revised Ordinances of 1947 is hereby amended by striking out, in the last sentence, the word "assessors" and inserting in place thereof the words "assessor of taxes".

SECTION 6. Section 20 of said chapter 39 is hereby amended by striking out, in the first sentence, the word "assessors" and inserting in place thereof the words "assessor of taxes".

SECTION 7. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in

a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 8. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or compensation.

SECTION 9. This ordinance shall take effect on the thirtieth day of June in the current year.

[Approved February 26, 1954.]

CHAPTER 4.

CONCERNING A CERTAIN ASSESSMENT FOR ENTERING PARTICULAR DRAINS OR SEWERS

SECTION 1. Section 10 of Chapter 27 of the Revised Ordinances of 1947 is hereby amended by striking out in the line 21 the word "two" and inserting in place thereof the word "three."

SECTION 2. This ordinance shall take effect upon its passage.

[Approved March 16, 1954.]

CHAPTER 5.

CONCERNING THE REMOVAL OF SNOW AND ICE.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out section 42 and inserting in place thereof the following section:—

SECTION 42. No owner or tenant of an estate abutting on a sidewalk shall place or suffer to remain for more than three hours between sunrise and sunset, any snow upon such sidewalk, or any ice upon such sidewalk unless such ice is made even and covered with sand, sawdust, or ashes, to prevent slipping; nor shall any person remove any ice or snow from privately owned property other than residential property and place it upon any sidewalk or roadway of any street. [*Approved March 23, 1954.*]

CHAPTER 6.

CONCERNING ASSISTANT COLLECTOR-TREASURERS.

SECTION 1. Chapter 36 of the Revised Ordinances of 1947, as appearing in section 64 of chapter 2 of the Ordinances of 1954, is hereby amended by striking out section 2 and inserting in place thereof the following section:—*Section 2.* There shall be in the treasury department a treasury division and a collecting division; and the collector-treasurer shall, with the written approval of the mayor in each instance, appoint for each division a first assistant collector-treasurer and a second assistant collector-treasurer, each of whom shall be sworn to the faithful performance of his duties. The first assistant collector-treasurer for each division, and in the event of his absence or disability or of vacancy in his office the second assistant collector-treasurer for such division, shall have charge under the collector-treasurer of such division. Each of said assistant collector-treasurers shall perform under the direction of the collector-treasurer such other duties as shall from time to time be assigned to him by the collector-treasurer, and may, at such times as he shall have been so authorized by written designation signed by the collector-treasurer, approved by the mayor and filed with the city clerk and such authorization shall not have been revoked in like manner, exercise the powers and perform the duties of collector-treasurer in relation to such matters as may be specified in such designation; provided, that a second assistant collector-treasurer may be authorized to exercise all the powers and perform all the duties of the collector-treasurer only when there is

absence or disability or vacancy in office in the case of the collector-treasurer, the first assistant collector-treasurer for the treasury division and the first assistant collector-treasurer for the collecting division.

SECT. 2. Section 1 of said chapter 36, as so appearing, is hereby amended by striking out the last sentence.

SECT. 3. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECT. 4. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or compensation.

SECT. 5. This ordinance shall take effect on the Wednesday next following its approval by the mayor.

[Approved July 22, 1954.]

ORDINANCES OF 1956

CHAPTER 1.

ESTABLISHING A PUBLIC HEALTH COUNCIL AND
ESTABLISHING ITS POWERS AND DUTIES.

Chapter 17 of the Revised Ordinances of 1947, as most recently amended by section 31 of chapter 2 of the Ordinances of 1954, is hereby further amended by inserting after section 3 the following section:

SECTION 3A. There shall also be in the health division a board, known as the Public Health Council, consisting of nine members appointed by the mayor, of whom at least one shall be a registered physician, one a registered dentist, one a representative of an industry engaged in handling food, one a representative of another industry, one a representative of labor, and one a housewife. The members of the public health council first appointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of three members, one year, in the case of three other members, two years, and in the case of three other members, three years, from May 1, 1956. As the term of any such member, or of any subsequent member, expires, his successor shall be appointed by the mayor for a term of three years. Any vacancy in the office of a member shall be filled by the mayor for the unexpired term. The mayor shall from time to time designate one of the members of the public health council as chairman and another as vice chairman. The members of the public health council shall serve without compensation.

It shall be the duty of the public health council (a) to make, upon its own initiative or at the request of the mayor, the director of administrative services or the health commissioner, studies and recommendations with respect to the organization, activities, policies, procedures and budget of the health division, (b) to review from time to time such rules and regulations of the

health commissioner as may then be in force and report to the health commissioner its findings with respect to the adequacy thereof and its recommendations, if any, for the amendment or repeal thereof or for new rules and regulations, and (c) to advise the health commissioner on such matters within the scope of his duties as he may refer to said council.

The public health council shall not be subject to the supervision or control of the health commissioner; nor shall it take part in the conduct of the executive or administrative business of the health department; but unless otherwise ordered by the mayor, it shall not communicate with the mayor, or make any annual or other report, except through the health commissioner.

[Approved March 27, 1956.]

CHAPTER 2.

FURTHER REGULATING COASTING IN THE STREETS.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out section 40, as amended by section 73 of chapter 2 of the Ordinances of 1954, and inserting in place thereof the following section:

Section 40. No person shall coast on any sled or other like vehicle in any street not designated therefor by the Boston traffic commission.

[Approved May 8, 1956.]

CHAPTER 3.

REORGANIZING THE ADMINISTRATIVE SERVICES DEPARTMENT AND CREATING THEREIN THE OFFICE OF SUPERVISOR OF BUDGETS.

SECTION 1. The first paragraph of section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is

hereby further amended by striking out clause (1) as appearing in section 3 of chapter 8 of the Ordinances of 1953, and inserting in place thereof the following clause:

(1) The director of administrative services, fifteen thousand dollars; the supervisor of budgets, ninety-five hundred dollars; the supervisor of personnel, ninety-five hundred dollars; and the purchasing agent, ninety-five hundred dollars.

SECTION 2. Section 1 of chapter 3A of the Revised Ordinances of 1947, as amended by section 13 of chapter 2 of the Ordinances of 1954, is hereby further amended by striking out the first two sentences and inserting in place thereof the following sentences:—There shall be in the city a department, known as the Administrative Services Department, which shall be under the charge of a board, known as the Administrative Services Board, consisting of an officer, known as the Director of Administrative Services, who shall be chairman of the board, an officer known as the Supervisor of Budgets, an officer known as the Supervisor of Personnel, an officer known as the Purchasing Agent, and the assessor of taxes, the city auditor and the collector-treasurer, *ex officiis*. The director of administrative services, the supervisor of budgets, the supervisor of personnel, and the purchasing agent shall each be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, and shall devote their whole time to the duties of their respective offices.

SECTION 3. Chapter 3A of the Revised Ordinances of 1947 is hereby amended by striking out section 3, as appearing in section 9 of chapter 8 of the Ordinances of 1953, and inserting in place thereof the following section:—

Section 3. The supervisor of budgets shall, under the direction of the mayor and in consultation with the director of administrative services, prepare in segregated form the annual and all supplementary budgets to be submitted by the mayor to the city council, and shall report to the mayor on all subsequent revisions of the items in any budget. The supervisor of budgets shall also prepare, under the direction of the mayor and in consultation with the director of administrative services, all transfer orders to be submitted by the mayor to the

city council under section 3B of chapter 486 of the acts of 1909. The supervisor of budgets shall further prepare, under the direction of the mayor and in consultation with the director of administrative services, the form of estimate sheets to be used by each officer, board and department, and each division of a department, for which the city appropriates money, and the form of monthly report of such officer, board and department, and each division thereof, showing expenditures to date of all appropriations by item. The supervisor of budgets shall, in addition, have the powers and perform the duties conferred or imposed on the budget commissioner by any statute other than section 56 of chapter 35 of the General Laws.

SECTION 4. The powers and duties conferred or imposed on the director of administrative services by section 3 of chapter 3A of the Revised Ordinances of 1947, as appearing in section 9 of chapter 8 of the Ordinances of 1953, and the appropriations relating to such powers and duties, are hereby transferred to the supervisor of budgets created by section 2 of this ordinance.

SECTION 5. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 6. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance,

be without a similar office or position or be reduced in rank or compensation.

SECTION 7. Anything in section 3 of chapter 1 of the Revised Ordinances of 1947 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

SECTION 8. This ordinance shall take effect on the Wednesday next following its approval by the mayor.

[Approved May 29, 1956.]

CHAPTER 4.

PROVIDING FURTHER AGAINST THE LITTERING OF STREETS.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out section 39 and inserting in place thereof the following six sections:

Section 39. No person in any public way, public alley or other public place under the charge of the commissioner of public works shall, whether in or upon a vehicle or on foot, deposit, drop or throw upon such way, alley or place or any roadway or walk thereof, and suffer to remain there, any filth, rubbish or other substance unless it is deposited, dropped or thrown into a receptacle provided for the purpose by the public works department.

Section 39A. No driver of any vehicle upon any public way, public alley or other public place under the charge of the commissioner of public works shall permit to drop or fall from such vehicle onto such way, alley or place or any roadway or walk thereof, and suffer to remain there, any substance except in the maintenance or repair of such way, alley or place.

Section 39B. No person shall sweep, throw or otherwise remove into any public way, public alley or other public place under the charge of the commissioner of public works, or into any roadway or walk of any of them, from any building or structure or from any land not constituting a part of such way, alley or place, any

filth, rubbish or other substance and suffer the same to remain there; provided, that filth, rubbish or other substance which by law or by arrangement is to be collected and removed by the public works department (whether through employees in its service or through an independent contractor acting for it) or by a person having a permit under section fourteen of this chapter or section 31A of chapter 111 of the General Laws, may, after five o'clock in the afternoon of the day preceding the scheduled time of such collection, be placed by the owner or occupant of an estate upon the sidewalk of any such way or alley abutting such estate in a covered metal receptacle or, if no garbage or putrescible matter or substance is included, in a securely tied bundle or in a receptacle with its contents so arranged that any light matter or substance is not likely to be scattered or blown about. No person placing a receptacle upon the sidewalk of any way or alley as aforesaid shall suffer the same to remain upon such way or alley or any roadway or walk thereof more than twelve hours after such collection.

Section 39C. No person shall in any public way, public alley or other public place under the charge of the commissioner of public works or upon any roadway or walk thereof rummage in or through rubbish or refuse of any kind or interfere with any bundle of rubbish or refuse or any receptacle containing rubbish or refuse.

Section 39D. No person shall deposit, drop or throw any filth, rubbish or other substance into a drum or other barrel with a diameter of more than twenty inches or a height of more than twenty-eight inches if by law or by arrangement such filth, rubbish or other substance is to be collected therefrom by the public works department (whether through employees in its service or through an independent contractor acting for it) or by a person having a permit under section fourteen of this chapter or section 31A of chapter 111 of the General Laws.

Section 39E. No person shall deposit, drop or throw into a drum or other barrel with a diameter of twenty inches or less and a height of twenty-eight inches or less any filth, rubbish or other substance which by law or by arrangement is to be collected therefrom by the public works department (whether through employees in its service or through an independent contractor

acting for it) or by a person having a permit under section fourteen of this chapter or section 31A of chapter 111 of the General Laws if such drum or barrel will thereby be filled so high that such filth, rubbish or other substance or any part thereof is likely to drop or fall from such receptacle while it is being moved in the process of such collection.

[Approved September 11, 1956.]

* CHAPTER 5.

VESTING IN THE PARKS AND RECREATION COMMISSION POWERS AND DUTIES RELATIVE TO THE MAINTENANCE OF CERTAIN PORTIONS OF DOCK, FANEUIL HALL AND POST OFFICE SQUARES.

Until otherwise provided, the parks and recreation commission shall improve, maintain, keep in repair, govern and regulate the portion of Post Office Square shown as "Proposed Island" on Street Laying-Out Department plan No. L-8503A entitled "City of Boston — Post Office Square — Boston Proper — Mar. 19, 1954 — James W. ORDINANCES OF 1957

CHAPTER 1

RELATIVE TO THE ISSUANCE OF LICENSES FOR CERTAIN
SPORTS AND GAMES ON THE LORD'S DAY, AND TO
THE FEE THEREFOR.

SECTION 1. Chapter 41 of the Revised Ordinances of 1947 is hereby amended by striking out section 25 and inserting in place thereof the following section:— *Section 25.* Whenever a license is granted under section 22 of chapter 136 of the General Laws and the applicant therefor has filed with the city clerk a policy, binder or certificate satisfactory in form to the corporation counsel and evidencing the maintenance of insurance insuring the applicant to the extent of not less than fifty thousand dollars for any one person and to the extent of not less than five hundred thousand dollars for any one accident, against legal liability for loss or damage on account of the injury or death of any person (other than a servant or agent of the applicant while covered by workmen's compensation insurance) while on or about the licensed premises or any street, way or sidewalk adjacent thereto, the city clerk shall issue the license, which shall be upon the condition prescribed by section 21 of chapter 3 of these ordinances and upon the further condition that the licensee —

(1) shall maintain such insurance in full force and effect during the term of the license;

(2) shall charge no more for admission to the licensed premises on the Lord's day, or for any seat anywhere therein on the Lord's day, than on a week day;

(3) shall neither permit any temporary seats or other obstruction of any kind or nature in any aisle, stairway or passageway of any grandstand, bleachers, or other structure on the licensed premises, nor allow any persons thereon or therein to remain in any aisle, stairway or passageway during the playing of any sport or game on said premises;

(4) shall permit any police officers detailed by the police department to enter and inspect said premises at all times and shall employ to preserve order on said premises such regular police officers as may be designated therefor by the police commissioner or the commanding officer of the division, and shall pay to the police commissioner for the services of such regular police officers such amount as shall be fixed by him; and

(5) shall permit to enter and be about said premises at all times such members of the fire department as shall be detailed by the fire commissioner to guard against fire, and shall allow such members of the fire department in case of fire on said premises to exercise exclusive control and direction of all employees and of all means and apparatus for the extinguishing of fire therein.

SECTION 2. Section 1 of chapter 40A of the Revised Ordinances of 1947, as appearing in section 2 of chapter 7 of the Ordinances of 1956, is hereby amended by striking out clause (301) and inserting in place thereof the following clause:—

(301) *Sunday Sports License.* The fee for a license granted by the city council with the approval of the mayor under section 22 of chapter 136 of the General Laws to conduct on Sunday at a designated playground, park or other place an outdoor athletic sport or game or an indoor hockey or basketball game shall be, for each Sunday for which such license is granted, a primary fee of \$10.00 and, if the licensee or a predecessor of the licensee has during a previous season conducted such sport or game in this city on a Sunday, an additional fee of \$5.00 for each thousand of the average Sunday paid attendance during the last previous season when such sport or game was so conducted.

CHAPTER 2.

CREATING IN THE CITY AN AUDITORIUM COMMISSION AND DEFINING ITS POWERS AND DUTIES.

The Revised Ordinances of 1947 are hereby amended by inserting after chapter 6 the following new chapter:

CHAPTER 6A.

AUDITORIUM COMMISSION.

SECTION 1. There shall be in the city a board known as the Auditorium Commission, consisting of five officers known as Auditorium Commissioners, who shall be residents of the City of Boston, appointed by the mayor as follows:—one from three candidates nominated by the City of Boston Hotel Association, one from three candidates nominated by the Boston Real Estate Board, one from three candidates nominated by the Greater Boston Chamber of Commerce, and two selected at large by the mayor. The auditorium commissioners first appointed shall serve, in the case of the commissioner appointed upon nomination of the City of Boston Hotel Association, for a term expiring five years, in the case of the commissioner appointed upon nomination of the Boston Real Estate Board, for a term expiring four years, in the case of the commissioner appointed upon nomination of the Greater Boston Chamber of Commerce, for a term expiring three years, in the case of one of the commissioners selected at large by the mayor, for a term expiring two years, and in the case of the other of the commissioners selected at large by the mayor, for a term expiring one year, from May 1, 1957. As the term of any such commissioner, or of any subsequent auditorium commissioner, expires, his successor shall be appointed in like manner as such commissioner for a term of five years. Vacancies in the board shall be filled in the same manner for the unexpired term. Auditorium commissioners shall serve without compensation, but shall be reimbursed for their traveling and other necessary expenses incurred in the performance of their duties.

SECTION 2. The auditorium commission shall construct, or cause to be constructed, the municipal auditorium authorized by chapter 164 of the acts of 1954, with an exhibition hall, assembly hall and accessory rooms suitable for exhibitions, conventions and other shows and gatherings in the city; shall contract for the care and management thereof after its completion; and for such purposes may, subject to the approval of the mayor, make such contracts and employ such experts, assistants and employees as they may think necessary or expedient.

[Approved April 30, 1957.]

CHAPTER 3.

CONCERNING THE LICENSING OF HACKNEY CARRIAGES

RULES OF THE CITY COUNCIL 1958-1959.

RULE 1. Unless otherwise ordered from time to time, and except on holidays, the regular meeting of the city council shall be held on every Monday at two o'clock P.M. Special meetings may be called by the president at his discretion, and by the city clerk for the purpose only of drawing jurors. No special meeting of the city council, except to draw jurors, shall be called, except with the consent of all the members, upon less notice than twenty-four hours from the time the notices are mailed or dispatched by special messenger.

QUORUM.

RULE 2. A quorum of the city council shall consist of five members. If, at the time any meeting is called to order, or if, during a meeting, on a vote on the adoption of a motion or order, a roll call shows less than a quorum present, the president may declare a recess of not more than ten minutes, after which time, if a quorum is not present, the meeting shall be adjourned. If, on the question of lack of a quorum a roll call shows less than a quorum present, the president shall declare the meeting adjourned.

PRESIDENT.

RULE 3. The president of the council shall take the chair at the hour to which the council shall have adjourned and shall call the members to order, and a quorum being present, shall proceed with the regular order of business. In the absence of the president the senior member by age present shall preside as temporary president, or until a presiding officer is chosen.

RULE 4. The president shall preserve decorum and order, may speak to points of order in preference to other members and shall decide all questions of order, subject to an appeal. Any member may appeal from the decision of the chair, but no appeal shall be considered unless properly seconded. No other business, except a motion to adjourn or to lay on the table, shall be in order until the question on appeal has been decided.

The question shall be put as follows:

"Shall the decision of the chair stand as the judgment of the council?" The vote shall be by a roll call, and it shall be decided in the affirmative unless a majority of the votes are to the contrary.

The president may, at any time, during debate or otherwise, declare a recess for not more than ten minutes, and such action shall not be subject to appeal, nor shall any motions apply thereto.

RULE 5. The president shall propound all motions in the order in which they are moved, unless the subsequent motion shall be previous in its nature, except that, in naming sums and fixing times, the largest sum and the longest time shall be put first.

RULE 6. The president shall, at the request of any member, make a division of a question when the sense will admit of it.

RULE 7. The president shall, without debate, decide all questions relating to priority of business to be acted upon.

RULE 8. The president shall declare all votes; but if any member doubts a vote, the president shall cause a rising vote to be taken, and, when two members so request, shall cause the vote to be taken or verified by yeas and nays.

RULE 9. The president shall appoint all committees, fill all vacancies therein, and designate the rank of the members thereof.

RULE 10. When the president of the council or the president *pro tempore* shall desire to vacate the chair he may call any member to it; but such substitution shall not continue beyond an adjournment.

MOTIONS.

RULE 11. Every motion shall be reduced to writing if the president shall so direct.

RULE 12. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost shall not preclude amendment, or a motion to strike out and insert.

RULE 13. No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.

Any motion, order or resolution which in the opinion of the presiding officer does not have a direct bearing on the business of the council shall be referred without debate to the committee on rules and shall not be further considered by the council except upon report by that committee. There shall be no appeal from the decision of the chair hereunder, and this rule shall not be subject to suspension. No motions shall apply, nor shall unanimous consent to speak on the matter so referred be in order.

The committee on rules may report that any motion, order or resolution so referred to it is out of order because not having a direct bearing on the business of the council, and its report shall be a final disposition of the matter, subject to an appeal which shall be governed by the same provisions as those governing appeals from rulings of the presiding officer.

RULE 14. When a petition, order or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the city council, such order or resolution shall, upon presentation, be referred to such committee. When a motion is made to refer any subject, and different committees are proposed, the motions shall be put in the following order:

1. To a standing committee of the council.
2. To a special committee of the council.

Any member offering a motion, order or resolution, which is referred to a committee, shall be given a hearing on the same by the committee before a report is made thereon, provided he so requests at the time of offering the order or before final action by the committee.

If, after thirty days, a matter referred to a committee other than a committee of all the members is not reported upon, it may be recalled by a standing vote of three members of the city council.

If, within thirty days, a matter referred to a committee other than a committee of all the members is not reported upon, it may be recalled by a majority vote of all the members.

If, after sixty days, a matter referred to a committee is not reported upon, any member may recall such matter from the committee, and such matter shall not again be committed to any committee other than the executive committee.

The provisions of this rule shall not apply to matters referred to the rules committee under Rule 13, and such matters shall not be considered except upon report by that committee.

RULE 15. After a motion has been put by the president it shall not be withdrawn except by unanimous consent.

RULE 16. When a question is under debate the following motions only shall be entertained, and shall have precedence in the order in which they stand arranged:

1. To adjourn.
2. To lay on the table.
3. The previous question.
4. To close debate at a specified time.
5. To postpone to a day certain.
6. To commit.
7. To amend.
8. To postpone indefinitely.

RULE 17. A motion to adjourn shall be in order at any time, except on an immediate repetition or pending a verification of a vote; and that motion, the motion to lay on the table, the motion to take from the table, and the motion for the previous question, shall be decided without debate.

READINGS.

RULE 18. Every ordinance, order and resolution, unless reported upon by a committee or rejected, shall have two several readings, both of which may take place at the same session unless objection is made, *provided, however*, that all orders for the expenditure of moneys, unless reported upon by a committee of the council, shall lie over for one week before final action thereon. Whenever the second reading immediately follows the first reading, the document may be read by its title only. All orders releasing rights or easements

in or restrictions on land, all orders for the sale of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two-thirds of all the members of the city council, and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first, except in cases in which a shorter period is authorized by law. Any order rescinding an order for any of the foregoing purposes shall require the same number of readings and of votes as was required for the passage of the original order.

RECONSIDERATION.

RULE 19. When a vote has been taken any member may move a reconsideration thereof at the same meeting. Debate on motions to reconsider shall be limited to twenty minutes, and no member shall occupy more than four minutes, but on a vote upon any subsidiary or incidental question, debate shall be limited to ten minutes, and no member shall occupy more than two minutes.

RULE 20. When a motion to reconsider has been decided, that decision shall not be reconsidered, and no question shall be twice reconsidered unless it has been amended after the reconsideration; nor shall any reconsideration be had upon the following motions:

To adjourn.

The previous question.

To lay on the table.

To take from the table.

To close debate at a specified time.

A motion to reconsider may be laid on the table or postponed indefinitely, and the effect of such action in either case shall be to defeat the motion to reconsider.

CONDUCT OF MEMBERS.

RULE 21. Every member when about to speak shall rise, address the chair, and wait until he is recognized, and, in speaking, shall refrain from mentioning any other member by name, shall confine himself to the question, shall not use unbecoming, abusive, or unparliamentary language, and shall avoid personalities.

Any member who, in debate or otherwise, indulges in personalities or makes charges reflecting upon the character of another member, shall make an apology in open session at the meeting at which the offence is committed or at the next succeeding regular meeting, and, failing to do so, shall be named by the president or held in contempt and suspended from further participation in debate until said apology is made.

RULE 22. No member shall speak more than once on a question when another member who has not spoken claims the floor, and no member speaking shall, without his consent, be interrupted by another, except upon a point of order.

RULE 23. No member shall be permitted to vote on any question, or to serve on any committee, where his private right is immediately concerned, distinct from the public interest.

RULE 24. Every member who shall be present when a question is put, unless he is excluded by interest, shall give his vote in the affirmative or negative or shall respond "present," unless the council for special reason shall excuse him from voting.

STANDING COMMITTEES.

RULE 25. The following standing committees of the council, and all other committees, unless specially directed by the council, shall be appointed by the president:

1. A committee, to be known as the *Executive Committee*, to consist of all the members of the council.

2. A committee on *Appropriations and Finance*, to consist of seven members of the council, to whom shall be referred such appropriation orders as may be submitted to the council from time to time, and all applications for expenditure which involve a loan.

3. A committee on *Claims*, to consist of five members of the council, to whom shall be referred all claims against the city arising from the act or neglect of any of its departments. They shall report annually an account of the claims awarded or approved by them, and the amount of money awarded or paid in settlements thereof.

4. A committee on *Confirmations*, to consist of five members of the council, to whom shall be referred all appointments which are required to be confirmed by the council.

5. A committee on *Hospitals*, to consist of five members of the council, to whom shall be referred all matters concerning hospitals.

6. A committee on *Inspection of Prisons*, to consist of five members of the council.

7. A committee on *Legislative Matters*, to consist of five members of the council, who shall, unless otherwise ordered, appear before the committees of the General Court and represent the interest of the city; *provided*, said committee shall not appear unless authorized by vote of the city council and shall not, unless directed so to do by the city council, oppose any legislation petitioned for by the preceding city council.

8. A committee on *Licenses*, to consist of five members of the council, to whom shall be referred all petitions for licenses and permits.

9. A committee on *Ordinances*, to consist of five members of the council, to whom shall be referred all ordinances or orders concerning ordinances.

10. A committee on *Public Housing*, to consist of five members of the council, to whom shall be referred all matters concerning public housing.

11. A committee on *Public Lands*, to consist of five members of the council, to whom shall be referred all matters relating to public lands.

12. A committee on *Public Services and Recreation*, to consist of five members of the council, to whom shall be referred all matters concerning public safety, public welfare, public works, parks, playgrounds and recreation.

13. A committee on *Rules*, to consist of five members of the council, to consider all matters concerning the rules, and to whom shall be referred all resolutions expressing opinions, principles, facts or purposes.

14. A committee on *Urban Redevelopment, Rehabilitation and Renewal*, to consist of five members of the council, to whom shall be referred all matters concerning urban redevelopment, rehabilitation and renewal.

ORDER OF BUSINESS.

RULE 26. At every regular meeting of the council the order of business shall be as follows:

1. Communications from his honor the mayor.
2. Presentation of petitions, memorials and remonstrances.

3. Reports of city officers, etc.
4. Unfinished business of preceding meetings.
5. Reports of committees.
6. Motions, orders and resolutions.

SPECTATORS.

RULE 27. No person, except a member of the council, shall, at any time, be permitted to occupy the seat, in the council chamber, of any member of the council. The city messenger shall enforce this rule.

RULE 28. No person, excepting officials connected with the city council, and duly assigned reporters of the daily newspapers, shall be allowed in the ante-rooms or upon the floor of the council chamber while the council is in session. Spectators will be allowed in the gallery of the council chamber when the council is in session, and no one will be admitted to said gallery after the seats are occupied. No demonstrations of approval or disapproval from the spectators shall be permitted, and if such demonstrations are made the gallery will be cleared. The city messenger shall enforce this rule.

BURIAL GROUNDS.

RULE 29. No permission for the use of land for the purpose of burial shall be granted until a public hearing shall have been given by the executive committee of the city council on the application for such permission, after due notice has been given abutters.

COMMITTEE MEETINGS.

RULE 30. No meeting of any committee shall, without the consent of all the members thereof, be called upon less notice than twenty-four hours from the time the clerk shall have mailed the notices or dispatched them by special messenger, *provided, however*, that meetings of the executive committee may be held in the recess period of any meeting of the council without such consent or notice. No committee, unless authorized by an order of the city council, shall incur any expense. No committee meetings shall be called later than one hour immediately preceding the time set for any regular meeting of the city council, nor shall any committee remain in session later than the hour named for any such regular meeting.

The clerk of committees shall mail notices of all committee meetings to all the members of the council.

FORM OF VOTES.

RULE 31. In all votes the form of expression shall be "Ordered" for everything by way of command, and the form shall be "Resolved" for everything expressing opinions, principles, facts or purposes.

TRANSFERS.

RULE 32. Every application for an appropriation to be provided for by transfer shall be referred to the executive committee, unless otherwise ordered, and no such appropriation shall be made until the said committee has reported thereon.

USE OF ROOMS ON COUNCIL FLOOR.

RULE 33. No person except members and officers of the city council and regularly assigned city hall reporters shall be admitted at any time to the president's room, the personal offices of the councillors, executive committee room or council chamber, except when invited on official business or accompanied by a member of the council.

CONFIRMATION OF APPOINTMENTS.

RULE 34. The question of confirming appointments by the mayor shall be decided by a yes and no ballot, unless otherwise ordered.

AMENDMENT AND SUSPENSION.

RULE 35. The foregoing rules shall not be altered, amended, suspended or repealed at any time, except by the votes of two-thirds of all the members of the city council.

IN CITY COUNCIL, February 3, 1958.

Adopted.

SEAL OF THE CITY
OF
BOSTON

THE CITY SEAL

As it appeared prior to 1827

The City Seal was adopted by "An Ordinance to Establish the City Seal," passed January 2, 1823, which provides "That the design hereto annexed, as sketched by John R. Penniman, giving a view of the City, be the device of the City Seal; that the motto be as follows, to wit: 'Sicut patribus sit Deus nobis'; and that the inscription be as follows:—'Bostonia condita, A.D. 1630. Civitatis regimine donata, A.D. 1822.'" The motto is taken from 1 Kings, viii, 57: "God be with us as He was with our fathers."

The seal as it first appeared is shown above.

The seal as it was afterwards changed, and has ever since continued to be used, was first shown on page 221 of the volume of laws and ordinances, commonly known as the "First Revision," published in 1827, and is established as the City Seal at the present time by Revised Ordinances of 1914, Chapter 1, Section 5, which provides that "The seal of the City shall be circular in form; shall bear a view of the City; the motto 'SICUT PATRIBUS SIT DEUS NOBIS,' and the inscription, 'BOSTONIA CONDITA, A.D. 1630. CIVITATIS REGIMINE DONATA A.D. 1822,' as herewith shown."

The seal as changed in 1827 is shown on the opposite page.

ORIGIN AND GROWTH OF BOSTON

THE Royal Patent incorporating the Governor and Company of Massachusetts Bay in New England passed the seals March * 4, 1628-29. At a General Court, or Meeting of the Company, on August * 29 of that year it was voted "that the Government and patent should be settled in New England." To that end Governor Winthrop led the Puritan Exodus in 1630. Soon after his arrival at Salem on June * 12, 1630, he proceeded with a large following to Charlestown, where a plantation had been established the summer before. The Assistants held three Courts at Charlestown in the interval, August * 23 to September * 28, inclusive. At their meeting on September * 7, they "ordered that Trimountaine shall be called Boston; Mattapan, Dorchester; and the towne upon Charles River, Waterton." Thus Shawmut of the Indians was named Boston, probably out of gratitude to the Merchants of Boston in Lincolnshire, who had subscribed generously to the stock of the Company.

In the latter part of August, Governor Winthrop with the patent chose Boston as his abiding place. The first "Court" held in Boston was a "General Court" on October * 19, "for establishing of the government." On October * 3, 1632, Boston was formally declared to be "the fittest place for publike meetings of any place in the Bay."

Boston was the first town in Massachusetts to become a city. It was incorporated February 23, 1822, by St. 1821, c. 110, adopted by the voters March 4, 1822. This act was revised by St. 1854, c. 448; amended by St. 1885, c. 266, again by St. 1909, c. 486, and again by St. 1948, c. 452 as amended by St. 1951, c. 376.

The neck of land called Boston, still called Boston Proper, contained perhaps 700 acres of land, judging from the 783 acres shown by the official survey of 1794. (In the interval 1630-37, Boston acquired jurisdiction over most of the territory now included in Chelsea, Winthrop, Revere, East Boston, Brookline, Quincy, Braintree, Randolph and Holbrook, besides certain islands in the harbor.) From 1637 till May 13, 1640,

when "Mount Woollaston" was set off as Braintree, Boston exercised jurisdiction over a territory of at least 40,000 acres. Within its present limits there are 30,598 acres, including flats and water.

Since 1640, grants of land have been made to Boston by the General Court as follows: (1) October * 16, 1660, 1,000 acres "for the use of a free schoole, layd out in the wilderness or North of the Merimake River" (in Haverhill), in 1664. (2) June * 27, 1735, in abatement of Province Tax, three townships, each six miles square, or 69,120 acres in all. These townships later became the Towns of Charlemont, Colrain, and Pittsfield. Boston sold its interest in them on June * 30, 1737, for £3,660. (3) June 26, 1794, a township of land in Maine (23,040 acres) "to build a public hospital." This tract was sold by the City April 6, 1833, for \$4,200.

Muddy River was set off as the Town of Brookline on November * 13, 1705, and Rumney Marsh was set off as the Town of Chelsea January * 8, 1739.

The principal annexations of territory included within the present limits of the City of Boston have been made as follows:

(1) Noddle's Island, by order of Court of Assistants, March * 9, 1636-37. (2) South Boston set off from Dorchester March 6, 1804, by St. 1803, c. 111. (3) Washington Village set off from Dorchester May 21, 1855, by St. 1855, c. 468. (4) Roxbury January 6, 1868, by St. 1867, c. 359, accepted September 9, 1867. Roxbury received its name by order of the Court of Assistants October * 8, 1630. It was incorporated as a city March 12, 1846, by St. 1846, c. 95, accepted March 25, 1846. (5) Dorchester January 3, 1870, by St. 1869, c. 349, accepted June 22, 1869. It received its name September * 7, 1630, by order of the Court of Assistants. (6) Brighton January 5, 1874, by St. 1873, c. 303, accepted October 7, 1873. Set off from Cambridge as the Town of Brighton February 24, 1807, by St. 1806, c. 65. (7) Charlestown January 5, 1874, by St. 1873, c. 286, accepted October 7, 1873. Settled July * 4, 1629. It was incorporated a City February 22, 1847, by St. 1847, c. 29, accepted March 10, 1847. (8) West Roxbury January 5, 1874, by St. 1873, c. 314, accepted October 7, 1873. It was set off from Roxbury and incorporated a Town May 24, 1851, by St. 1851, c. 250. (9) Hyde Park January 1, 1912, by St. 1911, c. 469, and 583, accepted November 7, 1911. Incorporated a Town April 22, 1868.

* Old Style.

CITY OF BOSTON.
IN CITY COUNCIL.

Ordered,—That the City Clerk be authorized, under the direction of the Committee on Rules, to prepare and have printed the Municipal Register for the current year; and that the Clerk of Committees be authorized to prepare and have printed a pocket edition of the Organization of the City Government; the expense of said register and organization to be charged to the appropriation for City Documents.

In City Council January 6, 1958. Passed.
Approved by the Mayor January 7, 1958.

INTRODUCTION

As a public document THE MUNICIPAL REGISTER is as old as the City of Boston itself, the first volume having been published in 1821, a year before the government of Boston changed from Town to City. Up to 1840 the title of the volume was: The Rules and Orders of the Common Council. From 1821 to 1829 the document contained merely a register of the City Council and a list of the officers.

In 1829 the City Charter was published as a part of the volume, and in 1830 the Acts relating to Boston, also the ordinances, were added. In 1832 the size of the volume was increased by the addition of an index to the contents. The volume published in 1822 contained fifteen pages and for the year 1840 there were eighty-eight pages, including three pages of index.

The title THE MUNICIPAL REGISTER was adopted in 1841 when the publication became more ambitious, incorporating in its pages the Rules and Orders of the Common Council, joint rules, ordinances of the City, statutes of the Commonwealth relating to the City, a list of the public schools, the City Government of 1841, the committees and departments (consisting at that time of the treasury, law, police, health, public land and buildings, lamps and bridges, fire, and public charitable institutions), and a list of the ward officers.

From 1842 to 1864 it also contained a list of the members of preceding City Governments, a necrological record of those members, the latest ordinances and the special statutes relating to the City. In 1851 a list of the annual orators was added, and in 1853 a map of

the City and the Rules of the Board of Aldermen. In 1876, statistics of registration and voting were included, carried from 1879 to 1924 in tabulated form.

From 1889 to 1896, inclusive, THE MUNICIPAL REGISTER also contained a compilation of the Charter with the revision of 1854 and the amendments of 1885 and thereafter. The Amended Charter of 1909 (15 pages) was added in 1910, and the various changes since that year have been indicated by footnotes.

In 1924 the important amendments to the Charter enacted in that year (10 pages) were included.

The 1925 volume contained, as the latest addition, descriptions of the ward boundaries as fixed for the 22 new wards (formerly 26) in December, 1924.

This volume contains the City Charter as amended by Stat. 1948, Chap. 452, and Stat. 1951, Chap. 376, commonly known as Plan A, including subsequent changes.

CURRENTLY OPERATIVE PROVISIONS
OF
CHAPTER 452 OF THE ACTS OF 1948
AS AMENDED BY
CHAPTER 376 OF THE ACTS OF 1951,
INCLUDING SUBSEQUENT CHANGES.

GENERAL PROVISIONS.

SECTION 1. The following words as used in this act shall, unless the context otherwise requires, have the following meanings:

"City", the city of Boston.

"Board of election commissioners", the board of election commissioners of the city of Boston.

"Regular municipal election", the biennial election held for electing officers of the city as provided in this act.

"Preliminary election", the election held for the purpose of nominating candidates whose names shall appear on the official ballot at a municipal election.

"Proportional representation", any proportional representation method of election authorized by chapter fifty-four A of the General Laws.

"Present form of city government", the form of city government in effect in the city when it first adopts one of the three optional plans of government provided in this act.

SECT. 2. The city, in the manner hereinafter prescribed, may adopt from time to time at any regular municipal election any one of the optional plans of government provided in this act and shall thereafter be governed by the provisions of the plan so adopted until said provisions are superseded by the adoption of another plan under this act. The inhabitants of the city shall continue to be a municipal corporation under the name existing at the time of the adoption of any plan provided in this act, and shall have, exercise and enjoy all the rights, immunities, powers and privileges, and be subject to all the duties, liabilities and obligations provided for in this act, or otherwise pertaining to or incumbent upon said city as a municipal corporation.

None of the legislative powers of the city shall be abridged or impaired by this act; but all such legislative powers shall be possessed and exercised by such body as shall be the legislative body of the city under this act.

Whenever one of the plans provided for in this act shall be adopted, all ordinances, resolutions, orders or other regulations of the city or of any authorized body or official thereof, existing at the time when the city

adopts such plan, and not inconsistent with the provisions of the plan adopted, shall continue in full force and effect until repealed, modified, suspended or superseded, and all acts and parts of acts relating to the city, so far as inconsistent with the plan adopted shall be inoperative.

* * * * *

SECT. 6. Whenever one of the plans provided in this act shall be adopted, it shall continue in force for a period of at least four years from the beginning of the terms of office of the officials elected thereunder; and no petition proposing another of said plans shall be filed until after three years from the beginning of said terms of office.

* * * * *

SECT. 8. Whenever one of the plans provided in this act shall be adopted, the terms of office of all elective officers in office, and the position of city manager if there be one, shall terminate at ten o'clock in the forenoon on the first Monday of January following the first municipal election held in accordance with the provisions of the plan so adopted.

SECT. 9. Whenever one of the plans provided in this act shall be adopted, the fiscal year of the city shall begin on January first and shall end on December thirty-first next following; and the municipal year thereof shall begin on the first Monday in January and shall continue until the first Monday of the January next following.

PLAN A. GOVERNMENT BY MAYOR, CITY COUNCIL, AND SCHOOL COMMITTEE, ELECTED AT LARGE WITH PRELIMINARY ELECTIONS.

(Plan A was adopted by the voters of the City of Boston at the Municipal Election held November 8, 1949, Yes, 146,162, No, 73,882.)

SECT. 10. The form of government provided in sections eleven to twenty, inclusive, and the method of nominating and electing officials thereunder provided in sections fifty-three to sixty-five, inclusive, shall constitute and be known as Plan A under this act. When Plan A is adopted, said sections eleven to twenty, inclusive, and fifty-three to sixty-five, inclusive, shall become and be operative, subject to the provisions of section four.

SECT. 11. There shall be in the city a mayor who shall be the chief executive officer of the city, a city council of nine members which shall be the legislative body of the city, and a school committee of five members which shall have the powers and duties conferred and imposed by law.

SECT. 11A. Every person elected mayor and every person elected or chosen city councillor or school committeeman shall, before entering upon the duties of his office, take, and subscribe in a book to be kept by the city clerk for the purpose, the oath of allegiance and oath of office prescribed in the constitution of this commonwealth and an oath to support the constitution of the United States. Such oaths shall be administered, to a person elected mayor, by a justice of the supreme judicial court, a judge of a court of record commissioned to hold such court within the

city or a justice of the peace, and to a person elected or chosen city councillor or school committeeman, by the mayor or any of the persons authorized to administer said oaths to a person elected mayor.

SECT. 11B. Whenever the mayor is absent from the city or unable from any cause to perform his duties, and whenever there is a vacancy in the office of mayor from any cause, the president of the city council, while such absence, inability or vacancy continues, shall perform the duties of mayor. If there is no president of the city council or if he also is absent from the city or unable from any cause to perform such duties, they shall be performed, until there is a mayor or president of the city council or the mayor or president of the city council returns or is able to attend to said duties, by such member of the city council as that body by a vote which, for the purposes of section seventeen D, shall be deemed to be a vote electing an official, may elect, and until such election by the city clerk. The person upon whom such duties shall devolve shall be called "acting mayor" and he shall possess the powers of mayor only in matters not admitting of delay, but shall have no power to make permanent appointments.

SECT. 12. At the next regular municipal election following the adoption of Plan A and at every second regular municipal election after a regular municipal election at which a mayor is elected, a mayor shall be elected at large to hold office for the four municipal years following the municipal year in which he is elected and thereafter until his successor is elected and qualified.

SECT. 13. If a vacancy occurs in the office of mayor within sixteen weeks prior to a regular municipal election other than a regular municipal election at which a mayor is elected, or within sixteen months after a regular municipal election, or if there is a failure to elect a mayor or a person elected mayor resigns or dies before taking office, the city council shall forthwith adopt an order calling a special municipal election for the purpose of electing at large a mayor for the unexpired term, which election shall be held on such Tuesday, not less than one hundred and twenty days nor more than one hundred and forty days after the adoption of such order, as the city council shall in such order fix. If a vacancy occurs in the office of the mayor at any other time, a mayor shall be elected at large at the next regular municipal election to hold office for a term expiring at ten o'clock in the forenoon on the first Monday of the fourth January following his election. A person elected mayor under either of the foregoing provisions shall take and subscribe the oaths required by section eleven A as soon as conveniently may be after the issuance to him of his certificate of election. Such person shall hold office from the time of taking and subscribing such oaths until the expiration of his term and thereafter until his successor is elected and qualified. The provisions of this section shall not apply if a vacancy occurs in the office of mayor in the period beginning on the date of a regular municipal election at which a new mayor is elected and ending at the time he takes office.

SECT. 13A. The mayor shall be paid an annual salary of twenty thousand dollars or such other sum as may from time to time be fixed by ordinance. The mayor shall not receive for his services any other compensation or emolument whatever; nor shall he hold any other office of emolument under the city government.

SECT. 14. At the next regular municipal election following the adoption of Plan A and at every regular municipal election thereafter, there shall be elected at large nine city councillors, each to hold office for the two municipal years following the municipal year in which he is elected.

SECT. 15.* If at any time a vacancy occurs in the city council from any cause, the city clerk shall forthwith notify the city council thereof; and within fifteen days after such notification, the remaining city councillors shall choose, as city councillor for the unexpired term, whichever of the defeated candidates for the office of city councillor at the regular municipal election at which city councillors were elected for the term in which the vacancy occurs, who are eligible and willing to serve, received the highest number of votes at such election, or, if there is no such defeated candidate eligible and willing to serve, a registered voter of the city duly qualified to vote for a candidate for the office of city councillor. If at a regular municipal election there is a failure to elect a city councillor or if a person elected city councillor at such an election resigns or dies before taking office, the city clerk shall, as soon as conveniently may be after the remaining city councillors-elect take office, notify the city council of such failure to elect, resignation or death; and within fifteen days after such notification, the members thereof shall choose, as city councillor for the unexpired term, whichever of the defeated candidates for the office of city councillor at such election, who are eligible and willing to serve, received the highest number of votes at such election, or, if there is no such defeated candidate eligible and willing to serve, a registered voter of the city duly qualified to vote for a candidate for the office of city councillor. If in any of the aforesaid events a choice is not made as hereinbefore provided within fifteen days after the notification of the city council by the city clerk, the choice shall be made by the mayor, or, if there is no mayor, by the city councillor senior in length of service, or, if there be more than one such, by the city councillor senior both in age and length of service. For the purposes of section seventeen D, votes of the city council under this section shall be deemed to be votes electing officials.

SECT. 16. Every city councillor shall be paid an annual salary of five thousand dollars; and no other sum shall be paid from the city treasury for or on account of any personal expenses directly or indirectly incurred by or in behalf of any city councillor.

SECT. 17. The city council shall be the judge of the election and qualifications of its members; shall elect from its members by vote of a majority of all the members a president who when present shall preside at the meetings thereof; and shall from time to time establish rules for its

* Sect. 15 as amended by Stat. 1952, Chap. 190.

proceedings. The member eldest in years shall preside until the president is chosen, and in case of the absence of the president, until a presiding officer is chosen.

SECT. 17A. The mayor may, whenever in his judgment the good of the city requires it, summon a meeting or meetings of the city council although said council stands adjourned to a more distant day, and shall cause suitable written notice of such meeting or meetings to be given to the city councillors.

SECT. 17B. The city council may, subject to the approval of the mayor, from time to time establish such offices, other than that of clerk, as it may deem necessary for the conduct of its affairs and at such salaries as it may determine, and abolish such offices or alter such salaries; and without such approval may fill the offices thus established and remove the incumbents at pleasure. The city clerk shall act as clerk of the city council.

SECT. 17C. All elections by the city council under any provision of law, including the choosing of a city councillor under section fifteen, shall be made by a *viva voce* vote, each member who is present answering to his name when it is called by the clerk or other proper officer, and stating the name of the person for whom he votes, or declining to vote, as the case may be; and the clerk or other proper officer shall record every such vote. No such election shall be valid unless it is made as aforesaid.

SECT. 17D. Every order, ordinance, resolution and vote of the city council (except special municipal election orders adopted under section thirteen, votes relating to the internal affairs of said council, resolutions not affecting legal rights, votes electing officials, and votes confirming appointments by the mayor) shall be presented to the mayor for his approval. If he approves it, he shall sign it; and thereupon it shall be in force. If he disapproves it, he shall, by filing it with the city clerk with his objections thereto in writing, return it to the city council which shall enter the objections at large on its records. Every order, ordinance, resolution and vote authorizing a loan or appropriating money or accepting a statute involving the expenditure of money, which is so returned to the city council, shall be void, and no further action shall be taken thereon; but the city council shall proceed forthwith to reconsider every other order, ordinance, resolution and vote so returned, and if, after such reconsideration, two thirds of all the city councillors vote to pass it notwithstanding the disapproval of the mayor, it shall then be in force; but no such vote shall be taken before the seventh day after the city council has entered the objections at large on its records. Every order, ordinance, resolution or vote required by this section to be presented to the mayor which, within fifteen days after such presentation, is neither signed by him nor filed with his written objections as hereinbefore provided, shall be in force on and after the sixteenth day following such presentation.

Every order, ordinance, resolution or vote required by this section to be presented to the mayor shall be approved as a whole or disapproved

as a whole; except that, if the same authorizes a loan or appropriates money, the mayor may approve some of the items in whole or in part and disapprove other of the items in whole or in part; and such items or parts of items as he approves shall, upon his signing the same, be in force and such items or parts of items as he disapproves by filing with the city clerk his written objections thereto shall be void, and such items or parts of items as he neither signs nor so disapproves within fifteen days after the order, ordinance, resolution or vote shall have been presented to him shall be in force on and after the sixteenth day following such presentation.

SECT. 17E. The mayor from time to time may make to the city council in the form of an ordinance or loan order filed with the city clerk such recommendations other than for school purposes as he may deem to be for the welfare of the city. The city council shall consider each ordinance or loan order so presented and shall either adopt or reject the same within sixty days after the date when it is filed as aforesaid. If such ordinance or loan order is not rejected within said sixty days, it shall be in force as if adopted by the city council unless previously withdrawn by the mayor. Nothing herein shall prevent the mayor from again presenting an ordinance or loan order which has been rejected or withdrawn. The city council may originate an ordinance or loan order and may reduce or reject any item in any loan and, subject to the approval of the mayor, may amend an ordinance. All sales of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two thirds of all the city councillors and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first, except that in the case of loan orders for temporary loans in anticipation of taxes the second of said readings and votes may be had not less than twenty-four hours after the first. No amendment increasing the amount of land to be sold or the amount to be paid for the purchase of land, or the amount of loans, or altering the disposition of purchase money or of the proceeds of loans shall be made at the time of the second reading and vote. If a petition signed by three city councillors requesting that action be taken forthwith upon a loan order presented by the mayor is filed in the office of the city clerk not earlier than fourteen days after the presentation of such loan order, action shall be taken by the yeas and nays on the question of the adoption of such loan order at the next meeting of the council, or, if one vote has already been taken thereon, at the next meeting after the expiration of the required interval after such vote; provided, that such action thereon has not sooner been taken or such loan order has not been withdrawn by the mayor.

SECT. 17F. The city council at any time may request from the mayor specific information on any municipal matter within its jurisdiction, and may request his presence to answer written questions relating thereto at a meeting to be held not earlier than one week from the date of the

receipt of said questions, in which case the mayor shall personally, or through a head of a department or a member of a board, attend such meeting and publicly answer all such questions. The person so attending shall not be obliged to answer questions relating to any other matter. The mayor at any time may attend and address the city council in person or through the head of a department, or a member of a board, upon such subject as he may desire.

SECT. 17G. Except as otherwise provided in chapter four hundred and eighty-six of the acts of nineteen hundred and nine, neither the city council nor any member, committee, officer or employee thereof shall directly or indirectly on behalf of the city or of the county of Suffolk take part in the employment of labor, the making of contracts, or the purchase of materials, supplies or real estate; nor in the construction, alteration, or repair of any public works, buildings, or other property; nor in the care, custody, or management of the same; nor in the conduct of the executive or administrative business of the city or county; nor in the appointment or removal of any city or county employee; nor in the expenditure of public money except such as may be necessary for the contingent and incidental expenses of the city council. Any person violating any provision of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both.

SECT. 17H. No city councillor nor any person elected city councillor shall, during the term for which he is elected or chosen, be appointed to, or hold, any office or position which is under the city government or the salary of which is payable out of the city treasury except the office of city councillor and any office held ex officio by virtue of being a member, or president, of the city council; provided, however, that nothing herein contained shall prevent a city councillor or any person elected city councillor from, during the term for which he is elected or chosen, being appointed by the governor, with or without the advice and consent of the council, to, and holding, any such office or position if before entering upon the duties of such office or position he resigns as city councillor or city councillor elect.

SECT. 18. At the next regular municipal election following the adoption of Plan A and at every regular municipal election thereafter, there shall be elected at large five school committeemen, each to hold office for the two municipal years following the municipal year in which he is elected.

SECT. 19.* If at any time a vacancy occurs in the school committee from any cause, the mayor, the president of the city council and the remaining school committeemen, meeting in joint convention, shall, within fifteen days after the vacancy arises, choose, as school committeeman for the unexpired term, whichever of the defeated candidates for the office of school committeeman at the regular municipal election at which school committeemen were elected for the term in which the vacancy

* Sect. 19 as amended by Stat. 1952, Chap. 190.

occurs, who are eligible and willing to serve, received the highest number of votes at such election, or, if there is no such defeated candidate eligible and willing to serve, a registered voter of the city duly qualified to vote for a candidate for the office of school committeeman. If at a regular municipal election there is a failure to elect a school committeeman or if a person elected school committeeman at such an election resigns or dies before taking office, within fifteen days after the remaining school committeemen-elect take office, such school committeemen and the then mayor and the then president of the city council shall meet in joint convention and choose, as school committeeman for the unexpired term, whichever of the defeated candidates for the office of school committeeman at such election, who are eligible and willing to serve, received the highest number of votes at such election, or, if there is no such defeated candidate eligible and willing to serve, a registered voter of the city duly qualified to vote for a candidate for the office of school committeeman.

SECT. 20. The members of the school committee shall meet and organize on the first Monday of January following their election. The school committee shall be the judge of the election and qualifications of its members. The members of the school committee shall serve without compensation.

NOMINATION AND ELECTION PROVISIONS UNDER PLAN A AND PLAN D.

SECT. 53. Every municipal officer required by sections twelve, thirteen, fourteen and eighteen to be elected at large shall be elected at a biennial municipal election, or, in the case of a mayor for an unexpired term, at a special municipal election, after, in either case, nomination at a preliminary municipal election, except as otherwise provided in section fifty-seven C. In sections fifty-three to sixty-five, inclusive, the term "regular election" shall be construed to refer to the biennial municipal election or the special municipal election, as the case may be, and the term "preliminary election" to the preliminary municipal election held for the purpose of nominating candidates for election at such regular election. Every preliminary election shall, unless dispensed with under said section fifty-seven C, be held on the sixth Tuesday preceding the regular election.

SECT. 54. Any person who is a registered voter of the city duly qualified to vote for a candidate for an elective municipal office therein may be a candidate for nomination to such office; provided, that a petition for the nomination of such person is obtained, signed and filed as provided in sections fifty-five, fifty-five A, and fifty-six, and signatures of petitioners thereon, to the number required by section fifty-six, certified as provided in section fifty-seven by the board of election commissioners, in sections fifty-five to sixty-five, inclusive, called the election commission.

SECT. 55. A nomination petition shall be issued only to a person subscribing after the thirteenth Tuesday, and before the eighth Tuesday,

preceding the preliminary election, in a book kept for that purpose by the election commission, a statement of candidacy in substantially the following form:—

THE COMMONWEALTH OF MASSACHUSETTS
CITY OF BOSTON

STATEMENT OF CANDIDACY.

I, (*name with first or middle name in full*), under the pains and penalties of perjury declare that I reside at (*street and number, if any*) in Ward (*number*) of the City of Boston; that I am a registered voter of said City duly qualified to vote for a candidate for the office hereinafter mentioned; that I am a candidate for nomination for the office of (*Mayor or City Councillor or School Committeeman*); that I request that my name be printed as such candidate on the official ballot to be used at the preliminary municipal election to be held on Tuesday, , 19 , for the purpose of nominating candidates for election to such office; and that I also request that my nomination petition contain the following statement (not exceeding eight words) concerning the elective public offices now or formerly held by me:—.....

.....

.....

.....
Signature of Candidate.

SECT. 55A. A nomination petition shall be issued by the election commission not later than twelve o'clock noon on the second day (Saturdays, Sundays and legal holidays excluded) after the subscription of a statement of candidacy, except that no such petition shall be issued before the eleventh Tuesday preceding the preliminary election. A nomination petition shall not relate to more than one candidate nor to more than one office. A nomination petition may state the elective public offices which the candidate holds or has held under the government of the commonwealth, the county of Suffolk or the city of Boston or in the congress as a representative or senator from the commonwealth; provided, that such statement shall not exceed eight words and shall, with respect to each such office, consist solely of the title, as hereinafter given, of such office, preceded, if the candidate is the then incumbent thereof, by the word "Present", otherwise, by the word "Former", and followed, if, but only if, the office is that of city councillor, by the words "at Large" or "for Ward (*here insert ward number in numerals, which shall be counted as one word*)", as the case may be. For the purposes of such statement, the titles of the elective public offices which may be stated shall be deemed to be as follows:—city councillor, school committeeman, mayor, district attorney, sheriff, register of deeds, register of probate, county clerk of superior (criminal) court, county clerk of superior (civil) court, county clerk of supreme judicial court, state representative, state senator, gov-

ernor's councillor, attorney general, state auditor, state treasurer, state secretary, lieutenant governor, governor, congressman, and United States senator.

If the candidate is a veteran as defined in section twenty-one of chapter thirty-one of the General Laws, his nomination petition may contain the word "Veteran", which, in the case of a candidate holding or having held elective public office as aforesaid, shall, for the purposes of this section and sections fifty-five, fifty-eight and sixty-two, be counted as a part of the statement concerning the elective public offices held by him, and, in the case of a candidate who does not hold and has never held elective public office as aforesaid, shall, for the purposes of said sections, be deemed to be a statement concerning the elective public offices held by him.

A nomination petition may consist of one or more sheets; but each sheet shall be in substantially the following form:—

THE COMMONWEALTH OF MASSACHUSETTS
CITY OF BOSTON

NOMINATION PETITION.

Whereas (*name of candidate*) residing at (*street and number, if any*) in Ward (*number*) of the City of Boston, (*here insert any lawfully requested statement concerning the elective public offices held by candidate*) is a candidate for nomination for the office of (*Mayor or City Councillor or School Committeeman*), the undersigned, registered voters of the City of Boston, duly qualified to vote for a candidate for said office, do hereby request that the name of said (*name of candidate*) as a candidate for nomination for said office be printed on the official ballot to be used at the preliminary municipal election to be held on Tuesday, _____, 19 ____.

Each of the undersigned does hereby certify that he or she has not subscribed (*if the petition relates to the office of mayor, here insert:—any other nomination petition for said office; if the petition relates to the office of city councillor, here insert:—more than eight other nomination petitions for said office; and if the petition relates to the office of school committeeman, here insert:—more than four other nomination petitions for said office*).

In case the above-named candidate withdraws his name from nomination or is found to be ineligible or dies, we authorize (*names and residences of a committee of not less than five persons*) or a majority thereof as our representatives to fill the vacancy in the manner prescribed by law.

Signatures of Nominators.	Residence January 1, 19 ____.	Ward.	Pre- cinct.	Present Residence.
(To be signed in person with name as regis- tered.)	(If registered after above date, residence when registered.)			

Every voter signing a nomination petition shall sign in person, with his name as registered, and shall state his residence on January first preceding, or his residence when registered if subsequent thereto, and the place where he is then living, with the street and number, if any; but any voter who is prevented by physical disability from writing may authorize some person to write his name and residence in his presence. No voter may sign as petitioner more than one nomination petition for the office of mayor, nor more than nine nomination petitions for the office of city councillor, nor more than five nomination petitions for the office of school committeeman. If the name of any voter appears as petitioner on more nomination petitions for an office than prescribed in this section, his name shall, in determining the number of petitioners, be counted, in the case of the office of mayor, only on the nomination petition sheet bearing his name first filed with the election commission, in the case of the office of city councillor, only on the nine nomination petition sheets bearing his name first filed with said commission, and, in the case of the office of school committeeman, only on the five nomination petition sheets bearing his name first filed with said commission. If the name of any voter appears as petitioner on the same nomination petition more than once, it shall be deemed to appear but once. The signature of any petitioner which is not certified by the circulator of the sheet as provided in the form set forth in section fifty-five A shall not be counted in determining the number of petitioners.

The separate sheets of a nomination petition may be filed all at one time or in lots of one or more from time to time, but shall all be filed with the election commission at or before five o'clock in the afternoon on the eighth Tuesday preceding the preliminary election. Every nomination petition sheet shall be filed by a responsible person, who shall sign such sheet and, if he is other than the candidate, add to his signature his place of residence, giving street and number, if any; and the election commission shall require satisfactory identification of such person.

The names of candidates appearing on nomination petitions shall, when filed, be a matter of public record; but no nomination petition shall be open to public inspection until the signatures on all nomination petitions for the same office have been certified.

SECT. 57. Upon the filing of each nomination petition sheet the election commission shall check each name to be certified by it on such sheet and shall certify thereon the number of signatures so checked which are the names of registered voters of the city qualified to sign the same; provided, however, that said commission shall not certify, in connection with a single nomination petition, a greater number of names than required by section fifty-six with one tenth of such number added thereto. Names not certified in the first instance shall not thereafter be certified on the same nomination petition. All nomination petitions not containing names certified pursuant to this section, to the number required by said section fifty-six, shall be invalid. The election commission shall complete the certification required by this section at or before five o'clock in the afternoon on the thirty-fourth day preceding the preliminary election.

SECT. 57A. A nomination petition which has been filed and is in apparent conformity with law shall be valid unless written objection thereto is made by a registered voter of the city. Such objection shall be filed with the election commission at or before five o'clock in the afternoon on the twenty-eighth day preceding the preliminary election. Objections filed with the election commission shall forthwith be transmitted by it to the Boston ballot law commission. Certification pursuant to section fifty-seven shall not preclude a voter from filing objections to the validity of a nomination petition.

SECT. 57B.* Any candidate may withdraw his name from nomination by a request signed and duly acknowledged by him; provided, however, that all withdrawals shall be filed with the election commission at or before five o'clock in the afternoon on the twenty-eighth day preceding the preliminary election. If a candidate so withdraws his name from nomination before five o'clock in the afternoon of the twenty-ninth day preceding the preliminary election, or is found to be ineligible or dies, the vacancy may be filled by a committee of not less than five persons or a majority thereof, if such committee be named and so authorized in the nomination petition; provided, however, that all certificates of substitution, except any certificate of substitution for a deceased candidate for mayor under Plan A, shall be filed with the election commission at or before five o'clock in the afternoon on said twenty-ninth day.

The certificate of substitution for a deceased candidate for mayor under Plan A shall be filed with the election commission (a) at or before five o'clock in the afternoon on the first Tuesday preceding the preliminary election if he dies on or before the second Friday preceding such election, (b) at or before five o'clock in the afternoon on the first Friday following the preliminary election if he dies after the second Friday preceding such election and before the closing of the polls at such election, (c) at or before five o'clock in the afternoon on the first Tuesday preceding the regular election if he dies after the closing of the polls at the preliminary election and on or before the second Friday preceding the regular election, and (d) at or before five o'clock in the afternoon on the first Friday following the regular election if he dies after the second Friday preceding such election and before the closing of the polls at such election; provided, however, that no certificate of substitution for such a deceased candidate shall be filed after the closing of the polls at the preliminary election unless such candidate, if living, would be deemed under either section fifty-seven C or sixty-one to have been nominated for the office of mayor under Plan A.

If a certificate of substitution for a deceased candidate for mayor under Plan A is filed at or before five o'clock in the afternoon on the first Tuesday preceding the preliminary election, the ballots for use at such election shall be printed with the name, residence and ward of the substitute in the place of the name, residence and ward of the deceased; and the voting machine ballot labels for use at such election, if not previously printed, shall be printed with the name, residence and ward of the substitute in the place of the name, residence and ward of the deceased,

*Sect. 57B as amended by Stat. 1958, Chap. 257.

and, if previously printed shall have a slip containing the name, residence and ward of the substitute pasted over the name, residence and ward of the deceased. If such a certificate is filed after five o'clock in the afternoon on the first Tuesday preceding the preliminary election, all ballots and voting machine ballot labels for use at such election shall bear the name, residence and ward of the deceased but shall be deemed as a matter of law to bear the name, residence and ward of the substitute in the place of the name, residence and ward of the deceased, and a vote for the deceased at such election shall be counted as a vote for the substitute. If such a certificate is filed at or before five o'clock in the afternoon on the first Tuesday preceding the regular election, the ballots for use at such election other than absent voting ballots shall be printed with the name, residence and ward of the substitute in the place of the name, residence and ward of the deceased; and the absent voting ballots for use at such election, if not previously printed, shall be printed with the name, residence and ward of the substitute in the place of the name, residence and ward of the deceased and, if previously printed, shall be deemed as a matter of law to bear the name, residence and ward of the substitute in the place of the name, residence and ward of the deceased so that a vote thereon for the deceased shall be counted as a vote for the substitute; and the voting machine ballot labels for use at such election, if not previously printed, shall be printed with the name, residence and ward of the substitute in the place of the name, residence and ward of the deceased, and, if previously printed, shall have a slip containing the name, residence and ward of the substitute pasted over the name, residence and ward of the deceased. If a candidate for mayor under Plan A in whose nomination petition a committee of not less than five persons or a majority thereof is authorized to fill a vacancy dies after the second Friday preceding the regular election and a certificate of substitution is not filed at or before five o'clock in the afternoon on the first Tuesday preceding such election, such election, so far, but only so far, as it is for the purpose of electing a person for the office of mayor, shall be postponed for four weeks and no vote cast for any candidate for mayor at the originally scheduled election shall be counted.

Every certificate of substitution shall state:—(1) the name of the substitute, (2) his residence, with street and number, if any, and ward, (3) the office for which he is to be a candidate, (4) the name of the original candidate, (5) the fact of his death, withdrawal or ineligibility, and (6) the proceedings had for making the substitution. The chairman and secretary of the committee shall sign and make oath to the truth of the certificate; and it shall be accompanied by the written acceptance of the candidate substituted. A certificate of substitution shall be open to objection in the same manner, so far as practicable, as a nomination petition.

SECT. 57C. On the first day, other than a legal holiday or Saturday or Sunday, following the expiration of the time for filing withdrawals and the final disposition of any objections filed, the election commission shall

post in a conspicuous place in the city hall the names, residences and wards of the candidates for nomination for mayor under Plan A and for city councillor and school committeeman under Plans A and D who have duly qualified as such candidates, as they are to appear on the official ballots to be used at the preliminary election, except as to the order of the names. If there are so posted the names of not more than two candidates for the office of mayor under Plan A, the candidates whose names are so posed shall be deemed to have been nominated for said office, and the preliminary election for the purpose of nominating candidates therefor shall be dispensed with; if there are so posted the names of not more than eighteen candidates for the office of city councillor under Plan A or D, the candidates whose names are so posted shall be deemed to have been nominated for said office, and the preliminary election for the purpose of nominating candidates therefor shall be dispensed with; and if there are so posted the names of not more than ten candidates for the office of school committeeman under Plan A or D, the candidates whose names are so posted shall be deemed to have been nominated for said office, and the preliminary election for the purpose of nominating candidates therefor shall be dispensed with.

SECT. 58. On the day of the posting provided for by section fifty-seven C, or as soon thereafter as conveniently may be, the election commission shall draw by lot the position of the candidates on the ballot. Each candidate shall have an opportunity to be present at such drawing in person or by one representative. As soon as conveniently may be after such drawing, the election commission shall cause the ballots to be printed. Said ballots shall, in addition to the directions and numbers provided for by section fifty-nine, contain, in the order drawn by the election commission, the names posted as aforesaid (except those of candidates deemed under section fifty-seven C to have been nominated), and no others, with a designation of residence and ward and the title and term of the office for which the person named is a candidate, and the statement, if any, contained in his nomination petition concerning the elective public offices held by him. Said ballots shall be official and no others shall be used at the preliminary election. Said ballots shall be headed as follows:

OFFICIAL PRELIMINARY MUNICIPAL ELECTION BALLOT.

Candidates for nomination for the offices of _____ in the
City of Boston at the preliminary municipal election to be held on
Tuesday, _____, 19 ____.

The heading of said ballots shall be varied in accordance with the offices for which nominations are to be made.

SECT. 59. At every preliminary election, and every regular election under Plan A, each voter shall be entitled to vote for not more than one candidate for the office of mayor, not more than nine candidates for the

office of city councillor, and not more than five candidates for the office of school committeeman. On the ballots and voting machine ballot labels for use at each of said elections, there shall, as a direction to the voter, be printed in capital letters, near the title of each office to be voted for, the words "VOTE FOR (*here insert in words the number of candidates specified in this section with respect to such office*)."

The election commission, when drawing under section fifty-eight the position on the ballot of the candidates for nomination at every preliminary election, shall draw the positions of all candidates for mayor, if any are to be drawn, before drawing the position of any candidate for city councillor or school committeeman and shall draw the positions of all candidates for city councillor, if any are to be drawn, before drawing the position of any candidate for school committeeman. The election commission shall number consecutively, regardless of office, all candidates drawn, — the candidate first drawn being assigned the number 1 and the candidate last drawn being assigned the last number assigned. No position shall be drawn for, nor shall any number be assigned to, any candidate deemed under section fifty-seven C to have been nominated; nor shall any number be assigned to any blank space provided under section sixty-four or to any sticker candidate, so called; and no vote by sticker, which term shall not be construed to include the slip provided for by section fifty-seven B, shall be counted if any candidate number appears thereon. The numbers assigned under this paragraph shall be separate and distinct from the alphabetical or numerical code of any voting machine. On the ballots and voting machine ballot labels for use at every preliminary election, there shall, as an aid to the voter, be printed in numerals, before the name of each candidate and with type the same size as the name, the number assigned to the candidate by the election commission under this paragraph.

SECT. 60. The election officers shall, immediately upon the closing of the polls at preliminary elections, count the ballots and ascertain the number of votes cast in the several voting places for each candidate, and forthwith make return thereof upon the total vote sheets or, if voting machines are used, the general or precinct record sheets, as the case may be, to the election commission which shall forthwith canvass said returns and, subject to the provisions of the first sentence of section one hundred and thirty-seven of chapter fifty-four of the General Laws, determine and declare the result thereof, publish said result in one or more newspapers in the city, and post the same in a conspicuous place in the city hall.

SECT. 61. The two persons receiving at a preliminary election under Plan A the highest number of votes for nomination for the office of mayor shall be deemed to have been nominated for said office; and the eighteen persons receiving at such an election under Plan A or D the highest number of votes for nomination for the office of city councillor shall be deemed to have been nominated for said office; and the ten persons receiving at such an election under Plan A or D the highest number of votes for nomination for the office of school committeeman shall be deemed to have been nominated for said office. If a preliminary election under Plan A

or D results in a tie vote among candidates for nomination receiving the lowest number of votes, which, but for said tie vote, would entitle a person receiving the same to be deemed to have been nominated, all persons participating in said tie vote shall be deemed to have been nominated, although in consequence there be printed on the official ballot to be used at the regular election names to a number exceeding twice the number to be elected.

SECT. 62. The name of every person deemed under section fifty-seven C or section sixty-one to have been nominated, together with his residence and ward and the title and term of the office for which he is a candidate, and the statement, if any, contained in his nomination petition concerning the elective public offices held by him, shall, in addition to the directions provided for by section fifty-nine, be printed on the official ballots to be used at the regular elections; and said persons shall be the sole candidates whose names may be printed on such ballots. As soon as conveniently may be after the sixth Tuesday preceding every regular election, the election commission shall draw by lot the position of said names on said ballots; and said names shall be printed on such ballots in the order so drawn. Each candidate shall have an opportunity to be present at such drawing in person or by one representative.

SECT. 63. No ballot used at any preliminary or regular election shall have printed thereon any party or political designation or mark, and there shall not be appended to the name of any candidate any such party or political designation or mark or anything showing how he was nominated or indicating his views or opinions.

SECT. 64. On every ballot to be used at a preliminary or regular election, there shall be left, at the end of the list of candidates for each office, blank spaces equal to the number for which a voter may vote for such office, in which blank spaces the voter may insert the name of any person not printed on the ballot for whom he desires to vote for such office

SECT. 65. At every preliminary election, and every regular election under Plan D, each voter shall be entitled to vote for not more than six candidates for the office of city councillor and not more than three candidates for the office of school committeeman. On the ballots for use at both of said elections, there shall be printed directions to the voters that each voter shall not vote for more than the number of candidates specified in this section.

CURRENTLY OPERATIVE PROVISIONS
OF
CHAPTER 486 OF THE ACTS OF 1909
AS AMENDED

THE MAYOR AND CITY COUNCIL.

* * * * *

SECT. 3.* All appropriations, other than for school purposes, to be met from taxes, revenue or any source other than loans, shall originate with the mayor, who, not later than the first Monday in February of each year, shall submit to the city council the annual budget of the current expenses of the city and county for the current fiscal year, and may submit thereafter such supplementary appropriation orders as he may deem necessary: The city council may reduce or reject any item, but, except upon the recommendation of the mayor, shall not increase any item in, nor the total of, a budget, nor add any item thereto, nor shall it originate a budget. Not later than the first Monday in April the city council shall take definite action on the annual budget by adopting, reducing or rejecting it, and in the event of their failure so to do the items and the appropriation orders in the budget as recommended by the mayor shall be in effect as if formally adopted by the city council and approved by the mayor. It shall be the duty of the city and county officials, when requested by the mayor, to submit forthwith in such detail as he may require estimates for the next fiscal year of the expenditures of the department or office under their charge, which estimates shall be transmitted to the city council.

SECT. 3A.† In the period after the expiration of any fiscal year, and before the regular appropriations have been made by the city council and the school committee, city and county officers who are authorized to make expenditures, and the school committee, may incur liabilities in carrying on the work of the several departments and offices entrusted to them, and payments therefor shall be made from the treasury from any available funds therein and charged against the next annual appropriation, or special appropriation, if any is made; provided, that the liabilities incurred during such interval for regular employees do not exceed in any one month the average monthly expenditure of the last three months of the preceding fiscal year, and that the total liabilities incurred during said interval do not exceed in any one month the sums spent for similar

† Sect. 3A as inserted by Stat. 1941, Chap. 604, Sect. 1, and as amended by Stat. 1947, Chap. 120.

purposes during any one month of the preceding fiscal year; and provided, further, that said officers who are authorized to make expenditures may expend in any one month for any new officer or board lawfully created an amount not exceeding one twelfth of the estimated cost for the current fiscal year; and provided, further, that until a regular or special appropriation has been made for snow removal, expenditures may be made for that purpose to an amount not exceeding the average of the annual expenditures for snow removal in the five preceding fiscal years. Notwithstanding the foregoing limitations upon the authority of city officers to incur liabilities during said interval, such officers may incur liabilities to such extent as may be necessary for the purpose of compensating first assistant assessors for their regular duties.

SECT. 3B.* After an appropriation of money has been duly made by the city of Boston for any specific purpose, or for the needs and expenditures of any city department or county office, no transfer of any part of the money thus appropriated shall be made except in accordance with and after the written recommendation of the mayor to the city council, approved by a yea and nay vote of two thirds of all the members of the city council; provided, that the city auditor, with the approval in each instance of the mayor, may make transfers, other than for personal service, from any item to any other item within the appropriations for a department, division of a department or county office. After December tenth in each year the city auditor may, with the approval of the mayor in each instance, apply any income and taxes not disposed of and make transfers from any appropriation to any other appropriation for the purpose only of closing the accounts of the fiscal year.

(See Stat. 1942, Chap. 4, Sect. 3, reading as follows:

"During the continuance of the existing state of war between the United States and any foreign country, notwithstanding the provisions of section three B of chapter four hundred and eighty-six of the acts of nineteen hundred and nine, inserted in said chapter by section one of chapter six hundred and four of the acts of nineteen hundred and forty-one, the vote required for approval by the city council of the city of Boston of any transfer of appropriation, other than a loan appropriation, shall be by a yea and nay vote of a majority of all the members of the city council.")

* * * * *

SECT. 4A.† The mayor may designate one clerical assistant for whose acts he shall be responsible to sign his name in approval of all vouchers of less than five hundred dollars each.

* Sect. 3B as inserted by Stat. 1941, Chap. 604, Sect. 1, and as amended by Stat. 1954, Chap. 24.

† Sect. 4A inserted by Stat. 1924, Chap. 479, Sect. 3.

SECT. 5.* The city council with the approval of the mayor may from time to time make by-laws or ordinances for any or all of the following purposes:—(a) to create a new department or agency; (b) to abolish, in whole or in part, any department or agency; (c) to reorganize, in whole or in part, any department or department head or any agency or agency head; (d) to confer or impose on any department or agency any power or duty of the city not appertaining at the time of the making of the by-law or ordinance to any department or agency; (e) to transfer any or all of the powers, duties and appropriations of any division of any department or agency to another division of the same department or agency; (f) to transfer any or all of the powers, duties and appropriations of any department or division thereof or of any agency or division thereof either to another department or division thereof or to another agency or division thereof; and (g) to increase, reduce, establish or abolish the salary of any department or agency head. Every department or agency head created by, or resulting from a reorganization effected by, a by-law or ordinance made under this section shall, unless ex officio, be appointed by the mayor without confirmation by the city council for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected or, in the case of a person serving without compensation or of a person serving on the board of appeal, the board of examiners, the board of examiners of gasfitters or other like board, for such other term as the by law or ordinance may prescribe. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by a by-law or ordinance made under this section and the by-law or ordinance so provides, be reappointed without civil service examination or registration to a similar office or position with similar status in any new department or agency, or division of either, thereby created or in any department or agency, or division of either, not thereby abolished; and every such person shall upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed to mean any office in charge of a board or officer not subject to the direction of a department head. Nothing in this section shall authorize any action in conflict with the civil service laws or rules except as expressly provided herein; nor shall any by-law or ordinance made under this section affect in any way the school committee or any board or officer of the school committee or school department, or the board of commissioners of school buildings or the superintendent of construction, or the board of trustees of the teachers' retirement fund or the board of trustees of the permanent school pension fund, or the Boston retirement

* Sect. 5 as amended by Stat. 1953, Chap. 473.

board, or the city clerk, or the board of election commissioners, or the Boston traffic commission, or any board or officer appointed by the governor.

SECT. 6. No contract for lighting the public streets, parks, or alleys, or for the collection, removal, or disposal of refuse, extending over a period of more than one year from the date thereof, shall be valid without the approval of the mayor and the city council after a public hearing held by the city council, of which at least seven days' notice shall have been given in the City Record.

* * * * *

SECT. 8. Neither the city council, nor any member or committee, officer, or employee thereof shall, except as otherwise provided in this act, directly or indirectly on behalf of the city or of the county of Suffolk take part in the employment of labor, the making of contracts, the purchase of materials, supplies or real estate; nor in the construction, alteration, or repair of any public works, buildings, or other property; nor in the care, custody, and management of the same; nor in the conduct of the executive or administrative business of the city or county; nor in the appointment or removal of any municipal or county employee; nor in the expenditure of public money except such as may be necessary for the contingent and incidental expenses of the city council. . . .

It shall be unlawful for the mayor or for a member of the city council or for any officer or employee of the city or of the county of Suffolk or for a member of the finance commission directly or indirectly to make a contract with the city or with the county of Suffolk, or to receive any commission, discount, bonus, gift, contribution or reward from or any share in the profits of any person or corporation making or performing such contract, unless such mayor, member of the city council, officer, or employee or member of the finance commission immediately upon learning of the existence of such contract or that such contract is proposed, shall notify in writing the mayor, city council, and finance commission of such contract and of the nature of his interest in such contract and shall abstain from doing any official act on behalf of the city in reference thereto. In case of such interest on the part of an officer whose duty it is to make such contract on behalf of the city, the contract may be made by any other officer of the city duly authorized thereto by the mayor, or if the mayor has such interest by the city clerk: *provided, however*, that when a contractor with the city or county is a corporation or voluntary association, the ownership of less than five per cent of the stock or shares actually issued shall not be considered as being an interest in the contract within the meaning of this act, and such ownership shall not affect the validity of the contract, unless the owner of such stock or shares is also an officer or agent of the corporation or association, or solicits or takes part in the making of the contract.

A violation of any provision of this section shall render the contract in respect to which such violation occurs voidable at the option of the city or

county. Any person violating the provisions of this section shall be punished by a fine of not more than one thousand dollars, or by imprisonment for not more than one year, or both. . . .

THE EXECUTIVE DEPARTMENT.

SECT. 9. All heads of departments and members of municipal boards, including the board of street commissioners, as their present terms of office expire (but excluding the school committee and those officials by law appointed by the governor), shall be appointed by the mayor without confirmation by the city council. They shall be recognized experts in such work as may devolve upon the incumbents of said offices, or persons specially fitted by education, training or experience to perform the same, and (except the election commissioners, who shall remain subject to the provisions of existing laws) shall be appointed without regard to party affiliation or to residence at the time of appointment except as hereinafter provided.

* * * * *

SECT. 12. A vacancy in any office to which the provisions of section nine of this act apply, shall be filled by the mayor under the provisions of said section and pending a permanent appointment he shall designate some other head of a department or member of a board to discharge the duties of the office temporarily.

SECT. 13.* Members of boards shall be appointed for the terms established by law or by ordinance. Heads of departments shall be appointed for terms of four years beginning with the first day of May of the year in which they are appointed and shall continue thereafter to hold office during the pleasure of the mayor.

SECT. 14. The mayor may remove any head of a department or member of a board (other than the election commissioners, who shall remain subject to the provisions of existing laws) by filing a written statement with the city clerk setting forth in detail the specific reasons for such removal, a copy of which shall be delivered or mailed to the person thus removed, who may make a reply in writing, which, if he desires, may be filed with the city clerk; but such reply shall not affect the action taken unless the mayor so determines. The provisions of this section shall not apply to the school committee or to any official by law appointed by the governor.

SECT. 15. The positions of assistants and secretary authorized by section twenty of chapter four hundred and forty-nine of the acts of the year eighteen hundred and ninety-five except those in the election department are hereby abolished, and except as aforesaid the said section is hereby repealed.

The civil service laws shall not apply to the appointment of the mayor's secretaries, nor of the stenographers, clerks, telephone operators and messengers connected with his office, and the mayor may remove such appointees without a hearing and without making a statement of the cause for their removal.

* Sect. 13. Affected by Stat. 1953, Chap. 473.

SECT. 16. No official of said city, except in case of extreme emergency involving the health or safety of the people or their property, shall expend intentionally in any fiscal year any sum in excess of the appropriations duly made in accordance with law, nor involve the city in any contract for the future payment of money in excess of such appropriation, except as provided in section six of this act. Any official who shall violate the provisions of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both.

SECT. 16A.* Anything in section three A or section sixteen to the contrary notwithstanding, city and county officers who are authorized to make expenditures, and the school committee, may, during any fiscal year, at the time of, or after, contracting for the performance or delivery during the remainder of such year of any work, services or supplies of a constantly recurrent nature, contract, without an appropriation, upon like or more favorable terms and conditions, for the performance or delivery of such work, services or supplies for the whole or any part of the first three months of the next fiscal year; provided, that in no event shall the average monthly liability incurred with respect to the next fiscal year exceed the average monthly liability for such work, services or supplies during the last nine months of the then current fiscal year.

THE FINANCE COMMISSION.

SECT. 17. Within sixty days after the passage of this act the governor with the advice and consent of the council shall appoint a finance commission to consist of five persons, inhabitants of and qualified voters in the city of Boston, who shall have been such for at least three years prior to the date of their appointment, one for the term of five years, one for four years, one for three years, one for two years, and one for one year, and thereafter as the terms of office expire in each year one member for a term of five years. Vacancies in the commission shall be filled for the unexpired term by the governor with the advice and consent of the council. The members of said commission may be removed by the governor with the advice and consent of the council for such cause as he shall deem sufficient. The chairman shall be designated by the governor. His annual salary shall be five thousand dollars, which shall be paid in monthly instalments by the city of Boston. The other members shall serve without pay.

SECT. 18. It shall be the duty of the finance commission from time to time to investigate any and all matters relating to appropriations, loans, expenditures, accounts, and methods of administration affecting the city of Boston or the county of Suffolk, or any department thereof, that may appear to the commission to require investigation, and to report thereon from time to time to the mayor, the city council, the governor, or the general court. The commission shall make an annual report in January of each year to the general court.

* Sect. 16A. Inserted by Stat. 1951, Chap. 182.

SECT. 19. Whenever any pay roll, bill, or other claim against the city is presented to the mayor, city auditor, or the city treasurer, he shall, if the same seems to him to be of doubtful validity, excessive in amount, or otherwise contrary to the city's interest, refer it to the finance commission, which shall immediately investigate the facts and report thereon; and pending said report payment shall be withheld.

SECT. 20.* The said commission is authorized to employ such experts, counsel, and other assistants, and to incur such other expenses as it may deem necessary, and the same shall be paid by said city upon requisition by the commission, not exceeding in the aggregate in any year the sum of fifty-five thousand dollars, or such additional sums as may be appropriated for the purpose by the city council and approved by the mayor. A sum sufficient to cover the salary of the chairman of the commission and the further sum of at least fifty-five thousand dollars to meet the expenses as aforesaid each year shall be appropriated by said city. The commission shall have the same right to incur expenses in anticipation of its appropriation as if it were a regular department of said city.

SECT. 21. For the purpose of enabling the said commission to perform the duties and carry out the objects herein contemplated, and to enable the mayor, the city council, the governor or the general court to receive the reports and findings of said commission as a basis for such laws, ordinances, or administrative orders as may be deemed meet, the commission shall have all the powers and duties enumerated in chapter five hundred and sixty-two of the acts of the year nineteen hundred and eight and therein conferred upon the commission designated in said act; but counsel for any witness at any public hearing may ask him any pertinent question and may offer pertinent evidence through other witnesses subject to cross-examination by the commission and its counsel.

THE CITY CLERK.

SECT. 22. The present city clerk shall hold office for the term for which he has been elected, and thereafter until his successor is chosen and qualified. In the year nineteen hundred and eleven, and every third year thereafter, a city clerk shall be elected by a majority of the members of the city council, to hold office until the first Monday in February in the third year following his election, and thereafter until his successor has been duly chosen and qualified, unless sooner removed by due process of law. . . .

THE CITY AUDITOR.

SECT. 23. All accounts rendered to or kept in the departments of the city of Boston or county of Suffolk shall be subject to the inspection and revision of the city auditor, and shall be rendered and kept in such form as he shall prescribe. The auditor may require any person presenting for settlement an account or claim against the city or county to make oath

* Sect. 20 as amended by Stat. 1921, Chap. 81, Stat. 1924, Chap. 369, and Stat. 1948, Chap. 175.

before him in such form as he may prescribe as to the accuracy of such account or claim. The wilful making of a false oath shall be perjury and punishable as such. The auditor may disallow and refuse to pay, in whole or in part, any claim on the ground that it is fraudulent or unlawful and in that case he shall file a written statement of his reasons for the refusal.

SECT. 24. Whenever, in response to an advertisement by any officer or board of the city or county, a bid for a contract to do work or furnish materials is sent or delivered to said officer or board, a duplicate of the same shall be furnished by the bidder to the auditor, to be kept by him and not opened until after the original bids are opened. After the original bids are opened, the auditor shall open and examine the bids submitted to him, and shall compare the same with the original bids. In case any of the bids submitted to the auditor differ from the corresponding original bids, those submitted to the auditor shall be treated as the original bids. The contract shall not be awarded until after both sets of bids are opened.

SECT. 25. The auditor shall furnish monthly to each head of department a statement of the unexpended balance of the appropriation for that department, and he shall furnish to the mayor and city council a statement of the unexpended balances of all the departments. He shall furnish quarterly to the city council an itemized statement showing the amount of money expended by the mayor and the city council for contingent expenses.

MISCELLANEOUS PROVISIONS.

SECT. 26.* All loans issued by the city after the passage of this act shall be made payable in annual instalments in the manner authorized by section thirteen of chapter twenty-seven of the Revised Laws as amended by section one of chapter three hundred and forty-one of the acts of the year nineteen hundred and eight. No sinking fund shall be established for said loan. All bonds shall be offered for sale in such a manner that the premiums, if any are received, shall be applied in accordance with the provisions of chapter three hundred and seventy-nine of the acts of the year nineteen hundred and ten. No city or county money shall be deposited in any bank or trust company of which any member of the board of sinking fund commissioners of said city is an officer, director, or agent. Nothing herein shall apply to transit bonds of the city of Boston issued under the provisions of the several acts authorizing the construction of tunnels and subways in said city by the Boston Transit Commission, and said bonds may be issued as heretofore and secured by sinking fund.

SECT. 27.† Every officer and board in charge of a department of the city of Boston or county of Suffolk shall, on or before the sixth day of

† Sect. 27 as amended by Special Stat. 1919, Chap. 168, Sect. 1, Stat. 1922, Chap. 133, Sect. 1, Stat. 1938, Chap. 263, Sect. 1, and Stat. 1951, Chap. 111.

February in each year, prepare and furnish to the city auditor a list of the officials and employees under said officer or board and paid by the city or county on the first day of such February. Such list shall give the name, residence by street and ward, designation, compensation, and date of election or appointment of each of said officials and employees and the date when each first entered the employ of the city or county. It shall be the duty of the city auditor to verify said lists by the pay rolls and to keep a copy of said lists open for public inspection, and to prepare and publish in the City Record on or before the tenth day of April in each year a comparative table containing the number of such officials and employees holding office or employed in each such department or board and paid by the city or county on the compilation date in each of the ten years next preceding such publication. The term "compilation date," as herein used, shall be construed to mean, with respect to the year nineteen hundred and fifty-one or any prior year, the first day of January, and with respect to the year nineteen hundred and fifty-two or any subsequent year, the first day of February.

SECT. 28. The jurisdiction now exercised by the board of aldermen concerning the naming of streets, the planting and removal of trees in the public ways, the issue of permits or licenses for coasting, the storage of gasoline, oil, and other inflammable substances or explosive compounds and the use of the public ways for any permanent or temporary obstruction or projection in, under, or over the same, including the location of conduits, poles, and posts for telephone, telegraph, street railway, or illuminating purposes, is hereby vested in the board of street commissioners, to be exercised by said board with the approval in writing of the mayor; and the mayor and city council shall have authority to fix by ordinance the terms by way of cash payment, rent, or otherwise, upon which permits or licenses for the storage of gasoline or oil, or other inflammable substances or explosive compounds, and the construction or use of coal holes, vaults, bay windows, and marquises, in, under, or over the public ways shall be issued.

SECT. 29.* Within ninety days after the passage of this act and thereafter there shall be published at least once a week and distributed and sold under the direction of the mayor and on terms to be fixed by the city council and approved by the mayor a paper to be known as the "City Record." All advertising with reference to the sale of property for non-payment of taxes shall appear exclusively in the City Record. All other advertising, whether required by law or not, with reference to the purchase or taking of land, contracts for work, materials or supplies, and the sale of bonds, shall appear in said paper, and in such newspaper or newspapers as the mayor, in his discretion, may order; a list of all contracts of one thousand dollars or more, as awarded, with the names of bidders, and the amount of the bids; appointments by the mayor; and changes in the

* Sect. 29 as amended by Stat. 1934, Chap. 185, Sect. 1, and Stat. 1947, Chap. 447, Sect. 1.

number and compensation of employees in each department, shall be published in the City Record. Failure to publish in such newspaper or newspapers as the mayor may order shall not invalidate any purchase, contract or sale made or action taken by the city. The proceedings of the city council and school committee together with all communications from the mayor, shall be published in the City Record; provided, that the substance of debates by and among the members of the city council shall not be so published or published elsewhere at the expense of said city.

SECT. 30.* Every officer or board in charge of a department in said city and every officer, board or official of the county of Suffolk having power to incur obligations on behalf of said county in cases where said obligations are to be paid for wholly from the treasury of said city, when authorized to erect a new building or to make structural changes in an existing building, shall make contracts therefor, not exceeding five, each contract to be subject to the approval of the mayor; and when about to do any work or to make any purchase, the estimated cost of which alone, or in conjunction with other similar work or purchase which might properly be included in the same contract, amounts to or exceeds two thousand dollars, shall, unless the mayor gives written authority to do otherwise, invite proposals therefor by advertisements in the City Record. Such advertisements shall state the time and place for opening the proposals in answer to said advertisement, and shall reserve the right to the officer, board or official to reject any or all proposals. No authority to dispense with advertising shall be given by the mayor unless the said officer, board or official furnishes him with a signed statement which shall be published in the City Record giving in detail the reasons for not inviting bids by advertisement.

SECT. 31. At the request of any department, and with the approval of the mayor the board of street commissioners, in the name of the city, may take in fee for any municipal purpose any land within the limits of the city, not already appropriated to public use. Whenever the price proposed to be paid for a lot of land for any municipal purpose is more than twenty-five per cent higher than its average assessed valuation during the previous three years, said land shall not be taken by purchase but shall be taken by right of eminent domain and paid for in the manner provided for the taking of and the payment of damages for land for highways in said city. No land shall be taken until an appropriation by loan or otherwise for the general purpose for which land is needed shall have been made by the mayor and city council by a two thirds vote of all its members; or in case of land for school purposes by the school committee and school-house department in accordance with law; nor shall a price be paid in excess of the appropriation, unless a larger sum is awarded by a court of competent jurisdiction. All proceedings in the taking of land shall be

under the advice of the law department, and a record thereof shall be kept by said department.

SECT. 32.* Beginning in the year nineteen hundred and twenty-five, the municipal election in said city shall take place biennially in every odd numbered year on the Tuesday after the first Monday in November.

* * * * *

SECT. 34. In Boston beginning with the current year political committees shall be elected at the state primaries instead of at the municipal primaries.

The Administrative Services Department represents a consolidation of the activities formerly conducted by the Budget, Printing, and Supply Departments, and the acquisition of 2 new activities — the receipt and processing of general complaints and the establishment of an office machine repair unit. It is under the charge of a board known as the Administrative Services Board, consisting of the Director of Administrative Services as chairman, the Supervisor of Budgets, the Supervisor of Personnel, the Purchasing Agent, the City Auditor, the Collector-Treasurer, and the Assessor of Taxes, *ex officio*. It is the duty of this board, and more especially of the Director of Administrative Services, to make, under the Mayor, studies and recommendations with respect to the organization, activities, policies, and procedures of all departments, boards, and officers so that the administration thereof shall be economical and efficient.

The regular activities of the department are divided into six divisions — administrative, budget, personnel, purchasing, complaints and office machine servicing. The Director, in addition to his regular duties, as set forth above, directs the operations and procedures of the Complaints Division and the Office Machine Repair Unit. The Supervisor of Budgets is the budget officer of the city and county and under the direction of the Mayor and in consultation with the Director is responsible for the preparation of the annual and all supplementary budgets as well as all subsequent revisions of the items in any budget. The Supervisor of Personnel is in charge of all personnel records as well as the administration of all compensation plans established for city and county employees. He makes a continuing study of personnel problems, employment conditions, and economic changes affecting all departments and recommends to the Mayor and department officials programs and administrative policies designed to improve and co-ordinate the handling of personnel matters. The Purchasing Agent is responsible for the furnishing of all materials or

supplies requisitioned by the several departments. He has charge of the printing plant and supplies the printing or binding requisitioned by departments to whom the City is required by law to furnish the same. He is the custodian of all surplus personal property of the city and may reallocate any such items among the several departments or, with the required approvals, sell or otherwise dispose of the same.

The department also contains a board of five commissioners known as the Art Commission, which has the custody and care of all works of art owned by the City. While not subject to the direct supervision or control of the Administrative Services Board, this commission shall not communicate with the Mayor or make any annual or other report except through the board.

COMMISSIONERS.*

ALICE M. MAGINNIS, nominated by the Museum of Fine Arts. Term expiring May 1, 1963.

NELSON W. ALDRICH, nominated by the Massachusetts Institute of Technology. Term expiring May 1, 1959.

HOWARD T. CLINCH, nominated by the Boston Society of Architects. Term expiring May 1, 1960.

THOMAS TEMPLE POND, nominated by the Trustees of the Public Library of the City of Boston. Term expiring May 1, 1961.

MARGARET FITZHUGH BROWNE, nominated by the Copley Society of Boston. Term expiring May 1, 1962.

DAVID MCKIBBIN, *Clerk*, 10½ Beacon street, Boston.

The Art Commission, formerly the Art Department, established in 1898, is composed of five commissioners, appointed by the Mayor. Each year one of the following-named bodies, namely, the Museum of Fine Arts, the Trustees of the Public Library of the City of Boston, the Massachusetts Institute of Technology, the Boston Society of Architects and the Copley Society of Boston, submits a list of three persons to the Mayor; and the Mayor appoints one person as Art Commissioner from the list so submitted, to serve for five years. Whenever the term of a member of the commission expires, the Mayor appoints his successor from a list selected by the body which made the original selection, as aforesaid.

* The Commissioners serve without compensation.

No work of art can become the property of the City of Boston without the approval of the Art Commission, which may also be requested by the Mayor or the City Council to pass upon the design of any municipal building, bridge, approach, lamp, ornamental gate or fence, or other structure to be erected upon land belonging to the City. No work of art, the property of the City of Boston, shall be removed except by order of the Art Commissioners and with the approval of the Mayor. Moreover, all contracts or orders for the execution of any painting, monument, statue, bust, bas-relief, or other sculpture for the City shall be made by said Commission acting by a majority of its members, subject to the approval of the Mayor. By Chap. 87, Special Acts of 1919, all works of art owned by the City were placed in the custody and care of the Art Commissioners.

and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston in relation to poll and motor vehicle excise taxes.

The Board of Assessors consists of the assessor of taxes, ex officio, who shall be chairman of the board, and two other officers, known as Associate Assessors of Taxes. Except as otherwise provided in the foregoing and following paragraphs, the board of assessors shall have the powers and perform the duties conferred or imposed by statute on the board of assessors in existence immediately prior to June 30, 1954, and except as so provided, the board of assessors shall also have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston. The board of assessors shall not be subject to the supervision or control of the assessor of taxes except as he acts as chairman of said board; but unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes.

The Board of Review consists of three members appointed by the mayor, one of whom shall from time to time be designated by the mayor as chairman of said board. The board of review shall have the powers and perform the duties conferred or imposed by statute on the board of assessors in existence immediately prior to June 30, 1954, with respect to the abatement of taxes other than poll and motor vehicle excise taxes, and shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston with respect to abatement of taxes other than poll and motor vehicle excise taxes. The board of review shall not be subject to the supervision or control of the assessor of taxes; but, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes.

JOSEPH P. LALLY, *City Auditor*.

THOMAS M. LANNON, *Deputy City Auditor*.

The office of Auditor was established by ordinance on August 2, 1824. Under provisions of Chapter 414 of the Acts of 1941, the office of City Auditor was placed under Civil Service on November 2, 1943, by a referendum vote of 60,139 to 12,409.

The office of Deputy City Auditor was established by ordinance on July 11, 1934.

Regular annual reports of receipts and expenditures have been published by the Auditor since 1825. Less complete reports were published by finance committees from 1811 to 1824, inclusive. Since June 1, 1867, the Auditor has published monthly exhibits of all City, School, and County expenditures.

The City Auditor is also Auditor of the County of Suffolk, Secretary of the Board of Commissioners of Sinking Funds, a member of the Board of Trustees of the George Robert White Fund, a member of the Boston Retirement Board and a member of the Administrative Services Board. (Rev. Ord. 1947, Chaps. 3, 6.)

BUILDING DEPARTMENT

Office, 901-910 City Hall Annex, ninth floor.

THOMAS J. HUGHES, *Building Commissioner*. Term expiring May 15, 1961.

THOMAS L. FLYNN, *Deputy Building Commissioner and Head of Technical Services*.

FRANK J. COUGHLIN, *Executive Secretary and Head of Office Services*.

DENNIS J. KEOHANE, *Head of Construction and Safety Inspections*.

EDWARD P. LANG, *Head of Mechanical Inspections*.

LEO F. MURPHY, *Superintendent, Head of Electrical Inspections*.

The duty of the Building Commissioner, under the provisions of Chapter 479 of the Acts of 1938, as amended (the Building Code), is to inspect all buildings and structures in the City of Boston except bridges, quays or wharves, buildings owned and occupied by the United States or the Commonwealth, railroad stations and structures used primarily for railway purposes, voting booths, tanks of certain specified capacities, tunnels constructed and maintained by the public authority, tents covering an area of less than one hundred square feet, fences less than six feet in height, signs or billboards upon the ground and signs less than one square foot in area, and flagpoles less than twenty feet in length.

The Code authorizes the Commissioner to issue permits to erect, enlarge, alter, substantially repair, move, demolish or change the occupancy of any building or structure; or to install, alter, or substantially repair plumbing, gas fitting, fire extinguishing apparatus and elevators; or to install steam boilers, furnaces, heaters or other heat producing apparatus the installation of which is regulated by the Code; or to install engines or dynamos.

The Zoning Act also is administered by the Building Commissioner. Under the provisions of this Act the city is divided into use districts, defined as Residential, Business, Industrial and Unrestricted. With minor exceptions, no building shall be erected or altered, nor shall any

building or premises be used, for any purpose other than the use permitted in the district in which such building or premises is located. (Chapter 488, Acts of 1924, as amended — the Zoning Act.)

The Commissioner also licenses gas fitters, both master and journeyman; registers master and journeyman plumbers; establishes the qualifications of welders and licenses operators of elevators.

In addition, Chapter 143 of the General Laws, in so far as applicable to Boston, is administered by the Building Commissioner under delegated authority from the State Commissioner of Public Safety.

The primary purpose of the public safety regulations promulgated under this chapter is to establish a minimum code of safety for the entire state. Cities and towns may make further exactions in accordance with local building ordinances and not inconsistent with law, but in no case may the provisions of state law be avoided or minimized.

The law falls with particular force on all places of assembly — restaurants, taverns, dance halls, meeting halls and all places of similar occupancy in which fifty or more persons may be accommodated. Lodging houses and apartment houses in which there are eight or more rooms above the second floor, or in which ten or more persons are accommodated above the second floor come also within the provisions of this Act. All such buildings must be certified by the Building Commissioner as to compliance with these particular regulations in addition to the Boston Code requirements.

On May 1, 1954, in accordance with Ordinances of 1954, Chapter 2, Section 30, the powers, duties, appropriations and personnel of the Electrical Inspection Division of the Fire Department were transferred to the Building Department.

By Chapter 2 of the Ordinances of 1954 the Board of Appeal, the Board of Examiners, the Board of Examiners of Gasfitters, the Public Safety Commission and the Committee on Licenses were included in the Building Department, but none of said Boards, Commission or Committee is subject to the supervision or control of the Building Commissioner, but unless otherwise ordered by the Mayor none of said Boards, Commission or Committee shall communicate with the Mayor or make any annual or other report, except through the Building Commissioner.

The Beacon Hill Architectural Commission was formed for the purpose of promoting the "educational, cultural, economic and general welfare of the public through the preservation of the historic Beacon Hill District and to maintain said district as a landmark in the history of architecture and as a tangible reminder of Old Boston as it existed in the early days of the Commonwealth".

The District, as defined in the Act comprises the area bounded as follows: — southerly by the northerly side line of Beacon street; westerly by a line parallel with, and one hundred and fifty feet distant westerly from, the westerly side line of Beaver street; northerly by Beaver place; easterly by Brimmer street; northerly again by Byron street; westerly again by a line parallel with, and eighty feet distant westerly from, the westerly side line of Charles street; northerly again by the southerly side line of Revere street; easterly again by the westerly side line of Myrtle street; northerly again by the southerly side line of Myrtle street; and easterly again by the westerly side line of Hancock street and said side line extended southerly to Beacon street; excluding, however, from said area land of the commonwealth and the estates numbered twenty-six to eighty-eight, inclusive, and ninety-eight to one hundred and thirty-six, inclusive, on Myrtle street.

It is the function of the Commission to regulate and control all construction, reconstruction and alteration to buildings and structures within the District in which exterior architectural features are involved. Under the terms of the Act, an "Exterior Architectural Feature" is the "architectural style and general arrangement of such portion of the exterior of a structure as is designed to be open to view from a public way, including kind, color and texture of the building materials of such portion and type of all windows, doors, lights, signs and other fixtures appurtenant to such portion".

The members of the Commission are appointed by the Mayor as follows: — one from two candidates nominated by the Beacon Hill Civic Association, Inc., one from two candidates nominated by the Boston Real Estate Board, one from two candidates nominated by The Boston Society of Architects, one from two candidates nominated by the Society for the Preservation of New England Antiquities, and one member selected at large by the Mayor. As the term of any member expires his successor shall be appointed by the Mayor for a term of five years. The members shall serve without compensation.

Chapter 41 of the General Laws, Sections 70, 71 and 72, provides that every city and every town in the state having a population of more than 10,000 shall, and towns having a population of less than 10,000 may, create a planning board which shall make careful studies of the resources, possibilities and needs of the town, particularly with respect to conditions injurious to the public health or otherwise in and about rented dwellings, and make plans for the development of the municipality, with special reference to proper housing of its inhabitants.

In January, 1914, an ordinance was passed by the Boston City Council establishing "The City Planning Board" consisting of five members, one of whom shall be a woman, for a term of five years, all to serve without compensation.

In April, 1940, an amendment to the above ordinance was passed by the City Council enlarging "The City Planning Board" from five to nine members, to include at least one engineer, one architect and one landscape architect or city planner and a woman. The members of the Board shall serve for terms of five years, without compensation.

In August 1952 an amendment to the above ordinance was passed by the City Council concerning the organization and enlargement of the powers and duties of the City Planning Board.

The membership of the Board shall be made up as formerly with the exception that the engineer shall be a registered professional engineer, and members shall serve for terms of six years without compensation, but shall be reimbursed for their traveling and other necessary expenses incurred in the performance of their duties.

The Board shall make, and from time to time add to or amend, a master plan for the improvement and development of the city.

Referral of capital improvements to the City Planning Board for report is mandatory.

In addition all departments shall submit to the City Planning Board on or before October 1st in each year a list of all capital improvements proposed to be made in carrying on the work of such departments in the six succeeding years. The City Planning Board shall forthwith prepare a capital improvement program and shall, not later than the second Monday of the succeeding January, submit such program with its report and recommendations pertaining thereto to the Mayor.

Ordinances of 1954, Chapter 2, Section 28 placed the Board of Zoning Adjustment in the City Planning Department but not under the supervision or control of the City Planning Board.

The members of the Board serve without compensation. Any petition for changing the zoning map must be accompanied by a fee of twenty-five dollars before being considered by the Board.

Either upon petition or otherwise, the Board may, by a decision of not less than four-fifths of its members, rendered after a public hearing following advertisement and due notice to the owners of all property deemed by the Board to be affected, change the boundaries of districts by changing the zoning map on file at the state secretary's office, to meet altered needs of a locality, to avoid undue concentration of population, to provide adequate light and air, to lessen congestion in streets, to secure safety from fire, panic and other dangers, to facilitate the adequate provision of transportation, water, sewerage, and other public requirements and to promote the health, safety, convenience and welfare of the inhabitants of the City of Boston.

No decision of the Board of Appeal permitting the erection or alteration of a building to an extreme height greater than that otherwise authorized under the provisions of the zoning law for the lot or building in question is effective until and unless confirmed by the decision of not less than two thirds of the members of the Board of Zoning Adjustment.

If a change in the boundaries of districts is favorably decided upon or if a decision of the Board of Appeal is confirmed, any person aggrieved or any municipal officer or Board, may within fifteen days after the entry of such decision, appeal to the Superior Court sitting in equity, for the County of Suffolk.

CIVIL DEFENSE DEPARTMENT

Office, 115 Southamptton Street.

[Stat. 1950, Chap. 639; Ord. 1950, Chap. 8; Stat. 1952, Chap. 269; Stat. 1953, Chap. 491.]

FRANCIS C. CLEARY, *Director*. Term ends July 1, 1958.

The functions of the department are set forth in Chapter 8 of the Ordinances of 1950, which is as follows:

SECTION 1. DEPARTMENT OF CIVIL DEFENSE. There is hereby established a department of civil defense (hereinafter called the "depart-

ment"). It shall be the function of the department to have charge of civil defense as defined in Section 1, Chapter 639, Acts of 1950, and to perform civil defense functions as authorized or directed by said chapter or by any and all executive orders or general regulations promulgated thereunder, and to exercise any authority delegated to it by the governor under said Chapter 639.

SECT. 2. DIRECTOR OF CIVIL DEFENSE. The department shall be under the direction of a director of civil defense (hereinafter called the "director"), who shall be appointed as prescribed by law. The director shall have direct responsibility for the organization, administration, and operation of the department subject to the direction and control of the appointing authority and shall receive such salary as may be fixed from time to time by the appointing authority. The director may, within the limits of the amount appropriated therefor, appoint such experts, clerks, and other assistants as the work of the department may require, and may remove them, and may make such expenditures as may be necessary to execute effectively the purposes of Chapter 639, Acts of 1950. The director shall also have authority to appoint district co-ordinators and may accept and may receive on behalf of the city, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of civil defense, offered by the federal government or any agency or officer thereof or any person, firm or corporation, subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer. The director shall cause appropriate records to be kept of all matters relating to such gifts, grants, or loans.

SECT. 3. CIVIL DEFENSE ADVISORY COUNCIL. There is hereby established a civil defense advisory council (hereinafter called the "council"). Said council shall serve without pay and shall consist of the director of civil defense, such other department heads and such other persons as the authority appointing said director may deem necessary. Such member of said council as said appointing authority shall designate shall serve as chairman of said council. Said council shall serve subject to the direction and control of the appointing authority and shall advise said appointing authority and the director on matters pertaining to civil defense.

SECT. 4. POLICE AID TO OTHER CITIES AND TOWNS IN EVENT OF RIOTS AND OTHER VIOLENCE THEREIN. The police department is hereby authorized to go to aid another city or town at the request of said city or town in the suppression of riots or other forms of violence therein.

SECT. 5. TERMINATION OF ORDINANCE. This ordinance shall remain in force during the effective period of Chapter 639, Acts of 1950, and any act in amendment or continuation thereof or substitution therefor.

SECT. 6. DEFINITION. All references to Chapter 639, Acts of 1950, as now in force shall be applicable to any act or acts in amendment or continuation of or substitution for said Chapter 639.

COMMISSIONERS.

GERTRUDE A. PFAU.	Term ending April 1, 1959.
DAVID LASKER.	Term ending April 1, 1960.
PERLIE DYAR CHASE.	Term ending April 1, 1961.
JOSEPH RUSSO.	Term ending April 1, 1962.

One Election Commissioner is appointed by the Mayor each year, term beginning April 1. The two leading political parties must be equally represented on the Board and the Chairman is designated annually by the Mayor.

The Board of Registrars of Voters was appointed in May, 1874, and was succeeded July 1, 1895, by the Board of Election Commissioners.

This department exercises all the powers and duties formerly conferred upon the Board of Registrars of Voters (including the preparation of the jury list), except the power and duty of giving notice of elections and fixing the days and hours for holding the same.

The Board also exercises all the powers and duties formerly conferred upon the City Clerk and other officers by chapter 504 of the Acts of 1894. The voting precincts in the 22 wards number 281.

POLICE LISTING BOARD.

Chapter 287 of the Acts of 1938 provides: "In Boston there shall be a listing board composed of the police commissioner of the city and the board of election commissioners. In case of disagreement between the members of the listing board, the chief justice of the municipal court of the city of Boston, or, in case of his disability, the senior justice of said court who is not disabled, shall, for the purpose of settling such disagreement, be a member of said listing board and shall preside and cast the deciding vote in case of a tie."

The duties of said board are further provided for in Sections 8, 10, 11, 12, 13, 14, 15, 16 of Chapter 29 of the Acts of 1917; and all other acts in amendment and addition thereto.

The first Board of Health in Boston was established in 1799, under the special statute of February 13, 1799. It was abolished by the first City Charter and from 1822 to 1873 its functions were exercised through the City Council. The last Board of Health was established by an ordinance of December 2, 1872. It published annual reports, beginning with 1873. By Chap. 1, Ord. 1914, 2d Series, the department was placed in charge of one executive, the Health Commissioner, who appoints the deputy commissioners. Chap. 1, Ord. 1915, provided that the quarantine service should pass from the control of the Health Department when the property was leased to the United States, in effect June 1, 1915.

On March 31, 1927, an ordinance was enacted abolishing the Boston Sanatorium Department and placing the Tuberculosis Hospital at Mattapan under the jurisdiction of the Trustees of the Boston City Hospital; all other powers and duties, as well as the Out-Patient Department, were transferred to the Health Commissioner by Chap. 1 of the Ordinances of 1927, as amended February 16, 1931.

FRANCES BURNS.	Term ending May 1, 1961.
ALBERT A. HORNOR, M.D.	Term ending May 1, 1961.

The Public Health Council is a Board in the Health Division of the Health Department, consisting of nine members appointed by the Mayor, of whom at least one shall be a registered physician, one a registered dentist, one a representative of an industry engaged in handling food, one a representative of another industry, one a representative of labor, and one a housewife. As the term of any member expires his successor shall be appointed by the Mayor for a term of three years. The members

shall serve without compensation. The Mayor shall from time to time designate one of the members as Chairman and another as Vice Chairman.

The duties of said Board shall be (a) to make, upon its own initiative or at the request of the Mayor, the Director of Administrative Services or the Health Commissioner, studies and recommendations with respect to the organization, activities, policies, procedures and budget of the Health Division, (b) to review from time to time such rules and regulations of the Health Commissioner as may then be in force and report to the Health Commissioner its findings with respect to the adequacy thereof and its recommendations, if any, for the amendment or repeal thereof or for new rules and regulations, and (c) to advise the Health Commissioner on such matters within the scope of his duties as he may refer to said council.

Registry Division.

Office, 1004 City Hall Annex, tenth floor.

[Stat. 1892, Chap. 314; Stat. 1898, Chap. 389; Gen. Laws, Chap. 46; Rev. Ord. 1925, Chap. 28; C. C. Title IV., Chap. 28; Ord. 1954, Chap. 2, § 31.]

CHARLES H. MACKIE, *City Registrar*.

MARGARET M. BARRY, *First Assistant City Registrar*.

MARGUERITE F. EGO, *Second Assistant City Registrar*.

LOUIS TOBIN, *Third Assistant City Registrar*.

The City Registrar keeps the records of births, deaths and marriages, issues certificates of the same and marriage licenses, receives and records affidavits of, additions to, and amendments and corrections of said records, and forwards copies of all records to the office of the Secretary of the Commonwealth and to outside cities and towns when nonresidents are involved. Annual reports have been published since 1849, except in 1860 and 1861.

By ordinance, approved July 12, 1892, the Department of Ancient Records and the office of Record Commissioners (established July 6, 1875) were abolished, and the duties of the Record Commissioners, including the publication of documents relating to the early history of Boston, were transferred to the City Registrar.

[Ord. 1954, Chap. 2, § 31.]

JOHN F. MCCARTHY, *Sealer*.

JOSEPH F. COUGHLIN, *Chief Deputy Sealer*.

GRACE E. CUNNINGHAM, *Principal Clerk*.

The duties of the department are set forth in the General Laws, Chapters 94, 98 and 101, with amendments and additions thereto.

The Sealer is required to give public notice annually by advertisement to all persons having places of business in the city and using weighing and measuring devices for the purpose of buying or selling of goods, wares or merchandise, to bring them into this office to be tested and sealed. After giving the said notice, he shall visit the places of business not complying and shall test, adjust, seal or condemn in accordance with the results of tests made, the weighing and measuring devices of said persons. In addition the department is charged with the enforcement of all laws relative to the licensing of hawkers, peddlers and transient vendors, the giving of false or insufficient weight or measure, the reweighing of coal, the examination of coal for quality and the inspection of certain containers as to size, shape and dimensions. The department must investigate all complaints registered with the department and, when the evidence warrants, shall prosecute violations of the law.

The Trustees of the Public Library of the City of Boston, five in number, are appointed by the Mayor, one each year, for a term of five years. They were incorporated in 1878, and authorized to receive and hold real and personal estate to an amount not exceeding \$1,000,000. This amount was changed to \$10,000,000 in 1919, to \$20,000,000 in 1931, and to \$50,000,000 in 1953. The first Trustees were appointed under an ordinance of October 14, 1852.

The old library building on Boylston street was opened to the public in September, 1858, and closed finally in January, 1895. The Central Library Building in Copley square, costing \$2,756,384, was first opened on March 11, 1895.

The Library is maintained by an annual appropriation made to the Trustees by the City Government.

The annual reports, the first of which appeared in 1852, have been continued without interruption.

THE LIBRARY SYSTEM.

The library system consists of the Central Library in Copley square, the Kirstein Business Branch in the Edward Kirstein Memorial Library Building at 20 City Hall avenue, Central Book Stock, School Issue Section, at 400 Shawmut avenue, twenty-seven Branch Libraries, one Hospital Library Service at Boston City Hospital, and three Bookmobiles. In addition, through an agreement with Harvard University, the Baker Library of the Harvard Graduate School of Business Administration is a branch of the Boston Public Library. By similar arrangement, the Boston Medical Library at 8 Fenway serves as a medical branch.

* The Trustees serve without compensation.

The component parts of the library system are the following:

- General Administrative Offices.
- The Division of Home Reading and Community Services.
- The Division of Reference and Research Services.
- The Division of Business Operations.

GENERAL ADMINISTRATIVE OFFICES.

The general administrative work of the Library is centered in the Director's Office. It is responsible for the general administration of the entire library system as a whole. It cares further for all activities that are not handled directly by the Division of Home Reading and Community Services, the Division of Reference and Research Services, or the Division of Business Operations.

There is also supervised from the Director's Office the work of such subsidiary offices as the Personnel Office, the Information Office, the Office of Records, Files, Statistics, the Exhibits Office, and the general publishing activities of the library.

THE DIVISION OF HOME READING AND COMMUNITY SERVICES.

The greater part of the circulation of books to borrowers is centered in the Branch Libraries and the Bookmobiles. The purely library activities of the Branch Libraries and the Bookmobiles are therefore considered as a unit which is designated as the Division of Home Reading and Community Services. Within this division there are closed departments and public departments. The main grouping of the public departments is that of the Branch Libraries and the Bookmobiles, and the Audio-Visual Department, Central Charging Records, and the Open Shelf Department in the Central Library. In direct relationship with the work of the Branch Libraries and the Bookmobiles is the Work with Adults, the Work with Young Adults, and the Work with Children.

The *closed departments* are:

1. Cataloging and Classification Department.
2. Book Selection Department.
3. Central Book Stock, Branch Issue Section and School Issue Section.

These departments are concerned with the selection of library materials and with the preparation of these materials for use by the public.

The *public departments* are the Audio-Visual Department, Central Charging Records, and the Open Shelf Department (Adults' Section, Young Adults' Section, Children's Section) in the Central Library, the three Bookmobiles, the 27 Branch Libraries, and Hospital Library Service at Boston City Hospital, distributed throughout the city as follows:

City Proper:

- North End, 3A North Bennet street.
- South End, 65 West Brookline street.

West End, 131 Cambridge street.
Bookmobile I, Central Library, Copley square.
Bookmobile II, Central Library, Copley square.
Bookmobile III, Central Library, Copley square.

South Boston:

South Boston, 646 East Broadway.
Washington Village, 290 Old Colony avenue.

West Roxbury:

Roslindale, 4220 Washington street.
West Roxbury, 1961 Centre street.

THE DIVISION OF REFERENCE AND RESEARCH SERVICES.

The more important part of the reference work of the library system as a whole is carried on in the Central Library. The purely library activities of the Central Library are therefore considered as a unit which is designated as the Division of Reference and Research Services. Within this division there are closed departments and public departments.

The *closed departments* are:

1. Cataloging and Classification Department.
2. Book Selection Department.

These departments are concerned with the selection of library materials and with the preparation of those materials for use by the public.

The *public departments* are:

1. General Reference Department (the Main Reading Room).
2. Periodical and Newspaper Department.
3. Statistical Department (the Government Documents Department).
4. Kirstein Business Branch.
5. Teachers' Department (the Education Department).
6. Science and Technology Department.
7. History Department.
8. Fine Arts Department.
9. Music Department.
10. Social Sciences Department (proposed).
11. Literature and Languages Department (proposed).
12. Philosophy — Psychology — Religion Department (proposed).
13. Maps Department (proposed).

In addition to the above public departments there is also a Print Department and a Rare Book Department. The general nature of all of these public departments is indicated by the names which they bear.

The general book stock is under the supervision of a department known as the Book Stack Service.

THE DIVISION OF BUSINESS OPERATIONS.

All of those aspects of the Library's activities that are not of a purely library nature, and are not provided for otherwise, are considered as a unit constituting the Division of Business Operations.

The *departments constituting the division* are:

1. Accounting Department.
2. Book Preparation Department.
3. Book Purchasing Department.
4. Binding Department.
5. Buildings Department.

The general nature of the work of these departments is indicated by the names which they bear.

SPECIAL ACTIVITIES.

In addition to the regular activities of the various departments, the Library carries on programs of free lectures and concerts which are given in its lecture hall several times each week from October through April each year. Exhibits in the Main Lobby, the Treasure Room, and in the Puvis de Chavannes, Sargent, and Wiggin Galleries in the Central Library Building afford opportunities for emphasizing the Library's valuable resources. Storytelling in the Children's Section, Open Shelf Department, and in many branch libraries by trained storytellers is a part of the Library's program of work with children. Four publications are distributed free throughout the system: *Books Current*, *Spotlight on Books for Young Adults*, and *Books on Parade*, each issued four times a year, and *B. P. L. News*, issued ten times a year. For *The Boston Public Library Quarterly*, issued in January, April, July and October, there is a subscription fee of \$2.00 a year, 50 cents a single copy.

OFFICIALS.

- FRANK R. KELLEY, *Commissioner.*
- ARTHUR J. O'KEEFE, *Executive Secretary.*
- DANIEL J. BYRNE, Jr., *Chief Engineer.*
- PATRICK J. RYAN, *Director of Recreation.*
- ARTHUR A. ENGLISH, *General Superintendent.*
- JOHN J. BUTLER, *Superintendent of Baths.*

The first Board of Park Commissioners was appointed on July 8, 1875. The Board consisted of three members who served without compensation. As thus constituted, the department continued up to 1913, when, by the provisions of Chapter 10, Ordinances of 1912, it was merged with the Public Grounds, Bath and Music Departments, under the name of Park and Recreation Department. In 1920, the Cemetery Department was merged with the Park Department, the latter title being substituted for Park and Recreation Department. On May 1, 1954, the department became the Parks and Recreation Department. The four Associate Commissioners serve without compensation.

A list of the statutes was published in the 1932 Municipal Register.

* For a term expiring on the first Monday of the January following the next biennial municipal election at which a Mayor is elected.

EDWARD L. FRIEL, *Commissioner*. Term ending May 1, 1962.

The Penal Institutions Commissioner is the executive and administrative head of the Penal Institutions Department, and he is also charged with paroling power from Charles Street Jail and Suffolk County House of Correction.

House of Correction.

WILLIAM P. KELLEY, *Master*.

This institution dates from 1895, and now includes land and buildings valued at \$2,378,600; land appraised at \$605,900, and buildings at \$1,772,700.

PUBLIC WORKS DEPARTMENT

General Offices, entire fifth, sixth and seventh floors and part of fourth floor, City Hall Annex.

Commissioner's Office, 509 City Hall Annex.

* ROBERT P. SHEA, *Commissioner*.

JOHN J. CONNELLY, *Executive Secretary*.

FREDERICK L. GARVIN, *Associate Civil Engineer*.

The Public Works Department was established on February 1, 1911, when the Street, Water, and Engineering Departments were combined under a single executive head, the Commissioner of Public Works. Under the City Ordinances the Commissioner has authority to create such divisions of the department as he considers necessary. The department as at present organized is composed of the Bridge, Highway, Automotive, Sewer, Sanitary, Survey, and Water Divisions, each in charge of a Division Engineer or Chief Engineer.

The Commissioner of Public Works must be a civil engineer of recognized standing in his profession. He is in charge of the construction and maintenance of all streets, sidewalks, and sewers; granting of permits to open, occupy, obstruct, and use portions of the streets and sidewalks; planting and removal of trees in public ways; street lighting, both gas and electric; installation, maintenance, and operation of all fixtures and appliances held by the City for its water supply; cleaning and flushing of streets, as well as snow removal from streets; collection and removal of ashes, garbage, and refuse; installation and maintenance of street signs; construction, maintenance, and operation of City-owned bridges used as

highways; and maintenance and operation of the Sumner Vehicular Tunnel under Boston Harbor connecting the City Proper with East Boston and points to the North.

Automotive Division.

Office, 280 Highland Street, Roxbury.

JAMES H. STEWART, *Chief Automotive Engineer.*

The Division Engineer is responsible for the care, control and maintenance of all department-owned motor vehicles, and for the operation and maintenance of five garages and related facilities, together with a Mobile Patrol, organized for the protection of department property in all sections of the city, and a motor pool of passenger cars.

The department's fleet of 493 units of automotive equipment, under the supervision of this division, consists of 82 sedans and other vehicles used for transportation purposes, and 278 trucks of various sizes, including 36 snowfighters, 10 compressors, 4 catchbasin cleaners, 35 pick-up trucks, 131 dump trucks, 6 wreckers, 6 flushers, 3 derrick trucks, 2 lumber trucks, 1 rack truck with crane, 3 platform trucks, 32 emergency trucks, and 9 miscellaneous trucks. There are 28 street sweepers, 11 gasoline road rollers, 7 snow and bucket loaders, 19 front bucket loaders, 2 tractor shovels, 4 crawler tractors, 1 grader and 3 trailer compressors, and 58 pieces of miscellaneous equipment; 440 of these units are registered under the motor vehicle law of the Commonwealth.

Bridge Division.

Office, 601 City Hall Annex.

JOHN J. MCCALL, *Division Engineer.*

THOMAS J. HAGGERTY, *Principal Civil Engineer.*

The Bridge Division was established June 2, 1954, under Section 33 of Chapter 27 of the Revised Ordinances of 1947.

The Division Engineer has charge of the design, construction, operation, and maintenance of the greater number of highway bridges within the limits of the City, the abolishment of grade crossings, the maintenance and operation of the Sumner Tunnel, and also has charge of special engineering work for other City departments. During the year 1957, 12,896,724 motor vehicles passed through the Sumner Tunnel.

Highway Division.

Office, 501 City Hall Annex.

RUTHFORD J. KELLEY, *Division Engineer.*

CHARLES M. MARTELL, *Assistant Division Engineer.*

The Highway Division was established June 2, 1954, under Section 33 of Chapter 27 of the Revised Ordinances of 1947.

The Division Engineer has charge of the construction and maintenance of all public streets, including snow removal, the issuing of permits to open, occupy and obstruct portions of streets, the care and upkeep of electric and gas lamps on public streets, alleys, parks, and public grounds, and the placing of all street signs.

On December 31, 1957, this division had under its jurisdiction 747.66 miles of public streets throughout the City, and the number of street lamps in use on this date comprised 24,558 electric and 710 gas, making a total of 25,268 lamps. Also under the jurisdiction of this division are 80 spot lights in various parts of the City for use by police officers assigned to Traffic Control.

Sanitary Division.

Office, 507 City Hall Annex.

JOHN F. FLAHERTY, *Division Engineer.*

TIMOTHY J. O'LEARY, *General Superintendent.*

FRANCIS E. GLENNON, *Supervisor of Street Cleaning.*

The Division Engineer has charge of the contract collection, removal and disposal of ashes, garbage and refuse, and street cleaning and flushing by City forces.

While the department is not required to remove so-called commercial refuse from shops, stores, and other business establishments, it is permitted to make such removals upon payment by the producers of the charge prescribed under the authority of the City Ordinances. A charge of 20 cents a barrel or bundle (not larger than a flour barrel) has been established. The producers of the refuse make payment direct to the contractors in the various districts for this service.

Sewer Division.

Office, 701 City Hall Annex.

— *Division Engineer.*

EDWARD S. A. POWERS, *Principal Civil Engineer.*

The Division Engineer has charge of the maintenance and construction of all sewerage works.

Assessments upon estates benefited by new sewers are levied by the Public Improvement Commission, which also awards damages for land takings made for sewer construction. The assessment upon estates for a new sewer is limited to an amount not exceeding three-fourths of the cost thereof, proportionately upon the estates benefited, and it is a lien upon the property. An Act of the Legislature prohibits the assessment of the cost of surface drains.

In the calendar year 1957, there were built by contractors and day labor 4.01 miles of sanitary sewers and surface drains, and 176 catch basins, making on January 1, 1958, a total of 1,326.24 miles of common and intercepting sewers and 24,698 catch basins in charge of the Sewer Division.

The Boston Main Drainage System, comprising 24.12 miles of intercepting sewers, with a pumping station at Old Harbor Point, and storage reservoirs and outlet into the harbor at Moon Island, in operation since 1884, takes care of the sewage from City Proper, South Boston, and parts of Roxbury, West Roxbury, and Dorchester.

The common sewer system has two electrically-operated automatic pumping stations. The station at Union Park and Albany streets was built in 1915 to relieve floodings in the South End district of Boston, by pumping and discharging the surplus storm water flow into the South Bay.

The station at Summer street, opposite E street, was built in 1913, and takes care of the sewage from the Commonwealth Pier district, and the Army and Navy Bases.

Charlestown and East Boston sewage discharges into the main North Metropolitan System of the State, which discharges into the harbor waters just south of Deer Island.

Sewage from all of Brighton, a portion of the Back Bay and a small part of Roxbury, discharges into the South Metropolitan System, is lifted by pumping at the Ward Street Pumping Station, then flows through the main sewer, which also drains by gravity portions of West Roxbury and Dorchester and all of Hyde Park, finally outletting into Quincy Bay at Nut Island.

Survey Division.

Office, 403 City Hall Annex.

JAMES W. HALEY, *Chief Engineer.*

JOHN J. RYAN, *Principal Civil Engineer.*

The Survey Division was established May 1, 1954, under Chapter 2 of the Ordinances of 1954, Section 56, which amended Section 33 of Chapter 27 of the Revised Ordinances of 1947.

This division performs certain engineering services for the divisions of the Public Works Department and other City departments. It also performs administrative and engineering services required by the Public Improvement Commission for its operation.

The principal engineering functions include the making of plans, surveys, estimates and reports relating to the laying out, widening, construction, and design of public highways; the making of surveys and plans relating to the preservation and maintenance of street line location records, the making of surveys and plans for sewerage easements, staking out lines and grades for the construction of highways, sewerage, etc.; the making of property surveys of land to be acquired by the City of Boston by eminent domain; the making of topographic surveys in connection with the construction of various municipal buildings; the making of plans and surveys of City-owned land for purposes of interdepartmental transfer or for sales to the public; the making of engineering surveys and plans required by other City departments; furnishing street locations and related engineering information to the public; photographic and reproduction work, including blueprinting, photostating, etc.

For the Public Improvement Commission, the administration functions include the processing of petitions, arranging public hearings, preparing estimates and orders relating to land damages and street and sewer betterments, preparing orders for the laying out of streets and the construction of streets and sewers, for eminent domain land takings, and for the granting of permits for use of public highway, erection of poles, etc., and it is also responsible for the maintenance of all records in the charge of the Public Improvement Commission.

Water Division.

Office, 607 City Hall Annex.

DANIEL M. SULLIVAN, *Division Engineer.*

EDWARD J. PINKUL, *Principal Civil Engineer.*

Under the control of the Division Engineer are the care and maintenance of all pipes and other fixtures and appliances for the purpose of the City's

water supply, and all water assessments and other charges necessary for the maintenance of the Division.

The total length of supply and distributing water main on December 31, 1957 was 1,030.75 miles; number of fire hydrants, 12,543, including 503 high pressure, 394 private; number of meters now in service, 93,881.

The first water document published by the City of Boston appeared in 1825. In addition to the annual reports of the Cochituate supply, from 1850, and of the Mystic supply, from 1866, there are numerous special reports. By Chapter 449, Acts of 1895, the Boston Water Board, the Water Income Department, and the Water Registrar were abolished and the Water Department created, a single commissioner being entrusted with all the powers previously exercised by the Boston Water Board and the Boston Water Registrar.

A State commission, the Metropolitan Water Board, took possession in 1898 of all that part of the Boston water system lying westward of Chestnut Hill Reservoir, also the pumping station there, with adjacent lands. The sum paid to the City was \$12,531,000. Payments to the State by the City for its supply of water have been regularly made since 1898. Total available quantity of water in the six storage reservoirs of the Metropolitan system on January 1, 1958, 364,090,400,000 gallons, of which about 86 per cent was in the Quabbin Reservoir, about 65 miles west of Boston, an artificial lake, 25,216 acres in surface area and added to the system in 1948. There are also 15 distribution reservoirs having a capacity of 3,118,850,000 gallons, 12 pumping stations being connected with them. In the existing Metropolitan Water District are 12 cities besides Boston, and 14 towns, and a portion of Winchester. Boston takes about 52.8 per cent of the entire water supply of the District.

The daily average amount of water used in Boston in 1957 was 112,406,400 gallons, or 162 gallons per capita.

HIGH PRESSURE FIRE SERVICE.

By the provisions of Chapter 312, Acts of 1911, the Commissioner of Public Works was authorized to install an efficient system of high pressure fire service for the business center of the City. The work completed, including the old salt-water fireboat line installed in 1898, comprises 18.721 miles of pipe with 503 hydrants. Total expenditure for installation of system to December 31, 1953, was \$2,599,379.45. Two pumping stations are now in use.

The Boston Retirement System was established on February 1, 1923, under the provisions of Chapter 521 of the Acts of 1922, which was accepted by the Mayor and City Council in August, 1922.

An additional retirement system for city and county employees was provided by Chapter 658 of the Acts of 1945. This act was accepted by the City Council June 3, 1946, and approved by the Mayor June 5, 1946. The new system, designated as the State-Boston Retirement System, went into effect October 1, 1946. Every employee appointed after that date becomes a member of the new system.

Both systems are administered by a Retirement Board consisting of Walter J. Malloy, appointed by the Mayor for a term of three years; Joseph P. Lally, City Auditor, *ex officio*; and John C. Kabachus, elected by members of the system. The Board serves without compensation.

The Act establishing the commission became effective April 30, 1929, after approval by the Governor and acceptance by the Mayor and City Council. By Stat. 1957, Chap. 253 the Commission was reorganized. The traffic commissioner is appointed by the Mayor, and until the qualification of his successor, receives compensation established by the Mayor and City Council, and may be removed by the Mayor. The associate commissioners receive no compensation.

The commissioners may employ, subject to the approval of the Mayor and to chapter thirty-one of the General Laws, engineers, experts, assistants and other officers and employees. The commission has exclusive authority to adopt, amend, alter and repeal rules and regulations relative to vehicular street traffic, and to the movement, stopping or standing of vehicles on, and their exclusion from, all or any streets, ways, highways, roads and parkways, under the control of the city. The commission has the power to erect, make and maintain, or cause to be erected, made and maintained, traffic signs, signals, markings and other devices for the control of such traffic in the city and for informing and warning the public as to the rules and regulations adopted by the commission.

* For a term expiring on the first Monday of the January following the next biennial municipal election at which a Mayor is elected.

The latest revision of the Traffic Regulations contains 1,063 one-way streets, 1,634 no-parking regulations, and 360 stop streets. The commission maintains 370 traffic signals, including two (2) interconnected systems in downtown Boston, 35,339 traffic signs, and one hundred and sixty-five (165) miles of white lines painted in the roadway, including crosswalks, center lines, lanes, lines and stop lines, are maintained by the commission. Twelve hundred and thirty-four (1,234) loading zones, requiring 34,920 feet of painted curb, are maintained. Fees amounting to \$50,353.00 are collected for the establishment and maintenance of these loading zones. The commission also maintains 8,298 parking meters. It is anticipated that approximately \$540,000 will be taken in as revenue during the year 1958.

Terms ending May 1, 1960.

DANIEL WEISBERG, ROBERT D. PATTERSON. Terms ending May 1, 1961.

The Board of Commissioners of Sinking Funds for the payment or redemption of the City debt consists of six members, two of whom are appointed annually by the Mayor for a term of three years from May 1. The Board has published annual reports since 1871. The amended City Charter, Section 26, prohibits the further establishing of sinking funds, but an exception was afterwards made by the Legislature regarding loans for Rapid Transit purposes. It also prohibits the depositing of City or County money in any bank of which any member of the Board of Sinking Funds Commissioners is an officer, director or agent.

Chapter 2 of the Ordinances of 1954 placed the Board of Commissioners of Sinking Funds in the Treasury Department but not subject to the supervision or control of the Collector-Treasurer.

* The Commissioners serve without compensation.

VETERANS' SERVICES DEPARTMENT

Office, 18 Cornhill.

Stat. 1897, Chap. 441; Gen. Laws, Chap. 115, as amended; Ord. 1954,
Chap. 2, § 66.

VICTOR C. BYNOE, *Veterans' Benefits and Services Commissioner*.*

THOMAS J. SHEEHAN, *Executive Secretary*.

The Veterans' Services Department was established as a department of the City of Boston by the Ordinances of 1954, Chapter 2, Section 66, and is under the charge of a Commissioner who is appointed by the Mayor. This department performs the functions formerly performed by the Department of Veterans' Services, which it replaces. The Commissioner exercises all powers and duties for the distribution of state and city benefits to veterans and their eligible dependents in the City of Boston, such as were formerly vested in the Mayor and Board of Aldermen. Under his direction assistance is rendered to veterans and their dependents of the Civil War, Indian War, Spanish-American War, Philippine Insurrection, China Relief Expedition, Mexican War, World War I, World War II, and for service with Armed Forces from June 25, 1950 through January 31, 1955 inclusive.

This department provides information, advice and assistance to veterans of all wars, to enable them to procure the benefits to which they are entitled relative to employment, vocational and educational opportunities, hospitalization, medical care, pensions, and other veterans benefits.

FRANK T. PEDONTI, *Supervisor of Veterans' Graves and Registration*.

By the Ordinances of 1954, Chapter 2, Section 66, there was placed in this department an officer, known as the Supervisor of Veterans' Graves and Registration, who is appointed by the Mayor and who has the powers and performs the duties from time to time conferred or imposed by general laws applicable to Boston on persons appointed under Section 9 of Chapter 115 of the General Laws. This officer is not subject to the supervision or control of the Veterans' Benefits and Services Commissioner, but, unless otherwise ordered by the Mayor, such officer shall not communicate with the Mayor, or make any annual or other report, except through such commissioner.

* For a term expiring on the first Monday of the January following the next biennial municipal election at which a Mayor is elected.

The Overseers of the Poor in the Town of Boston, a corporation established in 1772 by act of the Legislature, were succeeded in 1864 by the corporation called "Overseers of the Poor in the City of Boston," consisting of twelve residents of Boston, four of whom are appointed annually to serve for the term of three years from the first day of May. The Board issued annual reports. In 1921 the name of the Board was changed to Overseers of the Public Welfare. In 1954 the official name of the department was changed to the Welfare Department.

The Overseers of the Public Welfare are also incorporated as a Board of Trustees of John Boylston's and other charitable funds. The total amount of the 18 permanent charity funds in the custody of the Overseers on December 31, 1957, was \$993,281, the annual income from which (\$33,897.00 in 1957) is distributed in accordance with the terms of the donations.

In charge of the Overseers is the Temporary Home on Chardon street for temporarily destitute women and children, opened in 1857.

* The Overseers serve without compensation.

Minors' licenses (*i.e.*, minors under 16 years of age to act as newsboys, etc.) are obtained by application to the Principal of the school which the minor attends.

BUREAU OF CHILD ACCOUNTING.

Administration Building Annex, 45 Myrtle street.

The Bureau of Child Accounting comprises the following-named departments: Educational Investigation and Measurement, Vocational Guidance, and Attendance (including Certifying Office); and the following divisions: Division of Statistics and Publicity; Division of Pupil Adjustment Counseling.

SUPERVISORS OF ATTENDANCE.

[Stat. 1931, Chap. 394, Sect. 146.]

These officers are appointed by the School Committee, and under their direction enforce the laws relating to absentees from school. There are 39 supervisors of attendance besides the head supervisor and they may be seen at 9 A. M. and 1.30 P. M., on the days that the schools are in session at the school designated by the head supervisor.

SCHOOL PHYSICIANS AND SCHOOL NURSES.

Regular medical inspection of the schools was maintained from 1894 to 1915, under the supervision of the Health Department. Beginning September 1, 1915, the School Committee took charge of this service: For all schools and districts there is 1 Director of School Hygiene in charge of 1 school physician assigned to the certifying office, 1 ophthalmologist, 1 otologist, 53 school physicians, 1 supervisor of nutrition, 9 school medical aids, and 1 sanitary engineer.

Chapter 357, Acts of 1907, provided for the appointment by the School Committee of 1 supervising female nurse and as many district female nurses as are deemed necessary. For the 76 junior high and elementary school districts there is 1 supervising nurse in charge of 4 assistant supervising nurses, 1 nurse assigned to the certifying office, 1 nurse assigned to the ophthalmologist, and 64 school nurses (including 10 high schools), and 1 nurse assigned to the otologist.

PHYSICAL EDUCATION.

In 1907, the School Committee was authorized to provide for the extension of physical education and recreation of pupils, including proper apparatus and facilities in the buildings, yards and playgrounds under their control.

The School Committee appropriates, out of the tax levy, for this branch of education such amount as it deems necessary. The Committee has also the right to appropriate the unexpended balance of the previous year, plus the estimated income for the current year. The appropriation for 1957 is \$863,345.50.

The Department of Physical Education comprises 1 director, 1 associate director, 2 assistant directors, 4 elementary supervisors, 10 instructors of military science, 1 armorer, 36 women and 33 men instructors of physical education, 69 teacher coaches of athletics, high schools, 31 teacher coaches of athletics, junior high schools, 31 assistant teacher coaches, 67 play teachers.

INDUSTRIAL SCHOOLS PARTLY MAINTAINED BY STATE.

By Chapter 471, Acts of 1911, and Chapter 106, Acts of 1912, the State especially encourages the establishing of Independent Industrial Schools, allowing financial aid for their maintenance proportionate to the amount raised by local taxation and expended for all public schools. Under this arrangement the School Committee is reimbursed by the State to the extent of one half the net maintenance cost of such industrial schools established in Boston thus far with the approval of the Massachusetts Department of Education. By Chapter 805, Acts of 1913, Continuation Schools, for employed children between fourteen and sixteen years of age, were included under the same plan of State aid. The schools thus maintained are the Boston Trade High School (for Boys), day and evening classes, Trade High School for Girls, Compulsory Continuation School, also part-time co-operative-industrial courses in Brighton, Charlestown, Dorchester High School, East Boston, Hyde Park, Roxbury Memorial High School for Boys, and South Boston High, and practical arts courses in the evening elementary schools.

For the agricultural course in the Jamaica Plain High School, the School Committee is reimbursed to the extent of two thirds of the cost of instruction.

INDUSTRIAL ARTS.

There are co-operative courses in eight high schools, as follows: Brighton (automobile mechanics), Charlestown (electricity), Dorchester (woodwork and upholstery), East Boston (machine shop practice), Hyde Park (machine shop practice), Jamaica Plain (agriculture), Roxbury Memorial High School for Boys (printing), and South Boston (sheet metal and auto body).

Industrial arts courses in shopwork are given in the following high schools: East Boston High School, Hyde Park High School, Roslindale High School, Roxbury Memorial High School (Boys), and South Boston High School.

There are 154 shops, including 8 classrooms used for drafting, in elementary and junior high schools, in which the following named subjects are taught: drafting, electricity, interior decoration, machine shop practice, printing, sheet metal, woodwork, and diversified shop subjects.

Cardboard construction and elementary bookbinding in the fourth and fifth grades, although taught by classroom teachers, are supervised by the department.

Gardening is conducted by the department as an after-school and summer activity; home gardening in 46, and school gardening in 14 elementary and junior high districts and on a seven-acre plot of City of Boston property in Woburn.

HOME ECONOMICS.

In the Home Economics Department there are 156 teachers, an assistant director and a director.

There are 11 high schools offering course in Home Economics: Brighton, Charlestown, Dorchester High, East Boston, Girls' High, Hyde Park, Jamaica Plain,† Jeremiah E. Burke, Roslindale,† Roxbury Memorial High (Girls)† and South Boston.

In the high schools of Boston there are 12 appointed teachers of Clothing; 1 teacher assigned from Trade High, 1 appointed teacher of Millinery, assigned to teach academic subjects; 7 appointed teachers of Foods and 1 temporary teacher of Foods. One of the appointed high school teachers of Foods has a full time program in Clothing. Two of the appointed high school teachers of Foods have part time programs in Clothing, and one has a Clothing and Health program. There are 18 standard clothing rooms, 9 foods laboratories, and 4 Home Economics suites.

In the junior high there are 39 teachers of Foods; one teacher assigned to Special Class Occupational Center, one teacher assigned to elementary clothing, together with three teachers assigned from Trade High School, and 2 teachers appointed to the M. Gertrude Godvin school. There are 89 elementary and junior high school teachers of clothing, including two teachers assigned to home economics classes in the High schools, one teacher assigned to junior high Foods, 2 teachers assigned from Trade High, and one teacher appointed to M. Gertrude Godvin school. There are also 7 temporary teachers having home economics programs.

There are 44 rooms equipped for instruction in foods, 16 of these have adjoining suites. There are 103 classrooms equipped for the teaching of clothing.

EVENING HIGH, ELEMENTARY AND TRADE SCHOOLS.

There are seven evening high schools: Brighton, Central (English High Schoolhouse), Dorchester (Jeremiah E. Burke Schoolhouse), East Boston (Joseph H. Barnes Schoolhouse), Roslindale, Roxbury (Boston Clerical Schoolhouse), and South Boston. These schools, the sessions of which are held on Tuesday and Thursday evenings, from 7 to 10 o'clock, are

† Jamaica Plain, Roxbury Memorial High (Girls) and Roslindale — Clothing Classes — No Food Classes.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON. 109

conducted in the several high schoolhouses of the districts named. All but the Central High are commercial schools.

There are ten evening elementary schools in session on Tuesday and Thursday evenings from 7 to 10 o'clock.

There is one evening trade school, Boston Evening Trade School, with two branches located in the Brighton High and South Boston High Schoolhouses. These schools are conducted on Tuesday and Thursday evenings, from 7 to 10 o'clock.

DAY SCHOOL FOR IMMIGRANTS.

In the Abraham Lincoln School there are classes for immigrants where instruction in the English language is provided, classes being conducted daily (except Saturday) for three hours in the forenoon and two in the afternoon.

COMPULSORY SCHOOL ATTENDANCE.

All children fourteen to sixteen years of age employed under an employment permit or released from regular school attendance under a Home Permit are required by law to attend a course of instruction in education four hours per week. These children are assigned to the William Blackstone Junior High School, 33 Blossom Street, West End, for the equivalent of a continuation school education.

USE OF SCHOOLHOUSES FOR EDUCATIONAL, SOCIAL, AND CIVIC PURPOSES.

In 1912 the School Committee was authorized by statute to allow the use of buildings under their control by associations and individuals (other than school pupils) for educational, recreative, social, civic, philanthropic, and similar purposes at times when the schools were not in session. Under this arrangement there are now fourteen School Centers, each having a manager and largely attended on two evenings a week. More than 125 school buildings are also used by non-school center groups.

The School Committee may annually appropriate for this purpose such amount as it deems necessary. The expenditures for 1957 were \$123,582.93 for salaries and supplies. Besides the renting of school halls for club meetings, entertainments, etc., basements and other accommodations in schoolhouses are used by the Election Department as polling places, lighting and custodian service being paid for by the Election Department.

PENSION AND RETIREMENT FUND FOR TEACHERS.

The School Committee, by a majority vote of all its members, may retire with a pension any member of the teaching or supervising staff of the public day schools who has reached the age of sixty years, also such other members as are incapacitated for further efficient service.

These pensions are paid to teachers who were retired before the establishment of the Boston Retirement System, or who have not become members of the Boston Retirement System or State-Boston Retirement System.

The School Committee is authorized to provide for these pensions by appropriating annually such amount as it deems necessary, which, together with the unexpended balance of the previous year, the amount of reimbursement from the Commonwealth, and the appropriation of accrued interest in the Permanent School Pension Fund, will pay pensions for the year.

On December 31, 1957, the Permanent School Pension Fund amounted to \$627,685.61, and 236 retired teachers were receiving pensions therefrom.

The Boston Teachers' Retirement Fund Association, started in 1900, is at present paying \$120 per year to 1,139 annuitants, the total amount of its fund on August 31, 1957, being \$2,503,796.57. At that date 2,340 teachers were contributing \$24 per year to the Fund.

BOARD OF COMMISSIONERS OF SCHOOL BUILDINGS

DEPARTMENT OF SCHOOL BUILDINGS.

Offices and Warehouse, 26 Norman Street.

[Stat. 1929, Chap. 351.]

THOMAS A. CRONIN, appointed by Governor Herter. Term ends December 1, 1960.

MATTHEW T. CONNOLLY, appointed by the School Committee. Term ends December 1, 1958.

JOSEPH F. O'CONNELL, JR., *Chairman*, appointed by Mayor. Term ends December 1, 1959.

CHARLES A. CALLANAN, *Superintendent of Construction*.

At the City Election held November 5, 1929, on the referendum — "Shall chapter 351, of the Acts of 1929, entitled 'An Act to establish a board of commissioners of school buildings and a department of school buildings in the city of Boston' be accepted?" there were 110,453 votes in favor, 57,276 against, and 50,632 blanks.

By the provisions of the Act, the board "shall consist of three citizens of Boston who otherwise are neither officials nor employees of said city, one of whom shall be appointed by the mayor . . . without approval by the civil service commissioners, one by the school committee, and one shall be chosen by the two so appointed, or shall be appointed by the governor if the appointees of the mayor and school committee fail to choose a commissioner as aforesaid within thirty days after a second of such appointees has been appointed."

According to section 2 of the Act, the Department of School Buildings is established, to be under the charge of a superintendent of construction who shall be elected by the board of commissioners, to serve at the pleasure of the board.

Upon the election of a superintendent of construction, the board of schoolhouse commissioners of the schoolhouse department and said department shall be abolished.

POLICE DEPARTMENT

Headquarters, 154 Berkeley Street.

[Stat. 1878, Chap. 244; Stat. 1885, Chap. 323; Stat. 1906, Chap. 291;
Stat. 1938, Chap. 377.]

LEO J. SULLIVAN, *Police Commissioner*.

ALFRED C. HOLLAND, *Secretary*.

CHARLES F. HOAR, *Confidential Secretary*.

MATTHEW T. CONNOLLY, *Legal Advisor*.

FRANCIS J. HENNESSY, *Superintendent of Police*.

The City is divided into seventeen Police Divisions, in each of which is a station house, the quarters of a captain and a force of men.

The Bureau of Criminal Investigation, a central detective agency of the Department, located in Headquarters building, and consisting of several subdivisions, is operated on a large scale and in an efficient manner. Members of this Bureau investigate felonies committed within the jurisdiction of the City of Boston. In addition to its divisions for investigation of reports of automobiles stolen, lost and stolen property, and homicides, squads are assigned to cover the following phases of police work and investigation: Banking, express thieves, general investigation, hotels, narcotics, vice, obscene literature, pawnbrokers, including junk-shop keepers and dealers in second-hand articles, pickpockets, radical and shop-ping crimes. A night motor patrol squad performs duty throughout the city, to prevent, so far as possible, the commission of crime and, if acts of violence or other serious crimes have been committed, to arrest and prosecute the offenders. Criminal identification, fingerprints and photographs, missing persons, warrants and summonses are handled by this Bureau. The Bureau also handles cases of fugitives from justice and conducts hundreds of investigations during the course of a year for various police departments throughout the United States and foreign countries. Further, it cooperates in every way possible with outside police departments in the investigation of crime and prosecution of criminals. Supervision of the daily line-up of all prisoners arrested for serious offenses is conducted by this Bureau.

The criminal identification division of this Department has continued to prove of great value and stands in favorable comparison with identification units of the most advanced departments.

Advancements and changes are constantly being made to maintain efficiency of various divisions of the Bureau of Criminal Investigation. To bring about this efficiency of service, equipment of the Bureau is continually being augmented by addition of modern identification apparatus.

Files of the Bureau of Criminal Investigation contain records of assignments made in the Bureau and all records of arrests made throughout the Department.

On file, also, are reports of all felonies committed within the city and all reports of investigation of these felonies.

The Bureau of Operations supervises the development and maintenance of the system of operations of the Department, including two police broadcasting stations, "KCA860," located at Police Headquarters and on the roof of the new Courthouse Building, Pemberton Square; the latter station being operated by remote control from the Bureau of Operations at Police Headquarters.

These broadcasting stations insure speedy response to a call for police assistance and render possible speedy dissemination of information and quick concentration of necessary police power at a point where needed.

The Boston Police Department is completely equipped with modern two-way radio. There are 125 police cars, 4 police boats, and 29 combination patrol wagons and ambulances, fully equipped with two-way radio telephone. Police automobiles with two-way radio are moving through all parts of the city day and night. Any part of the city may be reached by a police radio car in a very few moments after receipt of a radio message from either of the broadcasting stations.

The radio has been a very important factor in the prompt apprehension of law violators as well as increasing the number of arrests. In many instances, the offenders have been taken into custody while in the act of committing crime.

The Traffic Division is located in the Police Building, 229 Milk street. Its commanding officer is responsible for proper regulation of traffic conditions and for safety of the public using the highways from 8 A.M. to 12 o'clock midnight, within the intown section of the city.

The Property Clerk's Office is charged with the care of all police buildings, lost, stolen and abandoned property, money or other property alleged to have been illegally obtained, and all articles and property taken from persons arrested for any cause. In its custody are also placed all seized liquor and gaming implements which come into possession of the Department.

All orders for supplies, building maintenance, repair work, plumbing, steamfitting, etc., uniforms and equipment are issued by this office.

The Commissioner appoints a Harbor Master and assistants from the police force. The following motor launches are used in this service: the "Michael H. Crowley," a 60-foot craft, the "William H. Pierce" and the "William H. McShane," both 38-foot crafts; and a Chris-Craft 16-foot speedboat named the "Warren C. Perkins."

The Police Department is responsible for the annual listing of all residents within the city 20 years of age or over.

On January 1, 1958, the police force numbered 2,842.

The Licensing Board for the City of Boston was established by Statutes of 1906, Chapter 291. It consists of three members appointed by the Governor, with the advice and consent of the Council. They must be citizens of Boston who have resided in Boston for at least two years preceding the date of their appointment. The two principal political parties must be represented on the Board and the term of the members is fixed at six years after the first appointment, which was for six, four, and two years. The Board was created to exercise all the powers and perform all the duties conferred upon the Board of Police of the City of Boston relative to intoxicating liquors (now called alcoholic beverages), innholders, common victuallers, billiard and pool tables, sippio tables, bowling alleys, intelligence offices, and picnic groves.

By Statutes of 1909, Chap. 423, the Board was given the right to issue licenses to "Sunday dealers in ice cream, or confectionery, or soda water or fruit".

By Statutes of 1918, Chap. 259, the Board was granted the right to issue licences to lodging houses.

By Statutes of 1922, Chap. 392, the Board was given the right to license "retail vendors of soft drinks."

By Statutes of 1926, Chap. 299, the Board was given the right to grant entertainment licenses in places where such entertainment was carried on in conjunction with sale for cash of food or drink six days of week but not on Sundays.

By Chapter 284 of the Acts of 1933, the Board was given authority to grant victuallers' licenses to clubs, societies, associations or other organizations which dispense food and beverages on their premises, to their stockholders or members and their guests and to none others.

By Chapter 376 of the Acts of 1933, now Chapter 138 of the General Laws, the Board was given the authority to issue alcoholic beverage licenses to common victuallers, innholders, taverns, clubs and retail druggist and package stores, and to suspend or revoke the same after a hearing.

By Statute of 1949, Chapter 361, the Board was given the right to license mechanical amusement devices and regulate the operation thereof.

By Statutes of 1953, Chapter 622, in addition to the notice which the Licensing Board for the City of Boston is required by law to give to the public concerning applications for new licenses, under Sections 12, 15 or

30A of Chapter 138 of the General Laws, and applications for transfer of location of said licenses, it shall also give notice of such applications to the state representatives of each representative district affected by the application, and also to such persons, groups, and organizations as have formally requested in writing that such notice be given them for license applications in a designated representative district.

FRANKLIN TECHNICAL INSTITUTE, 41 Berkeley Street.

LOUIS J. DUNHAM, JR., *Director*.

The Franklin Foundation is incorporated under Chapter 569 of the Acts of 1908, a board of citizens being named therein to act for the City in the control of the Franklin Fund and in maintaining the Franklin Technical Institute as an independent technical institute for adults.

The Franklin Fund is the proceeds of a bequest of one thousand pounds to "the Inhabitants of the Town of Boston in Massachusetts" made by Benjamin Franklin, in a codicil to his will dated June 23, 1789. The codicil provided that the fund "if accepted by the Inhabitants of the Town of Boston" be managed "under the direction of the Select Men, united with the Ministers of the oldest Episcopalian, Congregational and Presbyterian Churches in that Town," who were to make loans on certain conditions to "young married artificers, under the Age of twenty-five years."

Dr. Franklin, who died April 17, 1790, calculated that, in one hundred years, the thousand pounds would grow to one hundred and thirty-one thousand Pounds "of which," he says, "I would have the Managers then lay out at their discretion one hundred thousand Pounds in Public Works which may be judged of most general utility to the Inhabitants The remaining thirty-one thousand Pounds I would have continued to be let out on interest in the manner above directed for another hundred years At the end of this second Term, if no unfortunate accident has prevented the operation the sum will be Four millions and Sixty-one thousand Pounds Sterling, of which I leave one Million sixty-one Thousand Pounds to the Disposition of the Inhabitants of the Town of Boston, and Three Millions to the disposition of the Government of the State, not presuming to carry my views farther." The Town accepted the donation at a Town Meeting held June 1, 1790.

A futile suit brought by the Franklin Heirs in 1891 prevented the division of the fund at the expiration of one hundred years; but on January 17, 1894, by direction of the three ministers and the Board of Aldermen of the City, which board claimed to be the successors of the "Selectmen", \$329,300.48 (1/3 of the fund) was paid to the City Treasurer, for "the purchase of land and the erection thereon of the Franklin Technical Institute and for the equipment of the same." Owing to a series of complications the money remained in the custody of the Treasurer. Mayor Collins, in 1902, caused a petition of the City to be filed in the Supreme Judicial Court, praying for instructions as to the authority of the persons then acting as Managers of the fund. The Court rendered an opinion November 25, 1903 (184 Mass. 373) to the effect that the three ministers were Managers of the fund under Franklin's will, but that the Aldermen did not succeed the "Selectmen" as Managers and had no powers with reference to it. The Court, under its general power to care for public charitable funds, appointed, on March 16, 1904, nine Managers to take the place of the "Selectmen," and provided in the decree of the Court, that the Mayor of Boston should be one, *ex officio*. Successors to the other eight are appointed by the Court. In 1908 the Franklin Fund Managers were incorporated as Franklin Foundation by the special act already referred to, which was clarified by amendments in 1927 and 1953. In 1931 the Court held the incorporation to be constitutional, since it did not change the composition or duties with respect to the Franklin Fund of the Board of Managers, and answered various questions which had been raised (276 Mass. 549).

On December 2, 1905, the City Treasurer received from Mr. Andrew Carnegie \$408,396.48, said sum being equal to the amount of the expendable portion of the Franklin Fund in August, 1904, which Mr. Carnegie agreed to duplicate. Only the annual income from this fund is used.

On November 17, 1927, \$100,000 was received by the Foundation from the estate of the late James J. Storrow, the income to be used for maintenance of Franklin Technical Institute.

In 1906 the City appropriated \$100,000, raised by a 20-year loan, to purchase a building site of about 16,000 square feet at the corner of Appleton and Berkeley Streets. On January 31, 1907, the amount available to be "laid out" by the Managers was \$438,741.98 and in that year the Franklin Technical Institute Building was erected and equipped at a cost of \$438,528.80. It was opened in September, 1908, as a Technical Institute to train young men and women for positions of supervision in industry. In 1941 the name was legally changed to Franklin Technical Institute. In 1957, the Board of Collegiate Authority of the Commonwealth of Massachusetts voted to confirm the action of a vote of the Members of the Franklin Foundation to confer the Degree of Associate in Engineering upon qualified graduates of Franklin Technical Institute. It is maintained partly by tuition fees (\$297,624 for the fiscal year 1957), and income from the above mentioned. Funds (*i.e.*, the Andrew Carnegie donation and the Storrow bequest). Educational programs are offered which are accredited by the Engineers' Council for Professional Development. The building contains 12 classrooms, 5 draughting rooms, and 6 shops and 13 laboratories. There is also an auditorium with a seating capacity of 927. Nine hundred forty-three (943) adult students received instruction at evening sessions and 302 in day courses during the school year of 1957.

The Franklin Fund (Second Part) will become available in 1991.

GEORGE ROBERT WHITE FUND

Office, 45 City Hall.

TRUSTEES, 1956.

JOHN B. HYNES, Mayor, *Chairman*.

PATRICK F. McDONOUGH, President, Boston City Council.

JOSEPH P. LALLY, Auditor, *Secretary*.

THOMAS M. HENNESSEY, President, Boston Chamber of Commerce.

CLAUDE B. CROSS, President, Bar Association of the City of Boston.

JAMES J. MCCARTHY, *Manager*.

THOMAS G. J. SHANNON, *Assistant Manager*.

The late George Robert White, who died in Boston, January 27, 1922, left the residue of his estate to the City of Boston to be held as a permanent charitable trust fund, "the net income only to be used for creating works of public utility and beauty, for the use and enjoyment of the inhabitants of the City of Boston."

The control and management of the fund is in the hands of a board of five trustees, consisting of the Mayor as Chairman, the President of the City Council, the City Auditor, the President of the Boston Chamber of Commerce and the President of the Bar Association of the City of Boston.

At a meeting of the Trustees held on Tuesday, April 5, 1938, it was unanimously voted that the services of a paid Manager be engaged. In accordance with this vote the custody, care, control and management of all real estate constituting a part of the George Robert White Fund is now in the hands of a Manager; all legal matters are attended to by the Corporation Counsel; all financial disbursements and investments are in the hands of the Collector-Treasurer; all collections and receipts are handled by the Collector-Treasurer; and the examination of all bills and demands rendered against the Fund, together with the approval of all expenditures and the auditing of all accounts, rests with the City Auditor.

Health Units have been provided at Baldwin Place and North Margin Street in the North End, at Paris and Emmons Streets, East Boston, at Dorchester and West Fourth Streets, South Boston, at Blue Hill Avenue and Savin Street, Roxbury, at High and Elm Streets, Charlestown, at Blossom and Parkman Streets, West End, at Whittier and Hampshire Streets, Roxbury, at Central Avenue, Hyde Park, and at Blue Hill Avenue and Harvard Street, Dorchester, in the hope of being able, by proper instruction, to better the living and health conditions of the communities in the congested districts.

A Prado has been established at Hanover and Unity streets in the North End, to provide an open air space for the residents of the North End. In 1935, the Trustees voted to change the name of the Prado to Paul Revere Mall.

In the spring of 1936 the Trustees voted to establish a wading pool and locker building in the yard in the rear of the Whittier Street Health Unit, Roxbury. The wading pool and locker building have since been in full operation for the use and enjoyment of the inhabitants of the City.

In the summer of 1936 the Trustees voted to have thirteen memorial bronze tablets fabricated and placed in the walls of the Paul Revere Mall in the North End. The inscriptions to be placed on these tablets involved considerable research work and as a consequence these tablets were not completed until the summer of 1940. This was done as an improvement to the Mall.

On January 27, 1940, the Trustees voted to purchase an equestrian statue of Paul Revere — made by Cyrus E. Dallin, sculptor — to be placed in the Paul Revere Mall in the North End, as an addition and further improvement in accordance with provision of the will.

On September 22, 1940, the Trustees dedicated the thirteen bronze tablets and the statue of Paul Revere at the Paul Revere Mall in the North End.

In the summer of 1941 the Trustees voted to establish a number of play spaces, fully equipped, in various sections of the City from the Income of the Fund, for the use and enjoyment of children under 12 years of age. It was voted to establish the first four play spaces at the following locations:

Pitts and Hale Streets, in the West End.
London and Decatur Streets, in East Boston.
Troy and Rochester Streets, in the South End.
King and Roxbury Streets, in Roxbury.

This chain of play spaces consists of the most modern architecture: wading pools, play-yard equipment, concrete seats, concrete sandboxes, etc., and is a great asset to the City.

Starting in the spring of 1946 and ending in the fall of 1949 the Trustees of the Fund voted to establish the following projects from the Income of the Fund:

Health Unit at Central avenue and Elm street, Hyde Park.

Health Unit at Blue Hill avenue and Harvard street, Dorchester.

Swimming Pool, Diving Pool and Locker Building, Doherty Heights, Charlestown.

Schoolboy Stadium in Franklin Park.

War Memorial Center in the Fens.

Swimming Pool, Diving Pool and Locker Building, Commercial street, North End Park.

War Memorial, Veterans Section, Mt. Hope Cemetery.

BOSTON HOUSING AUTHORITY

Office, 230 Congress Street.

[Gen. Laws, Chap. 121, Secs. 26 I to 26 WW, shall be known, and may be cited, as the Housing Authority Law.]

APPOINTED BY MAYOR AND CITY COUNCIL.

FREDERICK A. CRONIN, *Chairman*.

Term ends in 1958.

JOHN CARROLL, *Vice Chairman*.

Term ends in 1962.

JAMES J. MAHAR, *Member*.

Term ends in 1960.

OWEN A. GALLAGHER, *Treasurer*.

Term ends in 1961.

APPOINTED BY THE MASSACHUSETTS STATE HOUSING BOARD.

ABNER G. MESSINGER, *Secretary and Assistant Treasurer*.

Term ends in 1959.

FRANCIS X. LANE, *Administrator*.

The Boston Housing Authority, established in accordance with the Housing Authority Law of the Commonwealth, consists of five members, who may be compensated at the rate of \$25 per day for the Chairman, and \$20 per day for a member other than the Chairman. As the terms of the members expire, successors are appointed by the same appointive power for terms of five years.

The Authority is charged with investigation to determine the unsanitary and sub-standard housing conditions existing within its jurisdiction which cannot readily be remedied by private enterprise, and the clearance, replanning and reconstruction of such areas. With the approval of the State Housing Board and the Mayor, it is empowered to enter into agreement with any agency of Government for assistance, financial or otherwise, to remedy such substandard conditions.

Fifteen Federally-aided developments consisting of 10,156 units in the City are now operated by the Authority for the housing of low-income families, preference being given to veterans and servicemen. The de-

velopment in the Bay View section which was constructed by the Authority was subsequently sold to the federal government to house war workers. It was operated by the Authority, under lease from the Federal government, and tenancy was later restricted to veterans and servicemen with families. On December 31, 1956 it was turned over to the Authority to house low-income families.

Old Harbor Village, South Boston, the only development built and owned by the Federal government, is now leased to the Authority to house low-income families.

Local housing authorities are now empowered to build housing for elderly persons of low income. The Authority has asked the City Council to approve erection of an additional 3,000 apartments under the federally-aided program. If approved at least 1,000 of these apartments would be used to house elderly persons.

URBAN RENEWAL ACTIVITIES.

On December 20, 1957, the Urban Renewal Administration of the Housing and Home Finance Agency approved a contract of novation which made effective the shift of the urban renewal activities of the Authority to the newly formed Boston Redevelopment Authority. This agency came into existence through legislation passed in the 1957 session of the Great and General Court. Due to carefully planned prior preparations and arrangements, funds, records and personnel were rapidly transferred to the new agency.

The following developments were initiated by this Authority and have been transferred to the Boston Redevelopment Authority for completion: New York Streets Area, West End Area, Mattapan Area, South Cove Area, and the Charlestown Area.

BOSTON REDEVELOPMENT AUTHORITY

Office, 73 Tremont Street.

[Gen. Laws, Chap. 121, as amended.]

APPOINTED BY MAYOR AND CITY COUNCIL.

JOSEPH W. LUND, <i>Chairman.</i>	Term ends in 1962.
VERY REV. FRANCIS J. LALLY, <i>Vice-Chairman.</i>	Term ends in 1961.
JAMES G. COLBERT, <i>Treasurer.</i>	Term ends in 1959.
STEPHEN E. McCLOSKEY, <i>Assistant Treasurer.</i>	Term ends in 1958.

APPOINTED BY MASSACHUSETTS STATE HOUSING BOARD.

MELVIN J. MASSUCCO, <i>Member.</i>	Term ends in 1960.
KANE SIMONIAN, <i>Secretary and Executive Director.</i>	

The Boston Redevelopment Authority, established in accordance with Gen. Laws, Chap. 121, as amended by Chap. 150, Acts of 1957, has the sole responsibility for urban renewal projects in the City of Boston.

The Authority was organized in September 1957 and received its certificate from the Secretary of the Commonwealth on October 4, 1957.

In December, the Authority entered into a novation agreement with the Boston Housing Authority, and assumed responsibility for all existing contracts and obligations pertaining to urban redevelopment projects in Boston. This novation agreement was concurred in by the Federal Housing and Home Finance Agency, Urban Renewal Division.

The Authority is presently engaged in three land assembly and redevelopment projects. In the New York Streets Project, U. R. Mass. 2-1, all the demolition and site improvement work has been completed and the cleared land sold to the redevelopers. The Redevelopment Plan calls for the land to be used for commercial and light industrial purposes. In a six-acre tract between Albany Street and Harrison Avenue, the Boston Herald-Traveler Corporation has broken ground for a new plant to contain 210,000 sq. ft. of floor area, to house its publishing business.

In December, the Housing and Home Finance Agency announced the award of a loan and grant contract to the Authority to assist in the execution of the West End Assembly and Redevelopment Plan. Under the terms of the contract, a loan in the amount of \$11,242,424 and a capital grant of \$9,396,929 will be made available. Land acquisition, relocated of families to be displaced and demolition should start early in 1958. The cleared land will be sold to the redevelopers in sections to enable new construction to start before the entire area has been cleared. The redeveloper's present plans call for the construction of 2,400 new dwelling units in a series of high-rise apartment buildings. A new shopping area will be built in the vicinity of Cambridge and Staniford Streets to service the new area. It is estimated that six years will be required to complete the project.

In the Mattapan area, an application for a loan and grant contract has been filed with the Housing and Home Finance Agency. The proposed plan calls for the acquisition of about 75 acres of predominantly open land containing but 34 structures. This is the last sizeable tract of vacant land remaining in the city for residential use. If approved, the execution of the plan would create land, with streets and utilities installed, for 800 to 1000 new dwelling units and result in lifting the total assessed valuation in the area to approximately \$4,000,000 from the present figure of \$200,000.

Recent amendments to the Chapter 121 of the General Laws will make it possible for this Authority to carry out the proposed Government Center contemplated by the City Planning Board, if the final plans receive the approvals required by law.

In collaboration with the City Planning Board and Health Department, surveys are currently being made to delineate one or more areas in the City for conservation and rehabilitation projects.

Preliminary studies have been made on two additional land assembly and redevelopment projects in the South Cove and Charlestown Areas.

The Board is known as the Auditorium Commission and consists of five officers known as Auditorium Commissioners, who shall be residents of the City of Boston and appointed by the Mayor as follows: One commissioner from three candidates nominated by the City of Boston Hotel Association, one commissioner from three candidates nominated by the Boston Real Estate Board, one commissioner from three candidates nominated by the Greater Boston Chamber of Commerce, and two commissioners selected at large by the Mayor. As the term of any commissioner expires, his successor shall be appointed in like manner as such commissioner for a term of five years. Vacancies in the board shall be filled in the same manner for the unexpired term. The commissioners serve without compensation but are to be reimbursed for their traveling and other necessary expenses incurred in the performance of their duties.

The commission shall construct, or cause to be constructed, the municipal auditorium authorized by chapter 164 of the acts of 1954, with an exhibition hall, assembly hall and accessory rooms suitable for exhibitions, conventions and other shows and gatherings in the city; shall contract for the care and management thereof after its completion; and for such purposes may, subject to the approval of the mayor, make such contracts and employ such experts, assistants and employees as they may think necessary or expedient.

This organization was incorporated under the laws of Massachusetts on October 25, 1915.

The incorporators were twenty-one in number and included, besides the Mayor, the Corporation Counsel, the City Auditor, City Treasurer, Park Commissioner, the Principal Assessor and fifteen other city employees occupying responsible positions. At the date of this report, 1957, three of the original incorporators are still alive, namely: Ex-Mayor James M. Curley, James J. Mahar, Chairman of the Boston Housing Authority, and Henry C. Mildram, retired civil engineer.

Since its incorporation the Credit Union has been functioning for the benefit of the city employee by the promotion of thrift among its members and the loaning of money to members in need of financial assistance. These loans are made at a low rate of interest, saving the borrower from the exorbitant rates charged by loan agencies. During 1957 loans made to members amounted to \$2,073,748.89 and a total of \$26,197,288.12 has been loaned since organization. Approximately 90 per cent of the borrowers have their weekly loan payment deducted from their salary by means of the payroll deduction plan.

The Credit Union at the present time has assets of \$1,281,820.56 and reserves of \$153,157.36, with 11,345 members, 5,186 of which are borrowers.

Most departments of the City or County government are represented on the board of directors which consists of 21 members. Seven of these directors are elected each year for a three year term.

SUFFOLK COUNTY COURT HOUSE COMMISSION

Office, Room 318, New Court House.

[Stat. 1939, Chap. 383.]

ARNO I. DREW (Appointed by the Governor), *Chairman*.

ARTHUR J. SANTRY (Appointed by the Chief Justice of the Supreme Judicial Court).

FREDERICK R. SULLIVAN, Sheriff of Suffolk County.

The Commission chooses its own Chairman and its own Secretary. Its members receive no compensation for their services.

The Commission was established by Special Act of the Legislature, for the care, custody and control of the Suffolk County Court House, and is required to appoint a Custodian and such other officers as it may deem necessary for the proper operation of the building, and to determine their term or terms of service.

The Commission succeeded to the authority given to the Sheriff of Suffolk County over the Suffolk County Court House, in Chapter 525 of the Acts of 1922, and took over the management and control of the Court House upon its completion during 1939, by the Special Commission created under Chapter 474 of the Acts of 1935 for providing additional accommodations and facilities for the Suffolk County Court House.

A thirty per cent contribution by the Commonwealth to the annual costs and charges of maintenance and operation of the Court House began in the calendar year 1939 when the additional Court House enlargements and improvements, made under authority of Chapter 474 of the Acts of 1935, were "substantially completed" and in "actual use," and the remaining seventy per cent is paid by the City of Boston. While the Commonwealth now pays thirty per cent of the operating costs of the Court House, it has taken no part in its operations, other than the exercise of its authority in the make-up of the Commission in charge.

Chapter 489 of the Acts of 1906, establishing a court to be known as the Boston Juvenile Court for the "Care, Custody and Discipline of Juvenile Offenders," provides for the transfer to said court of the jurisdictions, authority and powers hitherto vested in the Municipal Court of Boston, under Chapter 334 of the Acts of 1903. The Act took effect September 1, 1906.

The jurisdiction of the Court has been increased from time to time so that, at the present time, the Court has concurrent jurisdiction with the

Boston Municipal Court over adults who commit the offences of Contributing to the Delinquency of Children under the age of 17 and against parents for neglect of minor children, and against parents for failing to have children attend school.

The Justice, Special Justices and Clerk of this Court are appointed by the Governor.

¶ Elected for four years.

§ Mayor for balance of unexpired term.

CHAIRMEN OF THE BOARD OF ALDERMEN. 149

NOTE.—From January 6, 1845, to February 27, 1845, or from the close of Mayor Brimmer's term of office till the election of his successor, Thomas A. Davis, the Chairman of the Board of Aldermen, William Parker, performed the duties of Mayor.

In the interim between the death of Mayor Davis, on November 22, 1845, and the election on December 11, 1845, of his successor, Josiah Quincy, Jr., Benson Leavitt, Chairman of the Board of Aldermen, acted as Mayor.

There were three ballotings for the election of Mayor for 1854, between December 12, 1853, and January 9, 1854. In the meantime the duties of Mayor were performed by Benjamin L. Allen, Chairman of the Board of Aldermen.

In 1873 Mayor Pierce resigned his office on November 29, on his election to the Congress of the United States. During the remainder of the municipal year Leonard R. Cutter, Chairman of the Board of Aldermen, served *ex officio* as Acting Mayor.

Mayor Collins died on September 14, 1905. Daniel A. Whelton, Chairman of the Board of Aldermen, acted as Mayor for the remainder of the municipal year, viz., September 15, 1905, to January 1, 1906.

Mayor Tobin, having been elected Governor, resigned January 4, 1945. By Chapter 4 of the Acts of 1945, the President of the City Council was given all the powers of the Mayor and served from January 25, 1945, for the remainder of the year.

Under the provisions of Chapter 580 of the Acts of 1947, City Clerk John B. Hynes served, under the title of Temporary Mayor, with full powers as Mayor, for the period from June 26 to November 28, 1947, during the absence of Mayor Curley.

IN CITY COUNCIL, April 7, 1958.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1958, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or County of Suffolk, or the departments or officers thereof, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriation for Water Service, current expenses, and the payment to the state, under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes, be met by the income of said works and any excess over income from taxes; that the appropriation for the Sumner Traffic Tunnel be met by the income from tolls and any excess over income from taxes, in accordance with the provisions of section 11, chapter 297, of the Acts of 1929, as amended by chapter 74 of the Acts of 1935; that appropriations for the maintenance and operation of parking meters and the regulation of parking and other traffic activities incident thereto, be met by the income from parking meter fees; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1957, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation; by the income of the financial year beginning January 1, 1958; by taxes on the polls and estates in the City of Boston; and by the proceeds of any duly authorized loans.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city, and all taxes assessed for meeting the city's proportion of the state tax for the year 1958, or for any other taxes or assessments payable to the Commonwealth, shall be due and payable on July 1, 1958. Interest shall be charged at the rate of 4 per cent per annum and computed from October 1, 1958, on all real estate and personal property taxes remaining unpaid after November 1, 1958, and assessed and payable in the year 1958, before said November 1, 1958, until such taxes are paid. All interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

AMERICA, A WAY TO HAPPINESS

FOURTH OF JULY ORATION, 1958.

BY THE REVEREND DANIEL LINEHAN, S.J.

*Mr. Chairman, Distinguished Guests,
My Fellow Citizens.*

Today we meet to celebrate the birthday of a nation. A nation that was conceived by the Congress of the Thirteen Colonies as they planned the best methods of removing themselves from the control of a tyrant and to start a new life. The months of preparation resulted in the Declaration of Independence, a thesis that is truthful, concise, humble and considerate, and definitive — and the nation was born with the so-called War of the Revolution, which parted it from a professed parent. The original Thirteen Colonies grew into these present United States, whose 182d birthday occurs today. We of Boston are especially close to the memories of these early struggles as so many of the early incidents occurred in this city or in the near suburbs.

BROKE THE SHACKLES OF BONDAGE

We need not recount why the various peoples left Europe to start life anew on this continent. Some were the victims of religious persecution; some had different political views from those in power and were exiled; some left with a spirit of adventure; and some with the idea of seeking fortune in a land whose natural resources had been so far untouched. The early settlers of this land did not find this an easy land to conquer, and the foundation was difficult to lay. When they were not fighting the elements, they were protecting themselves from the sneak attacks of the Indians; the nations of Europe brought their wars to this hemisphere and the colonial settlers found themselves being dragged into battle against their wishes. Their families were insulted and murdered, their fortunes taxed and stolen, their settlements burned and ravished. In the end, England's unwise policy concerning the Thirteen Colonies bore the fruit of an enraged people who were courageous enough to declare that their God-given rights of life, liberty, and pursuit of happiness were being tampered with, if not entirely taken away. They declared that they were dissolving any former bonds that held them to England, and that they were announcing this fact to the entire world in the Declaration of Independence. Appealing to God, the Supreme Judge, on the righteousness of their act, they became a free and independent nation.

U. S. ALSO A WAY OF LIFE

To us today, the United States is not only a nation, it is a way of life, the means of procuring liberty, life, and the pursuit of happiness. The majority of us did not choose America for our nation; it was chosen for us and we were born into it, just as we were born into the family whose name we bear. Yet, as any other members of a group, a family, a community, or a nation, we belong to it, we support it, and we take an active part in this nation, because only through the combined efforts of all can the individual rights be supported and guaranteed. Needless to say, we love this country, just as we love our families, and any other groups we have subscribed to. Love is the mutual interchange of gifts and sacrifice.

Sometimes we wonder why we should love America. We cannot claim all the same motives for love that an Englishman can for England; or a Frenchman can for France; an Italian for Italy; or a Spaniard for Spain. Their nations have been going on for centuries, their blood has been kept within their nation's boundaries until they have built themselves into a race with distinctive languages, physiological characteristics, a history of their race's achievements, a folklore to rally around, and so forth, but this is not so of America. We are a community of many races, many nations, many customs. We borrow from various languages until the chosen words become expressive of our own thoughts. We cannot love our country for the same reasons that other people love theirs.

WHAT INSPIRES LOVE OF COUNTRY?

We may say that "Ours is the best country in the world." When we are asked, "What do you mean by the best — because it has the best highways, the best restaurants, the best theaters, the largest automobiles, the most extravagant hotels?" No! Not for these reasons — people loved, fought, and died for America long before these developments were ever dreamed of. The pioneer who climbed wearily back to his log cabin after a day's labor in tilling a soil unused to culture knew nothing of these modern refinements, yet he could gaze out over the virgin landscape and say, "This is the best country in the world." To the plainsman who spent most of his days in the saddle or on the lurching seat of the Conestoga wagon, covering mile after mile of trackless waste across the western plains, and pushing the boundary of America farther and farther towards the Pacific, this was the best country in the world; the fisherman off the banks of the North Atlantic, with hands frozen to his oars and separated by the fog from the rest of his party, knew nothing of the modern conveniences of radar, radio, and the rest of these aids to navigation, yet to him this country was "the best in the world." What is it that instills any man with the thought that this country is "the best in the world"?

FAMILY INSTINCT THE CLUE

In one way, I suppose that it is similar to a man's love for his family. His is the "best family

in the world." Is it the richest family, the most intellectual, the most beautiful, the largest or the smallest? It is none of these. That man can realize that his family was like any other, the various members had their defects, they had their family squabbles and disagreements; they might have had a black sheep in the family, they might not have been able to join all the best social groups in their neighborhood, etc., but still it is the best family and the man will fight to defend this statement. A man's estimation of the worth of his family is based on the love he has for it. From this family he received his life; he received his original training from his parents or older brothers and sisters; as a child when he was ill, many were the tears that were shed over him and many the hours of care that were spent on him; the family squabbles and arguments always ended in a kiss of peace and that feeling of embarrassment one experiences when he realizes that he has been differing over something of minor moment; if one errs in his ways, how quickly the rest rally around in an attempt to do everything that they can to right him with the family circle; how many prayers were said that this one would soon correct his ways. When a man begins to reminisce on his boyhood and youth, and can recall the sacrifices that were made for him, the gifts that were given to him, how he helped the other members of his family, the mutual aid and interchange of gifts, the feeling of love begins to grow in a man's heart

for those near and dear to him. This is not a love that is momentary and measured in price or passion; this is a love constructed from the accumulation of minutiae that have extended through the years and on which family security is founded. The family's happiness depends upon the privilege that each member can contribute to the common good, and each member's happiness is measured by the family's. Sad is the man who has not experienced such happiness.

A LAND OF GENEROSITY

Such is one's love for a country or nation. From America we have obtained life, growth, and education. Our characteristics of freedom and open-mindedness come from the nature of our country; the generosity of Americans towards others may have been influenced by the generous natural resources of our land; the vivacity of an American must have been derived from the ever-changing climate that is ours; the extrovert temperament of so many Americans must have been inherited from the expansive extent of our country; the rugged shores of Maine, the massive grandeur of the Rockies, the wide horizons of both oceans, east and west, the cold of the north and the warmth of the southlands, the wealth of the petroleum reserves, the wheatlands, the cattle-grazing ranches, the water power, the mineral wealth, the natural beauty of the area — all have assisted in the formation of the man known as an American.

The American, for his part, has not allowed the land he lives in to lie fallow, nor has he waited for nature to work for his benefit. The American has developed his land with a rapidity, zest and devotion that has amazed the rest of mankind. In all fields of engineering he has developed methods and means that have resulted in structures to be copied elsewhere; he has wrested the wealth from beneath the earth's surface on a scope never equalled by any other nation; in laying ribbons of highways across the nation, he has joined both the utilitarian and the beautiful aspects of access ways; his mountainous skyscrapers must be seen to be believed; he is proud of the towns he has designed and that he lives in. There has been mutual interchange of gifts and sacrifices between the American and America. This is to love.

MEMORY PLAYS A ROLE

A man away from his family, or an American abroad have much in common. Both live in memories and both long to return to the warmth of the people, customs, and sights they knew so well. The remembrance of a mother teaching a child how to act, or the mental picture of the parish church by the town green are nostalgic memories; the memory of the parlor with the family gathered there, or the main street of the home town with friends gathered, brings a smile of affection to the exile; the thought of children at home still growing, or the thought of an

unfinished engineering project, will cause many a man to speed up his work abroad, and hasten back to the profession he loves. We all live on memories of the past, and these are motives that affect many of our ambitions and endeavors. Throughout this cloth of memory is woven the thread of love, whether it be for family or country, and that is why we say, "This is the best country in the world."

NOT GOOD ENOUGH FOR SOME

It was not so long ago that certain Americans did not think that this was the best country in the world, perhaps some of them still walk our streets and breathe our air. These would portray the marvelous experiment that was going on in Russia, and why could we not imitate it? There were those who extolled the stern measures of a Hitler, and who wished we had a dictator to operate our government; the fact that a Mussolini brought some order out of chaos in a post World War I Italy caused groups of Fascists to rise in this country; but where are the enthusiasts of those forms of government today? No, these methods of rule were not in the minds of those who first worded the Declaration of Independence; such methods do not permit man's right to life, liberty, and the pursuit of happiness — these could never be chosen by us, they would have to be forced upon us by bloody combat.

In stating that our country is the best in the world, we mean it is the best for us, and not that any

other nation is bad or inferior. We are not racists who would try to impose Americanism on everyone else. Nor do we try to hide the fact that in our experimenting with democracy we have made mistakes in the past. We have tried changes in our Constitution and we have removed these changes when they were found to be un-American.

WE'VE NOT ALL KEPT FAITH

There have also been times in our history when America or her representatives have erred and have acted contrary to what the Declaration of Independence professed. We have practised slavery, we have discriminated against fellow Americans because they were of a different color or creed; we have forced some to live in slums and others to work for an unsuitable wage. We have permitted gangs to exist that deprived others of their lives and liberty; political machines have risen, prospered, and have managed to exercise power without the just consent of those governed; and frequently people in other lands were exploited within the boundaries of their own homelands by the very Americans who claimed that they came to assist them. We confess and acknowledge these acts, but everyone must also admit that they were the products of some Americans, and not the purpose of the beautiful thesis as written by the signers of the Declaration of Independence. These acts were committed despite the spirit of our country, not because of it.

The God that the Congress of the original thirteen states appealed to as Supreme Judge and Protector, some have abandoned. In the graft that has been committed, they have not only disregard for His Commandments but have protected thievery under the aegis of justice; in forming laws to permit divorce, they have not only legalized immorality, but have weakened the strongest foundation stone upon which a nation may be built — the family. Some, wallowing in the wealth this nation has afforded or reveling in the resources a bountiful God has given us, have not only forgotten the Divine Donor of their gifts, but also have striven to eliminate His works, His memory, His name, and the adoration due Him, from everything they call American.

MAJORITY STANDS FIRM

Yet, such as these, thank God, do not comprise the majority of Americans; if they did, our country would have died in infancy. They are the cancer, both malignant and fibrous, that weakens and in time could kill the life of this nation. They prosper under ignorance and flourish in their own blindness. These erring persons and unwitting enemies of our nation can be conquered by wisdom alone.

With the birth of America began the great experiment of a national freedom. It has been found here on a greater scale than in any other nation in history. True, in a childish way we doubt such

statements at times, and we revolt when the rulers we have chosen decree that certain laws must be attempted and tried for our own safety. We have never known any other way of life than the freedom we enjoy here, and we do not appreciate it. Witness, in contrast, the numerous peoples who have come to our shores and who have stayed to enjoy this freedom. They may sigh for customs of their native lands, but few would leave freedom behind them. The emigrants from America have never outnumbered the immigrants.

In our country no man is held back from fame and achievement if he has ideas, is ambitious, and is willing to work. Genius can quickly rise to the top, and there are sufficient competitive companies who will search him out and put his ideas into production. The opportunity extended to everyone is only partly exemplified in the inventions, engineering feats, and scientific accomplishments that have amassed during the brief youth of this nation.

WEALTH NOT THE MEASURE

A country's prosperity is frequently measured by its wealth. This is an incorrect norm. Prosperity is measured by a country's happiness. A happy family need not possess gold, but generosity is certainly required; fame is not a step to success, but fellowship is; wisdom tempered with humility is the greatest asset to a family's happiness, whether that family be contained within the four walls of a house, or within the four boundaries of a nation.

The pursuit of happiness as stated in our Declaration of Independence runs side by side with our prosperity, and as our happiness increases, so will our nation prosper. Our happiness, in turn, increases with our wisdom. Man even as an individual becomes happy as his various intellectual desires are satisfied. Both the lad who takes a watch apart to see what makes it go, and the scientist in the laboratory prying apart the individual pieces of an atom, to determine the mechanical features of this creature, are seeking intellectual happiness. No person is satisfied until all of his questions are answered. Some find their answers sooner than others and with them they sooner find happiness.

ONE CAUSE IS THE GOAL OF TRUE SCIENCE

The present International Geophysical Year is an example of man's quest for happiness. This is not the search for wisdom of merely one community, nor of one nation; this is the concerted searching of an entire world to find the ultimate cause of all the phenomena of nature. No pioneer in the Thirteen Colonies, no scout on the western plains, no sailor of the Seven Seas ever toiled, suffered, or exposed himself more to the dangers of an inhospitable climate than some of the scientists are doing today in their pursuit of intellectual happiness.

I have accompanied and worked with some of these, both in arctic and antarctic regions, where some men must expose themselves to temperatures

more than 100 degrees below zero, and face winds over 100 miles per hour. These men are studying the earth's magnetic field, the currents in the oceans, the passage of cosmic rays from outer space to earth, the thickness of the great sheets of ice; how seismic waves penetrate the various strata of earth beneath our feet and how the radio waves are reflected and refracted through the various strata above our heads; how great streams of electricity affect great jet streams of air in outer space, and how the various "sputniks" and satellites are transmitting back to man data on the phenomena that occur miles above us. Some might think that science is finding nature more and more complicated. On the contrary, we are finding that all phenomena are interrelated and everything is becoming more simplified. Perhaps within a short time we may determine from the material sciences that every phenomenon in nature is the result of One Cause. The scientist is continually finding each of his intellectual desires satisfied as he solves one problem after another. The astronomer watching the countless billions of stars, planets, and other bodies in the heavens, and observing how they follow a very definite pattern in their progress will finally be convinced that there is One Cause that is guiding these bodies. The doctor that watches the growth of a human body from a single cell to what we call a developed man can observe how One Cause makes that body grow by extracting certain elements from the food he eats and sending them to the various

parts of the body where they are required, and how certain muscles of the heart will pump fresh blood with its life-giving oxygen to give us vitality. The geologist observes that One Cause gives each mineral a distinctive crystal structure, or permits tremendous amounts of energy to be stored in certain strata or rocks. The glaciologist studying the millions of cubic miles of ice that cover Antarctica can observe how One Cause makes each individual crystal of ice conform to a definite mathematical formula, and that these countless microscopic crystals together form the mass of frozen matter that covers that continent. The scientist is beginning to discover that such diverse phenomena as weather, solar flares, changes in the earth magnetic field, radio communication, sunspots, television characteristics, the breaking of cotton thread in spinning mills, the build-up of thunderstorms, etc., are all effects of One Cause.

THE ONE CAUSE IS GOD

Once a person understands this Cause then all of his desires have been fulfilled and his quest for wisdom is satisfied. That person is supremely happy.

Need we wonder why we love our country or why we call it "The Best in the World"? Is it strange that when we hear the "Star-Spangled Banner" played, a thrill of emotion passes through our hearts, or a tear of happiness drops from our eyes as we watch the American Flag pass by? No, there is nothing wonderful or strange about this when we

recall that this Declaration of Independence guarantees to all Americans not only life and liberty but the opportunity to pursue the happiness of finding the One Cause of everything, the God that we, as Americans, must trust.

¹⁴ Probably four editions were printed in 1857. (Boston: Office Boston Daily Bee, 60 pp.) Not until November 22, 1864, was Mr. Alger asked by the City to furnish a copy for publication. He granted the request, and the first official edition (J. E. Farwell & Co., 1864, 53 pp.) was then issued. It lacks the interesting preface and appendix of the early editions.

¹⁵ There is another edition. (Boston: Ticknor & Fields, 1859, 69 pp.) A third (Boston: Rockwell & Churchill, 1882, 46 pp.) omits the dinner at Faneuil Hall, the correspondence and events of the celebration.

¹⁶ There is a preliminary edition of twelve copies. (J. E. Farwell & Co., 1863. (7) 71 pp.) It is "the first draft of the author's address, turned into larger, legible type, for the sole purpose of rendering easier its public delivery." It was done by "the liberality of the City Authorities," and is, typographically, the handsomest of these orations. This resulted in the large-paper 75-page edition, printed from the same type as the 71-page edition, but modified by the author. It is printed "by order of the Common Council." The regular edition is in 60 pp., octavo size.

RULES FOR ADMINISTERING THE ALPHABETICAL LIST OF POSITIONS AND THE PAY SCHEDULE

The Alphabetical List of Positions and the Pay Schedule shall be applied in accordance with the following rules:-

RULE 1. FULL TIME EMPLOYMENT. The rates specified in the pay schedule shall be for full time employment. With respect to persons holding positions classified in Groups D, E, G, M, N, P, and S, i.e., the Medical, Dental and Pharmaceutical Group, the Health Technician Group, the Institution Nursing Group, the Construction and Maintenance Inspection Group, the Labor and Trades Group, the Plant Protection Group, and the Recreation Group, the term "full time employment" shall be deemed to mean a forty-hour week; and with respect to all other persons, said term shall be deemed to mean a thirty-five hour week.

RULE 2. PART TIME EMPLOYMENT. The compensation for part time employment, which shall be deemed to include all employment not full time employment, shall be in the proportion that the hours actually worked bear to the total number of hours prescribed for full time employment; provided, however, that the compensation of consultants or other professional persons not included in the Plan shall be at such per diem rate as shall be approved in writing by the Mayor after recommendation by the Supervisor of Personnel.

RULE 3. SALARY RATES AS FULL COMPENSATION. When compensation for the regular service of any employee, exclusive of overtime service, is paid from more than one appropriation, all such payments shall be added together for the purpose of computing the compensation of the employee to the end that the actual compensation paid to any employee for regular full time service from all sources combined shall not exceed for any period the amount prescribed for the position in which the employee is classified.

RULE 4. REDUCTION IN GRADE FOR MAINTENANCE. If meals or maintenance is provided with a position, the classification grade for such position shall be reduced as follows:-

Two meals a day (5 days)	1 grade
Three meals a day (7 days)	2 grades
Full maintenance (room)	3 grades
Full maintenance (suite)	4 grades
Full maintenance (house)	5 grades

RULE 5. STARTING SALARY AND INCREMENTS.

(a) Starting Salary. (As amended January 7, 1953, July 4, 1956 and September 4, 1957). Upon appointment to any position classified in grade 4, 5, 6, 7, 8, 9 or 10, a permanent full time employee shall be compensated at the rate specified for the grade of the position in Column I of the salary schedule unless he has completed five or more years of service with the city. If he has completed five or more, but less than seven, years of service with the city, he shall, upon appointment to a position so classified, be compensated at the rate so specified in Column II; and if he has completed seven or more years of service with the city, he shall, upon appointment to a position so classified, be compensated at the rate so specified in Column III. Upon appointment to a position classified in a grade higher than grade 10, a permanent full time employee shall be compensated at the rate specified for the grade of the position in Column I of the salary schedule unless he has completed seven or more years of service with the city. If he has completed seven or more, but less than eleven, years of service with the city, he shall, upon appointment to a position classified in a grade higher than grade 10, be compensated at the rate so specified in Column II; and if he has completed eleven or more years of service with the city, he shall, upon appointment to a position classified in a grade higher than grade 10, be compensated at the rate so specified in Column III. A temporary, provisional or military substitute employee shall be compensated upon appointment at the minimum rate provided for the grade to which the position is allocated. No employee, whether permanent, temporary, provisional or military substitute, shall be compensated upon appointment at a rate exceeding the lowest

rate paid to any employee of the same department holding a position in the same grade.

(b) Step-rate Increments. (As amended September 4, 1957). Every permanent full time employee holding a position classified in grade 4, 5, 6, 7, 8, 9 or 10 shall, upon the completion of the first six months, and also of the first year, and also of the second year, of service in the position, be advanced one increment. Every permanent full time employee holding a position classified in a grade higher than grade 10 shall, upon the completion of the first, also of the second, and also of the third, year of service in the position, be advanced one increment.

(c) Longevity Increments. (As amended July 4, 1956 and September 4, 1957). A permanent full time employee who, upon appointment to a position classified in grade 4, 5, 6, 7, 8, 9 or 10, has not completed five years of service with the city, shall be advanced one increment on the completion of five years of service with the city, and another increment on the completion of seven years of service with the city; and a permanent full time employee who, upon appointment to a position so classified, has completed five, but not seven, years of service with the city, shall be advanced one increment on the completion of seven years of service with the city. A permanent full time employee who, upon appointment to a position classified in a grade higher than grade 10, has not completed seven years of service with the city, shall be advanced one increment on the completion of seven years of service with the city, and another increment on the completion of eleven years of service with the city; and a permanent full time employee who, upon appointment to a position classified in a grade higher than grade 10, has completed seven, but not eleven, years of service with the city, shall be advanced **one** increment on the completion of eleven years of service with the city.

(d) Computation of Service. (As amended January 7, 1953). Provisional or temporary service shall be included in computing length of service. Any period during which an employee receives no pay, whether the employer-employee relationship exists during such period or not, shall not be included in computing length of service; provided, however, that any such period of less than a month may be so included; and provided, further, that all leaves of absence for military service terminating with the reinstatement or reemployment of the employee in his former position or a similar position shall be so included. Service with the County of Suffolk shall be included in computing length of service with the city. Service with the Commonwealth of Massachusetts in a position within the labor or classified civil service, shall also be included in computing length of service with the city; but no service with any governmental unit other than the City of Boston or County of Suffolk, except service with the Commonwealth as aforesaid, shall be included in computing length of service with the city.

(e) Intent of Rule. (As amended July 4, 1956 and September 4, 1957). The intent of this rule is:-

(A) That a permanent full time employee holding a position classified in grade 4, 5, 6, 7, 8, 9 or 10 who has completed five or more, but less than seven, years of service with the city in any capacity and two years of service in such position shall be compensated at the rate specified in Column V; and any such employee who has completed seven or more years of service with the city in any capacity and two years of service in the position shall be compensated at the rate specified in Column VI; and

(B) That a permanent full time employee holding a position classified in a grade higher than grade 10 who has completed seven or more, but less than eleven, years of service with the city in any capacity and three years of service in the position shall be compensated at the rate specified in Column V; and any

such employee who has completed eleven or more years of service with the city in any capacity and three years of service in the position shall be compensated at the rate specified in Column VI.

(f) Conditions Precedent to Increments. Anything in this rule to the contrary notwithstanding, no employee shall become entitled to an increment until his department head shall, in a writing to the Mayor, recommend such increment and certify that the employee's service has been satisfactory.

(g) Effective Date of Increment. A permanent full time employee becoming entitled to an increment under this rule shall receive such increment, if paid on a monthly basis, effective with the pay roll for the month next succeeding that in which he becomes entitled to such increment, if paid on a semi-monthly basis, effective with the pay roll for the first half of such next succeeding month, and, if paid on a weekly basis, effective with the pay roll for the first full week of such succeeding month.

RULE 6. COMPENSATION FOR WORK IN A HIGHER CLASSIFICATION. (OMITTED BECAUSE HELD INVALID BY SUPERIOR COURT IN BENNETT vs. BOSTON, SUFFOLK NO. 515940).

RULE 7. TUBERCULOSIS NURSES. Any nurse regularly assigned to caring for tuberculosis patients exclusively shall be compensated, while so assigned, as if such nurse were serving in the classification grade second next above that of his or her position.

RULE 8. TRANSFER. A transfer pursuant to the Civil Service laws and rules to a position in the same classification grade shall be treated as if the employee continued in his former position.

RULE 9. REINSTATEMENT. A reinstatement to a position pursuant to the Civil Service laws and rules shall be treated as if his prior service had been performed immediately prior to his reinstatement.

ment.

RULE 10. PROMOTION. (As amended January 7, 1953). The term "appointment", as used in Rule 5, shall be deemed to include "promotion"; provided, however, that upon promotion every employee shall be placed at least upon that step of his new grade which is next above the rate payable to him immediately prior to his promotion.

RULE 11. DEMOTION. Upon demotion, an employee shall be compensated as if the years of service in the higher position had been performed in the lower position.

RULE 12. INITIAL ADJUSTMENTS TO COMPENSATION PLAN. Existing salaries shall be adjusted to the pay schedule effective April 1, 1952, for employees paid monthly or semi-monthly and April 2, 1952, for weekly paid employees subject to the following terms and conditions:-

(a) A permanent full time employee in the service of the city continuously since March 31, 1952, shall be allocated to the step of the grade to which he would have been entitled on March 31, 1952, if the number of years served by him in the position in which he was serving immediately prior to his classification had been served after such classification; and he shall also be credited with the total number of years of his service with the City on March 31, 1952; provided, however, that if the aforesaid allocation and credit would result in a salary increase of more than \$9.58 on a weekly basis, such allocation and credit shall not be made, but such employee shall be given an increase equivalent to \$9.58 on a weekly basis.

(b) Any permanent full time employee appointed subsequent to March 31, 1952, shall be treated as if this Compensation Plan were in effect at the time of his appointment; provided, however, that if such treatment would result in a salary increase of more

than \$9.58 on a weekly basis, the preceding provision of this paragraph shall be inapplicable; but the employee shall be given an increase equivalent to \$9.58 on a weekly basis.

(c) Any increment which, if the Compensation Plan had been in effect on April 2, 1952, would become, or have become, payable in the month of May, 1952, or in any subsequent month in 1952, shall be deemed to have become payable or to become payable, as the case may be, in accordance with the rules of the Compensation Plan; provided, however, that the total of all increases resulting from the initial adjustment and any such increments in 1952 shall not exceed the equivalent of \$9.58 on a weekly basis.

(d) No person who on or since March 31, 1949, was promoted to the position held by him immediately prior to his classification shall be put on a step of the salary schedule lower than that on which he would be put had he not been so promoted.

(e) All salary increases, whether by step-rate or otherwise, and all salary increases granted in the year 1952, or alleged to have accrued in 1952 under any former salary plan, shall be deducted from the salary increase provided for by the establishment of the Compensation Plan.

(f) If the initial adjustment of a temporary, provisional or military substitute employee appointed prior to November 26, 1952, should result in a salary increase of more than \$9.58 on a weekly basis, such employee shall be limited to an increase equivalent to \$9.58 on a weekly basis, effective November 26, 1952.

(g) The compensation of any employee shall not, by reason of the establishment of the Compensation Plan, be reduced below that payable to him on April 2, 1952; but no employee shall be entitled to an increment which would result in a higher salary than

that provided for by the Plan.

RULE 13. SUBSEQUENT INCREMENTS TO EMPLOYEES SUBJECT TO \$9.58 LIMITATION. Any employee who, because of the limitation of \$9.58 on a weekly basis of any salary increase resulting from the adoption of this plan, is not initially allocated to the step of the grade to which his service in the position combined with his service with the City in any capacity, entitles him, shall receive annually beginning on the first Wednesday in April a salary increase equivalent on a weekly basis to \$9.58 (or such part thereof as may be necessary) until he reaches the step of the grade to which his service in the position, combined with his service with the City in any capacity, entitles him.

RULE 14. COMPENSATION REVIEW BOARD. Any employee aggrieved by the grade allocation of his or her position in the salary schedule or in the application of these rules to his or her case, may request consideration of the facts by the Compensation Review Board. This Board shall consist of three members to be appointed by the Mayor. From time to time the Board may recommend to the Mayor changes in individual grade allocations and amendments or revisions in the rules of the Plan. .

REDUCTION IN GRADE FOR MAINTENANCE. If room, suite or meals is provided with a position, the classification grade for such position shall be reduced as follows:

Room	1 grade
Suite	2 grades
Three meals a day (7 days)	2 grades

SHIFT DIFFERENTIALS. For a specifically assigned tour of duty from three o'clock, or half past two o'clock, in the afternoon to eleven o'clock in the evening of any day, the rates specified in this rule shall be increased in the case of a licensed practical nurse by \$15.00 and in every other case by \$20.00; and for a specifically assigned tour of duty from eleven o'clock in the evening of one day to seven o'clock in the morning of the next day, such rates shall be increased in the case of a licensed practical nurse by \$7.50 and in every other case by \$10.00.

INTENSIVE THERAPY NURSING. For rendering nursing services in recovery rooms, in intensive care units and in the care by specific assignment of one or more patients requiring special care, the rates specified in this rule shall be increased by \$5.00.

OVERTIME. The first eight hours of authorized overtime service rendered on any day other than days constituting part of the employee's regular service shall be compensated for on a straight time basis, and all other authorized overtime service shall be compensated for on a time and one half basis; provided, however, that in no event shall overtime service, whether compensated for on a straight time basis or on a time and one half basis, be compensated for at an overtime rate in excess of three dollars an hour.

PART-TIME EMPLOYMENT. Except as hereinafter otherwise expressly provided, compensation for part-time employment shall be in the proportion that the number of hours actually worked each week bears to forty, and shall be based on the rate appearing in Column I of the pay schedule against the grade of the position

in which such part-time employment is rendered; provided, that if a person is employed at a number of hours each week which is fixed and regular and less than forty but not less than twenty, when he or she has completed the number of hours of service required on a forty-hour basis to qualify for another column of the pay schedule, his or her compensation shall be in the proportion aforesaid but based on the rate appearing in such column against the grade of such position.

A person employed on a part-time basis shall not be entitled to holiday leave, vacation leave or sick leave, without loss of pay, unless he or she is employed at a number of hours each week which is fixed and regular and less than forty but not less than twenty; nor shall the provisions of Rule 7 apply to a person employed on a part-time basis unless he or she is employed at such a number of hours. The sick leave rights accruing in a year to a person employed at such a number of hours shall be in the proportion that the number of hours actually worked each week bears to forty; but no such person shall be entitled to sick leave until he or she has completed the number of hours of service required on a forty-hour basis to come within Rule 9.

RULE 2. CERTIFICATION OF PRIOR SERVICE. Whenever a person is about to be appointed (other than by promotion) to a position specified in Rule 1, the Director of Hospitals shall determine and certify for what period, if any, such person has rendered in another hospital or similar institution, whether or not in the employ of the City of Boston, service similar in his judgment to service in a position specified in Rule 1.

RULE 3. COMPENSATION OF PERSONS WITHOUT PRIOR SERVICE. Every person certified under Rule 2 as having no prior service similar to service in a position specified in Rule 1 shall be compensated effective with his or her entry into service in a position so specified at the rate set against the grade of such position in Column I of the schedule in Rule 1, and effec-

tive the first Wednesday of the calendar month next succeeding the calendar month in which he or she completes his or her first six months of service in such position at the rate set against the grade of such position in Column II of said schedule, and effective the first Wednesday of the calendar month next succeeding the calendar month in which he or she completes his or her first year of service in such position at the rate set against the grade of such position in Column III of said schedule, and effective the first Wednesday of the calendar month next succeeding the calendar month in which he or she completes his or her second year of service in such position at the rate set against the grade of such position in Column IV of said schedule, and effective the first Wednesday of the calendar month next succeeding the calendar month in which he or she completes his or her fifth year of service in such position at the rate set against the grade of such position in Column V of said schedule, and effective the first Wednesday of the calendar month next succeeding the calendar month in which he or she completes his or her seventh year of service in such position at the rate set against the grade of such position in Column VI of said schedule.

Any period during which a person serving in a position specified in Rule 1 receives no pay, whether the employee-employer relationship exists during such period or not, shall not be included in computing length of service; provided, however, that any such period of less than a month may be so included; and provided, further, that all periods of absence for military service terminating with the reinstatement or reemployment of the person in a position specified in Rule 1 shall be so included.

RULE 4. PROMOTION. Every person shall upon promotion from one position specified in Rule 1 to another position so specified be placed upon that step of his or her new position which is next above the rate payable to him or her immediately prior to promotion.

RULE 5. DEMOTION. Every person shall upon demotion from one position specified in Rule 1 to another position so specified be compensated as if the years of service in the higher position had been performed in the lower position.

RULE 6. COMPENSATION OF PERSONS WITH PRIOR SERVICE. Every person certified under Rule 2 as having prior service similar to service in one or more positions specified in Rule 1 shall be compensated effective with his or her entry into service in a position specified in Rule 1 and thereafter as if such prior service (including all promotions and demotions involved therein) had been service in the position or positions specified in Rule 1, similar thereto, and after completing five months of service in one or more positions specified in Rule 1 shall be granted vacation with pay in accordance with Rule 8 as if such prior service had been service in a position specified in Rule 1.

RULE 7. HOLIDAYS. If any person serving in a position specified in Rule 1 is required to serve a tour of duty on January first, February twenty-second, March seventeenth, April nineteenth, May thirtieth, June seventeenth, July fourth, the first Monday of September, October twelfth, November eleventh, Thanksgiving day and Christmas day, or the day following when any of the seven days first mentioned, October twelfth, November eleventh or Christmas day occurs on Sunday, and such tour of duty commences before eleven o'clock in the evening on such day, he or she shall be entitled to an additional day's pay on a straight time basis.

RULE 8. VACATION. In each calendar year, every person serving in a position specified in Rule 1 shall be granted vacation with pay as follows:-

If prior to June first in such year such person has completed nineteen years and five months or more of service in such a position, four weeks' vacation;

If prior to such June first such person has completed nine years and five months, but less than

nineteen years and five months, of service in such a position, three weeks' vacation; and

If prior to such June first such person has completed five months, but less than nine years and five months, of service in such a position, two weeks' vacation.

Vacation leave not used prior to the termination of the employment of any such person and also vacation leave not used in the year in which such person is granted it, shall lapse; and he or she shall not be entitled to any compensation in lieu thereof.

Every vacation shall be granted at such time as, in the opinion of the Director of Hospitals, will cause the least interference with the work of the Hospital Department.

RULE 9. SICK LEAVE. Every person serving in a position specified in Rule 1 who has completed six months of continuous service in such a position shall be granted leave, without loss of pay, for absence caused by illness (which term, as here used, shall not be construed to include pregnancy) or by injury or exposure to contagious disease or by the serious illness or death of a member of the employee's family; provided, however, that, except when accumulated as hereinafter provided, sick leave shall not aggregate more than fifteen working days in any year; and provided further, that no such person shall be entitled to leave without loss of pay for any period of absence caused by illness, injury or exposure to contagious disease or by the serious illness or death of a member of the employee's family, nor shall an appointing authority permit payment for any such period of absence, unless (a) the employee has notified his immediate supervisor of his absence and the cause thereof before the expiration of the first hour of absence or as soon thereafter as practicable, (b) on, or within four weeks after, the last day of each pay-roll week in which any such period of absence occurs, the employee or, in the case of his incapacity evidenced by a physician's

certificate attached or in the case of his death, a person acting in his behalf, has in writing on a form furnished by the Director of Hospitals requested leave without loss of pay for such period of absence, and (c) the appointing authority has approved such request. For periods of absence for five consecutive working days or more, the appointing authority may require as a condition precedent to his approval of such request evidence in the form of a physician's certificate for the necessity of such absence, or, if the cause of the absence is such as not to require the services of a physician, a written statement, signed by the employee, setting forth the reason for the absence.

Sick leave not used in the year in which it accrues, together with any accumulated sick leave standing to such person's credit at the close of business on December 31, 1957, may be accumulated for use in a subsequent year. Such leave not used prior to the termination of such person's service shall lapse; and he or she shall not be entitled to any compensation in lieu thereof.

RULE 10. EFFECTIVE DATE. This compensation plan shall take effect on July 30, 1958.

The statute governing the general classification and compensation plans for civil service employees of the City of Boston is G.L. (Ter. Ed.) c. 31, s. 2A, cl. (b), which, as most recently amended by St. 1954, c. 295, prescribes that the State Director of Civil Service shall--

"(b) Establish, with the approval of the commission, classification plans for positions in every city and town which are subject to any provision of this chapter. Upon the establishment of such classification plan the director shall forthwith make such plan effective, and after the establishment of such classification it shall be final. The city or town affected thereby shall, within one year after receiving notice from the director of the effective date of such classification plan, establish a compensation plan with a minimum and maximum salary, in accordance with the class and grade, for each position, but no compensation plan established hereunder shall include positions subject to section forty-seven D. No rule or regulation or change in rules or regulations shall be promulgated as a part of any such compensation plan except after a public hearing held not less than two weeks nor more than two months after notice thereof shall have been posted in a conspicuous place in the city or town hall and in at least five other convenient and conspicuous places, and shall also have been published on one or more days in one or more newspapers having a circulation in the town. Every notice posted shall contain, or have subjoined or annexed thereto, a copy of the proposed rule or regulation. If such rule, regulation or change therein is to be adopted by vote of a town or by by-law, the publication of the proposed rule, regulation or change in the warrant for the town meeting shall be deemed to satisfy the requirements of this paragraph."

SECTION 1. The first paragraph of section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is hereby further amended by striking out clause (2), as appearing in chapter 6 of the Ordinances of 1956, and inserting in place thereof the following clause:—

(2) The assessor, thirteen thousand five hundred dollars; the chairman of the board of review in the assessing department, twelve thousand dollars; and the other appointive member of said board, eighty-five hundred dollars.

SECTION 2. Said section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is hereby further amended by striking out the last paragraph, as appearing in section 8 of chapter 2 of the Ordinances of 1954, and inserting in place thereof the following paragraph:—

The deputy assessors shall be compensated as if they held an office allocated to Grade No. 35 of the compensation plan from time to time in effect for the county; and assistant assessors holding such office on December 31, 1958 and thereafter with their written consent lawfully required to devote at least thirty-five hours a

week to their work, and also assistant assessors appointed to vacancies caused by resignation, retirement or death and lawfully required to devote at least thirty-five hours a week to their work, shall be compensated as if they held an office allocated to Grade No. 30 of said compensation plan; provided that the selection of such full time assistant assessors shall be made in accordance with the seniority provisions of chapter 31 of the General Laws; and other assistant assessors shall be compensated as if they held an office allocated to Grade No. 15 of said compensation plan; and the auctioneer in the real property department shall be compensated as if he held a position allocated to Grade No. 30 of said compensation plan.

SECTION 3. The Revised Ordinances of 1947 are hereby amended by striking out chapter 5, as appearing in chapter 3 of the Ordinances of 1954, and inserting in place thereof the following chapter:—

CHAPTER 5

ASSESSING DEPARTMENT

Section 1. There shall be in the city a department, known as the Assessing Department, which shall be under the charge of an officer, known as the Assessor, a resident and registered voter of the city of Boston for a period of three years next prior to the date of his appointment, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. The assessor shall, for the assessing department including the board of review, exclusively have the power, and perform the duties, conferred or imposed by law on the assessor of taxes in existence immediately prior to the taking effect of this ordinance with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates. The assessor shall also have the powers and perform the duties conferred or imposed by law on the assessor of taxes and the board of assessors in existence immediately prior to the taking effect of this ordinance; and except as otherwise provided in section two of this chapter, shall further

have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston. The assessor shall divide the assessing department from time to time into a statistical research division and such other divisions as he shall adjudge necessary for the proper conduct of the department.

Section 2. There shall be in the assessing department a board, known as the Board of Review, consisting of the assessor, ex officio, and two other members each of whom shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected and one of whom shall from time to time be designated by the mayor as chairman of said board. The board of review shall have the powers and perform the duties conferred or imposed by law on the board of review in existence immediately prior to the taking effect of this ordinance, and shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston with respect to abatement of taxes other than poll and motor vehicle excise taxes. The board of review shall not be subject to the supervision or control of the assessor except as he acts as a member thereof; but, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor.

Section 3. Every application for abatement filed with the assessor with respect to a tax other than a poll or motor vehicle excise tax shall be deemed to be filed with the board of review and shall be forthwith transmitted by him to said board; and the board of review shall be deemed to come within the terms "assessor," "assessors" and "board of assessors" as used in any application for the abatement of, or in any appeal from a refusal (by failure to act or otherwise) to abate, or in any statute relating to the abatement of, or in any statute relating to an appeal from a refusal (by failure to act or otherwise) to abate, a tax other than a poll or motor vehicle excise tax.

SECTION 4. The assessor of taxes, the board of assessors and the board of review in existence in the assessing department immediately prior to the taking effect of this ordinance are hereby abolished; and the powers and duties of said assessor of taxes and of said board of assessors, and the appropriations relating thereto, are hereby transferred to the assessor provided for by section 3 of this ordinance; and the powers and duties of said board of review, and the appropriations relating thereto, are hereby transferred to the board of review provided for by said section 3.

SECTION 5. Section 19 of chapter 39 of the Revised Ordinances of 1947 is hereby amended by striking out, in the last sentence, the words "assessor of taxes" and inserting in place thereof the word "assessor."

SECTION 6. Section 20 of said chapter 39 is hereby amended by striking out, in the first sentence, the words "assessor of taxes" and inserting in place thereof the word "assessor."

SECTION 7. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division, of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 8. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an

office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or compensation.

ORDINANCES OF 1948.

* CHAPTER 1.

CONCERNING AUTOMATIC AMUSEMENT DEVICES.

Chapter forty of the Revised Ordinances of 1947 is hereby amended by inserting after section one hundred and one the following:

AUTOMATIC AMUSEMENT DEVICES.

SECTION 101A. (1) On and after May 1, 1948, no person managing or controlling any restaurant, cafe, tavern or other eating or drinking establishment or any inn, hotel, club or public lodging house or any store, terminal, public hall, bowling alley, place of amusement or other place to which members of the public may resort, shall keep or offer for operation therein or allow to be kept or offered for operation therein any automatic amusement device, unless and until such automatic amusement device has been licensed by such licensing authority as the mayor shall from time to time appoint. Such authority may, upon written application and upon such reasonable terms and conditions as the mayor may prescribe, grant a license for any or all automatic amusement devices and may, after written notice to the licensee, suspend or, after hearing, revoke the same. The licensing authority shall act upon every application for a license under this section within fifteen days after the filing of such application, shall not deny any application except for good cause, and upon the denial of any application shall forthwith endorse thereon the reason for such denial. No license shall be granted under this section for any automatic amusement device unless such device is of a type approved by the director of standards and necessities of life under section two hundred eighty-three of chapter ninety-four of the General Laws. No license shall be granted under this section for any automatic amusement device to be kept or offered for operation upon premises within a radius of three hundred feet of a church or a school except after

* Repealed by Ordinances of 1949, chapter 7, section 1.

a public hearing of which notice shall be given by the licensing authority, at the expense of the applicant, to the minister, priest, rabbi or other person in charge of the church, or the headmaster, principal or other person in charge of the school, by registered mail sent at least five days (Saturdays, Sundays and holidays excluded) before the hearing.

(2) The term "automatic amusement device" as used in this section shall be construed as meaning any mechanism whereby, upon the deposit therein of a coin or token, any apparatus is released or set in motion or put in a position where it may be set in motion for the purpose of furnishing music or other entertainment or for the purpose of playing any game involving, in whole or in part, the skill of the player, including, but not exclusively, such devices as are commonly known as juke boxes, music boxes, phonographs, pinball machines (including free play pinball machines), marble games, diggers, grab machines, baseball or football game machines, bowlers, roll-down machines, target machines and horse racing machines.

(3) Licenses granted under this section, unless sooner revoked, shall expire on December thirty-first of each year. Every such license shall specify the street and number of the premises where the automatic amusement device is to be kept or offered for operation or give some particular description of such premises, shall name the person managing or controlling such premises, shall state the type of the automatic amusement device to which it relates, and shall protect any automatic amusement device of the same type which as a substitute or replacement for the automatic amusement device licensed may, during the term of the license, be kept or offered for operation on the premises specified while managed or controlled by the person named; but such license shall under no circumstances protect an automatic amusement device of a type other than the type stated in such license; and such license shall not protect the automatic amusement device if in any place other than the premises from time to time specified in such license or if such premises be managed or controlled by any person other than the person from time to time named in such license. No such license shall specify more than one premises at one time. Upon written application, the licensing authority may

from time to time amend any license granted under this section by changing the premises specified or by changing the person named as managing or controlling the premises or by changing both; provided, however, that no premises within a radius of three hundred feet of a church or a school shall be specified by amendment except after a public hearing of which notice shall have been given as hereinbefore provided.

(4) The annual fee for a license under this section for any automatic amusement device other than a pinball machine (including a free play pinball machine), or for any renewal thereof, shall be twelve dollars. The annual fee for such a license for a pinball machine (including a free play pinball machine), or for any renewal thereof, shall be thirty dollars. The fee for any license issued after January thirty-first in any year shall be prorated on the basis of the number of months in which the license is to be in force compared with twelve months. The fee for every change of premises and the fee for every change of person shall be two dollars.

(5) Automatic amusement devices licensed under this section shall be so installed on the premises described in the license as to be in open view at all times while in operation, and shall at all times be available for inspection by the mayor and the police commissioner of the city of Boston or their authorized agents.

(6) No person keeping or offering for operation or allowing to be kept or offered for operation any automatic amusement device licensed under this section shall permit a minor to operate the same; nor shall he use or permit the same to be used for the purpose of gambling.

(7) Any violation of any provision of this section or of chapter one hundred and thirty-six of the General Laws by any person managing or controlling any premises where an automatic amusement device licensed under this section is kept or offered for operation shall be cause for the revocation of all licenses for automatic amusement devices kept or offered for operation on such premises.

(8) The mayor may make rules regulating the use and operation of automatic amusement devices licensed under this section and may require, from time to time, the furnishing of reports concerning the ownership of

such devices or any interest therein, and any other information which he may deem pertinent concerning such devices and their use and operation.

(9) If any of the provisions of this section shall be invalid, such invalidity shall not affect other provisions which can be given effect without the invalid provisions, and to this end the provisions of this section are hereby declared to be severable. *[Approved April 14, 1948.]*

* CHAPTER 2.

POSTPONING THE TIME WHEN THE ORDINANCE CONCERNING AUTOMATIC AMUSEMENT DEVICES BECOMES OPERATIVE.

Paragraph (1) of section 101A of chapter forty of the Revised Ordinances of 1947, as inserted by chapter one of the Ordinances of 1948, is hereby amended by striking out the words, "On and after May 1, 1948" and inserting in place thereof the words:— On and after June 1, 1948. *[Approved May 5, 1948.]*

† CHAPTER 3.

CONCERNING SALARIES OF CERTAIN OFFICIALS.

Chapter three, section five, of the Revised Ordinances of 1947 is hereby amended as follows:

In the clause establishing the salaries of assessors, by striking out that portion relating to salaries of first assistant assessors, and inserting in place thereof the following: "Each first assistant assessor, thirteen hundred and fifty dollars for street work and preparation therefor, and thirteen hundred and fifty dollars for services on dooming board and work on abatements and investigations."

In the clause establishing the salaries of the sealer and deputy sealer of weights and measures, by striking out said clause and inserting in place thereof the following: "The sealer of weights and measures, five thousand dollars; the chief deputy sealer, such salary not exceeding thirty-five hundred dollars, and the other deputy

CHAPTER 9.

CONCERNING CERTAIN BILLS AND DEMANDS
AGAINST THE CITY OF BOSTON AND THE
COUNTY OF SUFFOLK.

SECTION 1. Chapter 3 of the Revised Ordinances of 1947 is hereby amended by striking out section 19 and inserting in place thereof the following section: Section 19. Every person selling any goods to, doing any work for, or rendering any services to, the city of Boston or the county of Suffolk, shall submit his bill or demand for the same to the city auditor in such form as said auditor may require. The board or officer contracting for such work, goods or services shall certify to the city auditor, at such time and in such form as said auditor may require, that such work has been done, goods delivered, or services rendered, as the case may be, and that payment therefor, in a specified amount, should be made. This section shall not apply to the payment of the salary or wages of any officer or employee.

* SECT. 2. Chapter 6 of the Revised Ordinances of 1947 is hereby amended by striking out section 4 and inserting in place thereof the following section: Section 4. The auditor shall examine every bill and demand rendered against the city of Boston or the county of Suffolk and shall ascertain whether the following facts exist: (a) that such bill or demand has been incurred by some person duly authorized; (b) that funds appropriated for the purpose are on hand in a sufficient amount for the payment of such bill or demand; (c) that the clerical computations involved in such bill or demand are correct; and (d) that the certificate prescribed by section nineteen of chapter three of these ordinances has been furnished. If the auditor finds that all of said facts exist, he shall make an appropriate notation on the bill or demand and forthwith forward the same to the city treasurer for payment, and, as soon thereafter as conveniently may be, shall draw a draft upon the city treasurer for the payment of such bill or demand. If the auditor finds that any of such facts does not exist, he shall return the bill or demand with his objections to the person submitting the same.

SECT. 3. This ordinance shall take effect on January 1, 1950. *[Approved December 28, 1949.]*

* Amended by substitution of collector-treasurer for city treasurer by Ordinances of 1954, chapter 2, section 18.

* CHAPTER 4.

CONCERNING THE ORGANIZATION, POWERS AND DUTIES OF THE CITY PLANNING BOARD.

Chapter 12 of the Revised Ordinances of 1947 is hereby amended by striking out sections 1, 2 and 3 and inserting in place thereof the five following sections:—

SECTION 1. There shall be in the city a department, known as the city planning department, which shall be under the charge of a board, known as the city planning board, consisting of nine planning commissioners appointed by the mayor, of whom at least one shall be a registered professional engineer, one a registered architect, one a landscape architect or city planner, and one a woman. No planning commissioner shall hold any office or position under the city government, except the office of planning commissioner and offices held ex officio by virtue of being chairman of the city planning board; nor shall a planning commissioner hold any office or position under any other public body politic and corporate or political subdivision of the commonwealth exercising powers within the limits of the city.

On or before September 1, 1952, the mayor shall appoint nine planning commissioners to hold office for terms commencing September 1, 1952, and expiring, in the case of three commissioners, two years, in the case of three other commissioners, four years, and in the case of three other commissioners, six years, respectively, from May 1, 1952. As the term of any planning commissioner so appointed, or of any subsequent planning commissioner, expires, his successor shall be appointed by the mayor for a term of six years. Any vacancy in the office of a planning commissioner shall be filled by the mayor for the unexpired term. Notwithstanding the provisions of their respective appointments, the terms of the members of the city planning board in office when this section takes effect shall expire on September 1, 1952.

The city planning board shall elect one of its members as chairman and another as vice chairman. Said board shall also elect a secretary who need not be a member of said board. The members of the city planning board

* Amended by Ordinances of 1954, chapter 2, section 27.

shall serve without compensation, but shall be reimbursed for their traveling and other necessary expenses incurred in the performance of their duties.

SECT. 2. Subject to the civil service laws and rules, so far as the same may be applicable, the city planning board shall appoint a director of city planning and such other officers and employees as said board may deem necessary or expedient, and may remove the same, and define their duties, and fix their compensation; provided, however, that no person shall be appointed director of city planning without the approval of the mayor.

SECT. 3. The city planning board shall have the powers and perform the duties from time to time conferred or imposed upon planning boards created under section 70 of chapter 41 of the General Laws. The city planning board shall also from time to time make studies and reports on the resources, possibilities and needs of the city, and acting by a majority of all its members, shall make and from time to time add to or amend a master plan for the improvement and development of the city, showing, in addition to such other things as in the opinion of said board will promote the coordinated improvement and development of the city and the health, safety and welfare of its inhabitants, existing and recommended use and bulk districts and pierhead and bulkhead lines, existing and recommended use of land for public and private purposes, existing and recommended public and private ways and parkways, existing and recommended bridges, viaducts and tunnels, existing and recommended transportation facilities, existing and recommended parks, playgrounds and recreational facilities, and existing and recommended sites of public buildings, works and projects, including housing and urban redevelopment projects and off-street parking facilities.

SECT. 4. No board or officer of the city or county having power to incur, in carrying on the work of the department, office or undertaking entrusted to it or him, obligations payable from the treasury of the city shall request the mayor to originate any appropriation or loan order for any capital improvement unless within the preceding six months such board or officer has referred such capital improvement to the city planning board and requested said board to report specifically upon such capital improvement and accompanies the request to the mayor with the report of said board

thereon or a certificate by the secretary of said board that said board was duly requested to report specifically on such capital improvement but has allowed two months to elapse without making such report. Referral of capital improvements to the city planning board under this section shall be deemed mandatory.

SECT. 5. Every board and officer of the city and county having power to incur, in carrying on the work of the department, office or undertaking entrusted to it or him, obligations payable from the treasury of the city, shall submit to the city planning board on or before October first in each year, in such form as said board shall require, a list of all capital improvements proposed to be made in carrying on the work of such department, office or undertaking in the six succeeding years. The city planning board shall forthwith after October first in each year proceed to prepare, upon the basis of such lists and of its own studies, a capital improvement program for each of the six succeeding years, and shall, not later than the second Monday of the succeeding January, submit such programs, with its report and recommendations pertaining thereto, to the mayor, who, not later than the first Monday of the succeeding March, shall submit such programs, revised as he shall think proper, to the city council. Subject to such further revisions as the mayor shall from time to time consider advisable, the programs so submitted to the city council shall be deemed the capital improvement program of the city until the second Monday of the succeeding January.

[Approved August 5, 1952.]

use shellfish permit may be granted upon written application by any inhabitant of the commonwealth; but a commercial use shellfish permit shall be granted only upon written application by an inhabitant of the city of Boston. No application for a family use, or for a commercial use, shellfish permit shall be denied except for good cause. Every family use, and every commercial use, shellfish permit, shall be upon the condition that the holder thereof shall at all times conform to all applicable laws and shall not take shellfish from any area determined under section 74 of chapter 130 of the General Laws to be contaminated except in accordance with a permit granted under section 75 of said chapter 130 and upon such other conditions as the city council shall think proper. Any family use, or commercial use, shellfish permit may at any time, after due notice and hearing, be revoked by the city council for any breach of condition or other good cause. No family use, or commercial use, shellfish permit shall be transferable. Every family use, and every commercial use, shellfish permit, shall, unless sooner revoked, expire on the fifteenth day of whichever of the months of January, May or September next succeeds the month in which such permit is granted. The fee for every family use shellfish permit, and for every renewal thereof, shall be one dollar; and the fee for every commercial use shellfish permit, and for every renewal thereof, shall be five dollars.

(2) Any inhabitant of the commonwealth holding a family use shellfish permit granted under paragraph (1) of this section may, on and after January 1, 1953, take, for his own family use, shellfish from the following area in the city of Boston, to wit: the flats and coastal waters adjoining on the south such portion of the road leading from Marine Park to Castle Island as lies within fifteen hundred feet of the upland of Castle Island; provided, however, that no shellfish shall be taken from said area of a size or at a season prohibited by law; and provided, further, that the amount taken for any family shall not exceed in any one week one bushel of any or all kinds of shellfish; and provided, further, that no shellfish shall be taken from so much of said area as shall from time be determined under section 74 of chapter 130 of the General Laws to be contaminated except in accordance with a permit granted under section 75 of said chapter 130.

(3) Except as otherwise provided in paragraph (2) of this section, on and after January 1, 1953, no person shall take any kind of shellfish within the city of Boston unless he holds a commercial use shellfish permit granted under paragraph (1) of this section. No shellfish shall be taken for commercial purposes from the area described in paragraph (2) of this section.

[Approved December 23, 1952.]

NOTE. This ordinance was not approved by the Director of Marine Fisheries, as required by chapter 130 of the General Laws, and therefore is ineffective.

* CHAPTER 6.

Each member of the board of appeal shall receive for every day or part thereof of actual service twenty-five dollars; but in no event shall any member of said board receive in any one year more than thirty-five hundred dollars in the aggregate for services rendered by him under the building code and the zoning law. Each member of the board of examiners, and the appointive member of the board of examiners of gasfitters, shall receive for every day or part thereof of actual service fifteen dollars, but in no event more than fifteen hundred dollars in any one year.

The deputy assessors shall be compensated as if they held an office allocated to Grade No. 30 of the compensation plan from time to time in effect for Suffolk County; and the assistant assessors shall be compensated as if they held an office allocated to Grade No. 15 of said compensation plan; and the auctioneer in the real estate department shall be compensated as if he held a position allocated to Grade No. 30 of said compensation plan.

SECTION 2. The provisions of section one of this ordinance relating to the deputy assessors, the assistant assessors, and the auctioneer in the real estate department shall take effect as of April 2, 1952. The provisions of said section one relating to the members of the board of appeal, the board of examiners, and the board of examiners of gasfitters shall take effect on January 1, 1953. The other provisions of said section one shall take effect on December 31, 1952. [*Approved December 30, 1952.*]

NOTE. The salaries established in this chapter were either altered or stricken out by Ordinances of 1953, chapters 2, 3 and 8, Ordinances of 1954, chapters 2 and 3, Ordinances of 1955, chapters 4 and 6, Ordinances of 1956, chapters 3 and 6, Ordinances of 1957, chapter 8, and Ordinances of 1958, chapter 4, except those provided in clauses numbered 4, 5, 9, 10, 15, and 24.

ORDINANCES OF 1953.

CHAPTER 1.

REGULATING THE TAKING OF SHELLFISH IN THE CITY OF BOSTON.

SECTION 1. Chapter 5 of the Ordinances of 1952 is hereby repealed.

SECT. 2. Chapter 40 of the Revised Ordinances of 1947 is hereby amended by inserting after section 22 the following:

* TAKING OF SHELLFISH.

SECT. 22A. (1) Effective May 15, 1953, there shall be granted by the city council family use shellfish permits and commercial use shellfish permits. A family use shellfish permit may be granted upon written application by any inhabitant of the commonwealth; but a commercial use shellfish permit shall be granted only upon written application by an inhabitant of the city of Boston except that, at such times as the city council shall deem the number of commercial use shellfish permits so granted to be insufficient for the proper working of the shellfish areas in the city, a commercial use shellfish permit may be granted upon written application by any inhabitant of the commonwealth. No application for a family use, or for a commercial use, shellfish permit shall be denied except for good cause. Every family use, and every commercial use, shellfish permit, shall be upon the following conditions: (a) that the permit shall not be transferable; (b) that the permit shall expire in accordance with law and, prior to such expiration, may be terminated by revocation in accordance with law; (c) that the holder thereof shall at all times conform to all applicable statutes, ordinances, rules and regulations; (d) that the holder thereof shall not take shellfish from any area determined under section 74 of chapter 130 of the General Laws to be contaminated except in accordance with a permit granted under section 75 of said chapter 130; and (e) that the holder thereof shall at no time during the period in any year beginning May fifteenth and ending

CHAPTER 7.

AMENDING DIVERS PROVISIONS OF THE BOSTON BUILDING CODE.

SECTION 1. Section 111 of Chapter 479 of the Acts of 1938, as amended by sections 29, 30 and 31 of Chapter 2 of the Ordinances of 1943, is hereby further amended by striking out the last sentence of paragraph (e) and inserting in place thereof the following two sentences:—Any permit issued shall become invalid unless the work authorized by it shall have been commenced within six months after its issuance; provided, that for cause one or more extensions of time, for periods not exceeding three months each, may be allowed in writing by the commissioner, except that in no event shall the time for commencing the work be extended beyond eighteen months after the issuance of the permit. Any permit issued may be revoked by the commissioner at any time after notice and hearing if there is a false statement or misrepresentation of a material fact in the application for the permit or in the plans or computations filed therewith, or if the work authorized by the permit violates any provision of this code or other provision of law or the permit is otherwise issued in error, or if in the

course of the work there is any violation of any provision of this code or other provision of law, or if after commencement of the work there is unreasonable delay in completing the work, or if there is other good cause for revocation of the permit.

SECTION 2. The second paragraph of subdivision (c) of Section 1417 of said Chapter 479, as appearing in Section 171 of Chapter 4 of the Ordinances of 1943, is hereby amended by striking out the first two sentences and inserting in place thereof the following two sentences: — Posts shall be well braced the full story height, and walls shall be framed to them by a stud-sized brace attached to the post just below the girt and running in the wall at an angle not more than sixty degrees from the vertical, attached at the other end to the girt or sill. These braces shall be horizontally braced at the corner post at least once in each story, and the studs which they intersect shall be well fastened above and below the brace.

[Approved December 31, 1953.]

The two sections of the foregoing ordinance were passed in accordance with and after the recommendation of the Building Commissioner to the Mayor and City Council, dated November 23, 1953.

CHAPTER 8.

CREATING IN THE CITY OF BOSTON THE ADMINISTRATIVE SERVICES DEPARTMENT AND CONSOLIDATING THEREIN CERTAIN EXISTING DEPARTMENTS OF SAID CITY.

SECTION 6. Said chapter 3 is hereby further amended by striking out section 14 and inserting in place thereof the following section:—

Section 14. If the officer in charge of any department shall at any time have the care, custody and management of any personal property belonging to the city which is not required for the purposes of such department, he shall by a writing executed in triplicate, one copy of which shall be retained by him, one copy filed with the city auditor and one copy delivered to the purchasing agent, transfer the care, custody and management of such personal property to the purchasing agent, who, if such personal property is required for the purposes of another department, shall by a writing executed in like manner transfer the care, custody and management thereof to the officer in charge of such department and, if such personal property is not so required and he estimates the value thereof not to exceed five hundred dollars, may, with the written approval of the mayor, lease, sell or otherwise dispose of the same at such time, for such price and in such manner as he shall adjudge most advantageous to the city.

SECTION 7. Said chapter 3 is hereby further amended by striking out section 16, as amended by section 1 of chapter 3 of the Ordinances of 1952, and inserting in place thereof the following section:—

Section 16. The board in charge of the library department may, and the officer in charge of every other department shall, when material or supplies of any kind, including printing and binding, are required, obtain the same from the purchasing agent by requisition in writing on forms furnished by said agent, who shall cause to be included in the annual report of the administrative services board a statement of the cost of all printing, binding and other material and supplies furnished each department.

SECTION 8. Said chapter 3 is hereby further amended by striking out section 22 and inserting in place thereof the following section:

* *Section 22.* Any officer may, with the approval of the mayor, by a writing deposited with the city auditor, or in the case of the city auditor with the city treasurer, designate a subordinate, who shall, for such time, not exceeding four weeks from the date of such designation,

* Amended by Ordinances of 1954, chapter 2, section 11.

as shall be specified in the writing, be authorized to perform the duties required of such officer, and for the acts of such subordinate such officer shall be responsible.

SECTION 9. The Revised Ordinances of 1947 are hereby amended by inserting after chapter 3 the following new chapter:

CHAPTER 3A.

ADMINISTRATIVE SERVICES DEPARTMENT.

* *Section 1.* There shall be in the city a department, known as the Administrative Services Department, which shall be under the charge of a board, known as the Administrative Services Board, consisting of an officer, known as the Director of Administrative Services, who shall be chairman of the board, an officer known as the Supervisor of Personnel, an officer known as the Purchasing Agent, and the city auditor and the city treasurer, ex officio. The director of administrative services, the supervisor of personnel, and the purchasing agent shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, and shall devote their whole time to the duties of their respective offices. The director of administrative services shall exclusively have the powers, and perform the duties, of a department head with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates for the administrative services department and the several officers thereof.

Section 2. It shall be the duty of the administrative services board, and more especially of the director of administrative services, to make, under the mayor, studies and recommendations with respect to the organization, activities, policies and procedures of all departments, boards and officers so that the administration thereof shall be economical and efficient. The administrative services board shall divide the administrative services department from time to time into such divisions as said board shall adjudge necessary for the proper conduct of the department. The director of administrative services shall, from time to time as written studies and recommendations are made by him or by the administrative services board, and at such times as the city council may order, file a copy thereof with the

city clerk for transmission to the city council, and shall cause to be included in the annual report of said board, summaries of all such studies and recommendations.

* *Section 3.* The director of administrative services shall, under the direction of the mayor, prepare in segregated form the annual and all supplementary budgets to be submitted by the mayor to the city council, and shall report to the mayor on all subsequent revisions of the items in any budget. The director of administrative services shall also prepare under the direction of the mayor all transfer orders to be submitted by the mayor to the city council under section 3B of chapter 486 of the acts of 1909. The director of administrative services shall further prepare under the direction of the mayor the form of estimate sheets to be used by each officer, board and department, and each division of a department, for which the city appropriates money, and the form of monthly report of such officer, board and department, and each division thereof, showing expenditures to date of all appropriations by item. The director of administrative services shall, in addition, have the powers and perform the duties conferred or imposed on the budget commissioner by any statute other than section 56 of chapter 35 of the General Laws

Section 4. The supervisor of personnel shall (a) establish and maintain personnel records, as complete as practicable, for all persons in the service of the city, (b) make a continuing study of personnel problems, employment conditions and economic changes affecting the several departments of the city, (c) recommend, from time to time to the mayor and the several officers appointing subordinates, programs designed to provide opportunities for career service with the city and administrative policies tending to improve and coordinate the handling of personnel matters, (d) supervise the administration of all compensation plans established for employees of the city and recommend such changes in those plans as from time to time shall seem to him necessary or advisable, and (e) have the powers and perform the duties conferred or imposed on the budget commissioner by section 56 of chapter 35 of the General Laws. The supervisor of personnel shall furnish the director of administrative services such assistance as said director shall require in connection with the per-

formance by said director of his duties under section three of this chapter.

Section 5. The purchasing agent shall, when satisfied of the legality of any requisition in writing signed by the officer in charge of a department requiring material or supplies of any kind, at once comply with such requisition and furnish the material or supplies requisitioned, shall require suitable evidence that the material or supplies furnished are accepted by the officer issuing the requisition, and shall keep suitable records of all requisitions received and materials and supplies furnished.

Section 6. The purchasing agent shall have charge of the printing plant, shall, when satisfied of the legality of any requisition in writing signed by any officer to whom the city is required by law to furnish printing or binding, supply the printing or binding requisitioned, and shall, wherever practicable, standardize all such printing and binding. All printed matter done for the city shall, so far as it can legally do so, bear the imprint of the union label of the Allied Printing Trades Council of Boston.

Section 7. The purchasing agent shall number and print as city documents copies of the mayor's inaugural or annual address, the department reports and such other matter as may be ordered to be printed in the form of a city document by the city council or by the mayor. The number of copies of each document to be printed shall, unless specified by the city council, be determined by the mayor; provided, however, that the minimum shall be two hundred, of which number one hundred copies shall be bound in sets of volumes containing all such city documents with an alphabetical index. All city documents and sets of volumes shall be delivered to the city messenger and distributed in such manner as the city council may direct. Special publications shall, from time to time, be printed on order of the city council approved by the mayor, to which the provisions of this section except as to distribution, shall not apply.

Section 8. There shall be in the administrative services department a board, known as the Art Commission, consisting of five commissioners appointed by the mayor as follows:—one from three candidates nominated by The Boston Society of Architects, one from three candidates nominated by the Copley Society

of Boston, one from three candidates nominated by the Massachusetts Institute of Technology, one from three candidates nominated by the Museum of Fine Arts, and one from three candidates nominated by the Trustees of the Public Library of the City of Boston. The members of the board of art commissioners in office immediately prior to the taking effect of this ordinance and hereinafter called the expiring board shall, without further nomination or appointment, become the initial commissioners of the art commission created by this ordinance and shall serve in the case of the member appointed upon nomination of The Boston Society of Architects, for a term expiring May 1, 1955, in the case of the member appointed upon nomination of the Massachusetts Institute of Technology, for a term expiring May 1, 1954, in the case of the member appointed upon nomination of the Museum of Fine Arts, for a term expiring May 1, 1958, in the case of the member appointed upon nomination of the Trustees of the Public Library of the City of Boston, for a term expiring May 1, 1956, and in the case of the member appointed upon nomination of the Boston Art Club, for a term expiring upon the qualification of the commissioner first appointed upon nomination of the Copley Society of Boston, who shall serve for a term expiring May 1, 1957. As the term of any initial commissioner other than the member of the expiring board appointed upon nomination of the Boston Art Club, or of any subsequent commissioner, expires, his successor shall be appointed in like manner as such commissioner for a term of five years. Vacancies in the commission shall be filled in the same manner for the unexpired term. The members of the art commission shall serve without compensation. Any secretary elected by the commission outside of its own membership shall also serve without compensation.

The art commission shall not be subject to the supervision or control of the administrative services board or any member thereof; but unless otherwise ordered by the mayor, the art commission shall not communicate with the mayor except through the director of administrative services and shall not make any annual or other report except through the administrative services board.

The art commission shall have the powers and perform the duties conferred or imposed by law on the

board of art commissioners in existence immediately prior to the taking effect of this ordinance.

SECTION 10. Chapter 4 of the Revised Ordinances of 1947 is hereby repealed; and the art department, including the board of art commissioners, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the art commission created in the administrative services department by section 9 of this ordinance.

SECTION 11. Chapter 6 of the Revised Ordinances of 1947 is hereby amended by striking out section 6 and inserting in place thereof the following section:

Section 6. The auditor, at the close of each month, shall charge as an expenditure of a department the transaction, act, or neglect of which caused a claim or suit, the amount paid in settlement, or on execution, therefor, unless provision is made for such payment out of some other appropriation; shall charge the amount of every bill allowed by him for printing or binding furnished any department by the purchasing agent during such month, except city documents, to the appropriation for the department to which the same was furnished, and shall credit such amount to the general revenue of the city; and shall charge to the appropriation for each division of the public works department, or to the appropriation for any special work, the amount of all bills for materials, tools or machinery furnished for such division, or for such work, by other divisions of said department, and shall credit such amount to the general revenue of the city, unless such materials, tools or machinery have been furnished by the water service, in which case the amount charged shall be credited to the water income.

SECTION 12. Chapter 8 of the Revised Ordinances of 1947 is hereby repealed; and the budget department, including the office of budget commissioner, is hereby abolished; and the powers and duties conferred or imposed on the budget commissioner by section 56 of chapter 35 of the General Laws and the appropriations relating to such powers and duties, are hereby transferred to the supervisor of personnel created by section 9 of this ordinance; and all other powers, duties and appropriations of said budget department are hereby transferred to the director of administrative services created by said section 9.

SECTION 13. Chapter 24 of the Revised Ordinances of 1947, as amended by sections 2, 3 and 4 of chapter 3 of the Ordinances of 1952, is hereby repealed; and the printing department, including the office of superintendent of printing, is hereby abolished; and the powers, duties and appropriations of said superintendent with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the director of administrative services created by section 9 of this ordinance; and all other powers, duties and appropriations of the printing department are hereby transferred to the purchasing agent created by said section 9.

SECTION 14. Chapter 34 of the Revised Ordinances of 1947, as amended by sections 6 and 7 of chapter 3 of the Ordinances of 1952, is hereby repealed; and the supply department, including the office of superintendent of supplies, is hereby abolished; and the powers, duties and appropriations of the superintendent of supplies with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the director of administrative services created by section 9 of this ordinance; and all other powers, duties and appropriations of said department are hereby transferred to the purchasing agent created by said section 9.

SECTION 15. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a department or agency created, or a department or agency not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 16. This ordinance shall be deemed to be made under section 5 of chapter 486 of the Acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an

office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or, except as provided in section 3 of this ordinance, be reduced in compensation.

SECTION 17. Anything in section 3 of chapter 1 of the Revised Ordinances of 1947 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

SECTION 18. This ordinance shall take effect on January 1, 1954. *[Approved December 31, 1953.]*

CHAPTER 9.

PROVIDING FOR NOTICE OF HEARING ON PETITIONS FOR JITNEY LICENSES.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by inserting after Section 92 the following new section:—

SECTION 92A. No person shall prosecute a petition to the city council for a license under Section 1 of Chapter 159A of the General Laws unless at his own expense he has caused to be published, in a newspaper of general circulation published in the city, at least seven days before the public hearing to be held by the committee on licenses of the city council, a notice of the time and place of such hearing, nor unless at his own expense he has also sent by registered mail not less than seven days before such hearing a copy of such notice to the police commissioner, the Metropolitan Transit Authority, and such persons as shall file with the clerk of committees a written request for notices under this section.

[Approved December 31, 1953.]

CHAPTER 10.

FURTHER REGULATING THE TAKING OF SHELLFISH IN THE CITY OF BOSTON.

Section 22A of chapter 40 of the Revised Ordinances of 1947, as amended by section 2 of chapter 1 of the

Ordinances of 1953, is hereby further amended by striking out, in paragraph (1), the second sentence and inserting in place thereof the following sentence:—
A family use shellfish permit may be granted upon written application by any inhabitant of the commonwealth; but a commercial use shellfish permit shall be granted only upon written application by an inhabitant of the city of Boston who shall have been such for not less than one year next preceding the making of such application; provided, however, that at such times as the city council shall deem the number of commercial use shellfish permits so granted to be insufficient for the proper working of the shellfish areas in the city, a commercial use shellfish permit may be granted upon written application by any inhabitant of the commonwealth.

[Approved January 2, 1954.]

Approved by the Director of the Division of Marine Fisheries, February 25, 1954.

ORDINANCES OF 1954.

CHAPTER 1.

ABOLISHING A CERTAIN OFFICE IN THE CITY MESSENGER
DEPARTMENT AND A CERTAIN OFFICE IN THE

SECT. 2. Section of chapter 13 of the Revised Ordinances of 1947 is hereby amended by striking out, in the first sentence, the word "four" and inserting in place thereof the word "three."

SECT. 3. This ordinance shall take effect upon the approval by the Mayor of the order passed by the City Council on January 11, 1954, providing for two additional temporary clerks and/or stenographers in the Clerk of Committees Department.

[Order and Ordinance Approved January 12, 1954.]

CHAPTER 2.

REORGANIZING CERTAIN BOARDS AND DEPARTMENTS
OF THE CITY.

SECTION 1. Section 4 of chapter 1 of the Revised Ordinances of 1947 is hereby amended by striking out, in clause *Fifth*, the words "park department" and inserting in place thereof the words "parks and recreation department" and by striking out, in clause *Twelfth*, the words "street commissioners" and inserting in place thereof the words "commissioner of public works";

* Amended by Ordinances of 1955, chapter 4, section 2.

and section 6 of said chapter 1 is hereby amended by striking out, in the last sentence, the words "superintendent of public buildings" and inserting in place thereof the words "assistant commissioner of real property".

SECTION 2. Chapter 2 of the Revised Ordinances of 1947 is hereby amended by striking out section 1, as amended by section 1 of chapter 3, and section 2 of chapter 8, of the Ordinances of 1953, and inserting in place thereof the following section:—

Section 1. The mayor shall appoint heads of departments and members of municipal boards and fill vacancies therein in the manner provided by law. He shall, in the municipal year in which the term of the incumbent expires, appoint the following officers, to serve for the terms hereinafter specified:

For the term of three years, beginning with the first day of May in the year of appointment: four overseers of the public welfare.

For the term of four years, beginning with the first day of May in the year of appointment: the fire commissioner, the corporation counsel, and the penal institutions commissioner.

* For the term of five years, beginning with the first day of April in the year of appointment, one assessor.

For the term of five years, beginning with the first day of May in the year of appointment: one trustee of the Boston city hospital and one trustee of the Boston public library.

SECTION 3. Section 2 of said chapter 2 is hereby amended by striking out, in the last sentence, the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 4. Said chapter 2 is hereby further amended by striking out section 5 and inserting in place thereof the following section:—

Section 5. The mayor may, upon payment to the collector-treasurer of the amount due on the mortgage of an estate mortgaged to the city, discharge or release the mortgage, or assign the same without recourse to the city, and may execute and deliver in behalf of the city any and all legal instruments necessary to effectuate such discharge, release or assignment.

* Stricken out by Ordinances of 1954, chapter 3, section 1.

SECTION 5. Section 8 of said chapter 2 is hereby amended by striking out the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 6. Chapter 3 of the Revised Ordinances of 1947 is hereby amended by striking out sections 2, 3 and 4 and inserting in place thereof the following three sections:—

Section 2. The collector-treasurer and the city auditor, before, and the city clerk, within five days after, entering upon the duties of their respective offices and annually thereafter and at such other times as the mayor shall determine, shall give bond to the city, in the case of the collector-treasurer, in the penal sum of five hundred thousand dollars, in the case of the city auditor, in the penal sum of one hundred thousand dollars, and in the case of the city clerk, in the penal sum of five thousand dollars.

Every bond given under this section shall be upon the condition that the person named therein as principal and all his subordinates shall, while he continues in office, by reappointment, re-election or otherwise, faithfully discharge their duties and trusts, and safely hold and lawfully dispose of and account for all money and other property belonging to the city or county which may come into his possession or that of his subordinates; and that he shall deliver, according to law, to his successor in office or such other person as may be authorized to receive the same all money and other property in his possession or that of his subordinates belonging to the city or county. Every bond given under this section shall be executed by a surety company authorized to transact business in Massachusetts as surety, shall be approved by the mayor, and shall be filed with the city auditor except that the bond of the city auditor shall be filed with the collector-treasurer.

Section 3. Every person intrusted with the collection, custody or disbursement of public moneys who is not required by statute or other ordinance to give bond shall, if the officer appointing him so requires, give before entering upon the duties of his office or position and annually thereafter and at such other times as such officer shall determine, a bond running to the city or, if such officer is bonded to the city upon the condition set forth in section two, to such officer, in such penal sum not exceeding twenty thousand dollars, with such

surety, and upon such condition as such officer shall prescribe. Every bond given under this section running to the city shall be filed with the city auditor.

Section 4. The premium for the surety upon any bond given under section two or section three of this chapter or section four of chapter thirty-six shall be allowed and paid as an expense of the department of which the principal on the bond is an officer or employee.

SECTION 7. The first paragraph of section 5 of said chapter 3, as most recently amended by sections 3 and 4 of chapter 8 of the Ordinances of 1953, is hereby further amended as follows:—

By striking out clause (8) and inserting in place thereof the following clause:— (8) The corporation counsel, thirteen thousand five hundred dollars.

By striking out clause (11) and inserting in place thereof the following clause:— (11) The health commissioner, eleven thousand dollars.

By striking out clause (14) and inserting in place thereof the following clause:— (14) The commissioner of parks and recreation, eleven thousand dollars.

By striking out clause (18) and inserting in place thereof the following clause:— (18) The commissioner of public works, thirteen thousand five hundred dollars.

By striking out clause (19) and inserting in place thereof the following clause:— (19) The commissioner of real property, ninety-five hundred dollars; and the assistant commissioner of real property, eighty-five hundred dollars.

By striking out clause (25) and inserting in place thereof the following clause:— (25) The collector-treasurer, twelve thousand dollars.

By striking out clause (26) and inserting in place thereof the following clause:— (26) The veterans benefits and services commissioner, eighty-five hundred dollars.

And by striking out clauses (7), (12), (17), (20), (22) and (27).

SECTION 8. Said section 5 of said chapter 3 is hereby further amended by striking out the last two paragraphs, as appearing in section 1 of chapter 6 of the Ordinances of 1952, and inserting in place thereof the following two paragraphs:—

Each member of the board of appeal in the building department shall receive for every day or part thereof of actual service twenty-five dollars; but in no event

shall any member of said board receive in any one year more than thirty-five hundred dollars in the aggregate for services rendered by him under the building code and the zoning law. Each member of the board of examiners in the building department, and the appointive member of the board of examiners of gasfitters in said department, shall receive for every day or part thereof of actual service fifteen dollars, but in no event more than fifteen hundred dollars in any one year.

* The deputy assessors shall be compensated as if they held an office allocated to Grade No. 30 of the compensation plan from time to time in effect for the county; and the assistant assessors shall be compensated as if they held an office allocated to Grade No. 15 of said compensation plan; and the auctioneer in the real property department shall be compensated as if he held a position allocated to Grade No. 30 of said compensation plan.

SECTION 9. Said chapter 3 is hereby further amended by striking out section 10 and inserting in place thereof the following section:—

Section 10. Except as otherwise ordered by the mayor under section nine of chapter two of these ordinances, the collector-treasurer shall daily have an office open for the receipt and disbursement of money from nine o'clock in the forenoon until two o'clock in the afternoon and every other officer in charge of a department shall daily have an office open for the transaction of public business for not less than eight hours; provided, however, that every public office in the city shall remain closed on all Sundays and legal holidays and may remain closed on all Saturdays, except that the health commissioner shall have an office open for the issuance of burial permits and permits for the removal of dead bodies from ten o'clock in the forenoon until twelve o'clock noon on every day in the year.

SECTION 10. Section 15 of said chapter 3 is hereby amended by striking out the words "and the superintendent of public buildings".

SECTION 11. Section 18 of said chapter 3 is hereby amended by striking out, wherever appearing in said section, the words "city collector" and inserting in place thereof, in each instance, the word "collector-treasurer"; and section 22 of said chapter 3, as amended by section 8 of chapter 8 of the Ordinances of 1953,

* Superseded by Ordinances of 1958, chapter 4, section 2.

is hereby further amended by striking out the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 12. Section 24 of said chapter 3 is hereby amended by adding at the end thereof the following sentence:— Every board within a department not subject to the supervision or control of the officer in charge of the department shall make an annual report containing a statement of its acts and doings and such other matters as may be required by law or as it or the mayor may deem to be of public interest, which report shall be annexed by the officer in charge of the department as an appendix to his annual report.

SECTION 13. Chapter 3A of the Revised Ordinances of 1947, as inserted by section 9 of chapter 8 of the Ordinances of 1953, is hereby amended by striking out, in the first sentence of section 1, the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 14. Sections 2 and 3 of chapter 5 of the Revised Ordinances of 1947 are hereby amended by striking out, wherever appearing in said sections, the words "the city collector" and "the collector" and inserting in place thereof, in each instance, the words "the collector-treasurer".

SECTION 15. Section 1 of chapter 6 of the Revised Ordinances of 1947 is hereby amended by striking out the words "the city auditor, who" and inserting in place thereof the words "a city auditor who shall be appointed by the mayor, and hold office, subject to the civil service laws and rules and who", and by striking out, wherever appearing in said section, the words "the city treasurer" and "the treasurer" and inserting in place thereof, in each instance, the words "the collector-treasurer", and by striking out the words "sinking-funds commissioners" and inserting in place thereof the words "commissioners of sinking funds".

SECTION 16. Section 2 of said chapter 6 is hereby amended by striking out, wherever appearing in said section, the word "treasurer" and inserting in place thereof, in each instance, the word "collector-treasurer".

SECTION 17. Section 3 of said chapter 6 is hereby amended by striking out, wherever appearing in said section, the word "treasurer" and inserting in place thereof, in each instance, the word "collector-treasurer".

SECTION 18. Section 4 of said chapter 6, as amended by section 2 of chapter 9 of the Ordinances

of 1949, is hereby further amended by striking out, wherever appearing in the second sentence, the words "city treasurer" and inserting in place thereof, in each instance, the word "collector-treasurer".

SECTION 19. Section 8 of said chapter 6 is hereby amended by striking out all after the words "in the sinking funds" and inserting in place thereof the words "which statement shall be arranged so far as practicable to conform to the accounts of the collector-treasurer."

SECTION 20. Section 1 of chapter 9 of the Revised Ordinances of 1947 is hereby amended by adding at the end the following sentence:—The building commissioner shall also have the powers and perform the duties conferred or imposed by statute on the wire commissioner and on the fire commissioner as successor to the wire commissioner, and shall carry out the provisions and requirements of law relating to wires and inspection of wires and the installation and use of electrical conductors and appliances in buildings in the city.

SECTION 21. Said chapter 9 is hereby further amended by striking out section 2 and inserting in place thereof the following section:—

Section 2. There shall be in the building department a board, known as the Board of Appeal, consisting of five members appointed by the mayor as follows:— one member from two candidates nominated, one by The Boston Society of Architects and one by the Boston Society of Civil Engineers, one member from two candidates nominated by the Building Trades Council of Boston and Vicinity, one member from two candidates nominated, one by the Boston Real Estate Board and one by the Massachusetts Real Estate Association, one member from three candidates nominated, one by The Master Builders' Association of Boston, one by the Building Trades Employers' Association of the City of Boston and one by the Associated General Contractors of Massachusetts, Inc., and one member selected at large by the mayor. All members of the board of appeal shall be residents of, or engaged in business in, Boston. The members of the board of appeal in office when this ordinance takes effect shall serve, in the case of the member appointed upon nomination of The Boston Society of Architects or the Boston Society of Civil Engineers, for a term expiring five years, in the case of the member appointed upon nomination of the Building Trades Council of Boston and Vicinity, for a term expiring one year, in the case of the member appointed

upon nomination of the Boston Real Estate Board or the Massachusetts Real Estate Association, for a term expiring two years, in the case of the member appointed upon nomination of The Master Builders' Association of Boston, the Building Trades Employers' Association of the City of Boston or the Associated General Contractors of Massachusetts, Inc., for a term expiring three years, and, in the case of the member selected at large by the mayor, for a term expiring four years, respectively, from May 1, 1953. As the term of any such member, or of any subsequent member, expires, his successor shall be appointed in like manner as such member for a term of five years. Vacancies in the board shall be filled in the same manner for the unexpired term. No member of the board shall act in any case in which he has a personal interest; and when a member is so disqualified or absent or when there is a vacancy in the office of a member, the remaining members shall designate a substitute.

The board of appeal shall not be subject to the supervision or control of the building commissioner; but unless otherwise ordered by the mayor, the board of appeal shall not communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 22. Said chapter 9 is hereby further amended by striking out section 4 and inserting in place thereof the following section:—

Section 4. There shall also be in the building department a board, known as the Board of Examiners, consisting of three members appointed by the mayor, of whom one shall be an architect or engineer with at least five years' experience in the city, one a contractor or person well qualified in the supervision of construction work with at least five years' experience in the city, and one a lawyer or other person with proper legal qualifications. The members of the board of examiners in office when this ordinance takes effect shall serve according to the provisions of their respective appointments for terms expiring one, two and three years, respectively, from May 1, 1953. As the term of any such member, or of any subsequent member, expires, his successor shall be appointed by the mayor for a term of three years. Vacancies in the board shall be filled by the mayor for the unexpired term.

The board of examiners shall not be subject to the supervision or control of the building commissioner; but unless otherwise ordered by the mayor, the board of examiners shall not communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 23. Section 5 of said chapter 9 is hereby amended by striking out, in the last sentence, the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 24. Said chapter 9 is hereby further amended by striking out section 6 and inserting in place thereof the following section:—

Section 6. There shall also be in the building department a board, known as the Board of Examiners of Gasfitters, consisting of the building commissioner and the health commissioner, ex officiis, and a member appointed by the mayor. The appointive member shall be a licensed master gasfitter who shall have been continuously engaged in business as a master gasfitter during the five years next preceding his appointment. The appointive member of the board of examiners of gasfitters in office when this ordinance takes effect shall serve for a term expiring on May 1, 1954. As the term of such appointive member, or of any subsequent appointive member, expires, his successor shall be appointed by the mayor for a term of one year. Any vacancy in the office of the appointive member shall be filled by the mayor for the unexpired term.

The board of examiners of gasfitters shall not be subject to the supervision or control of the building commissioner except as he acts as a member of said board; but unless otherwise ordered by the mayor, the board of examiners of gasfitters shall not communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 25. Said chapter 9 is hereby further amended by adding at the end the following caption and section:—

Public Safety Commission.

Section 8. There shall also be in the building department a board, known as the Public Safety Commission, consisting of the director of administrative services, the building commissioner, the fire commissioner, the health

commissioner and the chairman of the Boston traffic commission, ex officiis. It shall be the duty of said commission to coordinate the work of the building, fire and health departments to the end that there may be efficient and concerted action by said departments. Said commission shall meet at least once each month, at the call of the director of administrative services, for the purpose of discharging said duty.

There shall be in the public safety commission a committee, known as the Committee on Licenses, consisting of the building commissioner, the fire commissioner and the chairman of the Boston traffic commission, ex officiis. Said committee shall have the powers and perform the duties conferred or imposed on the board of street commissioners by chapter 148 of the General Laws, as amended, by chapter 577 of the acts of 1913, as amended, by chapter 488 of the acts of 1924, as amended, and by chapter 349 of the acts of 1953.

Neither the public safety commission nor the committee on licenses shall be subject to the supervision or control of the building commissioner except as he acts as a member thereof; but unless otherwise ordered by the mayor, neither said commission nor said committee shall communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 26. The board of appeal, the board of examiners and the board of examiners of gasfitters are hereby placed in the building department but not under the supervision or control of the building commissioner; and the respective powers, duties, appropriations and personnel of said boards are hereby transferred with them except that, unless otherwise ordered by the mayor, none of said boards shall communicate with the mayor, or make any annual or other report, except through the building commissioner.

SECTION 27. Chapter 4 of the Ordinances of 1952 is hereby amended by striking out in the second line the words "sections 1, 2 and 3" and inserting in place thereof the words "sections 1, 2, 3 and 4", by striking out in the third line the word "five" and inserting in place thereof the word "six", and by adding at the end of said chapter 4 the following paragraph:—

SECT. 6. There shall be in the city planning department the board of zoning adjustment provided for by section 20 of chapter 488 of the acts of 1924, as amended.

Said board shall exercise the powers and perform the duties provided by statute. Said board shall not be subject to the supervision or control of the city planning board; but unless otherwise ordered by the mayor, the board of zoning adjustment shall not communicate with the mayor, or make any annual or other report, except through the city planning board.

SECTION 28. The board of zoning adjustment is hereby placed in the city planning department but not under the supervision or control of the city planning board; and the powers, duties, appropriations and personnel of the board of zoning adjustment are hereby transferred with it except that, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the city planning board.

SECTION 29. Chapter 14 of the Revised Ordinances of 1947 is hereby repealed; and the collecting department, including the office of city collector, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the treasury department as reorganized by sections 64 and 65 of this ordinance.

SECTION 30. Section 7 of chapter 16 of the Revised Ordinances of 1947 is hereby repealed; and the electrical inspection division of the fire department, including the office of the deputy in charge of said division, is hereby abolished; and the powers, duties and appropriations of said division and of the fire commissioner as successor to the wire commissioner are hereby transferred to the building department.

SECTION 31. The Revised Ordinances of 1947 are hereby further amended by striking out chapter 17, as amended by chapter 4 of the Ordinances of 1950, and inserting in place thereof the following chapter:—

CHAPTER 17.

HEALTH DEPARTMENT.

Section 1. There shall be in the city a department, known as the Health Department, which shall be under the charge of an officer, known as the Health Commissioner, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. The health commissioner may appoint, subject to the

approval of the mayor, an assistant health commissioner, who shall be sworn to the faithful discharge of his duties and shall hold office until his successor is appointed and qualified. The assistant health commissioner shall perform such duties as may be assigned to him from time to time by the health commissioner.

Section 2. There shall be in the health department a health division under the direct charge of the health commissioner, a registry division under the charge of a city registrar appointed by the health commissioner, and a weights and measures division under the charge of a sealer appointed by the mayor. The health commissioner may appoint, subject to the approval of the mayor, not exceeding three assistant city registrars for the registry division; and the mayor may appoint a chief deputy sealer and not exceeding seventeen deputy sealers for the weights and measures division.

Health Division.

Section 3. There shall be in the health division the following sections:— section of general services, section of medical services, section of environmental sanitation, and section of local health service. Each section shall be in charge of a director appointed by the health commissioner. The health commissioner may from time to time determine the bureaus, if any, within each of said sections, and shall appoint the heads of such bureaus. In appointing the director of a section or the head of a bureau, the health commissioner shall certify that in his opinion the person appointed is an expert in the work which will devolve upon him, that he is a person specially fitted by education, training or experience to perform the duties of the position, and that the appointment is made solely in the interest of the city, such certificate to be filed with the city clerk and to be open to public inspection.

* * *

Section 4. The health commissioner shall have the powers and perform the duties conferred or imposed by law on the board of health of the city or upon the chairman thereof; shall have the powers and perform the duties conferred or imposed on the office of health commissioner by section 2 of chapter 1 of the Ordinances of 1927; shall include in his annual report a review of the sanitary condition of the city; shall keep

on hand, so far as practicable, a sufficient quantity of vaccine virus and antitoxin, and supply the same free of charge to the physicians in the several departments; shall appoint one or more medical inspectors and require them to vaccinate and revaccinate all inhabitants of the city who apply for vaccination, and to give certificates of vaccination required for admission to the public schools; and shall appoint a superintendent of peddlers and require him to see that every hawker and peddler conforms to law.

Registry Division.

Section 5. The city registrar shall have custody of all records, books and papers belonging to the city, relating to births, marriages and deaths, shall have the powers and perform the duties from time to time conferred or imposed on clerks of towns in Massachusetts by chapter 46, and by section 16 of chapter 66, of the General Laws, and may pay, out of any funds received by him, the fees due to persons making returns under the requirements of law.

Section 6. The official seal which the city shall provide for use by the city registrar and assistant city registrars shall be in the form prescribed by section 4 of chapter 34 of the Revised Ordinances of 1898 as appearing in chapter 4 of the Ordinances of 1902.

Section 7. The certificate or attestation of an assistant city registrar shall have the same force and effect as that of the city registrar.

Section 8. The city registrar shall file annually with the health commissioner a statement of the number of births, marriages and deaths recorded in his office during the previous year; and said commissioner shall include such statement in his annual report. Unless otherwise ordered by the mayor, the city registrar shall not communicate with the mayor, or make any annual or other report, except through the health commissioner.

Weights and Measures Division.

Section 9. The sealer shall have the powers and perform the duties from time to time conferred or imposed by general laws applicable to Boston on sealers appointed under section 34 of chapter 98 of the General Laws, shall have direction of the deputy sealers, shall keep records showing the work done and

the fees earned, in the weights and measures division, and shall daily pay over to the collector-treasurer all fees received by him or the deputy sealers, who shall perform the work respectively assigned to them by the sealer and shall daily pay over to him all fees received by them. Unless otherwise ordered by the mayor, the sealer shall not communicate with the mayor, or make any annual or other report, except through the health commissioner.

SECTION 32. Chapter 18 of the Revised Ordinances of 1947 is hereby amended by striking out section 1 and inserting in place thereof the following section:—

Section 1. There shall be in the city a department, known as the Hospital Department, which shall be under the charge of a board of five trustees who shall have charge of the city hospital, the sanatorium and the Long Island hospital (including the viaduct between Long Island and Moon Island and the approaches to said viaduct) and of the care and maintenance thereof, shall make all needful improvements in the lands and grounds connected therewith, shall have charge of all real estate held for purposes connected with said institutions, and shall pay or cause to be paid to the collector-treasurer the income thereof. Said trustees shall also investigate all questions relating to the commitment of the insane.

SECTION 33. Section 2 of said chapter 18 is hereby amended by striking out the words “city collector” and inserting in place thereof the word “collector-treasurer”.

SECTION 34. Section 3 of said chapter 18 is hereby amended by striking out, in the last sentence, the words “city collector” and inserting in place thereof the word “collector-treasurer”.

SECTION 35. Chapter 19 of the Revised Ordinances of 1947 is hereby repealed; and the institutions department, including the office of the commissioner of institutions, is hereby abolished; and the powers, duties and appropriations of said department in relation to the commitment of the insane and to Long Island and the institution thereon belonging to the city, including the viaduct between Long Island and Moon Island and the approaches to said viaduct, are hereby transferred to the hospital department; and the powers, duties and appropriations of the institutions depart-

ment in relation to all other matters are hereby transferred to the department renamed the welfare department by sections 44 and 68 of this ordinance.

SECTION 36. Chapter 22 of the Revised Ordinances of 1947 is hereby amended by striking out the caption "PARK DEPARTMENT" and inserting in place thereof the caption "PARKS AND RECREATION DEPARTMENT".

SECTION 37. Section 1 of said chapter 22 is hereby amended by striking out section 1 and inserting in place thereof the following section:—

Section 1. There shall be in the city a department, known as the Parks and Recreation Department, which shall be under the charge of a board, known as the Parks and Recreation Commission, consisting of an officer, known as the Commissioner of Parks and Recreation, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, who shall be chairman of the board, shall devote his whole time to the work, and shall serve in the stead of the chairman of the park commissioners as an associate commissioner of the Boston traffic commission, and four other officers, known as Associate Commissioners of Parks and Recreation, appointed by the mayor. The associate commissioners first appointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of one, one year, in the case of another, two years, in the case of another, three years, and in the case of the other, four years, from May 1, 1954. As the term of any such associate commissioner, or of any subsequent associate commissioner, expires, his successor shall be appointed by the mayor for a term of four years. Any vacancy in the office of an associate commissioner shall be filled by the mayor for the unexpired term. The associate commissioners shall serve without pay.

SECTION 38. Said chapter 22 is hereby further amended by striking out section 2 and inserting in place thereof the following section:—

Section 2. The commissioner of parks and recreation shall exclusively have the powers, and perform the duties, of a department head with respect to the making of contracts and the appointment, suspension, discharge, compensation and indemnification of sub-

ordinates for the department; but otherwise the board shall have the powers and perform the duties from time to time conferred or imposed on boards of park commissioners of cities in Massachusetts by general laws applicable to Boston and, except as aforesaid, shall also have the powers and perform the duties conferred or imposed by law on the board of park commissioners and board of recreation in existence immediately prior to the taking effect of this ordinance. The board shall further have the powers and perform the duties from time to time conferred or imposed on it by law.

SECTION 39. Section 3 of said chapter 22 is hereby amended by striking out, in the first sentence, the words "park department" and inserting in place thereof the words "parks and recreation department"; and section 4 of said chapter 22 is hereby amended by striking out all after the words "city council" and inserting in place thereof the words "and shall designate the persons to furnish the same."; and section 5 of said chapter 22 is hereby amended by striking out the words "street commissioners" and inserting in place thereof the words "commissioner of public works".

SECTION 40. Section 8 of said chapter 22 is hereby amended by striking out the words "park department" and inserting in place thereof the words "parks and recreation department".

SECTION 41. Section 10 of said chapter 22 is hereby amended by striking out the words "city treasurer" and inserting in place thereof the word "collector-treasurer".

SECTION 42. The park department, including the board of park commissioners, in existence immediately prior to the taking effect of this ordinance is hereby abolished; and the powers, duties and appropriations of said board with respect to the making of contracts and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the commissioner of parks and recreation created by section 37 of this ordinance; and all other powers, duties and appropriations of said park department are hereby transferred to the parks and recreation department created by said section 37.

SECTION 43. Chapter 25 of the Revised Ordinances of 1947, as amended by chapter 1 of the second series of the Ordinances of 1947 and by section 5 of chapter 3 of the Ordinances of 1952, is hereby repealed;

and the public buildings department, including the office of superintendent of public buildings, is hereby abolished; and the powers, duties and appropriations of the superintendent of public buildings with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the commissioner of real property created by section 58 of this ordinance; and all other powers, duties and appropriations of the public buildings department are hereby transferred to the assistant commissioner of real property created by said section 58.

SECTION 44. Chapter 26 of the Revised Ordinances of 1947 is hereby repealed; and the public welfare department is hereby renamed the welfare department.

SECTION 45. Section 1 of chapter 27 of the Revised Ordinances of 1947 is hereby amended by striking out the words "The department of public works shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession;" and inserting in place thereof the words "There shall be in the city a department, known as the Public Works Department, which shall be under the charge of an officer, known as the Commissioner of Public Works, who shall be a civil engineer of recognized standing in his profession appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected;".

SECTION 46. Said chapter 27 is hereby amended by striking out section 2 and inserting in place thereof the following section:—

Section 2. The commissioner of public works shall have the jurisdiction vested by statute in the board of street commissioners in relation to the planting and removal of trees in the public ways and to the use of public ways for any temporary obstruction or projection in, under or over the same; but such jurisdiction shall only be exercised with the written approval of the mayor in each instance. The commissioner shall also have the powers and perform the duties conferred or imposed by statute on the board of street commissioners in relation to the use of parts of public ways for the storage and sale of merchandise.

SECTION 47. Section 6 of said chapter 27 is hereby amended by striking out, in the last sentence, the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 48. Section 9 of said chapter 27 is hereby amended by striking out, in clause 2, the words "park department" and inserting in place thereof the words "parks and recreation department".

SECTION 49. Section 12 of said chapter 27 is hereby amended by striking out the words "street commissioners" and inserting in place thereof the words "public improvement commission".

SECTION 50. Said chapter 27 is hereby further amended by striking out section 13 and inserting in place thereof the following section:—

Section 13. The commissioner shall issue such a permit to a building mover actually engaged in the business, for the purpose of moving a building through the streets, on condition the terms of which shall be those stated in section nine of this chapter; provided, that an application for such permit, describing the locations from and to which, and the route over which, the building is to be moved, the length, width and height of the building, and the principal material of its exterior and roof, and accompanied by the written consent of the building commissioner to the placing of the building on the lot proposed, shall be first made to the commissioner. Whenever it appears that the moving of a building will encumber the tracks of any railroad corporation, a public hearing shall be given by the commissioner upon the subject before such permit is issued.

SECTION 51. Section 14 of said chapter 27 is hereby amended by striking out, wherever appearing in said section, the words "street commissioners" and inserting in place thereof, in each instance, the words "public improvement commission"; and section 15 of said chapter 27 is hereby amended by striking out, wherever appearing in said section, the words "street commissioners" and inserting in place thereof, in each instance, the words "public improvement commission".

SECTION 52. Section 20 of said chapter 27 is hereby amended by striking out the words "street commissioners" and inserting in place thereof the words "public improvement commission".

SECTION 53. Section 23 of said chapter 27 is hereby amended by striking out, in the first sentence, the words "city collector" and inserting in place thereof the word "collector-treasurer".

SECTION 54. Section 28 of said chapter 27 is hereby amended by striking out, wherever appearing in clause 5, the words "the city collector" and "the collector" and inserting in place thereof, in each instance, the word "the collector-treasurer".

SECTION 55. Said chapter 27 is hereby amended by striking out section 29 and inserting in place thereof the following section:—

Section 29. Except as otherwise provided by statute, the commissioner of public works shall have full charge of all engineering work of every nature and description connected with all public works and all public improvements, and shall make such surveys, plans, estimates, statements and descriptions, and take such levels, as any officer of the city may need in the discharge of his duties, and shall have the custody of all surveys and plans relating to the laying out, relocating, altering, widening, constructing, making specific repairs on, and discontinuing public ways and alleys.

SECTION 56. Section 33 of said chapter 27 is hereby amended by striking out the first sentence and inserting in place thereof the following sentence:—The commissioner shall divide the public works department from time to time into a survey division and such other divisions as the commissioner shall adjudge necessary for the proper conduct of the department.

SECTION 57. Said chapter 27 is hereby further amended by striking out sections 35 and 36 and inserting in place thereof the following sections:—

Section 35. The commissioner shall, in his annual report, include a statement of the repairs and expenditures on each street and each bridge under his charge, of the number of times each draw of a bridge has been opened for the passage of vessels, of the number of vessels laden with cargo that have passed through each draw, of the number of water takers and the purposes for which the water is taken, of the number and kind of water meters installed during the previous year, of the number and kind of water meters in use, of the number of cases where the water has been shut off, and of the number and amount of abatements which have been made during the preceding year on water rates.

Section 36. There shall be in the public works department a board, known as the Public Improvement Commission, consisting of the commissioner of public works, the commissioner of real property and the chairman of

the Boston traffic commission, *ex officio*. The public improvement commission shall not be subject to the supervision or control of the commissioner of public works except as he acts as a member of said commission; but unless otherwise ordered by the mayor, the public improvement commission shall not communicate with the mayor, or make any annual or other report, except through the commissioner of public works. The public improvement commission shall have all powers and perform all duties conferred or imposed by statute on the board of street commissioners except (a) those conferred or imposed on the committee on licenses in the public safety commission by section eight of chapter nine of these ordinances, (b) those conferred or imposed on the commissioner of public works by section two of this chapter and section forty of chapter forty of these ordinances, and (c) those conferred or imposed on the real property board by section one of chapter twenty-seven A of these ordinances.

SECTION 58. The Revised Ordinances of 1947 are hereby further amended by inserting after chapter 27 the following new chapter:—

CHAPTER 27A.

REAL PROPERTY DEPARTMENT.

Section 1. There shall be in the city a department, known as the Real Property Department, which shall be under the charge of a board, known as the Real Property Board, consisting of an officer, known as the Commissioner of Real Property, appointed by the mayor, who shall be chairman of the board and shall serve in the stead of the chairman of the board of street commissioners as an associate commissioner of the Boston traffic commission, an officer, known as the Assistant Commissioner of Real Property, appointed by the mayor, and three other officers, known as Associate Commissioners of Real Property, who shall be the chairman of the city planning board, *ex officio*, and two other persons appointed by the mayor. The commissioner of real property and the assistant commissioner of real property shall each be appointed for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected and shall devote their whole time to the work. The associate commissioners first ap-

pointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of one associate commissioner, one year, and in the case of the other associate commissioner, two years, from May 1, 1954. As the term of any such associate commissioner, or of any subsequent appointive associate commissioner, expires, his successor shall be appointed by the mayor for a term of two years. Any vacancy in the office of an appointive associate commissioner shall be filled by the mayor for the unexpired term. The associate commissioners of real property shall receive no compensation for their services as such associate commissioners.

The real property board shall have the powers and perform the duties conferred or imposed on the board of real estate commissioners by chapter 434 of the acts of 1943, as amended, and by chapter 474 of the acts of 1946, as amended. The real property board shall also have the powers and perform the duties conferred or imposed by statute on the board of street commissioners in relation to the abatement of taxes. The real property board shall divide the real property department from time to time into such divisions as said board shall adjudge necessary for the proper conduct of the department.

Section 2. The mayor shall appoint from the real property board a committee consisting of the chairman and two other members to be known as the Committee on Foreclosed Real Estate. Said committee shall have the powers and perform the duties conferred or imposed by law on the committee on foreclosed real estate established under section 4 of chapter 434 of the acts of 1943.

Section 3. The commissioner of real property shall have the powers and perform the duties conferred or imposed on the chairman of the board of real estate commissioners by chapter 434 of the acts of 1943, as amended, and shall exclusively have the powers, and perform the duties, of a department head with respect to the appointment, suspension, discharge, compensation and indemnification of subordinates for the real property department (and the several officers thereof), including an auctioneer, who shall have the powers and perform the duties prescribed for the auctioneer in the office of the board of real estate commissioners by section 2A of

chapter 652 of the acts of 1945 as amended by section 3 of chapter 633 of the acts of 1951, and including also a superintendent of markets, who, subject to the supervision and control of the assistant commissioner of real property, shall have the charge and control of Faneuil-hall market and Faneuil-hall market limits; shall preserve order therein; shall make such changes, and place or allow to be placed in said market such pipes, drains, and other appliances, as he may deem proper; and shall take and forthwith destroy any article of food which in his opinion is diseased, unwholesome, or tainted, and is kept for sale within such market limits. Said superintendent may assign stands within such market limits for the sale of provisions and other articles, and may, at the expense of the owner thereof, remove from one place or stand to another within such limits, or to, and to be kept in, a proper storage place until the expense is paid, any merchandise, vehicle or animal, not under the charge of any person, or not immediately so removed on the direction of said superintendent or his deputies.

Section 4. The assistant commissioner of real property shall have the care, custody and management of, shall make all repairs in and upon, and shall keep in repair the furniture of, all buildings and parts of buildings belonging to or hired by the city, not wholly in charge of one department, or for which no other provision is made by statute or ordinance, whether the same are used for city or county purposes, and may, with the approval of the mayor, hire such buildings or rooms as may be required for such purposes; shall have the care and control of the city hall and the city hall annex; shall have the care and custody of the flags belonging to the city hall and to the old state house; shall display the national flag upon the city hall on every day, except Sundays, weather permitting; shall have charge of all city property in the armories provided by the city for the militia; and shall cause to be included in the annual report of the real property board a statement of the kind and amount of city property in such armories, of all buildings belonging to or used by the city, and of the land and appurtenances thereof, of the condition of such buildings and land, and the nature and amount of the expenditures that have been made during the preceding year relative thereto.

* *Section 5.* The assistant commissioner of real property shall have the care, custody and management of Faneuil hall, shall, weather permitting, every day except Sundays, display the national flag upon the building in which said hall is located, shall, upon vote of the city council approved by the mayor, permit the use of said hall, and shall be paid therefor in advance, for opening, heating, lighting, and closing said hall, unless such vote shall otherwise provide, in the daytime a fee of fifteen dollars and in the evening or on Sunday a fee of twenty-five dollars, and shall hold all persons signing the application for such permit jointly and severally liable for all damage done to said hall at or in connection with the meeting for which such permit is granted.

Section 6. The assistant commissioner of real property shall lease, from time to time, by instruments approved as to form by the corporation counsel and approved in writing by the mayor, the stalls, cellars, and second floor in Faneuil-hall market for terms of three years from October 1, 1953, and at the expiration of such leases for further terms of three years, at the rents established by the city council and upon such other terms and conditions as may be approved by the corporation counsel and the mayor.

Section 7. The assistant commissioner of real property shall have the care, custody and management of the Dillaway house, so called, in the Roxbury district of the city, may establish rules and regulations for the use and preservation of said house as a historical relic of the revolutionary war, and may, upon vote of the city council approved by the mayor, let or lease the whole or any part of said house to a historical society or other association organized for historical purposes.

Section 8. The assistant commissioner of real property shall designate, in the places named in orders of the city council, a suitable room to be used for a ward-room for the ward in which it is situated. If any such room cannot be so used at any time, said assistant commissioner shall provide accommodation elsewhere for any public meeting in such ward for which he shall issue a permit.

Section 9. The assistant commissioner of real property shall have the care and custody of, shall determine the use of, and provide for opening, closing, lighting, and heating the ward-rooms; shall frame and keep in

* Superseded by Ordinances of 1956, chapter 7, section 5.

some conspicuous place therein a copy of this and the following section, and as soon as a list or a revised list of voters in a ward is prepared by the election commissioners shall keep posted or hung up a copy thereof in the ward-room of the ward in such a manner as to be readily accessible to the public, and such copies shall be altered, revised or removed only under the direction of the election commissioners or said assistant commissioner.

Section 10. The assistant commissioner of real property, when a written application (containing a copy of the call for a meeting notifying all persons who may be present that it will be subject to the provisions of this section) is made to him by not less than five legal voters of a ward for the use of a ward-room for the purpose of holding such meeting, and when he is paid such sum of money as will in his opinion be sufficient to defray the expense of opening, lighting, heating, and closing the ward-room during the time specified in the permit, may issue a permit for the use of such ward-room, which permit may at any time be revoked by the mayor. Said assistant commissioner shall specify in the permit the time and purpose of the meeting, and that the meeting will be subject to the following provisions, viz.: Only legal voters in the ward in which such meeting is held, and to whom no objection is made by the majority of such applicants as are present or by the presiding officer of such meeting, shall mark or vote, or remain at such meeting, and the members of the police force present shall keep the peace at such meeting, obey the lawful orders of, and remove such persons as shall be designated by, the majority of such applicants as are present, or after the election of a presiding officer of the meeting, such persons as shall be designated by such presiding officer. Said assistant commissioner shall request the police commissioner to detail police sufficient to enforce such provisions.

SECTION 59. Chapter 28 of the Revised Ordinances of 1947 is hereby repealed; and the real estate department, including the board of real estate commissioners, is hereby abolished; and the powers, duties and appropriations of the real estate department, the board of real estate commissioners, the committee on foreclosed real estate, and the chairman of said board are hereby respectively transferred to the real property department, the real property board, the committee on

foreclosed real estate, and the commissioner of real property created by section 58 of this ordinance.

SECTION 60. Chapter 29 of the Revised Ordinances of 1947 is hereby repealed; and the registry department, including the office of city registrar, is hereby abolished; and the powers, duties and appropriations of the city registrar with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the health commissioner; and all other powers, duties and appropriations of the registry department are hereby transferred to the registry division created in the health department by section 31 of this ordinance.

SECTION 61. Chapter 31 of the Revised Ordinances of 1947 is hereby repealed; and the sinking funds department, including the board of commissioners of sinking funds, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the board of commissioners of sinking funds created in the treasury department by section 64 of this ordinance.

SECTION 62. Chapter 33 of the Revised Ordinances of 1947, as amended by chapter 7 of the Ordinances of 1950, is hereby repealed; and the street laying out department, including the board of street commissioners, is hereby abolished; and the powers and duties conferred or imposed on the board of street commissioners by chapter 148 of the General Laws, as amended, by chapter 577 of the acts of 1913, as amended, by chapter 488 of the acts of 1924, as amended, and by chapter 349 of the acts of 1953, and the appropriations of the street laying out department pertaining to all such powers and duties, are hereby transferred to the committee on licenses created in the public safety commission by section 25 of this ordinance; and the powers and duties conferred or imposed by statute on the board of street commissioners in relation to the abatement of taxes, and the appropriations of the street laying out department pertaining to such powers and duties, are hereby transferred to the real property department created by section 58 of this ordinance; and the powers, duties and appropriations of the street laying out department in relation to all engineering work and the custody of all surveys and plans pertaining to the laying out, relocating, altering, widening, constructing, making

specific repairs on, and discontinuing public ways and alleys, and the powers and duties of the board of street commissioners in relation to the designation of streets for coasting, the planting and removal of trees in the public ways, the use of public ways for any temporary obstruction or projection in, under, or over the same, and the use of parts of public ways for the storage and sale of merchandise, and the appropriations of the street laying out department pertaining to all such powers and duties, are hereby transferred to the public works department; and all other powers and duties of the board of street commissioners, and all other appropriations of the street laying out department, are hereby transferred to the public improvement commission created in the public works department by section 57 of this ordinance.

SECTION 63. Chapter 35 of the Revised Ordinances of 1947 is hereby repealed.

SECTION 64. The Revised Ordinances of 1947 are hereby amended by striking out chapter 36, as amended by chapter 4 of the Ordinances of 1948, and inserting in place thereof the following chapter:—

CHAPTER 36.

TREASURY DEPARTMENT.

* *Section 1.* There shall be in the city a department, known as the Treasury Department, which shall be under the charge of an officer, known as the Collector-Treasurer, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, who shall have the powers and perform the duties from time to time conferred or imposed on him by law, shall also have the powers and perform the duties conferred or imposed by law on the offices of city collector and city treasurer in existence immediately prior to the taking effect of this ordinance (including the powers and duties conferred or imposed by section 7 of chapter 434 of the acts of 1943), and shall further have the powers and perform the duties from time to time conferred or imposed on collectors of taxes and treasurers of cities in Massachusetts by general laws applicable to Boston. The collector-treasurer shall divide the treasury department from time to time into such divisions as he shall adjudge necessary for the proper conduct of the department.

* Section 1 amended by Ordinances of 1954, chapter 6, section 2.

* *Section 2.* The collector-treasurer may, with the written approval of the mayor in each instance, appoint three assistant collector-treasurers, each of whom shall be sworn to the faithful performance of his duties and shall perform under the direction of the collector-treasurer such duties as shall from time to time be assigned to him by the collector-treasurer. Any assistant collector-treasurer may, at such times as he shall have been so authorized by written designation signed by the collector-treasurer, approved by the mayor and filed with the city clerk and such authorization shall not have been revoked in like manner, exercise the powers and perform the duties of collector-treasurer in relation to such matters as may be specified in such designation.

Section 3. The collector-treasurer may appoint such deputy collectors (including a chief deputy collector) as the service may be found to require, who shall have like power as the collector-treasurer to receive any tax, assessment, account, debt or claim payable to the city or county and to serve any bill, demand, notice or other paper of the collector-treasurer and make affidavit of the manner of such service, and, in addition thereto, shall have power to give notice of, serve and execute any warrant committed to him by the collector-treasurer under section 34 of chapter 60 of the General Laws, and in the service and execution thereof shall have all the powers and duties of a collector of taxes.

Section 4. The collector-treasurer shall require from each of his subordinates, before each enters upon the duties of his office or position and annually thereafter and at such other times as the collector-treasurer shall determine, for the faithful discharge of his duties and trusts and the safe custody and lawful disposition of all money and other property belonging to the city or county which may come into his possession, a bond running to the collector-treasurer with a surety company authorized to transact business in Massachusetts as surety in the penal sum, in the case of an assistant collector-treasurer, of two hundred thousand dollars, and in the case of every other permanent employee, of not less than five, nor more than fifty, thousand dollars as the collector-treasurer shall in each case prescribe.

Section 5. The collector-treasurer shall collect and receive all taxes and assessments payable to the city or

* Section 2 amended by Ordinances of 1954, chapter 6, section 1.

county, whether committed to him or outstanding at the time of his appointment. He shall also collect and receive all accounts, debts and claims payable to the city or county, and in the collection thereof shall have all the remedies provided by sections 35, 36 and 93 of chapter 60 of the General Laws. He shall further collect and receive, except where other provision is made, all other money to be paid to, or for the use of, the city or the county. He shall have custody of all leases from the city. He shall, whenever a water rate is paid, immediately notify the commissioner of public works of such payment.

Section 6. The collector-treasurer shall receive, receipt for, and have the care and custody of, the current funds of the city from the time the same shall come into his possession, and also of all money, property, and securities which may come into his possession by virtue of any statute or ordinance, or as a gift, devise, bequest, or deposit; may deposit any portion of such current funds in such savings banks or trust companies organized under the laws of Massachusetts and doing business in Boston or such national banks doing business in Boston or such national bank or trust company in the city of New York, and on such conditions and rates of interest, as he shall deem best, subject to the approval of the mayor, provided, however, that no such deposit shall be made except in conformity with law; shall, with the mayor and the city auditor, sign all bonds and certificates of indebtedness issued by the city; shall preserve all bids for loans, and papers relating thereto; and shall, if elected, serve as treasurer of the board of commissioners of sinking funds. If the collector-treasurer is elected treasurer of said board, his bond as collector-treasurer shall apply to and include his duties as treasurer of said board. The collector-treasurer shall not be eligible for appointment to said board.

Section 7. The collector-treasurer shall pay over to the board of commissioners of sinking funds all money received by him from assessments laid or to be laid on account of betterments from public improvements the expenses of which were paid for by the proceeds of loans, and all sums received from the sale or lease of city property purchased out of the proceeds of loans, except where provision to the contrary is made by statute or ordinance, to be by them credited to the sinking funds established for such loans, or in case of serial loans to

be held by them toward paying the installments as they fall due. The collector-treasurer shall also pay all drafts, checks and other orders directed to him by the city auditor, in accordance with these ordinances, for the payment of bills and demands against the city; shall on presentation pay every execution against the city, when approved by the corporation counsel, even if the appropriation to which the execution is chargeable is not sufficient to meet it; shall pay on presentation when due all bonds issued by the city and the interest on the same; shall cancel all bonds and coupons and daily deliver to the city auditor the bonds and executions paid during the day; shall at the close of business on the last day of each month deliver to the city auditor the coupons paid during such month and a statement of the total amount paid for interest during such month; and shall use and apply as the city council may direct all property, money and securities in his care and custody at the close of each financial year for the application of which no other provision has been made.

Section 8. The collector-treasurer shall, on or before the tenth day of each month, render to the mayor a statement of the receipts and payments of the treasury department for the preceding month and a summary of the like items for the current financial year up to the close of the preceding month.

Section 9. The collector-treasurer may make payments to school teachers, school building custodians, policemen, witnesses, jurors, and persons employed in and about the various departments and institutions of the city and of the county, in such of the public buildings in the different sections of the city, or upon such public works, as he may designate, and as will best facilitate such payments and prevent the loss of time by the persons receiving them.

Section 10. The collector-treasurer, unless the donors have otherwise directed, shall receive all properties given, devised or bequeathed to, or deposited with, the city for any specific purpose, and shall use the same, or the income thereof, as designated in the gift, devise, bequest or deposit. If the income only is to be used, he shall hold the properties as permanent funds. He shall invest and keep invested the said permanent funds in bonds, notes or certificates of indebtedness of the United States or of the commonwealth or of any city or town within the commonwealth. For the purpose of investment and

reinvestment he shall have power from time to time in his discretion to sell or exchange any of the securities of which any of the said permanent funds consist; but all purchases, exchanges and sales shall be with the written approval of the mayor.

Section 11. The collector-treasurer shall use the income of the police charitable fund for the relief of persons in necessitous circumstances who shall be found by the police commissioner to have been honorably discharged from the police force by reason of sickness, age or other disability, or to be the widows or orphans of police officers who have died while in the service of the city; and may monthly pay to such persons the amount of such income determined and allowed by the police commissioner, with the approval of the mayor, on a monthly payroll sent to the city auditor.

Section 12. There shall be in the treasury department a board, known as the Board of Commissioners of Sinking Funds, consisting of six commissioners appointed by the mayor. The commissioners first appointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of two commissioners, one year, in the case of two other commissioners, two years, and in the case of two other commissioners, three years, from May 1, 1954. As the term of any such commissioner, or of any subsequent commissioner, expires, his successor shall be appointed by the mayor for a term of three years. Vacancies in the board shall be filled by the mayor for the unexpired term. The members of the board of commissioners of sinking funds shall serve without compensation.

The board of commissioners of sinking funds shall not be subject to the supervision or control of the collector-treasurer; but unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the collector-treasurer.

The board of commissioners of sinking funds shall have the powers and perform the duties from time to time conferred or imposed on it by law, shall also have the powers and perform the duties conferred or imposed by law on the board of commissioners of sinking funds in existence immediately prior to the taking effect of this ordinance, and shall further have the powers and perform the duties from time to time conferred or im-

posed on sinking fund commissioners of cities in Massachusetts by general laws applicable to Boston. The board of commissioners of sinking funds shall, when a debt of the city becomes due, pay over to the collector-treasurer so much of the funds held as a sinking fund for such debt as may be required for the payment of such debt.

SECTION 65. The treasury department is hereby reorganized by abolishing the office of city treasurer and substituting therefor the office of collector-treasurer provided for by section 64 of this ordinance; and the powers, duties and appropriations of the city treasurer are hereby transferred to the collector-treasurer substituted for him.

SECTION 66. The Revised Ordinances of 1947 are hereby further amended by striking out chapter 37 and inserting in place thereof the following chapter:—

CHAPTER 37.

VETERANS SERVICES DEPARTMENT.

Section 1. There shall be in the city a department, known as the Veterans Services Department, which shall be under the charge of an officer, known as the Veterans Benefits and Services Commissioner, who shall be a veteran as defined in section 1 of chapter 115 of the General Laws, shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, and shall have the powers and perform the duties from time to time conferred or imposed by statute upon the soldiers' relief commissioner of Boston, veterans' agents appointed under section 3 of said chapter 115, and directors of veterans' services appointed under section 10 of said chapter 115.

Section 2. The veterans benefits and services commissioner may divide the veterans services department from time to time into such divisions as he may deem necessary for the proper conduct of the department, and, with the written approval of the mayor in each instance, may appoint such deputy, and such assistant, veterans benefits and services commissioners as he may from time to time deem necessary; provided, however, that no person other than a veteran as defined in said section 1 shall be eligible for such appointment.

Section 3. There shall be in the veterans services department an officer, known as the Supervisor of Veterans Graves and Registration, appointed by the mayor, who shall have the powers and perform the duties from time to time conferred or imposed by general laws applicable to Boston on persons appointed under section 9 of chapter 115 of the General Laws. The supervisor of veterans graves and registration shall not be subject to the supervision or control of the veterans benefits and services commissioner; but unless otherwise ordered by the mayor, such supervisor shall not communicate with the mayor, or make any annual or other report, except through such commissioner.

SECTION 67. The department of veterans services, including the offices of director of veterans services and commissioner of soldiers relief, is hereby abolished; and the powers, duties and appropriations of said department are hereby transferred to the veterans services department created by section 66 of this ordinance. The office of supervisor of veterans graves and registration in existence immediately prior to the taking effect of this ordinance is hereby also abolished; and the powers, duties and appropriations of said office are hereby transferred to the supervisor of veterans graves and registration created in the veterans services department by section 66 of this ordinance.

SECTION 68. The Revised Ordinances of 1947 are hereby further amended by inserting after chapter 37, as amended by section 66 of this ordinance, the following chapter:—

CHAPTER 37A.

WELFARE DEPARTMENT.

Section 1. There shall be in the city a department, known as the Welfare Department, which shall be under the charge of the overseers of the public welfare who shall have the powers and perform the duties from time to time conferred or imposed on them by law; shall have the powers and perform the duties conferred or imposed by statute on the directors of the house of industry, the board of directors for public institutions, the commissioners of public institutions, the institutions commissioner, the institutions registrar, the trustees for children, the pauper institutions trustees, the Boston infirmary trustees and the commissioner of institutions except in relation to matters within the jurisdiction of

the penal institutions commissioner, matters concerning the insane, and matters pertaining to Long Island and the institution thereon belonging to the city, including the viaduct between Long Island and Moon Island and the approaches to said viaduct; shall have the powers and perform the duties from time to time conferred or imposed on boards of public welfare of cities in Massachusetts by general laws applicable to Boston; shall have charge of the Charity building and temporary home on Chardon street, and the Lodge for Wayfarers on Hawkins street, and may make and enforce all such rules and regulations as they may deem expedient in relation thereto.

Section 2. Such person as the overseers of the public welfare may from time to time designate, after giving bond to the city in the penal sum of one hundred thousand dollars for the faithful discharge of his duties and trusts and the safe custody and lawful disbursement of all public money intrusted to him, which bond shall be executed by a surety company authorized to transact business in Massachusetts as surety, approved by the mayor, filed with the city auditor, and renewed annually and at such other times as the mayor shall determine, shall act as an authorized official of the city to disburse all relief, aid and assistance of every name and nature furnished by, or under the supervision of, the overseers; and all moneys appropriated for the purpose of furnishing such relief, aid and assistance and all moneys received by the city for such purposes shall, upon requisition made by the overseers with the approval of the city auditor and the mayor, be paid by the collector-treasurer to such authorized official for disbursement as aforesaid.

SECTION 69. Chapter 38 of the Revised Ordinances of 1947 is hereby repealed; and the weights and measures department, including the office of sealer of weights and measures, is hereby abolished; and the powers, duties and appropriations of the sealer of weights and measures with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the health commissioner; and all other powers, duties and appropriations of the weights and measures department are hereby transferred to the weights and measures division created in the health department by section 31 of this ordinance.

SECTION 70. Section 29 of chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out the words "director of markets" and inserting in place thereof the words "superintendent of markets".

SECTION 71. Section 31 of said chapter 40 is hereby amended by striking out the words "director of markets" and inserting in place thereof the words "superintendent of markets".

SECTION 72. Section 32 of said chapter 40 is hereby amended by striking out the words "director of markets" and inserting in place thereof the words "superintendent of markets".

* SECTION 73. Section 40 of said chapter 40 is hereby amended by striking out the words "board of street commissioners" and inserting in place thereof the words "commissioner of public works with the written approval of the mayor".

SECTION 74. Section 57 of said chapter 40 is hereby amended by striking out the words "park commissioners" and inserting in place thereof the words "parks and recreation commission".

SECTION 75. Section 58 of said chapter 40 is hereby repealed.

SECTION 76. Section 76 of said chapter 40 is hereby amended by striking out the words "park commissioners" and inserting in place thereof the words "parks and recreation commission".

SECTION 77. Section 82 of said chapter 40 is hereby amended by striking out the words "superintendent of public buildings" and inserting in place thereof the words "assistant commissioner of real property".

SECTION 78. Section 83 of said chapter 40 is hereby amended by striking out the words "superintendent of public buildings" and inserting in place thereof the words "assistant commissioner of real property".

SECTION 79. Section 10 of chapter 41 of the Revised Ordinances of 1947, as amended by section 3 of chapter 4 of the Ordinances of 1953, is hereby further amended by striking out, in the last sentence, the words "superintendent of public buildings" and inserting in place thereof the words "assistant commissioner of real property".

SECTION 80. Section 18 of said chapter 41, as amended by section 1 of chapter 6 of the Ordinances

of 1953, is hereby further amended by striking out the words "board of park commissioners" and inserting in place thereof the words "parks and recreation commission".

SECTION 81. Section 19 of said chapter 41 is hereby amended by striking out the words "park commissioners of the city of Boston" and inserting in place thereof the words "parks and recreation commission".

SECTION 82. Section 22 of said chapter 41, as most recently amended by chapter 5 of the Ordinances of 1953, is hereby further amended by striking out, in clause 24, the words "Street Laying-Out Department" and inserting in place thereof the words "Public Works Department".

SECTION 83. Section 24 of said chapter 41, as amended by chapter 1 of the Ordinances of 1952, is hereby repealed.

SECTION 84. Section 26 of said chapter 41 is hereby amended by striking out the words "park commission" and inserting in place thereof the words "parks and recreation commission".

SECTION 85. Sections 32 and 33 of said chapter 41 are hereby repealed; and the board of recreation is hereby abolished; and the powers, duties and appropriations of said board with respect to the making of contracts and the appointment, suspension, discharge, compensation and indemnification of subordinates are hereby transferred to the commissioner of parks and recreation created by section 37 of this ordinance; and all other powers, duties and appropriations of said board are hereby transferred to the parks and recreation department created by said section 37.

SECTION 86. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be con-

strued as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 87. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank, grade or compensation.

SECTION 88. Anything in this ordinance to the contrary notwithstanding, all rules, regulations, orders, votes and resolutions adopted, passed or promulgated by any board or officer abolished or reorganized by this ordinance shall, if in full force and effect when this ordinance takes effect, remain in full force and effect until amended, altered or repealed by the board or officer succeeding under this ordinance to the powers and duties of the board or officer so abolished or reorganized.

SECTION 89. Anything in section 3 of chapter 1 of the Revised Ordinances of 1947 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

SECTION 90. This ordinance shall take effect on the first day of the month next succeeding the month in which the annual budget for the current year shall become effective.

[Approved February 25, 1954.]

CHAPTER 3.

REORGANIZING THE ASSESSING DEPARTMENT.

SECTION 1. Section 1 of chapter 2 of the Revised Ordinances of 1947, as amended, is hereby further amended by striking out the words "For the term of five years, beginning with the first day of April in the year of appointment, one assessor."

SECTION 2. The first paragraph of section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is hereby further amended by striking out clause (2), as appearing in section 3 of chapter 8 of the Ordinances of

1953, and inserting in place thereof the following clause:—

* (2) The assessor of taxes, twelve thousand dollars; the two associate assessors of taxes, four thousand dollars each; the chairman of the board of review in the assessing department, ninety-five hundred dollars; and the other two members of said board, eighty-five hundred dollars each.

SECTION 3. The Revised Ordinances of 1947 are hereby further amended by striking out chapter 5, as amended, and inserting in place thereof the following chapter:—

† CHAPTER 5.

ASSESSING DEPARTMENT.

Section 1. There shall be in the city a department, known as the Assessing Department, which shall be under the charge of an officer, known as the Assessor of Taxes, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. The assessor of taxes shall exclusively for the assessing department and the boards therein have the powers, and perform the duties, conferred or imposed by law on the board of assessors in existence immediately prior to the taking effect of this ordinance with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates. The assessor of taxes shall also have the powers and perform the duties conferred or imposed by statute on said board of assessors in relation to poll and motor vehicle excise taxes, and shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston in relation to poll and motor vehicle excise taxes.

Section 2. There shall be in the assessing department a board, known as the Board of Assessors, consisting of the assessor of taxes, ex officio, who shall be chairman of the board, and two other officers, known as Associate Assessors of Taxes, each of whom shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. Except as otherwise provided in sections one and three of this

* Amended by Ordinances of 1956, chapter 6.

† Superseded by Ordinances of 1958, chapter 4, section 3.

chapter, the board of assessors shall have the powers and perform the duties conferred or imposed by statute on the board of assessors in existence immediately prior to the taking effect of this ordinance; and except as so provided, the board of assessors provided for by this section shall also have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston. The board of assessors provided for by this section shall not be subject to the supervision or control of the assessor of taxes except as he acts as chairman of said board; but unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes.

Section 3. There shall also be in the assessing department a board, known as the Board of Review, consisting of three members appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, one of whom shall from time to time be designated by the mayor as chairman of said board. The board of review shall have the powers and perform the duties conferred or imposed by statute on the board of assessors in existence immediately prior to the taking effect of this ordinance with respect to the abatement of taxes other than poll and motor vehicle excise taxes, and shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston with respect to abatement of taxes other than poll and motor vehicle excise taxes. The board of review shall not be subject to the supervision or control of the assessor of taxes; but, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor of taxes.

Section 4. Every application for abatement filed with the board of assessors with respect to a poll or motor vehicle excise tax shall be deemed to be filed with the assessor of taxes and shall be forthwith transmitted to him by said board; and every such application filed with said board with respect to a tax other than a poll or motor vehicle excise tax shall be deemed to be filed with the board of review and shall be forthwith transmitted to said board by the board of assessors.

Section 5. The board of review shall be deemed to come within the terms "assessors" and "board of assessors" as used in any application for the abatement of, or in any appeal from a refusal (by failure to act or otherwise) to abate, or in any statute relating to the abatement of, or in any statute relating to an appeal from a refusal (by failure to act or otherwise) to abate, a tax other than a poll or motor vehicle excise tax.

* SECTION 4. The board of assessors in existence immediately prior to the taking effect of this ordinance is hereby abolished; and the powers and duties of said board with respect to the acquisition and disposal of property, the making of contracts, and the appointment, suspension, discharge, compensation and indemnification of subordinates, and the powers and duties of said board in relation to poll and motor vehicle excise taxes, and the appropriations of the assessing department pertaining to all such powers and duties, are hereby transferred to the assessor of taxes created by section 3 of this ordinance; and the powers and duties of said board with respect to the abatement of taxes other than poll and motor vehicle excise taxes, and the appropriations of the assessing department pertaining to such powers and duties, are hereby transferred to the board of review created by said section 3; and all other powers and duties of the board of assessors in existence immediately prior to the taking effect of this ordinance, and all other appropriations of the assessing department, are hereby transferred to the board of assessors created by said section 3.

† SECTION 5. Section 19 of chapter 39 of the Revised Ordinances of 1947 is hereby amended by striking out, in the last sentence, the word "assessors" and inserting in place thereof the words "assessor of taxes".

§ SECTION 6. Section 20 of said chapter 39 is hereby amended by striking out, in the first sentence, the word "assessors" and inserting in place thereof the words "assessor of taxes".

SECTION 7. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in

a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 8. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or compensation.

SECTION 9. This ordinance shall take effect on the thirtieth day of June in the current year.

[Approved February 26, 1954.]

CHAPTER 4.

CONCERNING A CERTAIN ASSESSMENT FOR ENTERING PARTICULAR DRAINS OR SEWERS

SECTION 1. Section 10 of Chapter 27 of the Revised Ordinances of 1947 is hereby amended by striking out in the line 21 the word "two" and inserting in place thereof the word "three."

SECTION 2. This ordinance shall take effect upon its passage.

[Approved March 16, 1954.]

CHAPTER 5.

CONCERNING THE REMOVAL OF SNOW AND ICE.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out section 42 and inserting in place thereof the following section:—

SECTION 42. No owner or tenant of an estate abutting on a sidewalk shall place or suffer to remain for more than three hours between sunrise and sunset, any snow upon such sidewalk, or any ice upon such sidewalk unless such ice is made even and covered with sand, sawdust, or ashes, to prevent slipping; nor shall any person remove any ice or snow from privately owned property other than residential property and place it upon any sidewalk or roadway of any street. [*Approved March 23, 1954.*]

CHAPTER 6.

CONCERNING ASSISTANT COLLECTOR-TREASURERS.

SECTION 1. Chapter 36 of the Revised Ordinances of 1947, as appearing in section 64 of chapter 2 of the Ordinances of 1954, is hereby amended by striking out section 2 and inserting in place thereof the following section:— *Section 2.* There shall be in the treasury department a treasury division and a collecting division; and the collector-treasurer shall, with the written approval of the mayor in each instance, appoint for each division a first assistant collector-treasurer and a second assistant collector-treasurer, each of whom shall be sworn to the faithful performance of his duties. The first assistant collector-treasurer for each division, and in the event of his absence or disability or of vacancy in his office the second assistant collector-treasurer for such division, shall have charge under the collector-treasurer of such division. Each of said assistant collector-treasurers shall perform under the direction of the collector-treasurer such other duties as shall from time to time be assigned to him by the collector-treasurer, and may, at such times as he shall have been so authorized by written designation signed by the collector-treasurer, approved by the mayor and filed with the city clerk and such authorization shall not have been revoked in like manner, exercise the powers and perform the duties of collector-treasurer in relation to such matters as may be specified in such designation; provided, that a second assistant collector-treasurer may be authorized to exercise all the powers and perform all the duties of the collector-treasurer only when there is

absence or disability or vacancy in office in the case of the collector-treasurer, the first assistant collector-treasurer for the treasury division and the first assistant collector-treasurer for the collecting division.

SECT. 2. Section 1 of said chapter 36, as so appearing, is hereby amended by striking out the last sentence.

SECT. 3. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECT. 4. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or compensation.

SECT. 5. This ordinance shall take effect on the Wednesday next following its approval by the mayor.

[Approved July 22, 1954.]

[*Approved November 24, 1954.*]

CHAPTER 9.

TRANSFERRING TO THE BUILDING COMMISSIONER THE POWERS AND DUTIES OF THE COMMISSIONER OF PUBLIC WORKS RELATIVE TO STREET NUMBERS FOR BUILDINGS IN THE CITY.

SECTION 1. Chapter 9 of the Revised Ordinances of 1947 is hereby amended by inserting after section 1 the following new section:—

Section 1A. The building commissioner shall assign a street number to each building on a street and shall require such number to be affixed to or inscribed on the building by the owner, and may determine the form, size and material of any such number and the place and mode of affixing or inscribing it.

SECTION 2. Chapter 27 of the Revised Ordinances of 1947 is hereby amended by striking out section 5 and inserting in place thereof the following section:—

Section 5. The commissioner shall place and maintain in one or more suitable, conspicuous places, to be selected by him, on each street of the city, one or more signs containing the name of the street.

SECTION 3. Chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out section 85 and inserting in place thereof the following section:—

Section 85. No person shall neglect or refuse to affix to or inscribe on any building owned by him the street number assigned to such building by the building commissioner; nor shall any person affix to or inscribe on or suffer to remain on any building owned or occupied by him a street number other than the one assigned to such building by the building commissioner.

SECTION 4. This ordinance shall take effect on January 1, 1955.

[Approved December 21, 1954.]

ORDINANCES OF 1955

CHAPTER 1.

AMENDING THE BUILDING CODE RELATIVE TO THE
CLEAR HEIGHT OF CLASSROOMS IN SCHOOLS.

Paragraph (a) of Section 507 of Chapter 479 of the Acts of 1938 is hereby amended by striking out the second sentence and inserting in place thereof the following sentences:— The windows shall preferably be on the long side of a room. The clear height of a room shall be not less than ten feet. *[Approved March 15, 1955.]*

The foregoing ordinance was passed in accordance with and after the recommendation of the Building Commissioner to the Mayor and City Council, dated February 1, 1955.

CHAPTER 2.

AMENDING DIVERS PROVISIONS OF THE BOSTON
BUILDING CODE.

SECTION 1. Subdivision (d) of Section 1417 of Chapter 479 of the Acts of 1938, as amended by Section 172 of Chapter 4 of the Ordinances of 1943, is hereby further amended by striking out the first sentence and inserting in place thereof the following sentence:— Wooden stud bearing partitions shall have studs not less than one and five eighths by three and five eighths inches supported upon a girder or upon a sole plate not less than one and five eighths inches thick.

SECTION 2. The table in Section 2303 of said Chapter 479 is hereby amended by striking out, in the heading "Pounds per Cubic Feet", the word "Feet" and inserting in place thereof the word:— Foot.

ORDINANCES OF 1956

CHAPTER 1.

ESTABLISHING A PUBLIC HEALTH COUNCIL AND
ESTABLISHING ITS POWERS AND DUTIES.

Chapter 17 of the Revised Ordinances of 1947, as most recently amended by section 31 of chapter 2 of the Ordinances of 1954, is hereby further amended by inserting after section 3 the following section:

SECTION 3A. There shall also be in the health division a board, known as the Public Health Council, consisting of nine members appointed by the mayor, of whom at least one shall be a registered physician, one a registered dentist, one a representative of an industry engaged in handling food, one a representative of another industry, one a representative of labor, and one a housewife. The members of the public health council first appointed shall serve, according to the provisions of their respective appointments, for terms commencing upon their respective dates of appointment and expiring, in the case of three members, one year, in the case of three other members, two years, and in the case of three other members, three years, from May 1, 1956. As the term of any such member, or of any subsequent member, expires, his successor shall be appointed by the mayor for a term of three years. Any vacancy in the office of a member shall be filled by the mayor for the unexpired term. The mayor shall from time to time designate one of the members of the public health council as chairman and another as vice chairman. The members of the public health council shall serve without compensation.

It shall be the duty of the public health council (a) to make, upon its own initiative or at the request of the mayor, the director of administrative services or the health commissioner, studies and recommendations with respect to the organization, activities, policies, procedures and budget of the health division, (b) to review from time to time such rules and regulations of the

health commissioner as may then be in force and report to the health commissioner its findings with respect to the adequacy thereof and its recommendations, if any, for the amendment or repeal thereof or for new rules and regulations, and (c) to advise the health commissioner on such matters within the scope of his duties as he may refer to said council.

The public health council shall not be subject to the supervision or control of the health commissioner; nor shall it take part in the conduct of the executive or administrative business of the health department; but unless otherwise ordered by the mayor, it shall not communicate with the mayor, or make any annual or other report, except through the health commissioner.

[Approved March 27, 1956.]

CHAPTER 2.

FURTHER REGULATING COASTING IN THE STREETS.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out section 40, as amended by section 73 of chapter 2 of the Ordinances of 1954, and inserting in place thereof the following section:

Section 40. No person shall coast on any sled or other like vehicle in any street not designated therefor by the Boston traffic commission.

[Approved May 8, 1956.]

CHAPTER 3.

REORGANIZING THE ADMINISTRATIVE SERVICES DEPARTMENT AND CREATING THEREIN THE OFFICE OF SUPERVISOR OF BUDGETS.

SECTION 1. The first paragraph of section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is

hereby further amended by striking out clause (1) as appearing in section 3 of chapter 8 of the Ordinances of 1953, and inserting in place thereof the following clause:

(1) The director of administrative services, fifteen thousand dollars; the supervisor of budgets, ninety-five hundred dollars; the supervisor of personnel, ninety-five hundred dollars; and the purchasing agent, ninety-five hundred dollars.

SECTION 2. Section 1 of chapter 3A of the Revised Ordinances of 1947, as amended by section 13 of chapter 2 of the Ordinances of 1954, is hereby further amended by striking out the first two sentences and inserting in place thereof the following sentences:—There shall be in the city a department, known as the Administrative Services Department, which shall be under the charge of a board, known as the Administrative Services Board, consisting of an officer, known as the Director of Administrative Services, who shall be chairman of the board, an officer known as the Supervisor of Budgets, an officer known as the Supervisor of Personnel, an officer known as the Purchasing Agent, and the assessor of taxes, the city auditor and the collector-treasurer, *ex officio*s. The director of administrative services, the supervisor of budgets, the supervisor of personnel, and the purchasing agent shall each be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected, and shall devote their whole time to the duties of their respective offices.

SECTION 3. Chapter 3A of the Revised Ordinances of 1947 is hereby amended by striking out section 3, as appearing in section 9 of chapter 8 of the Ordinances of 1953, and inserting in place thereof the following section:—

Section 3. The supervisor of budgets shall, under the direction of the mayor and in consultation with the director of administrative services, prepare in segregated form the annual and all supplementary budgets to be submitted by the mayor to the city council, and shall report to the mayor on all subsequent revisions of the items in any budget. The supervisor of budgets shall also prepare, under the direction of the mayor and in consultation with the director of administrative services, all transfer orders to be submitted by the mayor to the

city council under section 3B of chapter 486 of the acts of 1909. The supervisor of budgets shall further prepare, under the direction of the mayor and in consultation with the director of administrative services, the form of estimate sheets to be used by each officer, board and department, and each division of a department, for which the city appropriates money, and the form of monthly report of such officer, board and department, and each division thereof, showing expenditures to date of all appropriations by item. The supervisor of budgets shall, in addition, have the powers and perform the duties conferred or imposed on the budget commissioner by any statute other than section 56 of chapter 35 of the General Laws.

SECTION 4. The powers and duties conferred or imposed on the director of administrative services by section 3 of chapter 3A of the Revised Ordinances of 1947, as appearing in section 9 of chapter 8 of the Ordinances of 1953, and the appropriations relating to such powers and duties, are hereby transferred to the supervisor of budgets created by section 2 of this ordinance.

SECTION 5. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 6. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909, as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance,

be without a similar office or position or be reduced in rank or compensation.

SECTION 7. Anything in section 3 of chapter 1 of the Revised Ordinances of 1947 to the contrary notwithstanding, this ordinance shall be published by the action of the city council in passing the same.

SECTION 8. This ordinance shall take effect on the Wednesday next following its approval by the mayor.

[Approved May 29, 1956.]

CHAPTER 4.

PROVIDING FURTHER AGAINST THE LITTERING OF STREETS.

Chapter 40 of the Revised Ordinances of 1947 is hereby amended by striking out section 39 and inserting in place thereof the following six sections:

Section 39. No person in any public way, public alley or other public place under the charge of the commissioner of public works shall, whether in or upon a vehicle or on foot, deposit, drop or throw upon such way, alley or place or any roadway or walk thereof, and suffer to remain there, any filth, rubbish or other substance unless it is deposited, dropped or thrown into a receptacle provided for the purpose by the public works department.

Section 39A. No driver of any vehicle upon any public way, public alley or other public place under the charge of the commissioner of public works shall permit to drop or fall from such vehicle onto such way, alley or place or any roadway or walk thereof, and suffer to remain there, any substance except in the maintenance or repair of such way, alley or place.

Section 39B. No person shall sweep, throw or otherwise remove into any public way, public alley or other public place under the charge of the commissioner of public works, or into any roadway or walk of any of them, from any building or structure or from any land not constituting a part of such way, alley or place, any

filth, rubbish or other substance and suffer the same to remain there; provided, that filth, rubbish or other substance which by law or by arrangement is to be collected and removed by the public works department (whether through employees in its service or through an independent contractor acting for it) or by a person having a permit under section fourteen of this chapter or section 31A of chapter 111 of the General Laws, may, after five o'clock in the afternoon of the day preceding the scheduled time of such collection, be placed by the owner or occupant of an estate upon the sidewalk of any such way or alley abutting such estate in a covered metal receptacle or, if no garbage or putrescible matter or substance is included, in a securely tied bundle or in a receptacle with its contents so arranged that any light matter or substance is not likely to be scattered or blown about. No person placing a receptacle upon the sidewalk of any way or alley as aforesaid shall suffer the same to remain upon such way or alley or any roadway or walk thereof more than twelve hours after such collection.

Section 39C. No person shall in any public way, public alley or other public place under the charge of the commissioner of public works or upon any roadway or walk thereof rummage in or through rubbish or refuse of any kind or interfere with any bundle of rubbish or refuse or any receptacle containing rubbish or refuse.

Section 39D. No person shall deposit, drop or throw any filth, rubbish or other substance into a drum or other barrel with a diameter of more than twenty inches or a height of more than twenty-eight inches if by law or by arrangement such filth, rubbish or other substance is to be collected therefrom by the public works department (whether through employees in its service or through an independent contractor acting for it) or by a person having a permit under section fourteen of this chapter or section 31A of chapter 111 of the General Laws.

Section 39E. No person shall deposit, drop or throw into a drum or other barrel with a diameter of twenty inches or less and a height of twenty-eight inches or less any filth, rubbish or other substance which by law or by arrangement is to be collected therefrom by the public works department (whether through employees in its service or through an independent contractor

acting for it) or by a person having a permit under section fourteen of this chapter or section 31A of chapter 111 of the General Laws if such drum or barrel will thereby be filled so high that such filth, rubbish or other substance or any part thereof is likely to drop or fall from such receptacle while it is being moved in the process of such collection.

[Approved September 11, 1956.]

ORDINANCES OF 1957

CHAPTER 1

RELATIVE TO THE ISSUANCE OF LICENSES FOR CERTAIN
SPORTS AND GAMES ON THE LORD'S DAY, AND TO
THE FEE THEREFOR.

SECTION 1. Chapter 41 of the Revised Ordinances of 1947 is hereby amended by striking out section 25 and inserting in place thereof the following section: — *Section 25.* Whenever a license is granted under section 22 of chapter 136 of the General Laws and the applicant therefor has filed with the city clerk a policy, binder or certificate satisfactory in form to the corporation counsel and evidencing the maintenance of insurance insuring the applicant to the extent of not less than fifty thousand dollars for any one person and to the extent of not less than five hundred thousand dollars for any one accident, against legal liability for loss or damage on account of the injury or death of any person (other than a servant or agent of the applicant while covered by workmen's compensation insurance) while on or about the licensed premises or any street, way or sidewalk adjacent thereto, the city clerk shall issue the license, which shall be upon the condition prescribed by section 21 of chapter 3 of these ordinances and upon the further condition that the licensee —

(1) shall maintain such insurance in full force and effect during the term of the license;

(2) shall charge no more for admission to the licensed premises on the Lord's day, or for any seat anywhere therein on the Lord's day, than on a week day;

(3) shall neither permit any temporary seats or other obstruction of any kind or nature in any aisle, stairway or passageway of any grandstand, bleachers, or other structure on the licensed premises, nor allow any persons thereon or therein to remain in any aisle, stairway or passageway during the playing of any sport or game on said premises;

(4) shall permit any police officers detailed by the police department to enter and inspect said premises at all times and shall employ to preserve order on said premises such regular police officers as may be designated therefor by the police commissioner or the commanding officer of the division, and shall pay to the police commissioner for the services of such regular police officers such amount as shall be fixed by him; and

(5) shall permit to enter and be about said premises at all times such members of the fire department as shall be detailed by the fire commissioner to guard against fire, and shall allow such members of the fire department in case of fire on said premises to exercise exclusive control and direction of all employees and of all means and apparatus for the extinguishing of fire therein.

SECTION 2. Section 1 of chapter 40A of the Revised Ordinances of 1947, as appearing in section 2 of chapter 7 of the Ordinances of 1956, is hereby amended by striking out clause (301) and inserting in place thereof the following clause: —

(301) *Sunday Sports License.* The fee for a license granted by the city council with the approval of the mayor under section 22 of chapter 136 of the General Laws to conduct on Sunday at a designated playground, park or other place an outdoor athletic sport or game or an indoor hockey or basketball game shall be, for each Sunday for which such license is granted, a primary fee of \$10.00 and, if the licensee or a predecessor of the licensee has during a previous season conducted such sport or game in this city on a Sunday, an additional fee of \$5.00 for each thousand of the average Sunday paid attendance during the last previous season when such sport or game was so conducted.

CHAPTER 2.

CREATING IN THE CITY AN AUDITORIUM COMMISSION AND DEFINING ITS POWERS AND DUTIES.

The Revised Ordinances of 1947 are hereby amended by inserting after chapter 6 the following new chapter:

CHAPTER 6A.

AUDITORIUM COMMISSION.

SECTION 1. There shall be in the city a board known as the Auditorium Commission, consisting of five officers known as Auditorium Commissioners, who shall be residents of the City of Boston, appointed by the mayor as follows:—one from three candidates nominated by the City of Boston Hotel Association, one from three candidates nominated by the Boston Real Estate Board, one from three candidates nominated by the Greater Boston Chamber of Commerce, and two selected at large by the mayor. The auditorium commissioners first appointed shall serve, in the case of the commissioner appointed upon nomination of the City of Boston Hotel Association, for a term expiring five years, in the case of the commissioner appointed upon nomination of the Boston Real Estate Board, for a term expiring four years, in the case of the commissioner appointed upon nomination of the Greater Boston Chamber of Commerce, for a term expiring three years, in the case of one of the commissioners selected at large by the mayor, for a term expiring two years, and in the case of the other of the commissioners selected at large by the mayor, for a term expiring one year, from May 1, 1957. As the term of any such commissioner, or of any subsequent auditorium commissioner, expires, his successor shall be appointed in like manner as such commissioner for a term of five years. Vacancies in the board shall be filled in the same manner for the unexpired term. Auditorium commissioners shall serve without compensation, but shall be reimbursed for their traveling and other necessary expenses incurred in the performance of their duties.

SECTION 2. The auditorium commission shall construct, or cause to be constructed, the municipal auditorium authorized by chapter 164 of the acts of 1954, with an exhibition hall, assembly hall and accessory rooms suitable for exhibitions, conventions and other shows and gatherings in the city; shall contract for the care and management thereof after its completion; and for such purposes may, subject to the approval of the mayor, make such contracts and employ such experts, assistants and employees as they may think necessary or expedient.

CHAPTER 9.

MAKING A CORRECTIVE CHANGE IN THE PROVISIONS OF ORDINANCE FIXING THE FEES FOR CERTAIN LICENSES AND PERMITS GRANTED IN CONNECTION WITH FROZEN DESSERTS.

Section 1 of chapter 40A of the Revised Ordinances of 1947, as appearing in section 2 of chapter 7 of the Ordinances of 1956, is hereby amended by striking out the words "ice cream mix", wherever appearing in clauses (114), (115), (116), and (300) of said section 1 and inserting in place thereof, in each instance, the words:— frozen dessert mix.

[Approved November 20, 1957.]

CHAPTER 10.

RELATIVE TO THE FEES FOR CERTAIN LICENSES AND PERMITS GRANTED IN CONNECTION WITH FIREARMS.

SECTION 1. Section 1 of chapter 40A of the Revised Ordinances of 1947, as appearing in section 2 of chapter 7 of the Ordinances of 1956, is hereby amended by striking out clauses (102), (103) and (104) and inserting in place thereof the following clauses:

(102) *Firearms, License to Carry or Possess.* The fee for a license to carry firearms in the commonwealth or to possess therein a machine gun granted by the police commissioner under section 131 of chapter 140 of the General Laws shall be \$5.00.

(103) *Firearms, Permit to Purchase, Rent or Lease.* The fee for a permit to purchase, rent or lease a firearm granted by the police commissioner under section 131A of chapter 140 of the General Laws shall be \$5.00.

(104) *Firearms, License to Sell, Rent or Lease.* The fee for a license to sell, rent or lease firearms, rifles, shotguns or machine guns granted by the police commissioner under section 122 of chapter 140 of the General Laws shall be \$25.00.

SECTION 2. Said section 1 of said chapter 40A, as appearing in said section 2 of said chapter 7, is hereby further amended by inserting in place of clause (131), stricken out by section 2 of chapter 6 of the Ordinances of 1957, the following clause:

(131) *Gunsmith's License.* The fee for a license to be in business as a gunsmith granted by the police commissioner under section 122 of chapter 140 of the General Laws shall be, in the case of a person licensed to sell, rent or lease firearms, rifles, shotguns or machine guns, \$5.00, and in the case of any other person, \$30.00.

SECTION 3. This ordinance shall take effect as of November 19, 1957.

[Approved December 10, 1957.]

CHAPTER 11.

PROVIDING IN CERTAIN CASES FOR THE USE OF SUBSTITUTE MATERIALS NOT MEETING FULLY THE FIRE-RESISTIVE AND FIRE-PROTECTIVE REQUIREMENTS OF THE BOSTON BUILDING CODE.

Paragraph (1) of section 116 of chapter 479 of the Acts of 1938 is hereby amended by striking out the last sentence and inserting in place thereof the following sentence:—Such materials or methods of construction shall not be used until after the commissioner has issued regulations fixing the practices to be followed, but no such regulation shall have the effect of altering the working stresses for any material herein mentioned or of reducing the fire-resistive and fire-protective requirements of this code; provided, that any such regulation fixing the practices to be followed in the use of any such material may reduce the fire-resistive or fire-protective requirements of this code if in promulgating such regulation the commissioner certifies, on the basis of reports on file in his office as to tests of such material made in accordance with standard specifications of the American Society for Testing Materials, that in his opinion such material used in accordance with such regulation will provide substantially as much safety from fire as material meeting such fire-resistive and fire-protective requirements.

[Approved December 31, 1957.]

The foregoing ordinance was passed in accordance with and after the recommendation of the Building Commissioner to the Mayor and City Council, dated October 22, 1957.

ORDINANCES OF 1958

CHAPTER 1

FIXING THE FEES TO BE PAID FOR SERVICES OF THE
CITY CLERK UNDER THE UNIFORM COMMERCIAL
CODE.

SECTION 3. This ordinance shall take effect on October 1, 1958.

[Approved September 25, 1958.]

CHAPTER 2.

FIXING THE FEE FOR THE REGISTRATION OF CERTAIN TOWELS, GARMENTS, APRONS AND LINENS.

Section 1 of chapter 40A of the Revised Ordinances of 1947, as appearing in section 2 of chapter 7 of the Ordinances of 1956, is hereby amended by inserting after clause (252) the following clause: —

(252A) *Registration of Towels, Garments, Aprons and Linens.* The fee of the city clerk for receiving and filing under section 25A of chapter 110 of the General Laws a description of the name used by a person engaged in the business of supplying or furnishing for hire or compensation on a rental or lease basis clean laundered garments, towels, aprons, bed linen or table linen shall be \$1.00.

[Approved September 25, 1958.]

CHAPTER 3.

CONCERNING THE FEES FOR CERTIFICATES ISSUED BY
THE SECRETARY OF THE BEACON HILL ARCHITECTURAL
COMMISSION.

Section 1 of chapter 40A of the Revised Ordinances of 1947, as appearing in section 2 of chapter 7 of the Ordinances of 1956, is hereby amended by striking out clauses (24) and (25) and inserting in place thereof the following clause:—

(24) *Beacon Hill Architectural Commission Certificate of Appropriateness.* The fee for the issuance of a certificate of appropriateness by the secretary of the Beacon Hill architectural commission under section 7 of chapter 616 of the acts of 1955 shall be, in the case of the construction, reconstruction or demolition of the whole or such portion of the exterior of a structure as is designed to be open to view from a public way, \$35.00, and in every other case \$5.00.

[Approved September 30, 1958.]

CHAPTER 4.

REORGANIZING THE ASSESSING DEPARTMENT.

SECTION 1. The first paragraph of section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is hereby further amended by striking out clause (2), as appearing in chapter 6 of the Ordinances of 1956, and inserting in place thereof the following clause:—

(2) The assessor, thirteen thousand five hundred dollars; the chairman of the board of review in the assessing department, twelve thousand dollars; and the other appointive member of said board, eighty-five hundred dollars.

SECTION 2. Said section 5 of chapter 3 of the Revised Ordinances of 1947, as amended, is hereby further

amended by striking out the last paragraph, as appearing in section 8 of chapter 2 of the Ordinances of 1954, and inserting in place thereof the following paragraph:—

The deputy assessors shall be compensated as if they held an office allocated to Grade No. 35 of the compensation plan from time to time in effect for the county; and assistant assessors holding such office on December 31, 1958 and thereafter with their written consent lawfully required to devote at least thirty-five hours a week to their work, and also assistant assessors appointed to vacancies caused by resignation, retirement or death and lawfully required to devote at least thirty-five hours a week to their work, shall be compensated as if they held an office allocated to Grade No. 30 of said compensation plan; provided that the selection of such full time assistant assessors shall be made in accordance with the seniority provisions of chapter 31 of the General Laws; and other assistant assessors shall be compensated as if they held an office allocated to Grade No. 15 of said compensation plan; and the auctioneer in the real property department shall be compensated as if he held a position allocated to Grade No. 30 of said compensation plan.

SECTION 3. The Revised Ordinances of 1947 are hereby amended by striking out chapter 5, as appearing in chapter 3 of the Ordinances of 1954, and inserting in place thereof the following chapter:—

CHAPTER 5

ASSESSING DEPARTMENT

Section 1. There shall be in the city a department, known as the Assessing Department, which shall be under the charge of an officer, known as the Assessor, a resident and registered voter of the city of Boston for a period of three years next prior to the date of his appointment, appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected. The assessor shall, for the assessing department including the board of review, exclusively have the power, and perform the duties, conferred or imposed by law on the assessor of taxes in existence immediately prior to the taking effect of this ordinance with respect to the acquisition and disposal of property, the making of contracts,

and the appointment, suspension, discharge, compensation and indemnification of subordinates. The assessor shall also have the powers and perform the duties conferred or imposed by law on the assessor of taxes and the board of assessors in existence immediately prior to the taking effect of this ordinance; and except as otherwise provided in section two of this chapter, shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston. The assessor shall divide the assessing department from time to time into a statistical research division and such other divisions as he shall adjudge necessary for the proper conduct of the department.

Section 2. There shall be in the assessing department a board, known as the Board of Review, consisting of the assessor, ex officio, and two other members each of whom shall be appointed by the mayor for a term expiring on the first Monday of the January following the next biennial municipal election at which a mayor is elected and one of whom shall from time to time be designated by the mayor as chairman of said board. The board of review shall have the powers and perform the duties conferred or imposed by law on the board of review in existence immediately prior to the taking effect of this ordinance, and shall further have the powers and perform the duties from time to time conferred or imposed on assessors of cities in Massachusetts by general laws applicable to Boston with respect to abatement of taxes other than poll and motor vehicle excise taxes. The board of review shall not be subject to the supervision or control of the assessor except as he acts as a member thereof; but, unless otherwise ordered by the mayor, said board shall not communicate with the mayor, or make any annual or other report, except through the assessor.

Section 3. Every application for abatement filed with the assessor with respect to a tax other than a poll or motor vehicle excise tax shall be deemed to be filed with the board of review and shall be forthwith transmitted by him to said board; and the board of review shall be deemed to come within the terms "assessor," "assessors" and "board of assessors" as used in any application for the abatement of, or in any appeal from a refusal (by failure to act or otherwise) to abate, or in

any statute relating to the abatement of, or in any statute relating to an appeal from a refusal (by failure to act or otherwise) to abate, a tax other than a poll or motor vehicle excise tax.

SECTION 4. The assessor of taxes, the board of assessors and the board of review in existence in the assessing department immediately prior to the taking effect of this ordinance are hereby abolished; and the powers and duties of said assessor of taxes and of said board of assessors, and the appropriations relating thereto, are hereby transferred to the assessor provided for by section 3 of this ordinance; and the powers and duties of said board of review, and the appropriations relating thereto, are hereby transferred to the board of review provided for by said section 3.

SECTION 5. Section 19 of chapter 39 of the Revised Ordinances of 1947 is hereby amended by striking out, in the last sentence, the words "assessor of taxes" and inserting in place thereof the word "assessor."

SECTION 6. Section 20 of said chapter 39 is hereby amended by striking out, in the first sentence, the words "assessor of taxes" and inserting in place thereof the word "assessor."

SECTION 7. Every person holding an office or position subject to the civil service laws and rules shall, if the office or position is abolished by this ordinance, be reappointed without civil service examination or registration to a similar office or position with similar status in a new department or agency, or division, of either, created, or a department or agency, or division of either, not abolished, by this ordinance; and every such person shall, upon such reappointment, retain all rights to retirement with pension that shall have accrued or would thereafter accrue to him; and his services shall be deemed to have been continuous to the same extent as if such abolition had not taken place. As used in this section, the term "agency" shall be construed as defined in section 5 of chapter 486 of the acts of 1909 as amended by section 1 of chapter 473 of the acts of 1953.

SECTION 8. This ordinance shall be deemed to be made under section 5 of chapter 486 of the acts of 1909,

as amended by section 1 of chapter 473 of the acts of 1953, and shall be so construed that no person holding, whether under general or special law or otherwise, an office or position subject to the civil service laws and rules shall, by reason of the adoption of this ordinance, be without a similar office or position or be reduced in rank or compensation.
